# Policy Document on Green Campus

**VIGNAN'S INSTITUTE OF ENGINEERING FOR WOMEN**

**Approved by AICTE & Affiliated to JNT University, Kakinada  
Kapujaggarajupeta, VSEZ (POST), Visakhapatnam-530049**

## Objectives of the Policy

Vignan's Institute of Engineering for Women (VIEW) accepts the moral responsibility in addressing the challenges of environmental sustainability and climate change. The Institute incorporated the institutional planning and budgeting procedures into its strategies and adopted best environmental friendly practices in the campus.

## Green Campus Initiatives:

- Environment Clubs are established to conduct activities and create environmental consciousness in the campus.
- Periodic tree plantation campaigns are conducted in and around the campus besides distribution of saplings under NSS.
- Green audits are also conducted regularly.
- To reduce CO<sub>2</sub> emissions and make pollution free campus all the staff and students are advised to use bicycles and battery powered vehicles. Students and faculty are encouraged to use bicycles and E-rickshaws within the campus.
- To ensure that staff and students follow the rules of automobile No Zones, dedicated parking slots are allotted to the two and four wheelers and the pedestrians are strictly instructed to walk only on the designated pathways.
- Various awareness programs are conducted on using jute bags or cloth bags to avoid the use of plastic carry bags.
- College bus transportation is suggested for the students and faculty to use with a concessional fee support from the management with the aim to reduce the dependency on personal vehicles and bring down the pollution.

## Landscaping with trees and plants

The campus has 4723 square feet of lawn and more than 1000 trees. 2500 students and staff benefit from the clean, cool air that the trees and plants produce. A dedicated gardener is assigned to protect and conserve green resources within the campus. The visual representation of the landscape with ornamental trees and plants within the campus provides a structured Green View and the loyalty towards sustainability. The Landscape manages runoffs, aids in recharging groundwater, ensuring clean and cool air creating a soothing environment in the campus.
