VIRTUAL REALITY

Virtual reality draws on multiple disciplines, but in terms of providing a sensory experience that maps effectively to "real life," electrical engineering is crucial. The earliest VR technologies consisted of a headset with gloves as an input device, rendering the user mostly stationary.

Positional tracking is now making VR more interactive, but the market has yet to develop a solution using a complete array of sensors.

William Gilbert was also the one who coined the word electricity.

QUIZOMANIA

In a commutator

- (a) copper is harder than mica
- (b) mica and copper are equally hard
- (c) mica is harder than copper
- (d) none of the above

Answers
Ans: c

Success is where preparation and opportunity meet

Issue 2

April - June 2018

VISION

To be a center of excellence for producing proficient and socially responsible women electrical engineers for industry outreach through quality education and research

MISSION

M1: To empower the students with skills in current trends through effective teaching- learning process for professional growth. M2: To foster an eco-system for higher education and research in Electrical Engineering through constant industry interaction. M3: To facilitate practical expertise in enterprise development and energy environment by promoting innovation and social consciousness.

PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

Graduates will be able to
PEO1: Possess strong educational foundation in Electrical Engineering for making successful careers in core and allied industry.
PEO2: Develop solutions for realistic problems in the society through innovation and lifelong learning.
PEO3: Exhibit communication skills, leadership qualities, social and environmental responsibility, ethical values in successful career.

EDITORIAL BOARD

Chief Editor:
Dr. J. Sudhakar Principal, VIEW
Editor :
Mr. K. Durga Syam Prasad
Head of the Dept., EEE
Members:
1. Dr. T. Radhakrishna Murthy
Prof. of English
2. Mr.K. Kusal Kumar
Asst. Prof, EEE.
3. Ms. V.V. Sai Santoshi
Asst. Prof, EEE
4. J.Ushalini, Student
5. S.Pragathi, Student

Message by Academic Director:

Dear Students let me first congratulate you all on your outstanding results .Today I feel like a proud father seeing you all graduating from our esteemed institution with flying colors. I wish you all great success in your future endeavors and looking forward to see you bring laurels to our Institute with your future achievements

Prof. A. Seshu Rao

From the Principal's Desk:

Congratulations! I am so glad seeing that you have really grown up in every area of your life, not just as a graduating student from our prestigious college, but as a young mind who has been equipped with the right mindset for the future ahead. All the best, dear students.

Dr. J. Sudhakar, Principal

Thoughts from the Head of the Department :

Dear students, Looking at the way you have been consistent in your education over the years with us, I am enthused that the learning you have acquired here would help you in your future studies. Good luck to you! Congratulations to the students of EEE for their outstanding performance in their academics.

Mr. K. Durga Syam Prasad, HoD, EEE

FAREWELL for 2K14 Batch

The Farewell Party for Seniors (2014-2018) students was organized on 25th April, 2018 at Seminar Hall. The event was organized by the junior batches for their seniors. The celebration began with a welcome note followed by a solo song. Juniors of EEE presented other entertaining performances like duet dance, solo dance and solo song performances. Fun games and activities were organized for the senior students. Different titles were awarded to the students along with gifts. The highlight of the event was a documentary prepared by juniors which threw fun and enthusiasm and added life to the party.

Faculty Development Programme

- Mr.K.Kusal Kumar, Asst Prof attended a FDP on “Electrical and Energy Studies“ at AU University , Visakhapatnam from 14.05.2018 to 18.05.2018.
- 4 Faculty Mmembers attended a FDP on “Embedded Systems with Machine Learning“ at St.Joseph’s Institute of Technology, Chennai from 14.05.2018 to 18.05.2018.

Article on Whose Responsibility Is It? The Role of Faculty in Student Success

As college professors, we hear it all the time, especially during the end of the semester, when it seems that’s the only time students decide to pay you an office visit.

For the professor, there should be a consistent mindfulness and a very real determination of what is essential, and personal investment in the form of answering the following questions before the beginning of each term. The answers can be informed by recent experiences and evolving demands.

- Why am I teaching this course?
- Am I interested in student learning and its application and relevance to their lives?
- What must I do to ensure student learning and course success?
- Have I kept up with current learning modalities and the latest developments in my discipline?
- Have I assessed or am I minimally aware of new student learning trends?
- Am I adjusting my instruction based on the demands of the course group dynamics?
- Is my teaching style or method engaging students where they are?
- What is my role beyond the average student in supporting those who struggle, and also stimulating and further developing the most talented students?
- Am I prepared to not lower the bar, but to push and pull students towards it?
- Am I learning from my students?
- Have I set the expectations and standards clearly from the start?

The answers to these question set the tone for ensuring the learning bag is secured. Professors provide the collateral for the bag. Students earn that collateral through exerting their energy and effort toward obligations outlined in the contract. These represent the informational elements for success.

So when we ask the question, “Whose responsibility is it?” as faculty members and administrators ourselves, we must conclude that all university personnel are responsible for student learning, which includes faculty who are at the core of student learning. Faculty’s role in the success of students is critical to the vitality of an institution for all students, and even more so for institutions that serve a large minority population. Therefore, it is critical that faculty continue to take ownership of their role in student learning and are engaged in strategies to promote an inclusive learning environment designed to increase student success.
