Green Campus Initiatives

As a part of green campus initiatives, the institute promotes green practices in and around the college premises to minimize the carbon foot prints. Trees are planted regularly around the college campus. Saplings are potted in Principal's chamber, HoDs chamber and in each corridor, within the campus. The number of trees planted are around 1,543 and the saplings potted are around 356. Both seasonal and non-seasonal plants are maintained in the garden along with the landscaping of trees. A dedicated team is assigned for maintenance of the garden ensuring a pollution free environment.

Details of bills for the resources purchased under green campus initiatives.
