A Two Days Workshop on E-Content Development Tools

A Two days Workshop Program was Organized by the IQAC at Vignan's Institute of Engineering For Women, Visakhapatnam on 03.07.2017-08.07.2017.

Knowledge and information can be sourced by utilizing E-Learning technology. E-learning is a web based blended interactive way of digital learning that is electronically delivered. For electronic learning it becomes essential to develop e-content with the varieties of tools available. There exist many e-content delivery platforms to exhibit our content. Some of the basic tools for developing interactive e-content, simple delivery platforms and grading tools are explained in this paper. In developing country like India E-Learning can raise the level of education, literacy and economic development. Learning anything, anywhere, at any time is the current scenario.

Program Team:

Resource Person: Dr. V Srinivasadesikan, Associate Dean,

IQAC and Associate Professor in Chemistry.

Chief Patron: Dr J. Sudhakar, Principal

Convener: Dr Akansha Misra, Co-ordinator, IQAC

Number of Participants: 35

Resource Person Overview:

Dr. V Srinivasadesikan, Associate Dean, IQAC and Associate Professor in Chemistry. The focus of governments for the past few years has been to achieve three important goals – “access, equality and excellence”. Although substantial progress has been made over the years a lot more needs to be done to achieve all the three goals, particularly on the excellence front. The Ministry of HRD and regulatory bodies have initiated a series of reforms and have also introduced several schemes to bring ‘quality’ to the top agenda of Indian Higher Education.
