	Description	Page No.
PART-A	Institutional Information	I-V
PART-B	Criteria Summary	
	Program Level Criterion	
CRITERION-1	Vision, Mission and Program Educational Objectives	1-11
CRITERION-2	Program Curriculum and Teaching- Learning Processes	12-182
CRITERION-3	Course Outcomes and Program Outcomes	183-265
CRITERION-4	Students' Performance	266-318
CRITERION-5	Faculty Information and Contributions	319-415
CRITERION-6	Facilities and Technical Support	416-454
CRITERION-7	Continuous Improvement	455-493
	Institute Level Criterion	
CRITERION-8	First Year Academics	494-529
CRITERION-9	Student Support Systems	530-633
CRITERION-10	Governance, Institutional Support and Financial Resource	634-748
PART-C	Declaration by the Institution	-

Part-A**1 Name and Address of the Institution:**

Vignan's Institute of Engineering for Women,
KapuJaggarajupeta,
Vadlapudi Post,
Gajuwaka,
Visakhapatnam-530046

2 Name and Address of Affiliating University:

Jawaharlal Nehru Technological University Kakinada
East Godavari District,
Kakinada, Andhra Pradesh- 533003

3 Year of establishment of the Institution : 2008

4 Type of the Institution : Affiliated

5 Ownership Status : Self financing

6 Other Academic Institutions of the Trust/Society/Company etc., if any:

Name of Institutions	Year of Establishment	Programs of Study	Location
Vignan's Lara Institute of Technology & Science	2007	Technical	Vadlamudi, Guntur
Vignan's Nirula Institute of Technology & Science for	2008	Technical	Palakaluru, Guntur
Vignan's Institute of Technology & Science	1999	Technical	Deshmukhi, Hyderabad
Vignan's Institute of Technology & Aeronautical Engineering	2008	Technical	Deshmukhi, Hyderabad
Vignan's Institute of Management & Technology for	2008	Technical	Ghatkesar, Hyderabad
Vignan's Institute of Information Technology (VIIT)	2002	Technical	Duvvada, Vadlapudi Post, Visakhapatnam
Vignan Pharmacy College	2005	Pharmacy	Vadlamudi, Guntur
Vignan Institute of Pharmaceutical Sciences	1999	Pharmacy	Deshmukhi, Hyderabad
Vignan Institute of Pharmaceutical Technology	2006	Pharmacy	Duvvada, Visakhapatnam

7 Details of all the programs being offered by the institution under consideration:

Sl. No	Programme Name	Programme Applied Level	Start of Year	Initial Intake	Intake Increase	Current Intake	Accreditation status	Program for consideration	Program for Duration
1	B.Tech- Electronics and Communication Engineering	UG	2008	90	Yes	180	Applying first time	Yes	4 Yrs
2	B.Tech- Computer Science and Engineering	UG	2008	90	Yes	180	Applying first time	Yes	4 Yrs
3	B.Tech- Electrical and Electronics Engineering	UG	2008	60	Yes	120	Applying first time	Yes	4 Yrs
4	B.Tech- Information Technology	UG	2008	60	Yes	120	Applying first time	Yes	4 Yrs
5	B.Tech- Mechanical Engineering	UG	2010	60	No	60	Not eligible for accreditation	No	4 Yrs
6	M.Tech- ECE- Digital Electronics and Communication Systems	PG	2013	18	No	9	Not eligible for accreditation	No	2 Yrs
7	M.Tech- ECE- VLSI Design & Embedded Systems	PG	2013	18	No	9	Not eligible for accreditation	No	2 Yrs
8	M.Tech- Computer Science and Engineering	PG	2011	18	No	9	Not eligible for accreditation	No	2 Yrs
9	M.Tech-EEE- Power and Industrial Drives	PG	2014	18	No	9	Not eligible for accreditation	No	2 Yrs
10	M.Tech-ME CAD/CAM	PG	2014	18	No	9	Not eligible for accreditation	No	2 Yrs
11	Master of Business Administration	PG	2009	60	Yes	120	Not applying for accreditation	No	2 Yrs

8 Programs to be considered for Accreditation vide this application:

Sl.No	Level	Discipline	Program
1	Under Graduate	Engineering & Technology	Electronics and Communication Engineering
2	Under Graduate	Engineering & Technology	Computer Science and Engineering
3	Under Graduate	Engineering & Technology	Electrical and Electronics Engineering
4	Under Graduate	Engineering & Technology	Information Technology

9 Total number of employees in the institution:

A. Regular* Employees (Faculty and Staff):

Items	2020-21		2019-20		2018-19		2017-18	
	MIN	MAX	MIN	MAX	MIN	MAX	MIN	MAX
Faculty in Engineering (Male)	69	83	77	77	81	83	95	97
Faculty in Engineering (Female)	56	68	56	57	57	58	58	60
Faculty in Maths, Science & Humanities (Male)	18	19	24	25	22	23	30	31
Faculty in Maths, Science & Humanities (Fe-Male)	13	16	24	25	26	27	26	28
Non-Teaching Staff (Male)	34	32	50	52	43	46	45	48
Non-Teaching Staff (Fe-Male)	51	59	58	60	56	58	53	56

B. Contractual* Employees (Faculty and Staff):

items	2020-21		2019-20		2018-19		2017-18	
	MIN	MAX	MIN	MAX	MIN	MAX	MIN	MAX
Faculty in Engineering (Male)	0	0	0	0	0	0	0	0
Faculty in Engineering (Female)	0	0	0	0	0	0	0	0
Faculty in Maths, Science & Humanities (Male)	0	0	0	0	0	0	0	0
Faculty in Maths, Science & Humanities (Female)	0	0	0	0	0	0	0	0
Non-teaching staff (Male)	0	0	0	0	0	0	0	0
Non-teaching staff (Female)	0	0	0	0	0	0	0	0

10 Total number of Engineering Students:

Engineering and Technology- UG Shift-1

Course Name	2020-21	2019-20	2018-19	2017-18
Total no. of Boys	0	0	0	0
Total no. of Girls	2387	2248	2299	2198

Engineering and Technology- PG Shift-1

Course Name	2020-21	2019-20	2018-19	2017-18
Total no. of Boys	0	0	0	0
Total no. of Girls	3	2	6	8

Engineering and Technology- MBA Shift-1

Course Name	2020-21	2019-20	2018-19	2017-18
Total no. of Boys	0	0	0	0
Total no. of Girls	102	114	150	151

11 Vision of the Institution:

To be a leading institution of women empowerment, producing internationally accepted professionals with psychological strength, emotional balance and ethical values.

12 Mission of the Institution:

M1: To empower women engineers through innovative teaching-learning practices.

M2: To encourage for higher education and research with well-equipped laboratories.

M3: To promote entrepreneurship through creativity and innovation.

M4: To promote environmental sustainability and inculcate ethical, emotional and social consciousness.

Appropriateness/Relevance of the Statements:

There has been an emerging need in the local society for providing an exclusive time and space for girls in technical education. Addressing this socio and economic concerns of the society, The Institute is established with total women empowerment as its chief motto. The aim is to provide competent women technical power keeping the demands of the industry along with providing a robust economic boost to the family in the form of a technically educated and trained woman

professional. Apart from these aims the college has kept its vision on simultaneously equipping the girl students physically fit, psychologically strong to face the challenges in the society.

The activities are planned in such a way that the girl gets transformed into a competent and complete woman with technical expertise, self-reliance, psychological strength, emotional balance, ethical values and social consciousness. Setting highest ethical standards at all aspects of college activity the girl is imbued with right kind of moral attitude. Overall, the Vision and Mission statements are to transform the girl into a complete woman through the comprehensive cycle of change at the Institute.

13 Contact Information of the Head of the Institution and NBA coordinator, if designated:

Head of the Institution

Name	Dr. Sudhakar Jyothula
Designation	Principal
Mobile No.	9052066699
Email ID	viewprincipal@gmail.com

NBA Coordinator, If Designated

Name	Dr.V.Ananda Babu
Designation	Associate Professor
Mobile No.	9948125843
Email ID	varadalaanand@gmail.com

Criterion 1	Vision, Mission and Program Educational Objectives	60M
1.1	State the Vision and Mission of the Department and Institute	5M
1.2	State the Program Educational Objectives (PEOs)	5M
1.3	Indicate where and how the Vision, Mission and PEOs are published and disseminated among stakeholders	10M
1.4	State the process for defining the Vision and Mission of the Department, and PEOs of the program	25M
1.5	Establish consistency of PEOs with Mission of the Department	15M

Criterion 1	Vision, Mission and Program Educational Objectives	60M
--------------------	---	------------

1. VISION, MISSION AND PROGRAM EDUCATIONAL OBJECTIVES (60)

1.1. State the Vision and Mission of the Department and Institution (5)

(Vision statement typically indicates aspirations and Mission statements states the broad approach to achieve aspirations)

(Here Institution Vision and Mission statements have been asked to ensure consistency with the department Vision and Mission statements; the assessment of the Institution Vision and Mission will be taken up in the Criterion 10)

VISION OF THE INSTITUTE

To be a leading institution of women empowerment producing internationally accepted professionals with psychological strength, emotional balance and ethical values.

MISSION OF THE INSTITUTE

M1: To empower women engineers through innovative teaching learning practices.

M2: To encourage higher education and research with well-equipped laboratories.

M3: To promote entrepreneurship through creativity and innovation.

M4: To promote environmental sustainability and inculcate ethical, emotional and social consciousness.

VISION OF THE DEPARTMENT

To be a center of excellence for producing proficient and socially responsible women electrical engineers for industry outreach through quality education and research

MISSION OF THE DEPARTMENT

M1: To empower the students with skills in current trends through effective teaching- learning process for professional growth.

M2: To foster an eco-system for higher education and research in Electrical Engineering through constant industry interaction.

M3: To facilitate practical expertise in enterprise development and energy environment by promoting innovation and social consciousness.

1.2. State the Program Educational Objectives (PEOs) (5)

(State the PEOs (3 to 5) of program seeking accreditation)

PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

The program is expected to enable the students after three to five years of their graduation.

Graduates will be able to

PEO1: Possess strong educational foundation in Electrical Engineering for making successful careers in core and allied industry.

PEO2: Develop solutions for realistic problems in the society through innovation and lifelong learning.

PEO3: Exhibit communication skills, leadership qualities, social and environmental responsibility, ethical values in successful career.

1.3. Indicate where and how the Vision, Mission and PEOs are published and disseminated among stakeholders (10)

(Describe where websites, curricula, posters, etc.) the Vision, Mission and PEOs are published and detail the process which ensures awareness among internal and external stakeholders with effective process implementation).

(Internal stakeholders may include management governing body members, faculty, support staff, students etc. and external stakeholders may include employer, industry, alumni, funding agencies, etc.).

Dissemination of information of Vision, Mission and PEOs is done through institute Website and Newsletters. To ensure its wide spread to every nook and corner of the college; posters are prominently displayed at important locations like HoD Chamber, Staff Rooms and at highly accessible areas like Classrooms, Notice Boards at the main entrance of the department.

Some of the means are listed below:

➤ **Vision and Mission of the Institute are -**

Published in	Disseminated through	Displayed at
<ul style="list-style-type: none"> • Institution Website • Institution Level Newsletter • Institution Brochure • Placement Brochure • Lab Manuals • Assignment Books 	<ul style="list-style-type: none"> • FDPs • Seminars • Workshops • Student Chapter Events • Alumni Meetings • First Year Orientation Program 	<ul style="list-style-type: none"> • Institution Library • Principal Chamber • Canteen • Classrooms • Laboratories • Administrative office • Seminar Hall • Notice Boards

➤ **Vision and Mission of the Department are –**

Published in	Disseminated through	Displayed at

➤ **Department PEOs are –**

Published in	Disseminated through	Displayed at
<ul style="list-style-type: none"> • Department Website • Department Newsletter • Dept. Event Brochure • Department Placement Brochure • Lab Manuals • Assignment Books 	<ul style="list-style-type: none"> • FDPs • Workshops • Student Chapter Events • Alumni Meetings 	<ul style="list-style-type: none"> • Department Library • HoD Chamber • Department Notice Boards • Classrooms • Labs • Seminar Hall

1.4. State the process for defining the Vision and Mission of the Department, and PEOs of the program (25)

(Articulate the process for defining the Vision and Mission of the department and PEOs of the program)

A. The department established the Vision and Mission through a consultative process involving the stakeholders of the department.

Process of defining the Vision and Mission of the Department

- Vision and Mission of the institution is taken as the reference point.
- After series of meetings, discussions with internal stakeholders (Faculty Members and Students) and external stakeholders (Parents, Employers, Industry, Alumni) by the Department Advisory Committee (Principal, Academic Director, HoD, Industry Person, two senior faculty, Alumni), the views and feedback are collected.
- The views are reviewed and analyzed in line with the Vision and Mission of the Institute.
- A preliminary copy is prepared by the Department Advisory Committee.
- An extensive interactive session is conducted with the Governing Body Members and the final copy of Vision and Mission is presented for approval.

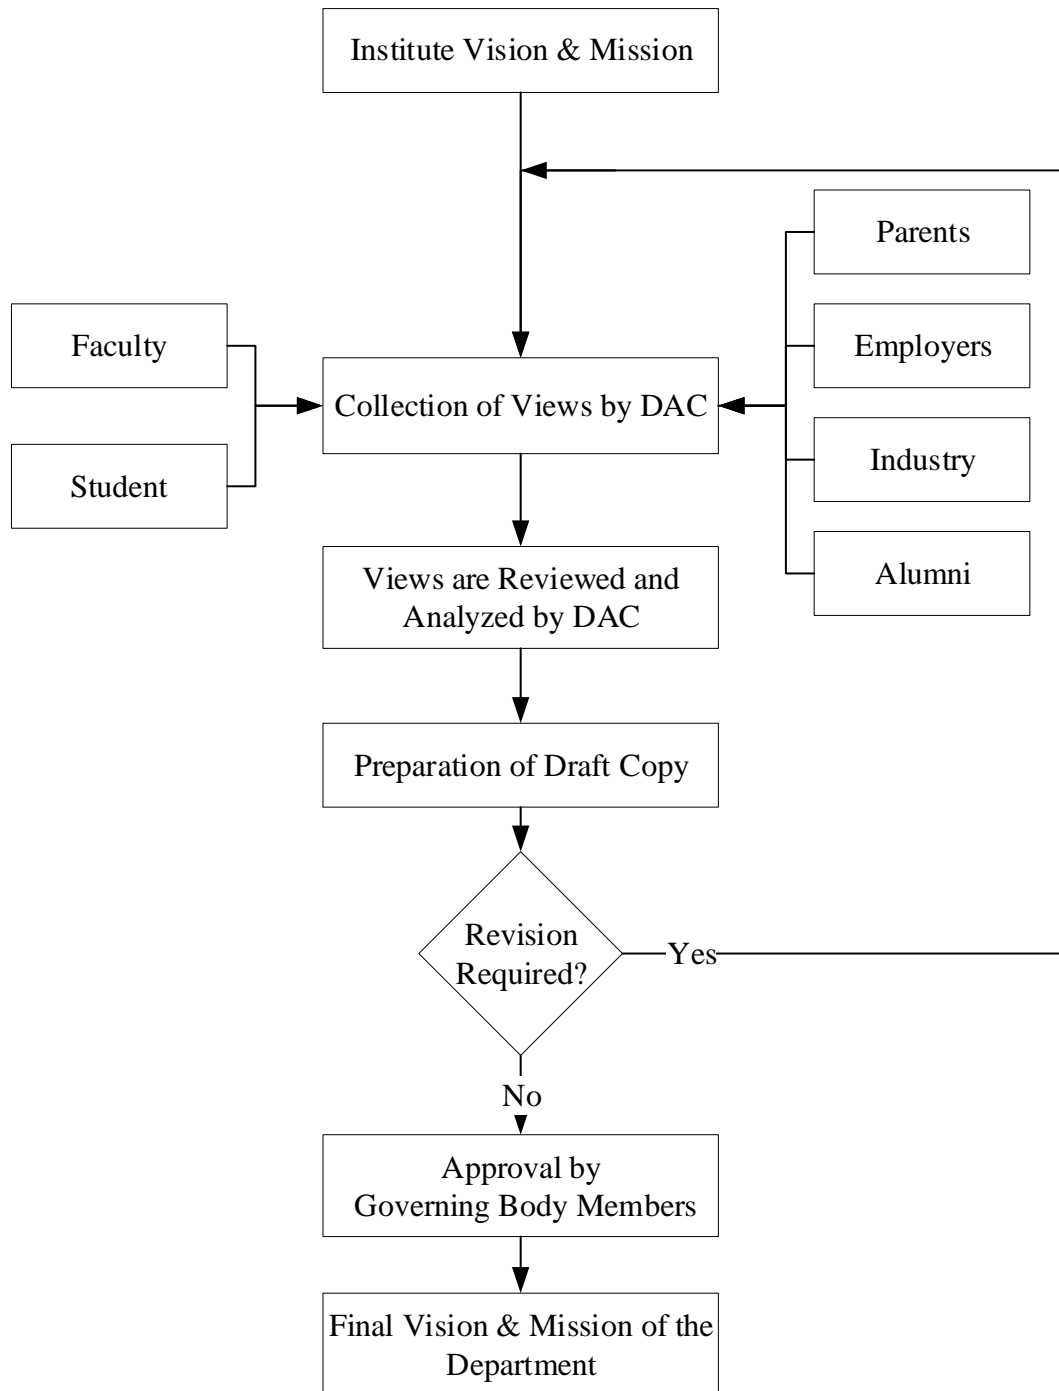

Figure: 1.4.1 Flow chart for defining Department Vision and Mission

B. The Program Educational Objectives (PEOs) was established through a consultative process involving all stakeholders such as Students, Alumni, Industry, Faculty and Employer.

Process of defining the PEOs of the Department

- Vision and Mission of the Department and POs defined by NBA are taken as reference.
- Views are collected from internal stakeholders (Faculty Members and Students) and external stakeholders (Parents, Employers, Industry, Alumni) for analysis by Department Advisory Committee (Principal, Academic Director, HoD, Industry Person, two senior faculties, Alumni) after series of discussions and meetings.
- Based on the views collected by Department Advisory Committee (DAC), a draft copy is formulated.
- An extensive interactive session is conducted and the final copy is presented to Governing Body Members for approval.

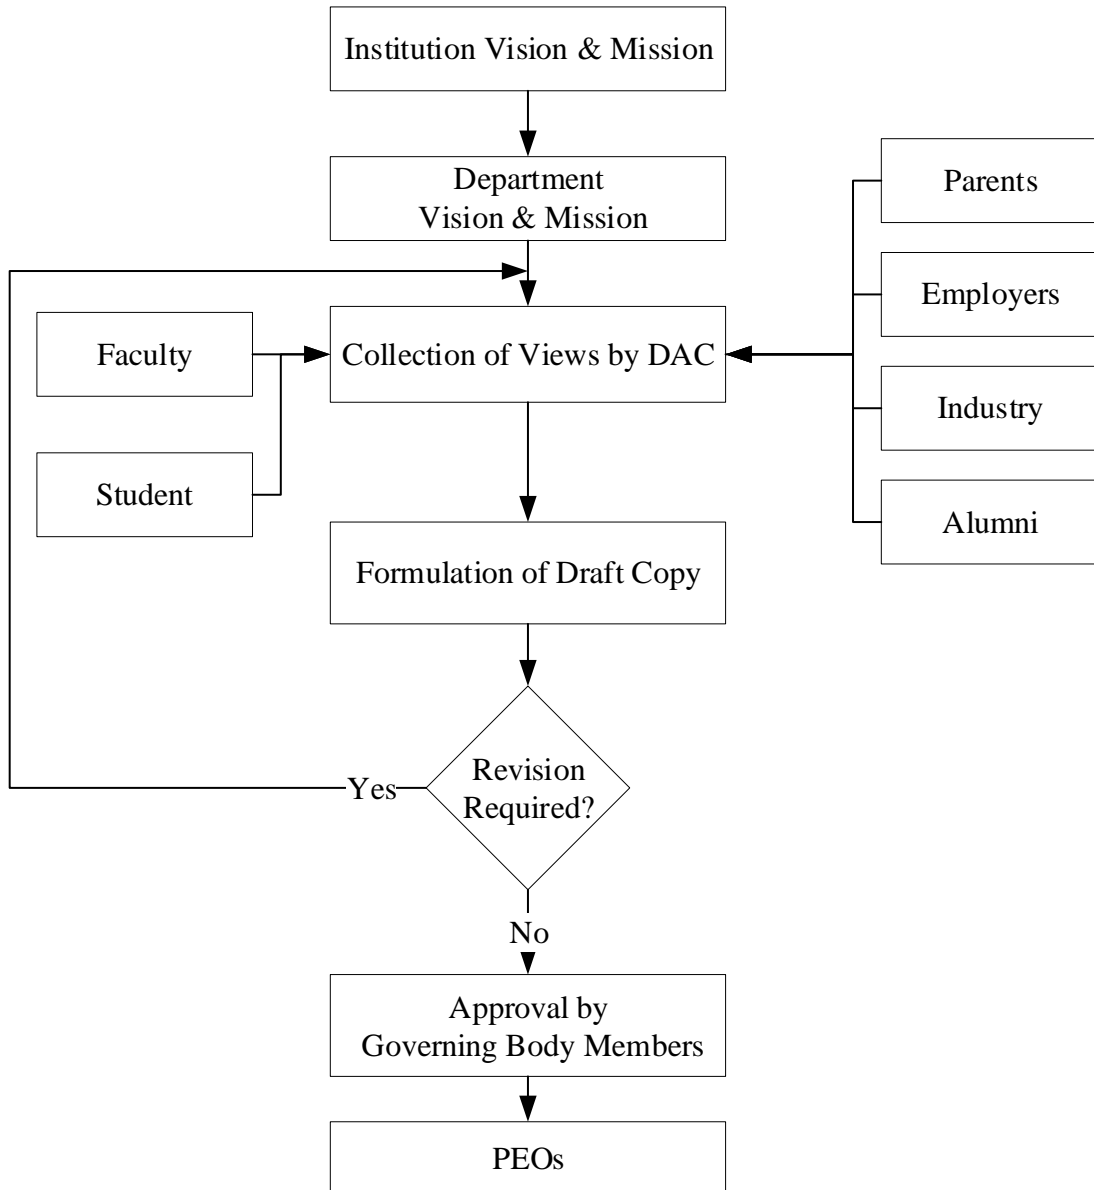

Figure: 1.4.2 Flow chart for defining PEOs

1.5 Establish consistency of PEOs with Mission of the Department (15)

(Generate a Mission of the department- PEOs matrix with justification and rationale of the mapping)

There are three Mission statements of the Department and three PEOs of Electrical and Electronics Engineering Program. The consistency between PEOs and Mission of the department was established by the faculty members of the Department.

PEOs \ Mission Key elements	M1 Skills in Current Trends	M2 Higher Education & Research	M3 Personality Skills, Leadership Qualities, Ethical values
PEO1: Possess strong educational foundation in Electrical Engineering for making successful careers in core and allied industry.	3	3	2
PEO2: Develop solutions for realistic problems in the society through innovation and lifelong learning.	2	3	2
PEO3: Exhibit communication skills, leadership qualities, social and environmental responsibility, ethical values in successful career.	2	2	3

Table: B.1.5.1 Mapping of Department Missions with PEOs

PEO1	M1 Skills in Current Trends	M2 Higher Education & Research	M3 Personality Skills, Leadership Qualities & Ethical Values
Possess strong educational foundation in Electrical Engineering for making successful careers in core and allied industry.	3	3	2
<p>M1: PEO1 has substantially high correlation with Mission 1 as the empowerment comes from practical knowledge which is provided through courses offered by the Program and Bridge Courses.</p> <p>M2: PEO1 has substantially high correlation with Mission 2 as the strong education skills enhance lifelong learning skills and improve research.</p> <p>M3: PEO1 has substantially moderate correlation with Mission 3 as the quality of being socially confident is known to be most essential personality trait for a team leader to have. More specially, it is the individual's self confidence the influences any individual to be a leader.</p>			

Table: B.1.5.1a PEO1 Justification with Department Mission key elements

PEO2	M1 Skills in Current Trends	M2 Higher Education & Research	M3 Personality Skills, Leadership Qualities, Ethical Values
Develop solutions for realistic problems in the society through innovation and lifelong learning.	2	3	2
<p>M1: PEO2 has moderate correlation with Mission 1 as the empowerment can be achieved through lifetime learning and developing solutions to real time problems in society.</p> <p>M2: PEO2 has substantially high correlation with Mission 2 as the solutions to the real problems of society can be investigated through innovation with the cooperation of industry.</p>			

M3: PEO2 has moderate correlation with Mission 3 as learning does not take place in a separate phase but depends upon each individual to show interest in learning or developing realistic solutions to problem and is also integrated with the society to create possibilities for those who want to learn.

Table: B.1.5.1b PEO2 Justification with Department Mission key elements

PEO3	M1 Skills in Current Trends	M2 Higher Education & Research	M3 Personality Skills, Leadership Qualities & Ethical Values
Exhibit communication skills, leadership qualities, social and environmental responsibility, ethical values in successful career.	2	2	3
<p>M1: PEO3 has moderate correlation with Mission 1 as skills require critical thinking and problem solving to excel in current trends as well as requires adaptability, empathy communication and active listening which goes hand in hand to excel in a successful career</p> <p>M2: PEO3 has moderate correlation with Mission 2 as the prior quality is the interest of an individual to pursue higher studies or research, more focus should be given on encouraging students to pursue research and develop new ideas.</p> <p>M3: PEO3 has substantially high correlation with Mission 3 as the leadership characteristics; communication skills facilitate practical expertise in enterprise development and energy environment.</p>			

Table: B.1.5.1c PEO3 Justification with Department Mission key elements

Note: M1, M2.... Mn are distinct elements of Mission statement. Enter correlation levels 1, 2 or 3 as defined as below.

1: Slight (Low)

2: Moderate (Medium)

3: Substantial (High)

Criterion 2	Program Curriculum and Teaching-Learning Processes	120M
2.1	Program Curriculum	20 M
2.2	Teaching – Learning Processes	100 M

2. Program Curriculum and Teaching-Learning Processes

2.1. Program Curriculum (20)

2.1.1. State the Process Used to Identify Extent of Compliance of The University Curriculum for Attaining the Program Outcomes (POs) And Program Specific Outcomes (PSOs) As Mentioned in Annexure I. Also Mention the Identified Curricular Gaps, If Any (10)

(State the process details; also mention identified curricular gaps).

Vignan's Institute of Engineering for Women is affiliated to Jawaharlal Nehru Technological University, Kakinada. So, the program curriculum is as per the scheme and syllabus described by JNTUK, Kakinada. Jawaharlal Nehru Technological University (JNTUK) updates the syllabus, by taking feedback from retired professors and senior faculty from university, eminent persons from industry, principals & faculty of affiliated colleges. Four-year undergraduate program is designed for a span of 8 semesters. Lateral entries are to be studied 3 years (6 semesters), from second year onwards.

JNTUK follows R-13 regulations for 2013, 2014 & 2015 admitted batches, R-16 regulations for 2016, 2017 & 2018 admitted batches, R-19 regulations for 2019 admitted batch and R-20 regulations for 2020 admitted batch.

The year of study and their respective regulation for each academic year mentioned is given in the below table Table B: 2.1.1.a.

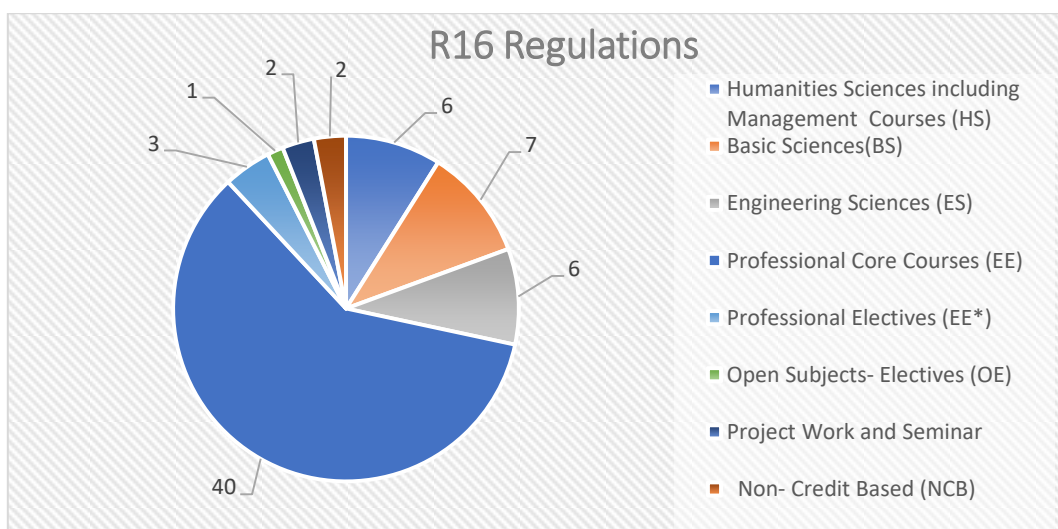

Academic year	I Year	II Year	III Year	IV Year
CAY (2020-21)	R-20	R-19	R-16	R-16
CAYm1 (2019-20)	R-19	R-16	R-16	R-16
CAYm2 (2018-19)	R-16	R-16	R-16	R-13
CAYm3 (2017-18)	R-16	R-16	R-13	R-13

Table B: 2.1.1.b: Academic year wise regulations for each year

The curriculum of Electrical and Electronics Engineering program given by the university is a composition of courses related to basic engineering courses, software-related courses, value/attitude related courses, program basic core and contemporary courses that make the students apply theoretical concepts learnt for practical implementation with social consciousness and ethics. The course modules of R-13, R-16 and R-19 regulations of the Electrical & Electronics Engineering program are given in Table B: 2.1.1.c and compared in Figure B: 2.1.1.a

Sl. No.	Types of courses	No. of Courses R13-Regulations	No. of Courses R16-Regulations	No. of Courses R19-Regulations
1	Humanities Sciences including Management Courses (HS)	8	6	3
2	Basic Sciences (BS)	7	7	10

Table B: 2.1.1.j: R19 Curriculum content

A. Process used to identify extent of compliance of university curriculum for attaining POs & PSOs (6)

The tools used to identify the curriculum gaps every academic year to meet POs and PSOs are categorized as internal and external tools. The external tools are the feedbacks collected from various stakeholders. The internal tools are COs, POs and PSOs assessment.

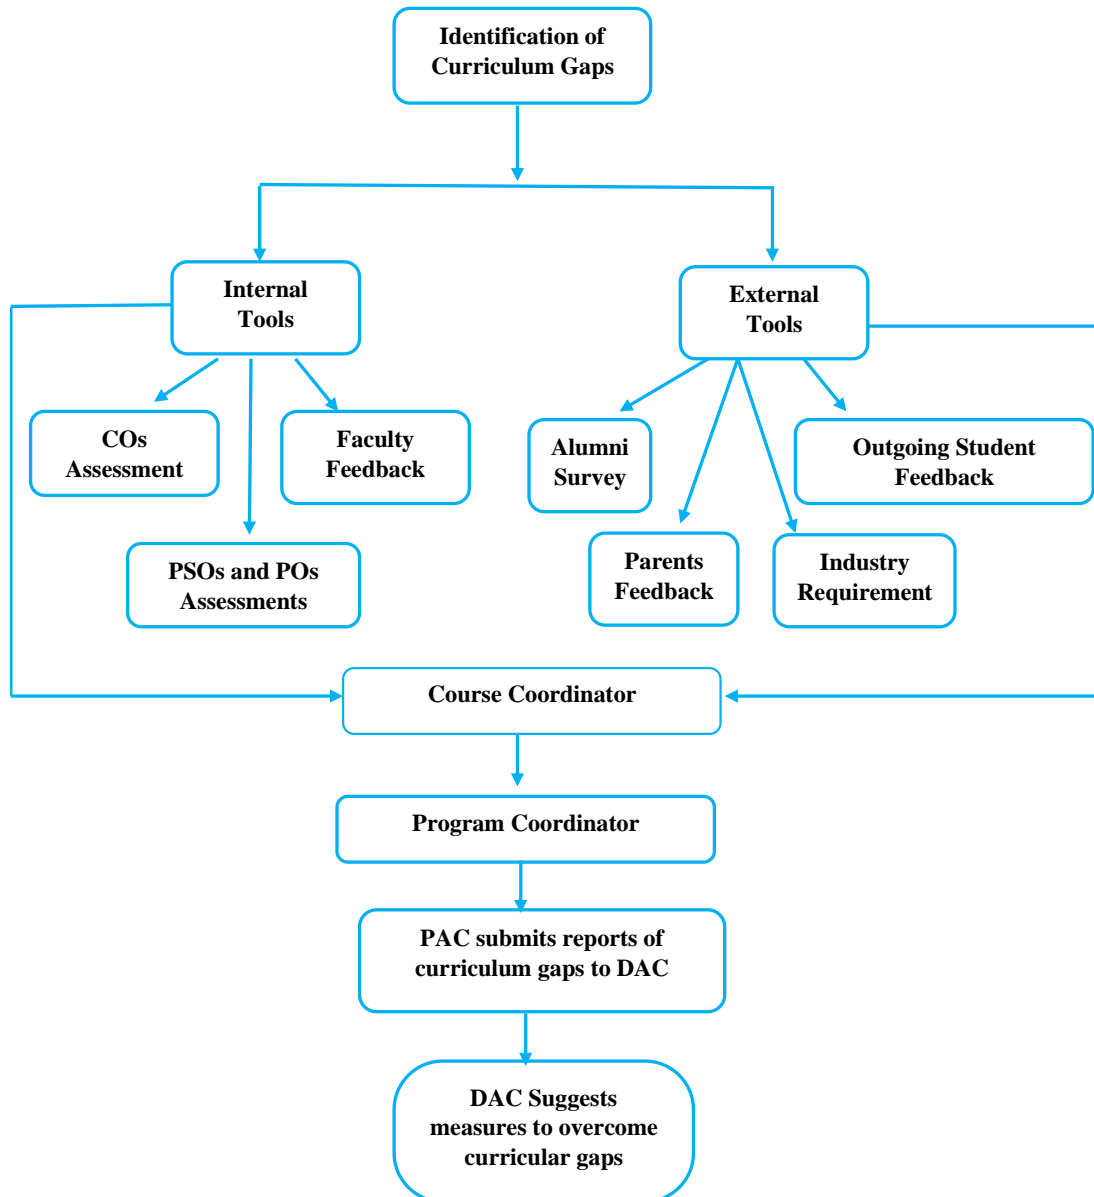

Figure B: 2.1.1.b: Process to identify Curriculum gaps

1. External Tools

Stakeholders' feedback:

The department has formal and informal mechanisms to obtain feedback from stakeholders through various committees, associations, organization, etc. This will be considered for revising the gaps in the curriculum. The following are the indicatives for the feedback from the stakeholders.

i. Outgoing students' feedback: In order to improve the Teaching-Learning Process (TLP) and gaps of the curriculum, student feedback system is used to share their feedback on the curriculum.

- Conduct more value-added courses on various technologies like IoT, PLC etc.
- Improve personality skills and employability skills and company specific training.
- Inculcate research culture.

ii. Alumni Feedback: Feedback is collected from alumni students by inviting them once in a year for the alumni meet by the Alumni Association (AA). In order to bring awareness on the skill demands of the IT industry, the alumni students are suggested to share their current job experiences and current trends in recruitment with their juniors and the following gaps are identified.

- Students suggested more hands-on training on latest technology
- Wanted to give more training for competitive exams and technical communication principles.
- Motivate students towards sports and games like inter college events.

iii. Parents' Feedback: The institute organizes parents meet twice in every semester and tries to adopt the suggestions given by the parents.

- Improve interpersonal and public speaking skills

iv. Teacher's feedback: Teachers provide valuable inputs for academic development, learning strategies, and corrections for errors in teaching and learning methods.

- Involve students in B. Tech projects related to societal and health issues

v. Employers Feedback: Once the student passes out of the institution and gets employed in other organization, Alumni Association (AA) takes care of her employer's feedback for healthy relationship with the other organization. Campus placement officer interacts with officials from Industry who visit for recruitment and obtain their feedback.

- MATLAB practical implications
- Improve IoT for electrical appliances

Feedback from stakeholders:

Feedback collected from all the stake holders is discussed and deliberated by the program coordinator. The gaps suggested by the stake holders are mapped with POs and tabulated in Table B: 2.1.1.

S. No	Stakeholder	Suggestion given by Stakeholder
1	Outgoing students	<ul style="list-style-type: none"> • Conduct more value-added courses on various technologies like IoT, PLC etc.
		<ul style="list-style-type: none"> • Improve personality skills and employability skills and company specific training.
		<ul style="list-style-type: none"> • Inculcate research culture.
2	Alumni	<ul style="list-style-type: none"> • Hands on training on latest technology
		<ul style="list-style-type: none"> • Training for competitive exams and technical communication principles.
		<ul style="list-style-type: none"> • Motivate students towards sports and games like inter college events.
3	Parents	<ul style="list-style-type: none"> • Improve interpersonal and public speaking skills
4	Teachers	<ul style="list-style-type: none"> • Involve students in B. Tech projects related to societal and health issues
5	Employer	<ul style="list-style-type: none"> • MATLAB practical implications
		<ul style="list-style-type: none"> • Improve IoT for electrical appliances

Table B: 2.1.1.k: Stakeholder's feedback

2. Internal Tools

The courses are mapped with POs and PSOs that help to identify the extent of curriculum compliance and take necessary action to fulfil the identified curriculum gaps. The mapping of the curriculum courses to Program Outcomes & Program Specific Outcomes for R13 Regulations and R-16 Regulations are given in Table B:2.2.2. 1 to Table B:2.2.2.m

Table B: 2.1.1.1: Course-POs mapping for R13 Regulations.

Figure B: 2.1.1.c: Course-PO mapping for R13 Regulations

Compliance of Program Curriculum for the attainment of POs (R13 Regulations)

- Blue colour histogram represents the POs whose average percentage mapping is more than 80 % and red colour represents below 80% for R13 Regulations. Hence, PO5, PO6, PO7 & PO8 average percentage of mappings are below 80 % and remaining all POs values are more than 80%
- The Professional Core courses like Electrical Machines, Power systems, Power electronics, Electrical circuit analysis satisfies PO1, PO2, PO3 and PO4 to the extent of 82% - 97% on an average.
- The Basic Sciences and Humanities including management courses like English, Communications Skills Lab, Environmental Studies, Management Science, MEFA etc., satisfies PO10, PO11 to the extent of 82% - 85% on an average.
- The Engineering Sciences courses like Engineering Drawing, Engineering Mechanics, Environmental Studies etc., covers PO6 and PO7 to the extent of 76.33 % and 76% .
- The Courses like Seminar and Projects satisfy PO9, PO10, PO11, and PO12 to the extent of 82% - 85% on an average.

Table B: 2.1.1.m: Course-POs mapping for R16 Regulations

Figure B: 2.1.1.d: Course-PO mapping for R16 Regulations

Compliance of Program Curriculum for the attainment of POs (R16 Regulations)

- Blue colour histogram represents the POs whose average percentage mapping is more than 80 % and red colour represents below 80% for R16 Regulations. Hence, PO5, PO6 & PO7 average percentage of mappings are below 80 % and remaining all POs values are more than 80%
- The Professional Core courses like Electrical Machines, Power systems, Power electronics, Electrical circuit analysis satisfies PO1, PO2, PO3 and PO4 to the extent of 85% - 96% on an average.
- The Basic Sciences and Humanities including management courses like English, Communications Skills Lab, Environmental Studies, Management Science, MEFA etc., satisfies PO10, PO11 to the extent of 80% - 86% on an average.
- The Engineering Sciences courses like Engineering Drawing, Engineering Mechanics, Environmental Studies etc., covers PO6 and PO7 to the extent of 77.65% and 79.09%
- The Courses like Seminar and Projects satisfy PO9, PO10, PO11, and PO12 to the extent of 80% - 86% on an average.

The CO-PO- mapping of R13, and R16 are compared and shown below in Table: B.2.2.1.n:

Percentage of CO-PO Mapping	PO-1	PO-2	PO-3	PO-4	PO-5	PO-6	PO-7	PO-8	PO-9	PO-10	PO-11	PO-12
R13	97.00	95.33	91.33	82.67	71.00	76.33	76.00	79.33	85.67	82.00	85.00	83.67
R16	97.09	96.64	90.47	87.85	73.07	79.14	79.66	84.28	86.65	79.91	87.62	83.52

Table B: 2.1.1.n: Comparison of CO-PO Mapping for R13 and R16 Regulation

Figure B: 2.1.1.e: Course-PO mapping for R13 and R16 Regulations

Department of EEE has considered two Program Specific Outcomes based on emerging areas in research and applications.

Program Specific Outcomes	
PSO1	Analyze and solve critical problems associated with Power systems/Control Systems using modern software tools
PSO2	Apply the knowledge of power electronics to control and design high-Performance electrical drives for a career in interdisciplinary field

Table B: 2.1.1.o: Program Specific Outcomes

Average		2.86	2.88
Average in Percentage		95.40	96.15

Table B: 2.1.1.q: Course-PSOs mapping for R16 Regulations

The CO-PSO mapping of R13 and R16 regulations are compared and shown below in Table. R-13 regulation covers the PSO1 and PSO2 to the extent of 94.76% and 93.79 % respectively.

R-16 regulations covers the PSO1 and PSO2 to the extent of 95.4% and 96.15 % respectively.

Percentage of CO-PSO Mapping	PSO1	PSO2
R-13 Regulations	94.76	93.79
R-16 Regulations	95.4	96.15

Table B: 2.1.1.r: Comparison of CO-PSO Mapping for R13 and R16 Regulations

Figure B: 2.1.1.f: Course-PSOs mapping for R13 and R16 Regulations

B. List the curricular gaps for the attainment of defined POs& PSOs (4)

i). Gap identification for R-13 Regulations:

From Table B: 2.1.1.n, it is clear that the courses in R-13 regulations with POs such as

Engineering Knowledge (PO1), Problem Analysis (PO2), Design/ Development of Solutions (PO3), are highly mapped and remaining POs such as Conduct Investigations of Complex Problems (PO4), Individual and Team Work (PO9), Communications (PO10), Project management and finance (PO11) and Lifelong Learning (PO12) maps moderately. The POs Modern Tool Usage (PO5), The Engineer & Society (PO6), Environment and Sustainability (PO7) and Ethics (PO8) mapped low. The Course Gaps identified in R13 regulation are listed below. However, program curriculum is in compliance for attaining the program specific outcomes (PSOs) as their average values are more than 80%.

In the process of enhancing the compliance of curriculum with the program outcomes, there are few curriculum gaps identified. The above gaps are addressed by addition of add-on courses and training programs. However, all these gaps are taken care by adding skill-based components and introducing add-on Lab experiments and few contents in theory courses along with the curriculum provided by the university.

Gap identification for R-13 Regulations through Curriculum

Sl. No.	Identified PO	Gap identification for R-13 Regulations
1	PO5	G1: Lack of applying modern IT tools to solve complex engineering problems.
		G1: Incapable of providing solutions for real time applications using modern tools.
2	PO6	G2: Insufficient contextual knowledge to assess societal health safety and cultural issues.
		G3: Lack of ability to develop real time projects
3	PO7	G4: Lack of knowledge in professional engineering solutions in societal and environmental context.
		G5: Lack of knowledge and need for sustainable development.
4	PO8	G6: Lack of ability to apply ethical principles to protect biodiversity and to conserve the natural resources.
		G4: Lack of apply professional ethics while providing solutions for societal issues.

Table B: 2.1.1.s: Gap identification for R-13 Regulations through Curriculum

ii). Gap identification of R-13 Regulations through stakeholders:

Sl. No.	Stakeholder	Identified gap	Relevance to POs
1	Outgoing students	G7: Conduct more value-added courses on various technologies like IoT, PLC etc.	PO5 PO12
		G8: Improve personality skills, employability skills and company specific training.	PO8 PO9 PO10
		G3: Inculcate research culture.	PO4 PO11
2	Alumni	G1: Hands on training on latest technology	PO4 PO5
		G8: Training for competitive exams and technical communication principles.	PO10 PO12
		G9: Motivate students towards sports and games like inter college events.	PO9
3	Parents	G8: Improve interpersonal and public speaking skills	PO9 PO10
4	Teachers	G3: Involve students in B. tech projects related to societal and health issues	PO6 PO11
5	Employer	G1: MATLAB practical implications	PO5
		G7: Improve IoT for Electrical appliances	PO11

Table B: 2.1.1.t: Gap identification of R13 Regulations through stakeholders

Gap identification for R-16 Regulations:

From Table B: 2.1.1.n, it is clear that the courses in R-16 regulations with POs such as Engineering Knowledge (PO1), Problem Analysis (PO2), Design/ Development of Solutions (PO3), are highly mapped and remaining POs such as Conduct Investigations of Complex Problems (PO4), Individual and Team Work (PO9), Communications (PO10), Project management and finance (PO11) and Lifelong Learning (PO12) maps moderately. The POs Modern Tool Usage (PO5), The Engineer & Society (PO6), Environment and Sustainability (PO7) and Ethics (PO8) are mapped low. Various course gaps identified in R16 regulation are listed below. However, program curriculum is in compliance for attaining the program specific outcomes (PSOs) as their average values are more than 80%.

In the process of enhancing the compliance of curriculum with the program outcomes, there are few curriculum gaps identified. The above gaps are addressed by addition of add-on courses and training programs. However, all those gaps are taken care by adding skill-based components and introducing add-on Lab experiments and few contents in theory courses along with the curriculum provided by the university.

Gap identification for R-16 Regulations through Curriculum

Sl. No.	Identified PO	Gap identification for R-16 Regulations
1	PO5	G1: Lack of applying modern IT tools to solve complex engineering problems.
		G1: Incapable of providing solutions for real time applications using modern tools.
2	PO6	G2: Insufficient contextual knowledge to assess societal health safety and cultural issues.
		G3: Lack of ability to develop real time projects
3	PO7	G4: Lack of knowledge in professional engineering solutions in societal and environmental context.
		G5: Lack of knowledge and need for sustainable development.

Table B: 2.1.1.u: Gap identification for R-16 Regulations through Curriculum**Gap identification R-16 Regulations through stakeholders:**

Sl. No.	Stakeholder	Identified gap	Relevance to POs
1	Outgoing students	G7: Conduct more value-added courses on various technologies like IoT, PLC etc.	PO5 PO12
		G8: Improve personality skills, employability skills and company specific training.	PO8 PO9 PO10
		G3: Inculcate research culture.	PO4 PO11
2	Alumni	G8: Motivate students to learn new technologies used in core industries	PO10 PO12
		G9: Motivate students towards sports and games like inter college events.	PO9
3	Parents	G8: Development of leadership skills	PO9 PO10
4	Teachers	G3: Involve students in B. tech projects related to societal and health issues	PO6 PO11
5	Employer	G1: MATLAB practical implications	PO5
		G7: Improve industry related software skills	PO11

Table B: 2.1.1.v: Gap identification of R-16 Regulations through stakeholders

2.1.2. State the Delivery Details of the Content beyond the Syllabus for the Attainment of POs & PSOs (10)**A. Steps taken to get identified gaps included in the curriculum. (e.g., letter to university/BOS) (2)**

Information gathered from internal and external tools are discussed and deliberated by the program coordinator to identify curricular gaps. Program Assessment and Quality Improvement Committee (PAQIC) discusses about the identified gaps for the attainment of POs and PSOs. PAQIC submits the report to Department Advisory Committee (DAC) based on the suggestions received from various stakeholders. DAC will then finalize the curricular gaps based on the assessment report submitted by the PAQIC. The identified curricular gaps are intimated to affiliated university JNTU Kakinada.

B. Delivery details of content beyond syllabus (5)

The department of EEE identified the gaps stated above to bridge the gap between industry needs and curriculum. To fill the gaps in the curriculum and also to prepare the students in accordance with the department vision and mission, the department organizes lot of activities like guest lectures, seminars, and workshops, training programs, additional labs and industrial visits to strengthen the curriculum. The activities which that took place in the Department for bridging the curricular gaps to attain POs and PSOs, are illustrated in Table B.2.1.2a to Table B.2.1.2e.

To meet the gaps various instructional methods like workshops, guest lectures are implemented. The implemented actions are tabulated as below.

Delivery details of the content beyond syllabus for the academic year 2020-21 are tabulated below

Sl. No.	Gap identified	Action Taken	Date-Month-Year	Resource Person with the designation	Number of Students	Relevance to POs/PSOs
1	G1 (R13): Hands on training on latest technology G3 (R13 & R16): Lack of ability to develop real time projects	Online training programme on “Source Code Management using GIT and GITHUB”	10-06-2021 to 12-06-2021	APSSDC Training Team	50	PO1, PO2, PO3, PO5, PO9, PO10 & PO12
2	G1 (R13 & R16): Lack of applying modern IT tools to solve complex engineering problems.	Online training programme on “Python Programming”	24-05-2021 to 12-06-2021	APSSDC Training Team	50	PO1, PO2, PO3, PO5 & PO12
3	G1(R13, R16): Incapable of providing solutions for real time applications using modern tools.	Online Workshop on “Power Electronics Simulation in PSIM”	22-04-2021 & 23-04-2021	Mr. Nukala Viswanath, PWSIM, Bangalore	86	PO1, PO2, PO3, PO5, PSO2
4	G7 (R16): Improve industry related software skills	Guest Lecture on Power Electronics and Drives	14-04-2021	Dr. P. Devendra, Associate Professor, GVP College of Engineering for Women	79	PO1, PO2, PO3, PO5, PO12, PSO1 & PSO2
5	G5: (R-13) Lack of knowledge and need for sustainable development.	Technical Seminar on Solar PV Technology	17-02-2021	Mr. Sai Charan, Jinko Solar	83	PO1, PO2, PO3, PO5, PO6, PO7, PO12, PSO1 & PSO2

6	G7:(R-16) Improve industry related software skills	Seminar on Recent Trends in Converters	06-02-2021	Dr. N. K. Swami Naidu, IIT BHU Varanasi.	67	PO1, PO2, PO3, PO4, PO5, PO12& PSO2
7	G3(R16): Inculcate research culture. G1 (R13): MATLAB practical implications	Guest Lecture on Battery Energy Storage System	04-01-2021	Dr. B.Arundathi, Professor & Principal, VIIT, Visakhapatnam	99	PO1, PO2, PO3, PO4, PO5, PO6, PO7, PO8, PO12, PSO1 & PSO2
8	G5: (R-13) Lack of knowledge and need for sustainable development.	Seminar on Renewable Power Generating Stations	28-12-2020	Mr. K. Srikanth, AE, Machkund	126	PO1, PO2, PO3, PO5, PO6,PO7, PO12, PSO1 & PSO2
9	G1 (R13 & R16): Lack of applying modern IT tools to solve complex engineering problems. G3(R13 & R16): Lack of ability to develop real time projects	Workshop on “Tinker CAD”	09-12-2020 & 10-12-2020	Dr. S. Srinivasa Rao, GITAM deemed to be University	150	PO1, PO5, PO11& PSO1
10	G7(R16): Conduct more value-added courses on various technologies like IoT, PLC etc.	Guest Lecture on Automation in Power Distribution Systems	26-11-2020	Mr. S. Srinivas, ADE, Gajuwaka Substation	68	PO1, PO2, PO5, PO6, PO12, PSO1 & PSO2

Table B: 2.1.2.a: Gaps identified and actions taken in 2020-21

Delivery details of the content beyond syllabus for the academic year 2019-20 are tabulated below

Sl. No.	Gap identified	Action Taken	Date-Month-Year	Resource Person with the designation	Number of Students	Relevance to POs/PSOs
1	G1(R13 & R16): Incapable of providing solutions for real time applications using modern tools.	A short-term course on advanced simulation tool for Power Electronics, Electromagnetic, and Power Systems	01-06-20 to 05-06-20	G. Vinay,N. Viswanath, Joseph J , Sadeep S, MK. Mounika, VP Boopathi	90	PO5, PO9, PO12, PSO1 & PSO2
2	G1: (R-13& R16) Lack of applying modern IT tools to solve complex engineering problems.	Workshop on Biped Robot (Mini Humanoid Robot)	06-03-20 to 07-03-20	Mr. M.Suyog, Aakaar, IIT Bombay	127	PO6, PO7, PO9, PO11, PO12 & PSO2
3	G1: (R-13& R16) Lack of applying modern IT tools to solve complex engineering problems.	Guest Lecture on Soft computing techniques	17-12-19	Dr. U. Salma, Professor, KL University, Guntur	80	PO5, PO8, & PSO1, PSO2
4	G3: (R-13) Lack of ability to develop real time projects	Guest Lecture on High Voltage DC and AC transmission	14-12-19	Sr. Prof. Sastry V. Vedula, Ph. D, FANE, IEEE(Life) GVPCE(A)	114	PO6, PO11 PSO1 & PSO2
5	G7: (R-13& R16) Conduct more value-added courses on various technologies like IoT, PLC etc.	Workshop on IoT with cloud robotics	6-12-19 to 7-12-19	Mr. M.Suyog, Aakaar IIT Bombay	80	PO3, PO6, PO9, PO11, PO12 & PSO2
6	G7(R16): Conduct more value-added courses on various technologies like IoT, PLC etc.	Workshop on Smart grid automation	04-12-19 to 05-12-19	Dr. C.V.K. Bhanu, B.E., M.E., Ph.D. (JNTU, Kakinada) Professor	85	PO6, PO7, PO11, PO12, PSO1 & PSO2

7	G5 (R13& R16): Lack of knowledge and need for sustainable development.	Seminar on Renewable energy sources	28-08-19	Sr. Prof. Sastry V. Vedula, Ph. D, FANE, IEEE(Life) GVPCE(A)	100	PO6, PO7, PO11, PO12 & PS O1
---	--	-------------------------------------	----------	--	-----	------------------------------------

Table B: 2.1.2.b: Gaps identified and actions taken in 2019-20

Delivery details of the content beyond syllabus for the academic year 2018-19 are tabulated below

Sl. No.	Gap identified	Action Taken	Date-Month-Year	Resource Person with the designation	Number of Students	Relevance to POs/PSOs
1	G3:(R-13&R-16) Lack of ability to develop real time projects	Workshop on “Stem robots for Industrial education and Industrial robots for manufacturing automation”.	22-02-2019	Mr.Sudhir Reddy, Director, Jay Robotix Hyderabad, Sudhir Sanna, Professor and CEO Robotics and Automation,	100	PO6, PO11, PO12 & PSO2
2	G9: (R-13&R-16) Motivate students towards sports and games like inter college events.	YUVTARANG 2k19	10-01-2019 to 11-01-2019	Mr. K. Kushal Kumar, Associate Professor	180	PO9, PO10 & PO11
3	G1: (R-13&R-16) MATLAB practical implications	Guest Lecture on "Introduction to MATLAB and Applications"	28-12-2018	Mr. C. Rama krishna, Sri.S.Sanjay, Deputy Executive Engineer, AP TRANSCO	80	PO5, PO11, PO12 & PSO1
4	G5: (R-13) Lack of knowledge and need for sustainable development.	Guest Lecture on "Introduction to Smart Grid and sustainable Applications”	27-12-2018	Dr. B. Durga Prasaad, GITAM University	90	PO6, PO7, PO12 & PSO1

5	G2: (R-13&R-16) Insufficient contextual knowledge to assess societal health safety and cultural issues.	Seminar On “Electrical Industry safety culture and safety measures”	29-11-2018	Dr. G. Saraswathi, Professor, JNTUV, Vizianagaram	80	PO6, PO7 & PSO2
6	G8: (R-13) Improve personality skills and employability skills and company specific training.	Campus Placements & Training	12-11-2018 to 17-11-2018	Machine Ignite Team	83	PO9, PO10 & PO12
7	G8: (R-13) Improve personality skills and employability skills and company specific training.	Campus Placements & Training	25-09-2018 to 29-09-2018	Machine Ignite Team	82	PO9, PO10 & PO12
8	G9: (R-13&R-16) Motivate students towards sports and games like inter college events.	Technical Fest VISTA 2K18	14-9-18 to 15-09-2018	Vignan’s Institute of Engineering for Women, Technical Festival	120	PO9, PO10 & PO11
9	G3: (R-13) Involve students in B. tech projects related to societal and health issues. G7:(R-16) Improve industry related software skills	Guest Lecture on “Artificial Intelligence techniques for future trends”	24-8-2018	Mrs.Niharika, Additional General Manager, Hinduja Corporation Pvt Ltd,	85	PO4, PO6, PO11, PO12 & PSO1
10	G6: (R-13) Lack of ability to apply ethical principles to protect biodiversity and to conserve the natural	Guest Lecture on “Renewable and Nonrenewable resources and types of energy storage	23-08-2018	Dr. Sura Srinivasa Rao, Gitam Unversity	90	PO8, PO11, PO12, PSO1 & PSO 2

	resources.	system”.				
11	G8: (R-13) Training for competitive exams and technical communication principles.	Campus Placements & Training	10-08-2018 to 20-08-2018	FACE Team	82	PO9, PO10 & PO12
12	G8: (R-13) Training for competitive exams and technical communication principles. G8:(R-16) Development of leadership skills	Training on communication and interview skills	06-08-2018 to 09-08-2018	Mr.Bhupathi Raja & Mr.B.Sai Prasad, FACE organization	80	PO9, PO10 & PO12
13	G8: (R-13&R-16) Training for competitive exams and technical communication principles.	Campus Placements & Training	26-07-2018 to 04-08-2018	FACE Team	82	PO9, PO10 & PO12
14	G1: (R-16) Hands on training on latest technology G7: (R-13) Improve industry related software skills	Workshop on SCALE	26-07-2018 to 28-07-2018	Ms. Shreya Adabala, Mr. Sanket Dhadke, Mr. Rafae Shaik, Ms. Hashmitha Rani, Trainers, APSSDC	77	PO4, PO5, PO11, PSO1 & PSO2
15	G6: (R-13) Lack of ability to apply ethical principles to protect biodiversity and to conserve the natural resources.	Guest lecture on Strategic Thinking and Leadership	12-07-2018	DR Rojeena Mathew HoD, Training Head , VIIT	80	PO8, PO9

Table B: 2.1.2.c: Gaps identified and actions taken in 2018-19

Delivery details of the content beyond syllabus for the academic year 2017-18 are tabulated below

Sl. No.	Gap identified	Action Taken	Date-Month-Year	Resource Person with the designation	Number of Students	Relevance to POs/PSOs
1	G8: (R-13) Training for competitive exams and technical communication principles.	Training in Java Programming	07-05-2018 to 25-05-2018	Mr. Krishna Prasad, Director, KP Technologies	54	PO10 & PO12
2	G8: (R-13) Training for competitive exams and technical communication principles.	Campus Placements & Training	23-04-2018 to 05-05-2018	IGNITE Team	55	PO9, PO10 & PO12
3	G7: (R-13) Conduct more value-added courses on various technologies like IoT, PLC etc.	Workshop on Embedded Systems (IoT)	09-03-2018	S. Murali Krishna, K. Madhavi and U.Sumanth from APSSDC.	90	PO5, PO11, PO12 & PSO2
4	G6:(R-13) Lack of ability to apply ethical principles to protect biodiversity and to conserve the natural resources	Awareness program on Cyber Crime	08-03-2018	Mr. M. Avatharam, CI, Gajuwaka, VSKP	92	PO6 & PO8

5	G7:(R-13&R-16) Conduct more value-added courses on various technologies like IoT, PLC etc.	Workshop on Speech control and IoT Robot	22-02-2018	M. Ajay Kumar, Robosol, IIT Bombay	100	PO11, PO12 & PSO2
6	G9: (R-13&R-16) Motivate students towards sports and games like inter college events.	YUVTARANG 2k18	06-01-2018 to 07-01-2018	Mr. K. Kushal Kumar, Assistant Professor	180	PO9, PO10 & PO11
7	G3:(R-13) Involve students in B. tech projects related to societal and health issues G7:(R-16) Improve industry related software skills	Seminar on “Unified power quality conditioners”	20-12-2017	Dr. K Ramasudha, Professor, Andhra University	125	PO6, PO12, PSO1 & PSO2
8	G4: (R-13) Lack of knowledge in professional engineering solutions in societal and environmental context.	Guest Lecture on “Recent trends on Non-conventional energy”.	12-12-2017	Sri.B.Durga Prasad, Associate Professor, GITAM University	190	PO7, PO11, PSO1 & PSO2

9	G8: (R-13) Improve personality skills, employability skills and company specific training. G8: Development of leadership skills	Campus Placements & Training	13-11-2017 to 24-11-2017	CATIA Team	54	PO9, PO10 & PO12
10	G9(R-13&R-16): Motivate students towards sports and games like inter college events.	VISTA 2K17	14-09-2017 to 15-09-2017	Mr. M. Suresh, Assistant Professor	182	PO9, PO10 & PO11
11	G8: (R-13) Improve personality skills, employability skills and company specific training.	Campus Placements & Training	30-08-2017 to 05-10-2017	Pseudo Code Team	54	PO9, PO10 & PO12
12	G2(R-13): Insufficient contextual knowledge to assess societal health safety and cultural issues.	Guest Lecture “High voltage power system operation and instrument Calibration and safety measures”	29-08-2017	Sri.Manoj Kumar, Dy.General Manager, RINL-Visakhapatnam Steel Plant	90	PO6, PO11 & PSO1
13	G8: (R-13&R-16) Improve personality skills, employability skills and company specific training	Training on communication and interview skills	07-08-2017 to 11-08-2017	Mr.Bhupathi Raja & Mr.B.Sai Prasad, FACE organization	54	PO9, PO10, PO12

14	G1: (R-13) MATLAB practical implications	Workshop on “MATLAB, SIMULINK for Electrical Engineering Applications”	22-07-2017.	Dr. R. Ram Prasad, Dy. General Manager, Visakhapatnam Steel Plant	180	PO5, PO11, PO12, PSO1& PSO2

13	G8: (R-13) Improve personality skills, employability skills and company specific training.	Campus Placements & Training	22-09-2016 to 24-09-2016	Mr. Krishna Prasad, Director, KP Technologies	62	PO9, PO10 & PO12
14	G9: (R-13) Motivate students towards sports and games like inter college events.	VISTA 2K16	14-09-2016 to 15-09-2016	Mr. K. Vamsi, Assistant Professor	120	PO9, PO10 & PO11
15	G3: (R-13) Inculcate research culture.	Guest lecture on Research methods	12-09-2016	Dr. B. Arundathi HoD, EEE, VIIT	85	PO4 & PO11

16	G4: (R-13) Lack of knowledge in professional engineering solutions in societal and environmental context.	Seminar on Human rights and law of enforcement	26-08-2016	K. Ranjan Kumar Assistant Professor Raghu Engineering college	90	PO8
17	G8: (R-13) Improve personality skills, employability skills and company specific training.	Campus Placements & Training	16-08-2016 To 24-08-2016	Mr. Jatindhar, Mr. Shasidhar, Mr. Vishnu, Trainers, Talentio	61	PO9, PO10 & PO12
18	G5: (R-13) Lack of knowledge and need for sustainable development.	Seminar on renewable energy sources and conversion technology	20-07-2016.	Sri B. Hume Sastry, Chief Engineer (Retd.), APEPDCL, Visakhapatnam	98	PO7, PO11, PO12 and PSO1
19	G8: (R-13) Improve personality skills, employability skills and company specific training.	Campus Placements & Training	11-07-2016 to 04-08-2016	Mr. Jatindhar, Mr. Shasidhar, Mr. Vishnu, Trainers, Talentio	62	PO9, PO10 & PO12
20	G1: (R-13) Hands on training on latest technology	Workshop on Tech Project EXPO	22-06-2016 to 23-06-2016	VIIT Team, Visakhapatnam	97	PO5 & PO9

Table B: 2.1.2.e: Gaps identified and actions taken in 2016-17

C. Mapping of Content beyond Syllabus with the POs & PSOs (3)

The above content beyond syllabus mappings with POs and PSOs is consolidated and presented below.

S. No.	Topics	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2
1	Pre-placement Training	Y	Y	Y	-	-	Y	Y	-	-	Y	Y	Y	-	-
2	Training on Soft skills		Y	Y	Y	Y	Y	-	-	-	-	Y	Y	-	-
3	Guest lectures	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y
4	workshops	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y
5	Industrial Visits	-	Y	Y	Y	-	Y	Y	-	-	Y	Y	Y	Y	Y

Table B: 2.1.2.f: Mapping of content beyond Syllabus with the POs & PSOs

2.2. Teaching-Learning (100)

2.2.1. Describe the process followed to improve quality of teaching-learning (25)

(Processes may include adherence to academic calendar and improving instruction methods using pedagogical initiatives such as real-world examples, collaborative learning, quality of Laboratory experience with regard to conducting experiments, recording observations, analysis of data etc. encouraging bright students, assisting weak students etc. The implementation details and impact analysis need to be documented)

Effective content delivery, selection of teaching methodologies and effective assessment etc. plays a vital role in teaching-learning process. Hence, by proper planning, designing and implementing the course, the course coordinator successfully delivers the content to the students after taking the suggestions from both module coordinator and program coordinator.

A. Adherence to Academic Calendar (3)

The institute academic calendar is circulated to the departments towards the end of the previous academic year in adherence to the university academic calendar. The department academic calendar is prepared by adhering strictly to the institute calendar. The department academic calendar is implemented as per schedule with respect to commencement of class work, mid-I and mid-II examinations, last working day, end semester exams (theory) and end semester exams (practical) in each semester/year. In addition, FDPs, students counseling, remedial classes, guest lectures, workshop/symposia, industrial visits, CRC meetings etc., are also included in the academic calendar.

A copy of the University academic calendar prepared for the academic year 2020-2021 & 2019-20 are given below:

Week-20	30	31							30 th -4 th Lab externals and preparation for 2 nd & 3 rd years

	2020	April							
	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday		
Week-20	30	31	01	02	03	04	05		01 st -04 th - External project viva
Week-21	06	07	08	09	10	11	12		6 th -End examinations
Week-22	13	14	15	16	17	18	19	19 th -Farewell for final years	

Table B: 2.2.1.b: A sample copy of department Academic calendar prepared for the academic year 2019-20

B. Use of Various Instructional Methods and Pedagogical Initiatives (3)

To improve the outcome of the students, the institute follows various methodologies. These are to create interest among the students through interaction and collaborative learning. Students undergo active learning in the classroom which develops the quench of knowledge improvement. The methodologies help to provide an amicable relationship with their fellow students which drive them towards success. The innovative methodologies like think-pair-share, flipped classrooms, seminars, group discussions, Power-Point presentations, peer learning and video lectures etc. inculcate not only technical skills but also personality development skills. To ensure that not only the advanced learners are beneficial but also the slow learners are to be enriched with all sorts of skills by the end of the course.

Following methods are implemented in teaching-learning process.

1. Lecture method
2. Group discussion
3. Active and Collaborative learning (STAD, TAPPS, TPS)
4. Student seminars
5. Laboratory instruction
6. Technology enabled learning

1. Lecture Method:

- This involves regular classroom instruction to deliver the content of all the courses to the students on a day-to-day basis to train them in mathematics, science, and engineering. Soft skills are also imparted through classroom instruction to train the students in communication skills, professional ethics, etc.
- Every faculty prepares lecture notes in advance of the commencement of class work along with course delivery plan. Faculty use blackboard, PPTs, virtual labs, vignettes and etc for the content delivery
- All classrooms are provided with an OHP projector for teaching effectively. The department also has an LCD projector which is arranged in the classroom whenever required for teaching using multimedia to enhance student's understanding of the concepts.

Figure B: 2.2.1.a: Lecture Method

2. Group discussion:

- Students are given various topics from the courses and as well as on various local and global issues when participating in group discussions through which they are made aware of the issues. These groups study the topics in detail through library books, internet, and library journals. Thereafter, the topics are discussed by individual groups in the class and the faculty further guides them about the specific topic.
- The group's composition and the group discussion are carefully planned to create a non-threatening environment so that participants feel free to talk openly and give honest opinions.
- Participants are actively encouraged to not only express their own opinions but also respond to other members and questions posed by the leader. Focus on groups offers a depth and variety to the discussion.
- To encourage student-centric learning, classroom discussions are used where students are made to interact with faculty to get help and understand the subject in more detail.
- These discussions are also used to focus on the latest developments in the area and to motivate students to pursue research in that specific field.

Advantages:

- ✓ Every student will learn beyond the syllabus which improves course knowledge along with advancements and applications of topic
- ✓ Discussion with faculty improves communication skills and knowledge

3. Active and Collaborative Learning:

This pedagogical learning is mainly based on team work. Students are often asked to work in groups of 2-3 on the given activities in class. Collaborative learning activities are a conscious choice and its benefits are several: students practice collaborating with peers, help each other to construct new knowledge by bouncing ideas and leveraging each other's strengths or by sharing new concepts. Activities that fit especially well with collaborative learning strategies are open-ended problems.

Some of the methods which are implemented by the faculty are summarized below.

Sl.No	AY	Name of the faculty	Year / Sem	Subject	Activity	Topic
1	2020-21	Ms.T.Sushma	III/I	Renewable Energy Sources	Think Pair Share	Hydro Power Plants
2		Mr.K.Chiranjeevi	IV/I	Switch Gear & Protection	STAD	Static Relays
3	2019-20	Dr. K. Durga Shyam Prasad	II/I	Electrical Machines-1	Think Pair Share	DC machine Principle of Operation
4		Dr. Akanksha Mishra	IV/II	HVDC Transmission	STAD	Modern trends in DC transmission
5	2018-19	Dr. K. Durga Shyam Prasad	II/I	Electrical Machines-1	STAD	Swinburne's Test on DC shunt Motor
6		Mr. K. Vamsi	IV/I	Electrical Distribution Systems	Think Aloud Pair Problem Solving (TAPPS)	Types of substations
7	2017-18	Mr.P.V. Sarath	II/II	Control Systems	STAD	Root Locus
8		Mr. K. Vamsi	IV/I	Electrical Distribution Systems	Think Pair Share (TPS)	Comparison of Shunt and Series capacitors for Power Factor Improvement

Table B: 2.2.1.c: Active learning methods

a). Student Teams Achievements Division (STAD)

Course: HV DC Transmission

Topic: Modern trends in DC transmission

Facilitator: Dr. Akanksha Mishra

Collaborative learning:

Collaborative learning is an important technique for solving a given problem, creating a product, or completing a task in a creative teaching and learning environment.

Goals:

- Participation of students in unique discussions
- Encourage transparency during learning
- Boost the potential of individual learning
- Knowledge of different learning environments
- Encourage learning out of class and so on.

Outcomes:

At the end of the activity, students are able to

- Share thoughts and suggestions.
- Promotes peer knowledge.
- Strong class involvement.
- Measuring the results.
- Improves communication Skill.

Implementation process:

Initially, faculty gave brief idea about the STAD activity to all the students for the duration of 50 min. The findings of the exercise should be conveyed to all students. In addition to the operation, faculty explained the basics involved in the assigned tasks as set out in the following schedule.

Sl. No.	Activity	Duration
1.	Interaction session by educator	50 min (1 session)
2.	Making Teams, Sources of information	50 min (1 session)
3.	Activity (1 session) Collaborative learning	50 min (1 session)
4.	Presentation	50 min (1 session)
5.	Quiz and Discussion	50 min (1 session)
Total Sessions		5 Sessions

- The procedure followed for the implementation of collaborative activities Basic information on the topic in question was given at previous sessions
- Heterogeneous teams have been set up based on their styles. Similar learning style students have been grouped. A strong global learner in a team has been identified as a manager

- A full session was arranged for students to learn the topic from the suggested textbooks, journals, web resources, etc.
- The student's success was measured individually and as a group in both formative and summative ways.
- Individual quiz (viva-voce) and group quiz were conducted for summative assessment.
- Every individual has been asked three questions 3 Marks
- Each team was asked five questions – 5 Marks
- Attempts made to keep the discussion going on & Motivation to nonparticipating members:
- Observe all teams whether the discussion is going in the right direction

Figure B: 2.2.1.b: Student Teams Achievements Division

b).Think Aloud Pair Problem Solving (TAPPS)

Course: Electrical Distribution Systems **Topic:** Types of substations

Facilitator: Mr. K. Vamsi, Assistant Professor

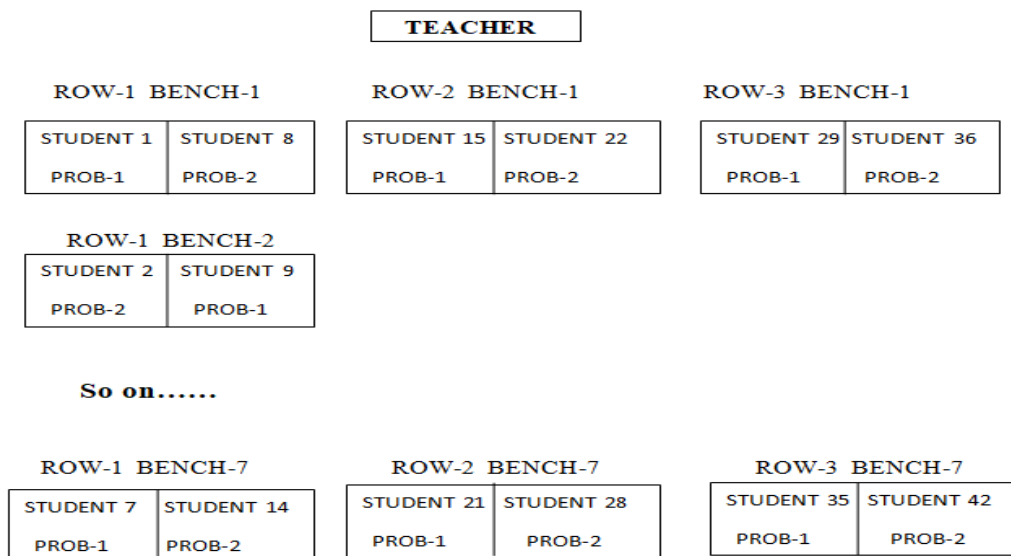

Teaching Methodology	TAPPS
Class	IV EEE-B; Sem-I
Date	18-7-19
Time	10:50 to 012:30PM

The main part of the activity is how the activity is been performed. The activity taken for active learning to happen is “TAPPS”

Implementation process:

The activity is implemented to analyze the problems thoroughly in Electrical Distribution Systems course. In this activity the students are formed in pairs. As the strength of the class is 42, total 21 pairs are formed. The problems are shared as a presentation to the whole class.

Each pair has an “Explainer” and a “Questioner”. The explainer explains the problem solution to his partner. Later on, the pairs explain the solution of the problem to the whole class to share their solution. By using this dynamic class room activity problem solving skills are enhanced. The following figure shows the seating arrangement for the activity.

**PROBLEM 1:**

Consider the single phase radial distributor shown in the following Fig.. The magnitude of load currents, p.f.s and distances are indicated in the figure. The resistance and reactance of each wire are 0.1Ω per km and 0.2Ω per km respectively. It is required to maintain voltage at point B as $230 \angle 0$ Volts. Find voltage drop in the three sections and total voltage drop in the feeder. The p.f. angles of individual loads are w.r.t. voltage at point B.

PROBLEM 2:

Consider a three phase, 3 wire 240V secondary system with balanced loads at A, B and C as shown in following Figure. Determine: (i) The voltage drop in one phase of lateral (ii) The real power per phase for each load (iii) The reactive power per phase for each load

**Reflections:**

- After end of the activity, various problem-solving measures and general mistakes students do were discussed
- Two complicated problems can be solved using TAPPS activity in just 20-25mins. But, using traditional method only one problem can be solved within the time.
- Very good response from the students on the activity and observed maximum number of students actively participated. Even many students wanted to solve more problems using this activity.
- Necessary inputs had been given as and when required while solving the complex problems.

Figure B: 2.2.1.c: Implementation of TAPPS strategy

Impact analysis:

- Every student involved in the activity
- Communication of students improves
- Problem-solving skills are improved

c). Think Pair Share Activity (TPS)

Think-Pair-Share (TPS) is a collaborative learning strategy where students work together to solve problems or answer a question about assigned reading. This technique requires students to think individually about the topic or answer a question, and share ideas with colleague students. Discussing responses with peers serves to maximize participation, direct attention, and engage students in reading comprehension.

Faculty: Mr. K. Vamsi

Course: Electrical Distribution Systems

Topic: Comparison of Shunt and Series capacitors for Power Factor Improvement (CO 5)

Activity: Think Pair Share

Class: IV-I, EEE-B (2015 admitted batch)

Academic Year: 2018-19

Process for the activity:

Think phase: The instructor poses a question, such as “Write about Shunt and Series capacitors”. The students work individually on the task, for about ten minutes.

Pair phase: The instructor gives a task related to the Think phase, such as check your neighbor’s solution, or work with your neighbor to write the detailed report on the given topic. The students work with one of their neighbors to complete the task, in five to ten minutes. The instructor walks along the aisles, encouraging discussion and answering queries.

Share phase: The instructor facilitates a class-wise discussion on the topic in the share phase. Students’ responses in the Think and Pair phases formed an important part of the discussion in this phase.

Objectives

- To activate student’s prior knowledge
- To Enhances oral communication skills
- To make students active learners

Outcomes:

- Identify various feasible solutions for the given problem
- Summarize the concepts learnt from digital media

- Demonstrate the findings effectively with other peers and criticize the other conclusions.

4. Seminars:

Through Seminars, students are encouraged to innovate and come up with new ideas.

- Students are motivated to give seminars on contemporary topics related to the course.
- The discussion among students is improved.
- Student seminars are witnessed by the faculty for giving a critical assessment.
- Seminars not only develop the knowledge of the students in the latest areas but also help them in improving their communication skills and presentation skills.

Figure B: 2.2.1.d: Seminars by Students

5. Laboratory instruction:

- This involves faculty members giving instructions on laboratory exercises in the laboratories where students learn by of hands-on experience.
- Faculty members give demo on the experiments and usage of laboratory equipment in detail. Students are instructed to give the connections on their own and perform the experiment as a team.
- This mode of delivery is very effective. It creates student-centric learning environment.
Hence the students learn concepts by correlating theory & lab experiments.

Figure B: 2.2.1.e: Instructions in Electrical Machines-I Lab

6. Technology enabled learning

21st century revolution in the ICT obliges the teachers and students to keep themselves abreast of the-state-of-the-art of technological development. The deployment of e-learning in teaching-learning process is imperative since the technology is embedded in almost all walks of our life. ICT encapsulates media such as audio, video, pictures, animation, graphics, internet and other software packages.

The use of technology to teach students has gained attention in the recent past. The process of dissemination of information and elicit response from students is a huge task. We adopted the following three technologies used to teach students.

Google Apps:

Sharing lecture notes and PPT through Google drive

- Conducting Online assessments through google forms
- Outcome: It is a collaborative platform for students in which students and instructors share their material online.

Smart Phones:

- Provides easy way to serve the students during the class. It is a good method for instant polling, which can quickly assess student understandings and helps instructors to change teaching modalities.

ICT Technology Classroom:

- ICTs are making dynamic changes in society. They are influencing all aspects of our life. Because ICTs provide both students and teachers with more opportunities in adapting learning and teaching to individual needs, society is forcing institutes aptly respond to this technical innovation.

- Offer the opportunity for more student-centered learning, provide greater opportunity for teacher-to-teacher and student-to-student communication and collaboration.
- Give greater exposure to vocational and workforce skills for students; provide opportunities for multiple technologies delivered by teachers.

Use of Learning Management Tools

The department of EEE uses LMS tools such as Moodles, Virtual Labs etc., to make the students submit their assignments, learn online and implement the experiments to gain knowledge about the concepts learnt in the class. Recently, Google Classroom, MS Teams, Zoom have been utilized by the faculty to teach the courses.

A massive open online course (MOOC) courses aims at providing high quality study materials to student/faculty community worldwide. The MOOC courses offered by Course-era, edX, NPTEL are of high standards. The students are clustered in a group based on their MOOC course interest and the provider. Students are encouraged to complete a MOOC certification to acquire in depth knowledge. The response of students to MOOC course was minimal.

- **MOODLES:** We organize all the material and syllabi of the course, assignments, readings and online quizzes etc.

Outcome: Material is easily accessible to all the students and it reaches to all the students including absentees.

Dissemination of Content through Course Websites:

The faculty members are self-motivated to create course websites to make available of the course content like syllabus, course delivery plan, lecture notes of all units and previous question papers. This facility helps the students to learn more in less time. As an educator we need to be very particular in inducting content to the learners in short span of time.

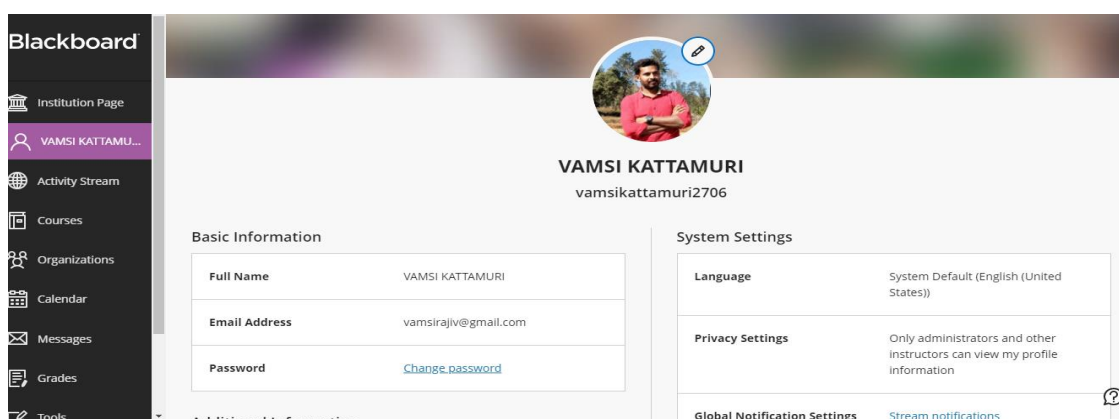

Figure B: 2.2.1.f: Course Website <https://blackboard.coursesites.com/ultra/profile>

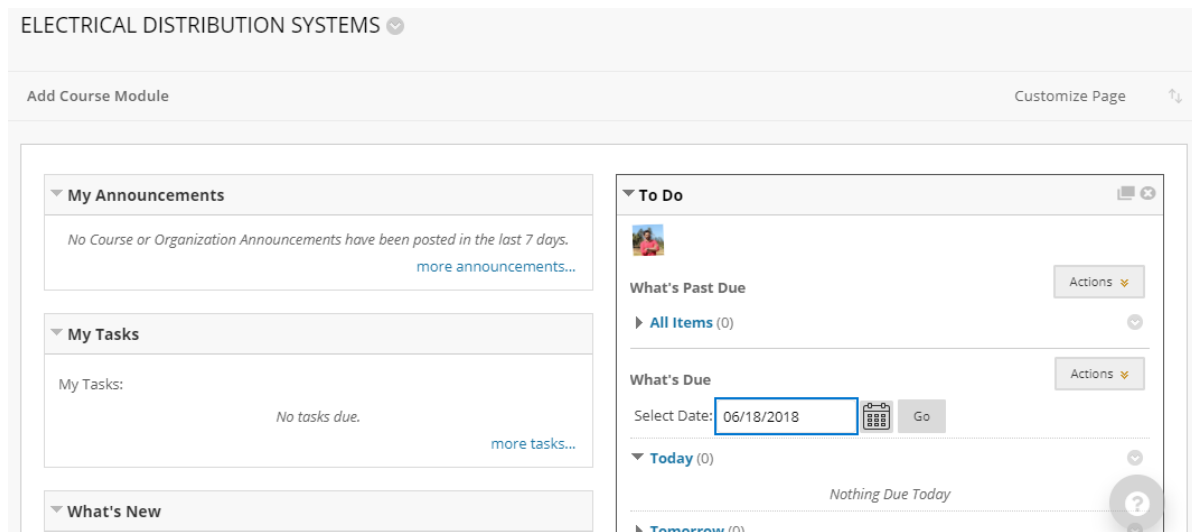

Figure B: 2.2.1.g: A Sample of Course Content in the Course Website

We also a website: <https://sites.google.com/view/vieweee/>

In which the data related to all courses of all semesters is maintained. It has syllabus, lecture plans, unit materials, and assignment questions, mid question papers after the exam and university previous question papers. All the students from department of EEE can access it.

Instruction Delivery through Course Websites

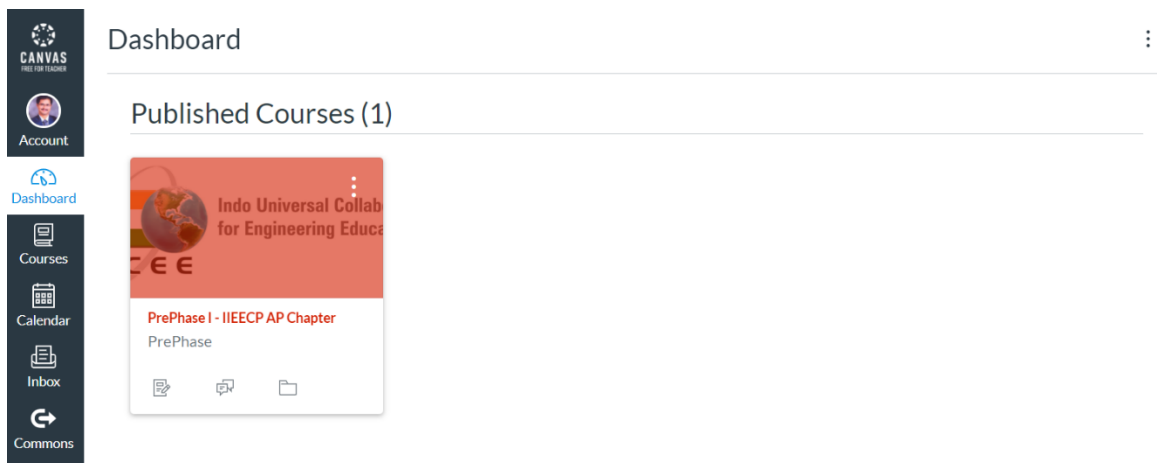

Figure B: 2.2.1.h: Content Delivery using Canvas LMS Tool

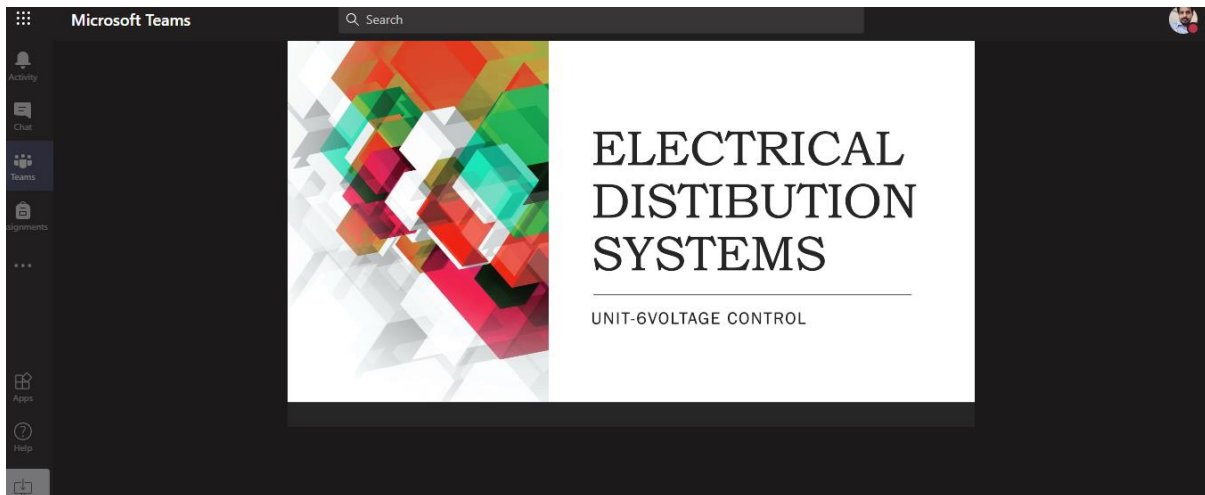

Figure B: 2.2.1.i: Content delivery using Microsoft teams

Technology enabled learning was evaluated by asking assignments and quizzes from MOOC materials. Furthermore, extra credits were given to students who completed MOOC courses with good grades. Microsoft teams' service offered by Microsoft is effective in achieving technology enabled learning. Microsoft teams combines the services offered by One Drive for storage, MS word, sheets and slides for writing, Outlook mail for electronic mail and calendar for maintaining schedules. An exclusive folder is created for each class in the corresponding user's One Drive where the student can submit their work for teacher's grading. Sharing of files, conducting assignments quizzes, grading/commenting assignments with respect to prompt sub-mission and content becomes easy with Microsoft Teams. Mobile version of MS Teams helps in quick access. Teachers can monitor student's progress and can assign grades and provide comments for the assignments.

Massive Open Online Courses (MOOCs)

JNTUK implements Massive Open Online Courses (MOOCs) with emerging technology to survive the motto of excellence. "If you can't reach to the mentor's level, we'll send the mentor to your level" is the main motto of MOOCs. The students were given choice that either they can take online course, or they can go for a traditional face to face mode in the classroom. Any student can attend the MOOCs classes without disturbing the normal face to face classroom schedules.

Methodology:

- Students Need to login into MOODLES software using their mail IDs during time slot given by JNTUK.
- Students listen to video classes and discuss with the subject experts.

Sl. No.	Academic Year	Name of the Faculty	Year/ Sem	Course	No. of Students Participated	Relevance to POs/PSOs
1	2017-18	Mr. R S Ravi Shankar	II-I	Electrical Machines-I	117	PO1-PO4, PSO1, PSO2
2	2017-18	Mr. R S Ravi Shankar	II-II	Electrical Machines-II	117	PO1-PO4, PSO1, PSO2

Table B: 2.2.1.d: MOOCs Activities

Outcomes of Technology Enabled Learning (TEL):

- Learning from experts.
- Updating the knowledge of Internet.
- Solving problems by ICT methods.
- Improving lifelong learning skills.
- Experts deliver better understanding of the subject in their domain.

Significance of results & reflective critique:

- Offer the opportunity for more students-centered teaching.
- Provide greater opportunity for teacher-to-teacher and student-to-student communication and collaboration.
- Give greater exposure to vocational and workforce skills for students.
- Provide opportunities for multiple technologies delivered by teachers.
- Create greater enthusiasm for learning amongst students.
- Provide teachers with new sources of information and knowledge.
- Prepare learners for the real world.

C. Methodologies to Support Weak Students and Encourage Bright Students (4)

The bright students are identified from their participation in classroom discussion, performance in the assessment tests and participation in classroom seminars, questioning ability and University result analysis. The Department appoints one faculty counselor for every 20 students while entering the second year. The counselors regularly conduct meetings regarding progress of their mentees and are responsible to identify students who scored less than 60% marks in their internals. Under the HOD direction, the student counselors identify the weak students who score below 60% marks in three or more courses in MID-I, MID-II & external examinations and the same is intimated to their parents. The department of EEE supports backlog students and weak students identified through counseling by conducting remedial classes during semester break. The faculty helps the students by teaching the

essential concepts, giving assignments and conducting tests to improve the student.

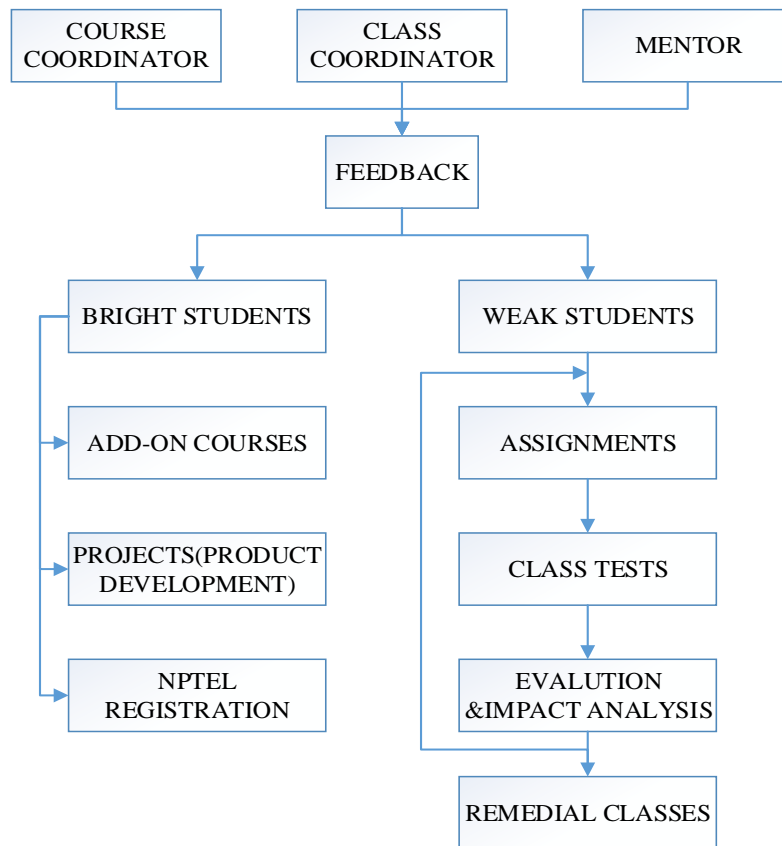

Figure B: 2.2.1.j: Process to identify weak & bright students

i) Methodologies to support weak students:

There is a streamlined mechanism for continuous monitoring and evaluation of the students. This system helps to identify slow and advanced learners. Subsequent programmes are designed to cater to their special needs.

After identifying slow learners.

- The student is asked to meet the counselor once in every week to develop interaction and discuss their problems. Even their financial background, health issues, the reasons for their irregularity or any other problems are discussed in a very amicable manner to sort out their problems through counseling and hence improve their academic performance.
- The Faculty Counselor establishes a close relationship with each student and orients them to college practices, and monitor their progress (e.g., with at least fortnightly/monthly meetings) and guides them throughout the four-year course.
- Remedial classes are conducted for weak students after the college hours i.e., 3 P.M. to 5 P.M. depending on the requirement.
- Separate assignments and materials are given to weak students.

Identification Criteria	Actions taken
Students scoring less than 60% of marks in Internal and External Assessment.	<ul style="list-style-type: none"> • Student counselor follows their progress regularly advising students about attending classes, making up classes missed, and getting additional help. • Conduction of remedial classes • Providing separate fast track material
Diploma students who are late joined	<ul style="list-style-type: none"> • Conduction of remedial classes and extra classes
Students who fail in semester exams	<ul style="list-style-type: none"> • Allotting separate faculty for each subject • Conduction of extra classes to those who failed in previous semester subjects.

Remedial class for weak students and improvement:

Our department is having practice of conducting remedial classes for weak students to cope-up with remaining students. The students who cleared backlogs due to remedial classes

Sl. No.	Regd. No	Backlog Subject	Remedial Class Counselor	Cleared with grade

Table B: 2.2.1.h: Sample remedial class timetable for IV year -I Sem weak students

ii) Methodologies to encourage bright students:

- Department encourages the bright students to participate in the national level technical competitions organized by other premier institutes and universities.
- The bright students are motivated to participate in Unnat Bharath Abhiyan (UBA) and NSS Activities.
- Bright students' services used as volunteers for campus recruitment drives

- Institute insists and encourages students to bring out Technical Articles / Papers at the end of final year project so that they are exposed to Technical Paper writing skills, peer reviews, plagiarism and research ethics.
- The students are also encouraged to use latest software tools for the analysis of experimental data collected/acquired from real time applications.
- Financial aid is given to the students who secured good ranks in university exams.
- Advanced learners are acting as mentors for slow learners.
- Separate books and journals are provided for advanced learners to gain more knowledge.
- Students are encouraged to do NPTEL courses in thrust areas like IoT, Artificial Intelligence, Big Data. Management encourages students with cash incentives who secured Silver, Elite, Gold.
- GATE classes and CRT training will be conducted for advanced learners

GATE classes for bright students:

D. Quality of Classroom Teaching (3)

Vignan's Institute of Engineering for Women is one of the premier engineering colleges in Visakhapatnam which has an adequate number of classrooms designed as per international standards to ensure effective teacher-student interaction. The lecture hall has been designed with comfortable seating arrangement with ample space and ventilation for relaxed, comfortable and stress-free teaching-learning environment. To enhance the communication between student and teacher, modern teaching aids are equipped which encourage the students in an atmosphere where learning is more fun than a burden.

Our institute is very particular in maintaining quality of teaching in the classroom. Every faculty in our institute is trained to deliver the content in the classroom by adopting following procedures.

Step 1: Create an outline:

- ✓ What is the main goal for the lecture?
- ✓ Create 3-5 objectives for the lecture: These will describe how the teacher help the learner reach the goal
- ✓ Create an outline for the key concepts required to understand these objectives
- ✓ Create a timeline for the session

Step 2: Create a timeline:

As per our class timetable, every session is planned for 50 minutes.

Time	Activity
5 mins	Revision of previous class content
5 mins	Formative Assessment (2-3 questions on previous class)
15 mins	Delivery of new content / slides
5 mins	Interactive questions

15 mins	Continuation of the content / slides
5 mins	Review / Questions / Summary of the sessions
50 mins	End promptly

Step 3: Slides preparation:

- ✓ For a 50 minutes lecture, plan no more than 20 slides
- ✓ PPT will contain the following
 - Font size for body text is 20 to 32
 - Provide an outline slide
 - Use short phrases
 - More graphics, less text
 - Move tables and dense text to a separate handout

Step 4: Be confident

- ✓ Talk to the students, not to the slides / blackboard
- ✓ Make eye contact with the students in different parts of the classroom
- ✓ Talk clearly, not too fast, not too slow
- ✓ Use humor judiciously. Keep it professional.

Step 5: Provide links for web content**To improve quality of teaching, the following steps are taken by the faculty:**

- Quality of content: The lecture delivered by the faculty is monitored by the experts in advance and necessary suggestions are given.
- Effectiveness of the content: At the end of every class, faculty poses questions to test the students to find how far the content is understood by each student.
- Each class has a class monitoring committee comprises of class coordinator, senior faculty member and class representative to take the feedback of classes.
- Technology in class: Every faculty opts technology aided methods along with chalk and board method like using advanced tools and NPTEL lectures.
- Students are encouraged to take some of the lab experiments as assignments to enhance their research skills.

Impact: As the department follows effective classroom teaching, more than 85% of students are graded as A in university exams, Institute always stood first in university exams for 5 years

The following are illustrative phrases that might be attached to the stem of an instructional

objective, grouped in six categories according to the knowledge levels which include:

- | | |
|------------------|-----------------|
| 1. Knowledge | 4. Analysis |
| 2. Comprehension | 5. Synthesis |
| 3. Application | 6. Evaluations. |

It is a regular practice in our institution to prepare CDP (Course Delivery Plan) before the commencement of the class work to the courses handled by the individual faculty taking the guidance from the course coordinator. The CDP comprises of the entire plan for the course, learning objectives specified for each unit, course outcomes and CO-PO mapping. The CDP is prepared inharmonious to the university academic calendar.

The sample CDP for the course “Power Electronic Controllers & Drives” is given below:

	VIGNAN'S INSTITUTE OF ENGINEERING FOR WOMEN <i>Approved by AICTE, New Delhi, Affiliated to JNTU Kakinada</i>
	Kapujaggaraju Peta, VSEZ(post), Visakhapatnam-530049,AP

COURSE DELIVERY PLAN –THEORY

DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING			T: 3+1
PROGRAM (UG/PG) : EEE			P: 0

Sl.No.	Course Objective
1	To learn the fundamentals of electric drive and different electric braking methods
2	To analyze the operation of three phase converter-controlled dc motors and four quadrant operation of dc motors using dual converters.
3	To discuss the converter control of dc motors in various quadrants
4	To understand the concept of speed control of induction motor by using AC voltage controllers and voltage source inverters
5	To learn the principles of static rotor resistance control and various slip power recovery schemes.
6	To understand the speed control mechanism of synchronous motors

Course Code (C309)	Course Outcome	Action Verb	BTL
C309.1	Appraise the fundamentals of electric drive and different electric braking methods.	Evaluate	K4
C309.2	Analyze the operation of three phase converter-controlled dc motors and four quadrant operation of dc motors using dual converters.	Evaluate	K4

C309.3	Examine the converter control of dc motors in various quadrants.	Evaluate	K4
C309.4	Demonstrate the concept of speed control of induction motor by using AC voltage controllers and voltage source inverters	Evaluate	K3
C309.5	Analyze the principles of static rotor resistance control and various slip power recovery schemes.	Evaluate	K4
C309.6	Examine the speed control mechanism of synchronous motors	Evaluate	K3

Unit-I: Fundamentals of Electric Drives

Electric drive – Fundamental torque equation – Load torque components – Nature and classification of load torques – Steady state stability – Load equalization – Four quadrant operation of drive (hoist control) – Braking methods: Dynamic – Plugging – Regenerative methods.

Objective: To learn the fundamentals of electric drive and different electric braking methods

S.No	Topics to be covered	Reference	Teaching Aids
1	Brief overview of Electric Drives, Block diagram of ED	T.B: 1- Ch:01 Page No: 01-09	Chalk & Board
2	Fundamental torque equation – Load torque components	T.B: 1- Ch:02 Page No: 11,12-18,19	Chalk & Board
3	Nature and classification of load torques	T.B: 1- Ch:02 Page No: 19-20	Chalk & Board
4	Steady state stability – Load equalization	T.B: 1- Ch:02 Page No: 23-27	Chalk & Board
5	Four quadrant operation of drive (hoist control)	R.B: 3- Ch:15 Page No: 647-648	PPT
6	Braking methods: Dynamic – Plugging – Regenerative methods.	R.B: 3- Ch:15 Page No: 645-647	Chalk & Board
Content beyond syllabus covered (if any):			
Course Outcome (CO1): Appraise the fundamentals of electric drive and different electric braking methods.			

* Session duration: 50 mins

Unit-II: Three phase converter-controlled DC motors

Revision of speed control techniques – Separately excited and series motors controlled by full converters – Output voltage and current waveforms – Speed-torque expressions – Speed-torque characteristics – Numerical problems – Four quadrant operation using dual converters.

Objective: To analyze the operation of three phase converter-controlled dc motors and four quadrant operation of dc motors using dual converters.

S.No	Topics to be covered	Reference	Teaching Aids
1	Speed control techniques of DC motors	T.B: 1- Ch:05 Page No: 87-89	Chalk & Board

2	Separately excited and self-excited DC motors controlled by 1-phase half-controlled converter	T.B: 1- Ch:05 Page No: 107-111	Chalk & Board
3	Separately excited and self-excited DC motors controlled by 1-phase full controlled converter	R.B: 3- Ch:15 Page No: 656	PPT
4	Output voltage and current waveforms	T.B: 1- Ch:05 Page No: 99-101	Chalk & Board
5	Speed-torque expressions – Speed-torque characteristics	R.B: 3- Ch:15 Page No: 659	Chalk & Board
6	Four quadrant operation using dual converters.	T.B: 1- Ch:04 Page No: 114-118	TPS

Content beyond syllabus covered (if any):

Course Outcome (CO2) Analyze the operation of three phase converter-controlled dc motors and four quadrant operation of dc motors using dual converters.

* Session duration: 50 mins

Unit-III: Control of DC motors by DC–DC converters (Type C & Type D)

Single quadrant – Two quadrant and four quadrant choppers fed separately excited and series excited motors – Continuous current operation– Output voltage and current waveforms – Speed–torque expressions – Speed–torque characteristics –Four quadrant operations – Closed loop operation (Block diagrams only).

Objective: To discuss the converter control of dc motors in various quadrants.

S.No	Topics to be covered	Reference	Teaching Aids
1	Single quadrant – Two quadrant chopper fed separately excited and series excited motors	R.B: 3- Ch:15 Page No: 668	Chalk & Board
2	Four quadrant choppers fed separately excited and series excited motors	T.B: 1- Ch:05 Page No: -69-71	Chalk & Board
3	Continuous current operation– Output voltage and current waveforms	T.B: 1- Ch:05 Page No: 72	Chalk & Board
4	Speed–torque expressions – Speed–torque characteristics	T.B: 1- Ch:05 Page No: 73	Chalk & Board
5	Four quadrant operations	R.B: 3- Ch:15 Page No: 669	PPT
6	Closed loop operation (Block diagrams only)	T.B: 1- Ch:05 Page No: 103	Chalk & Board

Content beyond syllabus covered (if any):

Course Outcome (CO3): Examine the converter control of dc motors in various quadrants

* Session duration: 50 mins

Unit-IV: Induction motor control – Stator side

Variable voltage characteristics–Control of Induction Motor by AC Voltage Controllers – Waveforms –Speed torque characteristics– Variable Voltage Variable Frequency control of induction motor by voltage source inverter –PWM control – Closed loop operation of induction motor drives (Block Diagram Only).

Objective: To understand the concept of speed control of induction motor by using AC voltage controllers and voltage source inverters.

S.No	Topics to be covered	Reference	Teaching Aids
1	Variable voltage characteristics	T.B: 1- Ch:06 Page No: 140	Chalk & Board
2	Control of Induction Motor by AC Voltage Controllers – Waveforms	R.B: 3- Ch:16 Page No: 701-703	Chalk & Board
3	Speed torque characteristics	T.B: 1- Ch:06 Page No: 183	Chalk & Board
4	Variable Voltage Variable Frequency control of induction motor by voltage source inverter	T.B: 1- Ch:06 Page No: 186-188	Chalk & Board
5	PWM control	T.B: 1- Ch:06 Page No: 192	Chalk & Board
6	Closed loop operation of induction motor drives (Block Diagram Only).	R.B: 3- Ch:16 Page No: 721	Chalk & Board
Content beyond syllabus covered (if any):			
Course Outcome (CO4): Demonstrate the concept of speed control of induction motor by using AC voltage controllers and voltage source inverters.			

* Session duration: 50 mins

Unit-V: Control of Induction motor – Rotor side

Static rotor resistance control – Slip power recovery schemes – Static Scherbius drive – Static Kramer drive – Performance and speed torque characteristics – Advantages –Applications.

Objective: To learn the principles of static rotor resistance control and various slip power recovery schemes.

S. No	Topics to be covered	Reference	Teaching Aids
1	Static rotor resistance control	T.B: 1- Ch:06 Page No: 216-217	Chalk & Board
2	Slip power recovery schemes	R.B: 4- Ch:34 Page No: 926	Chalk & Board
3	Static Scherbius drive	T.B: 1- Ch:06 Page No: 219-221	Chalk & Board
4	Static Kramer drive	T.B: 1- Ch:06 Page No: 221-223	Chalk & Board
5	Performance and speed torque characteristics	T.B: 1- Ch:06 Page No: 229	Chalk & Board
6	Advantages –Applications of control of Induction Motor	T.B: 1- Ch:06 Page No: 230	Chalk & Board
Content beyond syllabus covered (if any):			
Course Outcome (CO5): Analyze the principles of static rotor resistance control and various slip power recovery schemes.			

* Session duration: 50 mins

Unit-VI: Control of Synchronous Motors

Separate control & self-control of synchronous motors – Operation of self-controlled synchronous motors by VSI– Closed Loop control operation of synchronous motor drives (Block Diagram Only) – Variable frequency control– Pulse width modulation.

Objective: To understand the speed control mechanism of synchronous motors

S. No	Topics to be covered	Reference	Teaching Aids
1	Separate control & self-control of synchronous motors	T.B: 1- Ch:07 Page No: 244	Chalk & Board
2	Operation of self-controlled synchronous motors by VSI	R.B: 4- Ch:34 Page No: 937	Chalk & Board
3	Closed Loop control operation of synchronous motor drives (Block Diagram Only)	R.B: 3- Ch:16 Page No: 745	Chalk & Board

The faculty for the allotted course maintains a course file that includes:

Department Mission, Vision	Question Bank (unit-wise)
Program outcomes	Multiple Choice Questions
Course syllabus	Tutorial Topics/Problems
Course outcomes	Topics beyond Syllabus
CO-PO Mapping	PPT's/videos/other materials
University Academic Calendar	Internal question papers & scheme
Department Academic Calendar	Assignment Questions
CDP	University old question Papers
Course Timetable	Gap Analysis
Lecture Notes	Remedial Classes to weak students

E. Conduct of Experiments (3)

As practical knowledge is equally important along with theory, the department has well-equipped laboratories to provide adequate knowledge to every student.

The Laboratory experiments are conducted through the following measures:

- i. Sufficient number of equipment is available in the lab for conducting the lab session.
- ii. All the equipment is maintained in good working condition.
- iii. Lab technicians are technically sound and they are responsible to verify the readiness of the lab before commencement of the lab session.
- iv. Every student is provided with equipment on 1:4 ratio which ensures quality of laboratory experience.
- v. Manuals are provided for all experiments before the commencement of the lab sessions.
- vi. The concept of the experiment to be conducted is thoroughly explained in the lab
- vii. Same experiment is done by all the students in a lab session.
- viii. Faculty member ensure that every student is involved in carrying out experiment and obtaining the correct results.
- ix. Simultaneously, faculty also monitors the attitude and behavior of the students and same is recorded in attendance register.
- x. We do include some experiments as content beyond the syllabus to meet the needs of the industry.
- xi. Collaborative learning strategy is adopted to carry out some experiments
- xii. Viva-voce is conducted after each lab session.

F. Continuous Assessment in the Laboratory (3)

For internal evaluation, a total of 25 marks are sub-categorized to 10 marks for day-to-day evaluation, 10 marks for an internal exam and 5 marks for record work. Effective assessment is done by defining the rubrics.

i) Rubric for day-to-day evaluation of laboratory:

The rubric for day-to-day evaluation is designed based on student technical skills, laboratory skills, interpersonal skills and regularity. The rubric for a lab session is designed to assess the student's

Technical Skills:

1. The student has prior preparation for the current experiment or not?
2. The student has experiment knowledge to interpret the results or not?
3. Does the student participate in experiment or not?
4. Interpersonal Skills.
5. Time management: Ability to complete the task in stipulated time
6. Communication skills: Ability to explain the obtained results.

Continuous assessment for R19 is given for 5 marks. Sample copy for continuous assessment is given above and averaged for 5 marks. While continuous assessment R16 is given for 10 marks. Sample copy for continuous assessment is given above and averaged for 10 marks.

To maintain regularity to the lab, 2 marks are allotted to student's regularity.

Laboratory skills: Student's lab performance during the lab.

Faculty In-charge monitors

- Pre-preparation: Student's prior preparation to the current experiment
- Experiment knowledge: Student's concept about the experiment.
- Interpersonal Skills: Teamwork and Communication skills
- Subsistence: Time management, Punctuality, Attendance.

Rubric sheet for day-to-day evaluation of laboratory:

Name of the Lab		Date	
Name of the Student		Regd. No.	
Name of the experiment		Max. Marks	

Metrics/ Attributes	Allotted Marks	Excellent	Good	Average/Needs Improvement	Score
Initial preparation	10 Marks	Suffice knowledge on the basic concepts to conduct the experiment.	Good knowledge to conduct experiment Correlation to the theoretical concept is missing.	No basic knowledge	
		8-10 M	4-6M	0-2M	
Circuit connections And output	10 Marks	Conducted the experiment with correct output.	Connections are correct with incorrect output.	Conducted experiments with errors	
		8-10 M	4-6M	0-2M	
Observation	10Marks	Calculations, theory and graphs are presented well.	Mistakes in calculations and graphs and write-up is correct	Calculations and graphs not written well	
		8-10 M	4-6M	0-2M	
Lab record	10 Marks	Writing of record with Graphs and model calculations 8-10M	Good presentation but mistakes in graphs 4-6M	Errors in model calculations 0-2M

Average					

Table B: 2.2.1.m: Rubric sheet for day-to-day evaluation of laboratory**G. Student Feedback of Teaching-Learning Process and Actions Taken (6)**

Feedback for every course is collected in every semester within a month after starting of the semester. Feedback is analyzed and necessary action will be taken as mentioned below.

Feedback collection process:

Based on the following parameters mentioned below, students are asked to evaluate. Each faculty member is assessed with parameters mentioned in the figure 2.2.1.k and 2.2.1.l .

Actions taken: Based on these parameters, the percentage of feedback is given for every faculty member (out of 100%). If the feedback is less than 70%, the faculty member is asked

to give an explanation letter to the head of the institution. If required, faculty development programs are organized. Institute and Department level appreciations are given for the best feedback, which leads to employee satisfaction and motivates for future betterment.

A sample format of the student feedback form is as follows in Figure B: 2.2.1.c and a sample feedback evaluation sheet in Figure B: 2.2.1.d

3	2017-18	II EEE A/B - II	STLD	V.Kalyani	K.Vamsi

Table B: 2.2.1.o: List of faculties whose course is changed due to poor feedback

2.2.2. Quality of Internal Semester Question Papers, Assignments and Evaluation (20)

A. Process for Internal Semester Question Paper Setting and Evaluation and Effective Process Implementation (5)

Paper Setting:

- In accordance with the JNTUK curriculum there will be two internal examinations for every semester. Each internal examination comprises of 50% of the syllabus covered (Mid Term – I First 50%; Mid Term II – Second 50%).
- Every internal semester question paper should have 3 questions covering the respective Mid Term syllabus carry 5 marks per each question comprising 15 marks for each Mid Term assessment.
- Course coordinator will ensure the correlation of syllabus coverage in accordance with the questions used to assess the student's knowledge level with respect to the course outcomes.
- The key responsibility of the course coordinator is to examine the question papers & scheme of valuation prepared by the faculty for the coverage of course outcomes and knowledge levels of the questions in accordance with the revised blooms taxonomy action

verbs.

- Upon course coordinator's inspection two sets of such confidential internal question papers and scheme of valuation with the above guidelines will be sent for the approval of IQAC.
- Further IQAC report will be forwarded to the course coordinator through the Principal and Program Coordinator which may include improvements if necessary.
- If the IQAC report is satisfactory for the Principal & Program Coordinator then one set drawn randomly by the Institute Head/Program Coordinator will be sent to the examination cell for further execution an hour before the commencement of the examination.

Paper Evaluation & effective process implementation:

- After successful completion of concerned Mid Term examinations, the confidential papers will be given to the faculty for evaluation in accordance with scheme prepared.
- Upon completion of the evaluation, the corrected scripts will be scrutinized by another faculty randomly for cross verification to ensure evaluation process.
- Post scrutiny process, the evaluated answer scripts will be circulated among the students for transparency of the evaluation process and the concerned queries will be addressed by faculty/course coordinator if any.
- All the student's will be addressed about the knowledge levels and the respective course outcomes attained.
- The consolidate list of marks obtained in the respective Mid Term will be sent to the notice boards, examination cell and course coordinator for attainment calculations.
- Students attained less marks will be counseled and the respective remedial classes will be arranged where ever it is necessary through the counseling report remarks.

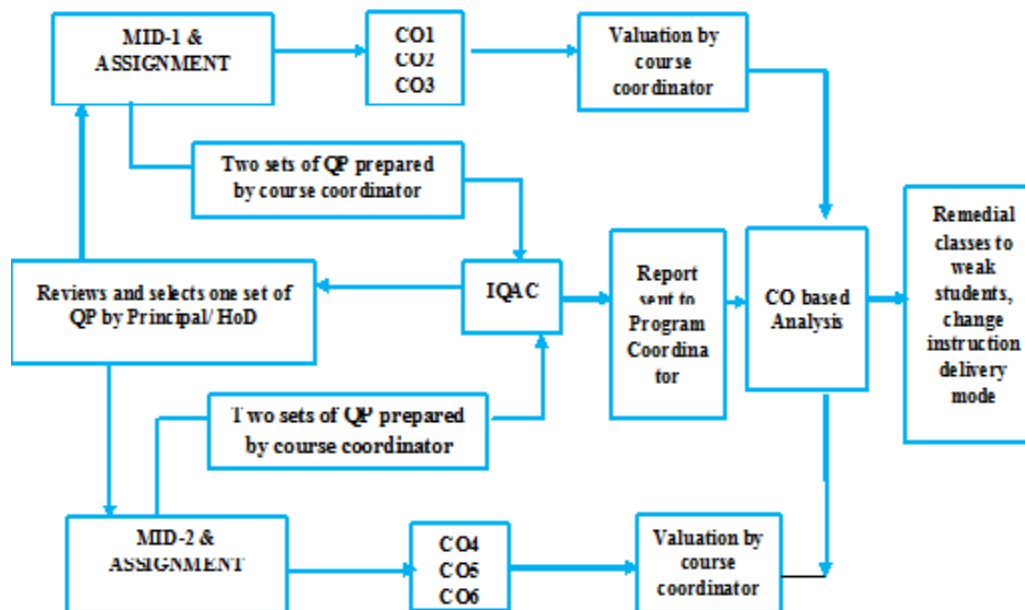

Figure B: 2.2.2.a: Process for Internal Examination evaluation & assessment

B. Process to Ensure Questions from Outcomes/Learning Levels Perspective (5)

Internal quality assessment committee follows the following process to ensure the quality of the question paper

1. Defining objectives
2. Defining outcomes
3. Verification of CO-PO mapping
4. Corrections to the faculty member
5. Reviewing again after corrections done by faculty

The department ensures that the faculty strictly follows the quality levels while preparing the question paper for internal examination.

D. Quality of Assignment and its Relevance to COs (5)

- Assignments are given to students from the topics covered for each unit and satisfying the COs defined.
- The questions framed in the assignments are taken from multiple sources (previous question papers, text books, etc.) and cover not only the theoretical concepts but also impart creativity on real time applications.
- Six assignments covering each unit are given in each subject for every semester.
- Every assignment carries 5 marks and an average of 3 assignments for 5 marks is considered for mid exam.
- The assignments are evaluated within two weeks after submission and the valued assignments are returned to the students for their scrutiny and improvement. Mapping is done for all questions of the assignment with the COs of the course.
- The quality of the assignment questions is also audited by IQAC.

ASSIGNMENT QUESTIONS**(III- B.Tech II Sem, Regulations: R16)****Course Name:** Energy Audit Conservation & Management

Sl. No.	Question	Action Verb	Level	Mapped With CO
1	Explain the duties and responsibilities of energy manager	Explain	K2	CO1
2	Illustrate different types of energy audits	Illustrate	K2	CO1
3	Explain different types of energy conservation schemes	Explain	K2	CO1
4	Illustrate the principles of energy management	Illustrate	K2	CO1
5	Define energy index & cost index	Define	K1	CO1

ASSIGNMENT QUESTIONS**(III- B.Tech I Sem, Regulations: R16)****Course Name:** Renewable Energy Sources

Sl. No	Question	Action Verb	Level	Mapped With CO
1	Discuss about radiation on tilted surfaces.	Discuss	K2	CO1
2	Illustrate the energy scenario of India and world	Illustrate	K2	CO1
3	Define	Define	K1	CO1

	A) Tilt Angle B) Surface Azimuth Angle C) Angle of Latitude			
4	Illustrate about solar radiation on earth surface	Illustrate	K2	CO1
5	Distinguish between extraterrestrial radiation and terrestrial radiation	Distinguish	K2	CO1
6	Discuss about radiation on tilted surfaces.	Discuss	K2	CO1

2.2.3. Quality of Student Projects (25)

(Quality of the project is measured in terms of consideration to factors including, but not limited to, environment, safety, ethics, cost, type (application, product, research, review etc.) and standards. Processes related to project identification, allotment, continuous monitoring, evaluation including demonstration of working prototypes and enhancing the relevance of projects. Mention Implementation details including details of POs and PSOs addressed through the projects with justification)

It is imperative to promote the spirit of inquiry among students since lifelong learning is a synergy between teaching and research. The knowledge through lectures in classrooms, hands on experience in laboratories and self-preparation in libraries do not expose students to real life situations. The adoption of participatory approach in learning, whereby the students involve themselves in identifying a problem, analyzing the causes and finding the solution objectively will have a positive impact on the students and will make the learning process more meaningful and interesting.

- To ensure quality in the projects implemented by the students in the department, the procedural steps are implemented that includes planning, scheduling and implementation related to the completion of the project.
- Lab facilities are provided to the students throughout the day for the successful completion of the project.
- Internet is also provided to browse the data required throughout the day
- Software tools such as MATLAB, PSCAD etc. for implementing their projects in various fields is made available.
- Hardware boards along with the essential hardware sensors are available in department laboratories to provide students an opportunity to implement real-time examples.

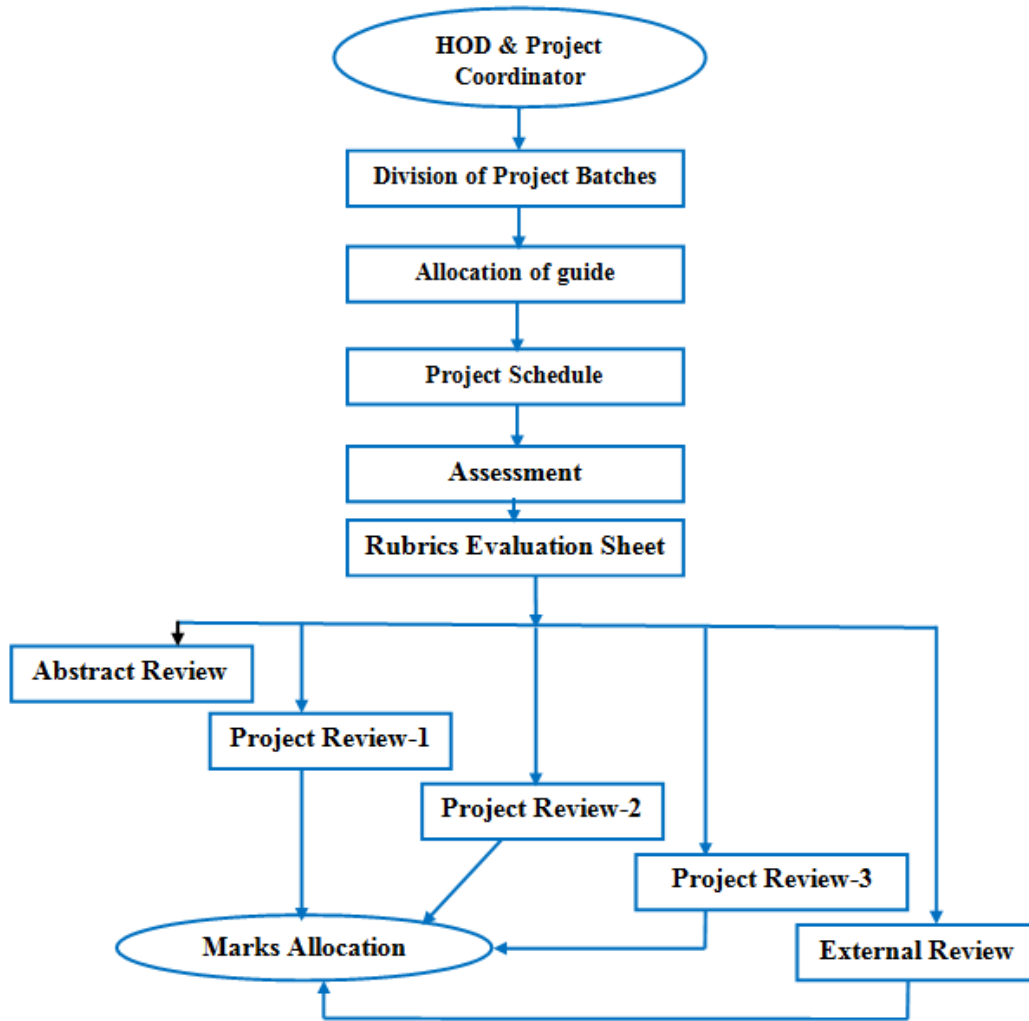

Figure B: 2.2.3.a: Process for Student Project

A. Identification of Projects and Allocation Methodology to Faculty Members (3)

The students of EEE carry out their project work in the VIII semester of their course. The projects are carried out in and allied areas of EEE covering Power Electronics control systems, machine drives, power systems protection, high voltage engineering and machine modeling.

One of the faculty members is appointed as project coordinator and prepares a project schedule in discussion with Head of the Department. The schedule is prepared in the timeline with the university calendar.

The project done by the students reflects the individual and collective work done as a team. The department takes attentive steps in forming the teams and allocation of guides to the respective teams. The methodology for team formation and guide allocation is described as:

Batch Formation:

The students were formed as teams with 4 members in each, based on the performance of the students in their internal and external examination until VI semesters. The formed team list is displayed in department notice boards for student verification and corrections. All the advanced learners who score maximum in a class are nominated as team leaders followed by successive scores attained by the students. The sample copy of student team formation is shown as:

Sample copy of batch formation 2017-21

Batch No.	Regd. No.	Name of the Student	Student percentage

Table B: 2.2.3.b: Students project batch formation for 2016-20

Guide Allocation:

- The knowledge, methodology, skill set and interest of the students to implement the project are considered to undertake the projects. All the faculties are allocated as guides to guide the student's project. Each project batch varies will have at most five students. Faculty profile should match with the domain of the student's project. The project batches are notified to the students along with the areas offered by the faculty members with guide names. The guide allotment is completely the responsibility of the head of the department.
- Based on the student area of interest over the project and the faculty domain knowledge the team is going to be finalized with guide by the Head of the Department and is displayed in department notice board for student and faculty reference.

Project Guide Allocation for 2017-21

Batch No.	Regd. No.	Name of the Student	Faculty Assigned
1	17NM1A0210	Bangaru Vikeerna	Mrs.K.Therissa
	18NM5A0207	Enneti Bhagya Rani	
	17NM1A0201	Adari Jyothsna

Table B: 2.2.3.d: Sample of Guide Allocation List for 2016-2020 batch

B. Types and Relevance of the Projects and Their Contribution towards Attainment of POs and PSOs (5)

Project Objectives:

- Analyze and formulate a solution to Power System Control and Protection, Power & Industrial Drives, control system-based project.
- Test and validate the results for the project task using modern tools.
- Manage to enhance critical thinking skills in a team.

Project Course Outcomes:

The student will be able to:

CO1: Observe the skills of demonstrating the learning achievements in the field of technology and imbibe the knowledge of effective classroom speaking and presentation.

CO2: Apply knowledge in building their career fields and face any type of interviews, viva-voice, and aptitude tests.

CO3: Elaborate on their communication skills and instructiveness.

CO4: Rephrase the uses and application of Electrical machines, Power systems and power electronics domains

CO5: Classify the knowledge about the various principles of Electrical and Electronics with the barriers which effects in a professional set up.

CO-PO & PSO Mapping:

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO 1	PSO 2
CO1	3	3	3	3	3				3	3		3		
CO2	3	3							3	3	3	3		
CO3								3	3	3				
CO4	3	3	3	3	3	3	3	3	3	3		3	3	3
CO5	3	3	3	3								3	3	3

Table B: 2.2.3.e: CO-PO & PSO mapping for project

- The projects implemented by the students of EEE are usually involved in the design, analysis of contemporary issues related to society. The projects done by the students are the implementation of solutions to real-time problems considering the factors such as environment, safety, and ethics etc.
- The projects implemented by the students are categorized and the quality of the

projects is assessed.

- The real-time projects implemented by the students are presented at various technical platforms.
- The innovative projects are turned to research papers for publication in reputed journals and conferences.

Projects Types	Number of projects carried out based on various categories			
	CAY (2020-21)	CAYm1 (2019-20)	CAYm2 (2018-19)	CAYm3 (2017-18)
Application Based	11	10	09	06
Prototype Based	02	02	09	05
Research Based	11	12	03	04

C. Process for Monitoring and Evaluation (5)

Project monitoring:

The progress of the project work is continuously monitored. Three Project Reviews are conducted to review the quality and progress of the project work. The panel of examiners called as Project Review Committee (PRC) consists of Project guide, Project coordinator, one senior faculty and the HoD.

A Sample circular for Project Schedule is below.

Project Schedule for 2019-20 Academic Year
VIGNAN'S INSTITUTE OF ENGINEERING FOR WOMEN
 DEPARTMENT OF EEE

DATE: 20/11/2019

PROJECT SCHEDULE

All the faculty members and the students are advised to follow the given schedule meticulously to complete the project work effectively within the stipulated submission deadlines.

S No.	Date	Activity
1.	25/11/2019	Initiation of the Project Work
2.	05/12/2019	Finalization of Domain and Technology
3.	15/12/2019	Problem definition and Objective
4.	20/12/2019	Abstract Submission Literature Survey (if applicable)
5.	02/01/2020	<u>Specifications & Requirements</u> (i) Software Requirement Specifications (a) User Requirement (b) Software Requirement (c) Hardware Requirement (ii) Block /Circuit Diagram of the Project (iii) Architecture /Flowcharts
6.	10/01/2020	Project Review – I
7.	27/01/2020	<u>Implementation</u> (i) Step by Step Module Hardware implementation. (ii) Algorithm implementation. (iii) Module Design.
8.	10/02/2020	Implementation and Results (i) Integration of Designed Modules. (ii) Verification of Simulation results.
9.	20/02/2020	Project Review – II
10.	27/02/2020	Testing and Validation (i) Design of Test Cases and Scenarios (ii) Validation
11.	06/03/2020	Project Review – III
12.	18/03/2020	Submission of Rough Copy of the Project
13.	27/03/2020	Submission of Final Copy

Project Coordinator

HoD-EEE

Project Evaluation:

It is anticipated to be a challenge to the rational and novel abilities of students. It gives students the prospect to synthesize and apply the knowledge and analytical skills learned in the different disciplines. The evaluation of project work shall be conducted at the end of the IV year. The total marks allocated for this are 200, out of which 60 marks are allocated for Internal Evaluation and the remaining 140 marks are evaluated for External Evaluation. For internal evaluation, a committee is appointed which includes the Program Coordinator, the supervisor of the project, and a senior faculty member of the department. In a similar way for external evaluation to a committee is appointed the same as internal evaluation. In addition, an external examiner will be appointed by the affiliated university (JNTUK).

a. Internal Evaluation: It is based on the basis of three seminars given by the individual team on the topic of their project.

b. External Evaluation: It is done at the end of the semester by the committee members.

Project is generally meant to facilitate students to think innovatively on the development of different hardware prototypes or technologies in the field of EEE. Students are expected to:

1. Perform a deep study of the topic assigned in light of the introductory report prepared in the seventh semester.
 2. Analyze and finalize the approach to the problem.
 3. Prepare steps for conducting the investigation, including teamwork.
 4. Perform detailed analysis/ modeling/ simulation/ design/ problem solving/experiment as needed.
 5. Develop a final product/ process, perform testing, and arrive at results and conclusions. If possible, suggest future directions.
 6. If desired prepare paper for presenting in the conference or publishing papers in journals.
 7. Prepare documentation in the standard format that is required for evaluation by the Internal project Review Committee.
- The project review consists of assessment of PPT presentations by the individual students about the work done along with plan of action for the remaining work.
 - Factors including, environment, safety, ethics, cost and applicable standards as well as team work and CO-PO/PSO mapping are duly considered in the assessment.
 - Suggestions given by the panel or other faculty members are to be incorporated by the students which will be reviewed during the subsequent assessment.

- The evaluation format and the power point presentation made by students during the review assess both individual and team performance.
- Rubrics for Project work assessment has been incorporated

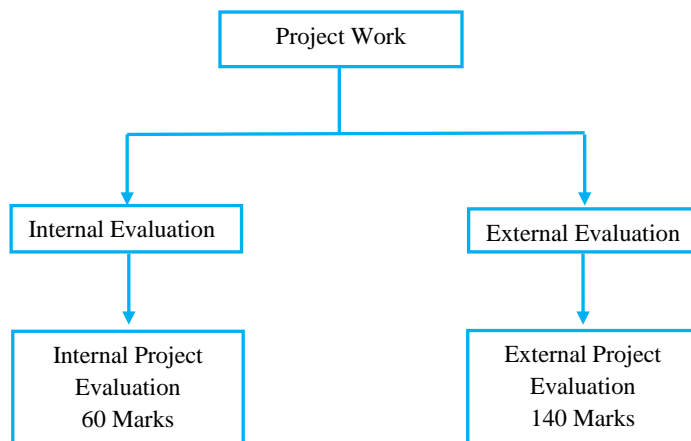

Figure B: 2.2.3.b: Project Evaluation

A Sample project evaluation sheet is given below.

E. The process to Assess Individual and Team Performance (5)

All the projects are evaluated batch wise and individual. The grading rubric was included with the problem statement and evidence of group participation included in the grading procedure. To attain maximum marks continuous assessment is carried out by the guide. Weightage will be given to literature survey and presentation by batch and individual. Daily review of the progress of the group and the interaction between students was made by the guide to gain a qualitative measure of performance of the groups and individuals. Quantitative measures were determined with attendance and a group evaluation. At the end of the project every student was directed to fill an evaluation form where each student rated all the group members, including themselves, on the following questions.

1. Rank the member's overall contribution to the project?
2. How much time or effort did the member contribute to the project?
3. What was the individual's willingness to work with other members of the group?
4. Did the member provide anything exceptional to the project?
5. How well did the member complete their assigned part of the project?
6. How well did the member review all portions of the project?

The Internal Evaluation shall be made by the departmental committee, based on two review seminars given by each student on the topic of her project. In case it is observed by the Project Review Committee that any student/group of students is not performing well, this committee should take special care to improve their performance through counseling them.

Project Review Committee (PRC) consists of

1. Head of the department
2. Senior Faculty
3. Faculty with Specialization
4. Project Guide

Process and Improvement (10M)	<ul style="list-style-type: none"> All parts of the project process are completed. Student asked and answered outstanding questions. Student sought out feedback, made appropriate improvements, and can explain creation process. Student shows detailed understanding of information, demonstrates significant thoughtfulness (especially in the reflection), and uses information at a high level. Reflection is thoroughly revised. 	<ul style="list-style-type: none"> Some parts of the project process are completed. Student asked and answered questions. Student recognized some needs for improvement and made some of them. New information was gathered and some thoughtfulness shown in the reflection. Reflection is revised. 	<ul style="list-style-type: none"> A few parts of the project process are completed. Student asked and answered some questions. Student did not seek out feedback for work. Little new information is gathered but no thoughtfulness shown. Reflection is unrevised and less than a page.
	8-10M	5-7M	2-4M
Project Management (10M)	<ul style="list-style-type: none"> Student always on track, met all deadlines. Learning and time use are precisely documented. Student effectively communicated project progress with advisor. 	<ul style="list-style-type: none"> Student stayed on track some of the time and met some deadlines. Some of learning and time use is documented. Student gave time to most parts of the project process. 	<ul style="list-style-type: none"> Student is infrequently on track with time but met final deadline. Learning and time are poorly documented.
	8-10M	5-7M	2-4M

Rubric sheet for PRC-3

Batch No.		Class/Section	
Date		Max. Marks	20 Marks
Project Title:			

Expectations	Exceeded (Professional Quality) 20 M	Achieved (Medium Quality Work) 15 M	Attempted (Low/Poor Quality Work) 10 M
Quality of project with satisfied execution	<ul style="list-style-type: none"> • Quality project shows originality, creativity, and in-depth study. • Students created their own idea. • Project is designed and implemented completely • Demonstrated well 	<ul style="list-style-type: none"> • Student adapted ideas from others for the project. • Project is intended for a specific application. • Demonstrated well 	<ul style="list-style-type: none"> • Poor work. • No personal interest in final product. • No clear awareness of the project. • No demonstration

E. Quality of Completed Projects/Working Prototypes (5)

Quality of completed projects are assessed by the evaluation committee based on following parameters in project reviews

- Impact of the project on environment and sustainability.
- Impact of the project on human Safety and security.
- Impact of the project on ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- Cost of the project.
- Type of the project: one from the following:
 - Prototype
 - Research
 - Application

To assess the projects based on above tools graded as

L-low, M-moderate, H-high

Quality Assessment of Completed Projects/Working Prototypes of 2017-2021 Batch

BATCH NO	ROLL.NO	NAME OF THE STUDENT	GUIDE NAME	Quality Measuring Factors				Type of the Project
				A	B	C	D	
1	17NM1A0210	IoT based Air Quality Index monitoring system using Arduino	Mrs.K.Therissa	M	L	M	L	Application
	18NM5A0207							
	17NM1A0201							
	18NM5A0216							
	17NM1A0208							
2	17NM1A0213	A Cascaded H-Bridge Multilevel Inverter With Reduced Number Of Switches	Mr.K.Chiranjeevi	L	L	M	L	Research
	17NM1A0235							
	17NM1A0221							
	18NM5A0201							
	17NM1A0203							
3	17NM1A0224	Comparison Of Speed Control Strategies of Brushless DC (BLDC) Motor	Mr.A.Chandraiah	L	L	H	L	Application

2.2.4. Initiatives Related to Industry Interaction (15)

(Give details of the industry involvement in the program such as industry-attached Laboratories, partial delivery of appropriate courses by industry experts etc. Mention the initiatives, implementation details and impact analysis)

An engineering student should be technically and globally competent to acquire the opportunities and should also attain the industrial needs. To meet these objectives, it is necessary to provide the students industry exposure and a platform to adapt the technological changes. The department frequently takes necessary measures to fulfill the goals. The procedure for Industry Interaction is shown in Figure B: 2.2.4.a as listed below:

- Initiate tasks by inviting the industrial members for valuable seminars and conference.
- Invite professional HRs and conducted an interaction session personally.
- Encourage the students for industrial visits & training program.
- Interaction with different esteemed industrial experts like APSSDC, STEEL PLANT, NTPC, APEPDCL, HINDUJA POWERPLANT, BRAINO VISION and etc.
- Conduct training sessions by industrial experts of latest technologies.
- Collect feedback from experts for progressive conduction of events.
- Feedback assessments are noted from students for further improvement.

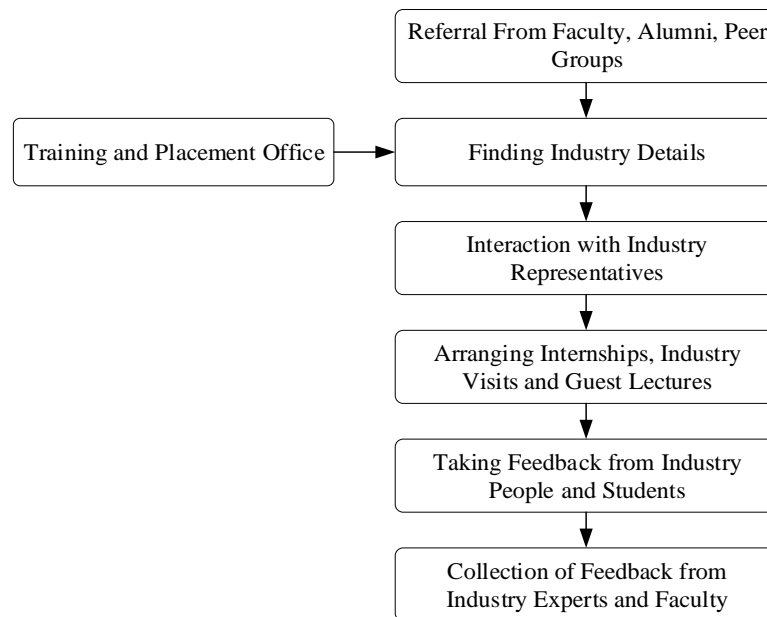

Figure B: 2.2.4.a: Process for Industry Interaction

A. Industry Supported Laboratories (5)

With the advent of globalization and opening up of Indian economy to outside world, competition among industries has become stiff. To solve their engineering problems, they look up now to engineering institutions. Similarly, there is an urgent need to prepare engineering students for jobs in multinational companies, by exposing them to newer technologies and engineering methodologies.

These objectives can only be achieved well by bridging the gap between industry and the academic institutions. Better interaction between technical institutions and industry is the need of the hour. This will have great bearing on the engineering curriculum, exposure of engineering students to industrial atmosphere and subsequent placement of young graduating engineers in industries across the country. The labs established at Vignan's Institute of Engineering for Women are detailed below:

i) Andhra Pradesh State Skill Development Corporation (APSSDC) Lab

Andhra Pradesh State Skill Development Corporation (APSSDC) serves the task of providing skilled manpower as part of Government of Andhra Pradesh skill mission. AP government identified 100 institutes among 276 colleges across the state as their knowledge partners. APSSDC have established a Lab at Vignan's Institute of Engineering for Women to provide internships and training to students in the college. This will help in improving students' technical competency, soft skills and thus employability quotient.

Overview of APSSDC Lab:

The center has been setup as a step to foster innovation and help instill the startup and research culture in the students as well act as a catalyst of growth by making world class skilled professionals available to key growth sectors for the state and the country. The Lab is equipped with high end configured Acer Laptops in count of 36 laptops provided by APSSDC, and the licenses for the software are provided on Premise. The details of the lab are furnished in Table: B.2.2.4a and overview of lab in Figure: B.2.2.4b.

Infrastructure of the LAB	
Capacity of the lab	50 laptops
No. of Laptops Installed	36 Laptops Configuration: Acer Processor: Intel core (5-7200U CPU@2.5GHz) RAM: 16 GB, 64-bit Operating system, Windows10 Hardisk: 500GB
License type	On Premise
UPS	Yes
Cabin Type	Single/Partitioned

Table B: 2.2.4.a: APSSDC lab details

Figure B: 2.2.4.b: Overview of APSSDC Lab

Objectives of APSSDC Lab:

As per the MoU with VIEW, APSSDC lab will extend the benefits to help the students' in providing training for 1000 students per year at minimal cost and created a platform to organize numerous workshops for students and faculty. The main objectives of the lab are:

- Promoting self-reliance
- Indigenization and technology upgrades
- Achieving economies of scale and improve developing capabilities of students
- Export the talent in-house at a rapid pace to meet the demands of the industry
- Job assured training (Multi Skill Training Program)

Utilization of APSSDC Lab:

There are seven certification programs completed so far in APSSDC Lab from the day of its establishment. The lab utilization details are listed in Table B.2.2.4.b.

Sl. No.	Name of the Workshop	Date(s)	No. of registered students	Relevance to POs/PSOs
1	Embedded system	09-03-2018	90	PO5, PO11, PO12 & PSO2
2	Coursera IoT Certification	14-05-2018 To 02-06-2018	30	PO1, PO3, PO4, PO5, PO9, PO11, PO12 & PSO1
3	Workshop on Higher Education(webinar)	22-06-2018	15	PO11& PO12
4	TCS Hackthon	04-07-2018 To 15-07-2018	10	PO1, PO3, PO4, PO5, PO9, PO11, PO12 & PSO1

5	SCALE Workshop	26-07-2018 To 28-07-2018	77	PO4, PO5, PO11, PSO1 & PSO2
6	Build Box	26-12-2018 To 10-01-2019	30	PO1, PO3, PO4, PO5, PO9, PO11, PO12 & PSO1.
7	MSTP (Multi Skill Training Program)	03-12-2019 To 18-02-2020	12	PO1, PO3, PO4, PO5, PO9, PO11 & PO12
8	Python Programming	24-05-2021 To 12-06-2021	50	PO1, PO2, PO3, PO5, PO12
9	Source Code Management Using GIT & GITHUB	10-06-2021 To 12-06-2021	50	PO1, PO2, PO3, PO5, PO9, PO10 & PO12

Table B: 2.2.4.b: Utilization details of APSSDC Lab

Effectiveness of APSSDC Lab:

- Students are benefitted with hands on experienced training workshops, projects, Nano Degrees of Udacity and Coursera.
- Training programs provide a great opportunity for students to expand their knowledge base and increase their efficiency and productivity.
- Students use their training to keep up with the latest advancements in technology.
- Training and development can help students to perform better in the campus placements as they become more skilled than before.
- Training can increase the quality of the student.
- Students work independently and require less supervision than before.
- Students can use their knowledge from the training to do projects and help other students.
- Students perform better with greater efficiency than before.
- More confidence is built among students and performed well.

ii) IoT Research Lab

Texas Instruments, Bangalore conducted a national level DrishTI online exam to our students to test their technical competency. Around 2300 students participated in this exam and more than 90% of them are qualified. As a token appreciation, Texas Instruments sponsored Teaching labs by procuring latest hardware related to IoT and microcontrollers.

The students of Electrical and Electronics Engineering enhance their knowledge towards developing of IoT applications by gaining knowledge on IoT domain within the campus and

to stay ahead of their peers. IoT test bed is an open and developing ecosystem of edge devices, communication protocols, cloud-based platforms and application with a focus on cost-effective IoT technologies.

Overview of the Lab:

The lab is being utilized for implementing IoT based projects for real time applications. The lab is equipped with hardware kits and software required to carry out simulations. The lab is also equipped with IoT Development board self-starting learning kits and various sensors to make the students practically find a solution to real-time issues. The following are the Kits Sponsored by TI kits from STEPS Knowledge services Pvt. ltd will be used by Department of EEE for academic purpose:

Sl. No	Description of the hardware	Quantity
1	Tinker Cad Virtual simulator software (Open source)	1
2	Proteus Virtual simulator software (Open Source)	1
3	Keil C Software (Open Source)	1
4	Eclipse Iol (Open Source)	1
5	LPC 2148 (ARM 7) Development Board	1
6	ARM CORTEX N3	3
7	Innovate ARM 926 developer kit	3
8	IoT Development Board Self Starter learning Arduino Kit	9
9	MSP 430 EXP G2 Launch Pad	30
10	MSP EXP430F5529 Experimenter Board	2
11	RF Booster Pack CC110L	5
12	STEPS Experimenter Pack for MSP430	10
13	MSP-EXP430F5529LP	10
14	BOOST-DAC8568	2

Table B: 2.2.4.c: List of Hardware available in the IoT Lab

Objectives of the IoT Lab:

- IoT lab is used to design and develop IoT based real-time projects and supporting in developing research activities.
- Develop projects that are cost effective and socially relevant.
- Students and faculty can utilize IoT test bed available in IoT lab to get hands-on exposure on IoT platform.

- To develop trained manpower through student projects in the field of IoT based application development.

Utilization of IoT Lab:

Students developed IoT based projects like e-notice board, solar electric vehicle, and water monitoring system etc., to participate in various technical events. The projects developed in the IoT lab are listed in Table B: 2.2.4.d.

Sl. No.	Title of the Project	Faculty Involved	Regd. No.	Student Batch
1	IoT based e-notice board	Dr. K. Durga Syam Prasad	15NM1A0248	P. Ananthalexmi
			15NM1A0246	P. Hema
			15NM1A0258	S. Swathi
			15NM1A0249	P. Yamuna
2	IoT based solar electric vehicle	Dr. Akanksha Mishra	17NM5A0218	P. Sravani
			16NM1A0270	P. Roshni
			16NM5A0208	B. Sandhya
			17NM5A0202	B. Laxmi lahari
3	IoT based water monitoring system	Mr.P. V.Sarath	15NM1A0256	S.Sushmita
			16NM5A0222	P.Mounika
			15NM1A0242	P.V.Saichinni
			15NM1A0237	M.Gowthami
4	Automatic LPG cylinder booking and leakage detection using arduinoUNO	Mr.V.Avinash	16NM5A0212	K.Ananthakumari
			15NM1A0212	D.SaiSunandha
			15NM1A0211	D.Arunakumari
			15NM1A0217	GedelaPuspa
			16NM5A0209	Gompa Himaja
5	IoT based Air Quality Index monitoring system using Arduino	Mrs.K.Therissa	17NM1A0210	B Vikeerna
			17NM1A0235	G Divya
			18NM5A0220	M Sowjanya
			17NM1A0222	B AswiniPrathyusha
			17NM1A0228	D Vasudha

Table B: 2.2.4.d: Projects Accomplished by IoT Research Lab

Effectiveness of IoT Lab:

- IoT lab provided hands on experience to the students to address real time applications.
- Although the projects suggested are of very basic nature but carrying out these give the confidence to take up difficult ones.
- Students develop keen interest to explore various other interdisciplinary courses due to involvement of several varied technologies in IoT.

- Learning of students as a team improved with enhanced inter personnel communication skill.
- Professional ethics and ample opportunity for modern tool usage was improved as students use open source software and resources.

B. Industry Involvement in the Program Design and Partial Delivery of Any Regular Courses for Students (5)

✓ The Department Advisory Committee (DAC) consults experts from the Industry and Professors from JNTUK and Andhra University to always improve the students in all aspects.

✓ In addition, senior engineers from the industry are also consulted for upgrading the students to latest technologies.

✓ Workshops, Seminars and Guest Lectures are arranged to improve the student's skills.

✓ Involving industry experts in partial delivery of any regular courses

✓ MoUs with industries facilitates both the students and faculty an opportunity to understand the concepts in a better way. MOU's was done with industries to emphasize on:

- Internships
- Project Works for Students
- Industrial Visits
- Students specific training
- Faculty Development Programs

Better interaction between Institutions and Industry is the need of an hour. For students, it is important because they get exposure to industry and subsequent placement in various disciplines. On the other hand, with the advent of globalization and opening of Indian economy to the outside world, competition among the industries has become stiff. So, industries also need good students who are aware of industry standards and capable of achieving so. Therefore, there is an urgent need for interaction of industry and academics where academic institutes can prepare students for jobs in multinational companies and industry will also be benefited by the possibility of receiving a well-trained workforce.

Laboratory experience is an indispensable part of the educational process and a key factor in preparing students for real engineering practical life; For this reason, the Department

of EEE, VIEW operates about 6 laboratories within its premises, some of them are equipped with instruments and kits from the industry for training and research purpose. All these laboratories are equipped with state-of-the-art tools and facilities that provide hands-on practice for students; Furthermore, the laboratories also provide a testbed for research to the faculty. Some of the Industry supported labs are:

1.Hinduja National Thermal Power Station, Vizag is a coal-based thermal power plant located in Palavalasa village in Visakhapatnam, provide Power Plant Simulator course for IV B. tech students. Power plant simulator is an advanced hands-on-training tool, used mainly for the plant operation staff training in areas such as unit start-up, shut-down, load, operation, emergency handling etc. Also, a simulator can be used as a powerful tool to verify process design and control strategies before start-up of a plant as well as investigation and testing of operational problems that are normally not allowable under real plant operating conditions.

2.Indpower, Plot No 61, ‘E’ Block, Industrial Park, Autonagar, Visakhapatnam, provided Testing equipment, routine test bed and short circuit of transformer is used in electrical machines and other applications. To prove that the transformer meets the customer’s specifications and design expectations, the transformer must go through different testing procedures in manufacturer premises. Some transformer tests are carried out for confirming the basic design expectation of that transformer. These tests are done mainly in a prototype unit not in all manufactured units in a lot. Type test of transformer confirms the main and basic design criteria of a production lot.

List of Technical talks by Industry Experts:

S.No	Topic of Seminar/ Guest Lecture/ Workshop	Resource Person with Designation	Date(s)	No. of Students Participated
1	Online Workshop on “Power Electronics Simulation - PSIM”	Mr. Nukala Viswanath, PWSIM, Bangalore	22-04-2021 & 23-04-2021	86
2	Technical Seminar on Solar PV Technology	Mr. Sai Charan, Jinko Solar	17-02-2021	83
3	Seminar on Renewable Power Generating Stations	Mr. K. Srikanth, AE, Machkund	28-12-2020	126
4	Guest Lecture on Automation in Power Distribution Systems	Mr. S. Srinivas, ADE, Gajuwaka Substation	26-11-2020	68

5	Machine Learning Using Python	Mr. Rushikesh, Team Leader, ROBOSOL AND AAKAR	06-03-2020 to 07-03-2020	50
6	GOOGLE Android Developer Fundamental Workshop	Mr. Lokesh U, Mr. Gopi M, Trainers, APSSDC, Trainers, APSSDC	05-03-2020 to 07-03-2020	60
7	Robotics	Deepak Mourya JaYh Sharma, Team Leader, ROBOSOL AND AAKAR	24-12-2019 to 26-12-2019	60
8	Importance of IoT in Marine Engineering	Mr. S.K. Dubey, CEO, STBL Projects Pvt. Ltd	11-01-2019	120
9	Bridging the Gap Between the Students and Academia	Mr. T. Suresh, Team Leader, Wipro Technologies	10-01-2019	150
10	Latest Developments and limitations of Indian Transmission Systems	Sri.S.Narayana Murthy, Superintendent Engineer, AP Transco	28.12.2018	100
11	Basic of Transmission Systems	Sri.G.Mohan Prakash, Deputy Executive Engineer, AP Transco	29.12.2018	120
12	"I Boot Up IoT Series"	Mr.Manikanta.Y Project Manager,IoT at IB Hubs	16.08.2018 to 18.08.2018	90
13	AWS Skill guru workshop	Mr.Sree Kiran Babu, Trainer, APSSDC	30-31 May 2018	50
14	Entrepreneurship Development Program in collaboration with Vignan University	Dr. D. Bhattacharya, VIT Mr. G. Nageswaran Director MSME Mr. B Kalyan Vardhan, Senior coordinator MSME Mr. K Satish,CEO 9 Solutions	02.08.2018 to 06.08.2018	140
15	Entrepreneur Development Program in coordination with Software Technology Parks of India	Mr. P. Dubey, Joint Director STPI Mrs M. Lakshmi, CEO, PATRAMr. R.L. Narayana, President ITAIP Mrs. P Neeraja, HR IEMEG	26.11.2019	180

16	Faculty Development Program sponsored by DST and Organised by National Institute for Small and Medium Enterprises	Dr. P Satish Dr. P.S. Ravindra Mrs. Padmaja Dr. Ch. Govinda Rao	10.02.2020 to 12-02-2020	20
----	---	---	--------------------------	----

Table B: 2.2.4.e: List of Technical talks by resource persons from Industry

In order to make our students industry ready, we take the support of various eminent industrialists. They are part of our institute governing body in decision making and framing policies. With the inputs from these members, we encourage our students to take part in industrial tours and training programs. The following is the list of various industrialists who are part of our institute governing body.

List of Industrialists associated with our institute

S. No	Name of the Industrialist with designation	Industry	Association with our Institute
1	Dr CD Malleswar Former Director-NSTL, DRDO Dr Raja Ramanna Distinguished Fellow	Naval Science & Technological Laboratory (DRDO)	Chairman of Governing Body from June 2017 to October 2019
2	Dr V.Bhujanga Rao ISRO Chair Professor Former DG-DRDO- Delhi. Former Director-NSTL Vizag	National Institute of Advances Studies, IISc Campus, Bangalore.	Chairman of Governing Body from November 2019
3	Dr. V. ViziaSaradhi, Former Director	HPCL, Mumbai.	Governing Body Trust Member from June 2017 to October 2019
4	Sri.VenkataRayuluBonam, Delivery Project Executive	IBM India (P) Ltd. Hyderabad	Governing Body Member from June 2017
5	Mr.SrikanthNandigam Head Project Manager	Excel Global Solutions InfoTech Pvt. Ltd. VSEZ, Visakhapatnam	Governing Body Member from June 2017 to October 2019
6	Dr. B.Subba Rao	SAMEER-Centre for	Governing Body

	Programe Director,	Electromagnetic Environmental Effects, Ministry of Electronics & Information Technology, Visakhapatnam	Member from June 2017
7	Dr.Archana Sharma Outstanding Scientist Head, PP & EMD	Bhabha Atomic Research Centre (BARC), Mumbai.	Governing Body Trust Member from November 2019
8	Dr.Rishi Verma Scientist-G	BARC, Atchutapuram Visakhapatnam.	Governing Body Member from November 2019
9	Mr.Suresh Kumar Tankala Lead Consultant	Wipro Limited, Visakhapatnam	Governing Body Member from November 2019

Table B: 2.2.4.f: List of Industrialists associated with our institute

C. Impact Analysis of industry-Institute Interaction and actions taken (5)

The Industry-Institute Interaction is highly essential to run longer period for preparing the students, the manpower of world class in the field of science and technology by inculcating the various skills required by the industry, thereby contributing to the economic and social development at large.

Industry institute interaction is effected through

- i. Guest lectures by industry experts
- ii. Membership of industry experts in Institute Governing body
- iii. Membership of industry experts in Department Advisory committee
- iv. Industrial visits by students
- v. Student Project works with involvement of industry
- vi. Workshops /seminars /guest lecturers make the students gain knowledge on latest technologies and tools and they and practices.
- vii. Industry built Labs with modern methodologies provides a practical environment to implement creativity in project work.

Impact analysis:

- Establishment of Industry-Institute Partnership /interaction Cell.
- Organizing Workshops, conferences and symposia with joint participation of the faculty and the industries with students.
- Encouraging engineers from industry to visit the college to deliver lectures.
- Participation of experts from industry in curriculum development, the same intimated to JNTUK.
- Arranging visits of staff members to various industry.
- Professional consultancy by the faculty to industries.
- Industrial testing by faculty & students at site or in laboratory.
- Joint research programmes and field studies by faculty and people from industries.
- Visits of faculty to industry for study and discussions or delivering lectures on subjects of mutual interest.
- Visits of students to industry in upgrading their skills.
- Visits of industry executives and practicing engineers to the Institute for seeing research work and laboratories, discussions and delivering lectures on industrial practices, trends and experiences.
- Memoranda of Understanding between the Institute and industries to bring the two sides emotionally and strategically closer.
- Human resource development programmes by the faculty for practicing engineers.
- B.Tech. projects work in industries under joint guidance of the faculty and experts from industry.
- Short-term assignment to students/faculty members in industries.
- Visiting faculty/professors from industries.
- Professorial Chairs sponsored by industries at the Institute.
- R&D Laboratories sponsored by industries at the Institute.
- Scholarships/fellowships instituted by industries at the Institute for students.
- Practical training of students in industries.

The list of MOUs with various companies is tabulated below

Sl.No.	MOU with companies	MOU with Institution	Description	Date of MoU
1.	Techno Soft solutions(TSS), Visakhapatnam	VIEW	Imparting training courses	09.01.2012
2.	Glob arena Technologies(P) Ltd., Hyderabad	JNTUK	Centre of Excellence for e-resource Development and Deployment Project (CoEeRD)	06.03.2012
3.	M/s. Consortium of Institutions of Higher Learning(CIHL)	JNTUK	Innovative Inter-disciplinary PG program in information Technology	04.04.2012
4.	Randstad India Limited, Chennai	VIEW	Providing Job placements	05.04.2013
5.	COIGNEDU & IT Services(P) Ltd., Hyderabad	VIEW	Imparting Training courses	03.07.2014
6.	M/s. CADD Box solutions, Visakhapatnam	VIEW	Conducting CAD Training& Certification	19.07.2014
7.	Smart & Soft solutions, Visakhapatnam	VIEW	Certification Training of Microsoft IT Courses	23.07.2014
8.	Focus Academy for Career Enhancement (FACE), Coimbatore	VIEW	IBM Specific aptitude cracker programme	02.12.2014
9.	Focus Academy for Career Enhancement (FACE), Coimbatore	VIEW	Campus placement Cracker programme	14.02.2015
10.	Focus Academy for Career Enhancement(FACE),	VIEW	Company Specific aptitude cracker programme	06.08.2015
11.	M/s.GRAFX IT Solutions Pvt. Ltd.,	VIEW	Skill Development Programme	27.08.2015
12.	Leadership 'Foundation', Srikakulam.	VIEW	Technology incubation Hub	05.01.2016
13.	Talentio solutions India Pvt. Ltd.,Hyderabad.	VIEW	Skill Enhancement Programme	17.02.2016
14.	Focus Academy for Career Enhancement(FACE), Coimbatore	VIEW	WIZARD IT	03.05.2016
15.	Omni RK Super Specialty Hospital	VIEW	Health Checkup/Treatment	29.06.2017
16.	Confederation of Indian Industry(CII), Visakhapatnam	VIEW	Influence inspire and motivation of Students	25.07.2017
17.	APSSDC, Amaravathi	VIEW	To make qualitative improvements in imparting Technical Skills.	25.07.2017
18.	SatvatInfosol Pvt. Ltd.,	VIEW	Infrastructure cum Facility	27.09.2018
19.	NSE(NSEIT Limited), Mumbai	VIEW	Online Examination Service Provide Centre	28.08.2019
20.	NIT, Warangal Electronics and ICT Academy	VIEW	Organizes various programs to improve the quality of teaching quality of Education	30.08.2019
21.	PARAMARSH Scheme from	VIEW	Quality Education to the next	26.08.2019

	UGC		generation	
22	Data Pro Computers Pvt. Limited, Visakhapatnam	VIEW	To provide coding skills on programming languages	22.10.2020

Table B: 2.2.4.g: List of MOUs between VIEW and JNTUK with Various Companies

2.2.5. Initiatives Related to Industry Internship/Summer Training (15)

(Mention the initiatives, implementation details and impact analysis)

Assessment of PO & PSO attainment for the current academic year, feedback analysis from alumni and industrial experts helps us to improve the industry interaction process for the students. Every year the students are motivated to undergo industrial/internship training during semester break for a period of at least two weeks to get industrial exposure. The students with the support of the department approach the industries with a request for seeking training. The acknowledgment received by the industry will be forwarded to head of the institute to get permission to undergo training. A report on the work carried out during the tenure will be provided by the students to the department after successful completion of training. Assessment on training is conducted either by a seminar or by viva-voce. The feedback analysis on the training is collected for taking necessary measures to improve the process.

A. Industrial Training/Tours for Students (3)

Industrial visit is a self-interest and important in a career for a pursuing engineering degree student. It is a part of our institute schedule, mostly seen in professional degree courses. The main purpose of industrial visit is to understand the internal working process and ethics for the students practically. The department level of our institution had figure-out that the theoretical concept is not sufficient for a professional career, thus industrial visit/training is more important for practical knowledge to the students. This industrial visit/training provides an opportunity to gain the concepts practically via interaction, working process.

1. Indian Space Research Organization, Sriharikota

Overview: Satish Dhawan Space Centre (SDSC) SHAR, Sriharikota, the Spaceport of India, is responsible for providing Launch Base Infrastructure for the Indian Space Programme. This Centre has the facilities for solid propellant processing, static testing of solid motors, launch vehicle integration and launch operations, range operations comprising telemetry, tracking and command network and mission control centre.

Type of industry: Space and Research Organization

Planned or non-planned activity: Planned

Objectives:

- To learn the advance technology researching by space applications in field of electrical engineering.
- To explore the research environment of ISRO, for both faculty and students.

2.Powergrid corporation of India limited, Visakhapatnam

Overview: Power Grid Corporation of India Limited (POWERGRID), is an Indian state-owned electric utility company headquartered in Gurugram, India. POWERGRID transmits about 50% of the total power generated in India on its transmission network.

Type of industry: Power Transmission Industry

Planned or Non planned activity: Planned

Objectives:

- To learn the power scheduling process by the experts in the power dispatch field.
- To know the organization structure and know the difference between traditional & restructured power system.
- To know about PPA of solar and wind power plants.

3.Machkund power plant, Orissa

Overview: Machhakund (or Machkund) Hydroelectric Project is located near Duduma Falls between the Andhra Pradesh and Orissa Border. It is a collaborative project of Government of Andhra Pradesh and Government of Odisha. The Maharaja of Jeypore conceived the idea of a dam in 1928. Although the planning for the project started in 1930's, the actual displacement began in the late 1940s. As the project was started before independence no proper records for the displacement and rehabilitation are available. Also, the concept of rehabilitation was not evolved at that time.

Type of industry: Hydro Power Plant

Planned or Non planned activity: Planned

Objectives:

- To learn about different turbines used for different types of hydropower plants.
- To know how to operate and working of hydro power plant.

Date of visit	Name of Industry	NO.of students visited	Faculty Coordinator
30-01-2020	Satish Dhawan Space Centre, ISRO, Sriharikota, Andhra Pradesh.	50	T.Sushma
05-06-2019	PGCIL, Visakhapatnam, Andhra Pradesh	60	K.chiranjeevi

15-07-2019	Machkund Power Plant, Odisha	120	B.Rajesh
27-08-2019	132/33 kV sub-station, Gajuwaka, Visakhapatnam.	120	P.V.Sarath

Table B: 2.2.5.a: Industrial Visits

B. Industrial /Internship /Summer Training of More than Two Weeks and Post Training Assessment

The students of EEE program are motivated to go for internship at various industries in the summer break of their of VI semester. The institute supports students by sanctioning permission to visit industries and gain practical knowledge. The students undergo internship training for a period of one week to a maximum of 20 days. A report on training undergone by the students as a team or as an individual is to be submitted after successful completion of their internship. The training helps them to think innovatively in solving real time problems and implement as working models. The details of internship training are listed below:

Consolidated table

Academic Year	Organization	No. of Students
2019-20	Steelplant, Visakhapatnam	67
	AP Transco, Gajuwaka	41
	BHEL, Visakhapatnam	27
	Coromondel Fertilizers, Visakhapatnam	4
	Hindusthan Shipyard	2
2018-19	PGCIL, Visakhapatnam	5
	Steelplant, Visakhapatnam	23
	NTPC, visakhapatnam	26
	BHEL, Visakhapatnam	1
	Electro loco motive shed	3
	APEPDCL, isakhapatnam	30
	AP Transco, Gajuwaka	6
	Hindusthanshipyard, Visakhapatnam	15
2017-18	Steelplant, Visakhapatnam	22
	Hydro power plant, sileru	1
	NCS power, Visakhapatnam	2
	AP Transco, Gajuwaka	6
	Synergies casting, visakapatnam	6
	NTPC, visakhapatnam	16

102	Karanam Lalitha	17NM1A0252		
103	Bandaru Lakshmi Venkata Saijahnavi	17NM1A0208	Steel Plant, Visakhapatnam.	Fifteen Days (From 20.05.2019)

104	Amarapini Rohini Varalakshmi	17NM1A0206		to 03.06.2019)
105	Gedala Prameela	17NM1A0237		
106	A. Sirishree Varma	16NM1A0203	APTRANSCO, Gajuwaka.	Seven Days (in between 09.05.2019 to 16.05.2019)
107	B. Priyanka	16NM1A0205		
108	G. Akanksha	16NM1A0225		
109	J. Roopasri	16NM1A0235		
110	K.V.S Prasanna	16NM1A0252		
111	L.Naga Swetha	16NM1A0254		
112	Yellanki Sai Tejaswini	17NM1A0292	APTRANSCO, Visakhapatnam	Fifteen Days (From 20.05.2019 to 08.06.2019)
113	Anantarapu Duleesha	16NM1A0202	Steel Plant, Visakhapatnam	Three Weeks (From 20.05.2019 to 08.06.2019).
114	Kancharla Mani Harika	16NM1A0241		
115	Mallavarapu Mallika	16NM1A0255		
116	Dadi Bhoolakshmi	17NM5A0203	Steel Plant, Visakhapatnam	15 Days (From 23.05.2019 to 06.06.2019)
117	Gantla Laxmi Priyanka	17NM5A0205		
118	Gavara Hema Parvathi	17NM5A0206		
119	Gurana Parvathi	17NM5A0207		
120	Gurram Lavanya	17NM5A0208		
121	Kaki Bhavani Krishna Veni	17NM5A0209		
122	Karri Neelima	17NM5A0210		
123	Silaparasetti Girishma	17NM5A0221		
124	Medisi Bindu Bhagya Sri	17NM1A0490	Hindustan Shipyard Ltd, Visakhapatnam.	15 Days (From 24.05.2019 to 09.06.2019)
125	Moturu Kusuma Kumari	17NM1A0494		
126	M Keerthana	17NM1A0265	Coromandel, Visakhapatnam	15 Days (From 27.05.2019 to 06.06.2019)
127	N Tejaswini	17NM1A0266		
128	S Kavitha	17NM1A0277		
129	V Sruthi	17NM1A0288		
130	B Sruthi	17NM1A0221	Steel Plant, Visakhapatnam.	07 Days (From 03.06.2019 to 09.06.2019).
131	A Vyshnavi	17NM1A0202		
132	G Satya Ishwarya	17NM1A0234		
133	G.Satya Aishwarya	17NM1A0234	AP TRANSCO, Visakhapatnam	11 Days (From 28.05.2019 to 07.06.2019)
134	G.Sai Priya	18NM5A0212		
135	D.Padmavathi	17NM1A0227		
136	G.Vijayavasavi Krupa	17NM1A0241		
137	Pindi Sri Amulya	17NM1A0270	Steel Plant, Visakhapatnam.	Fifteen Days (From 11.11.2019 to 25.11.2019)
138	Sangamreddy Navya Sree	17NM1A0276		
139	Velugula Leela Sudha	17NM1A0287		
140	Vujji Renuka	17NM1A0289		

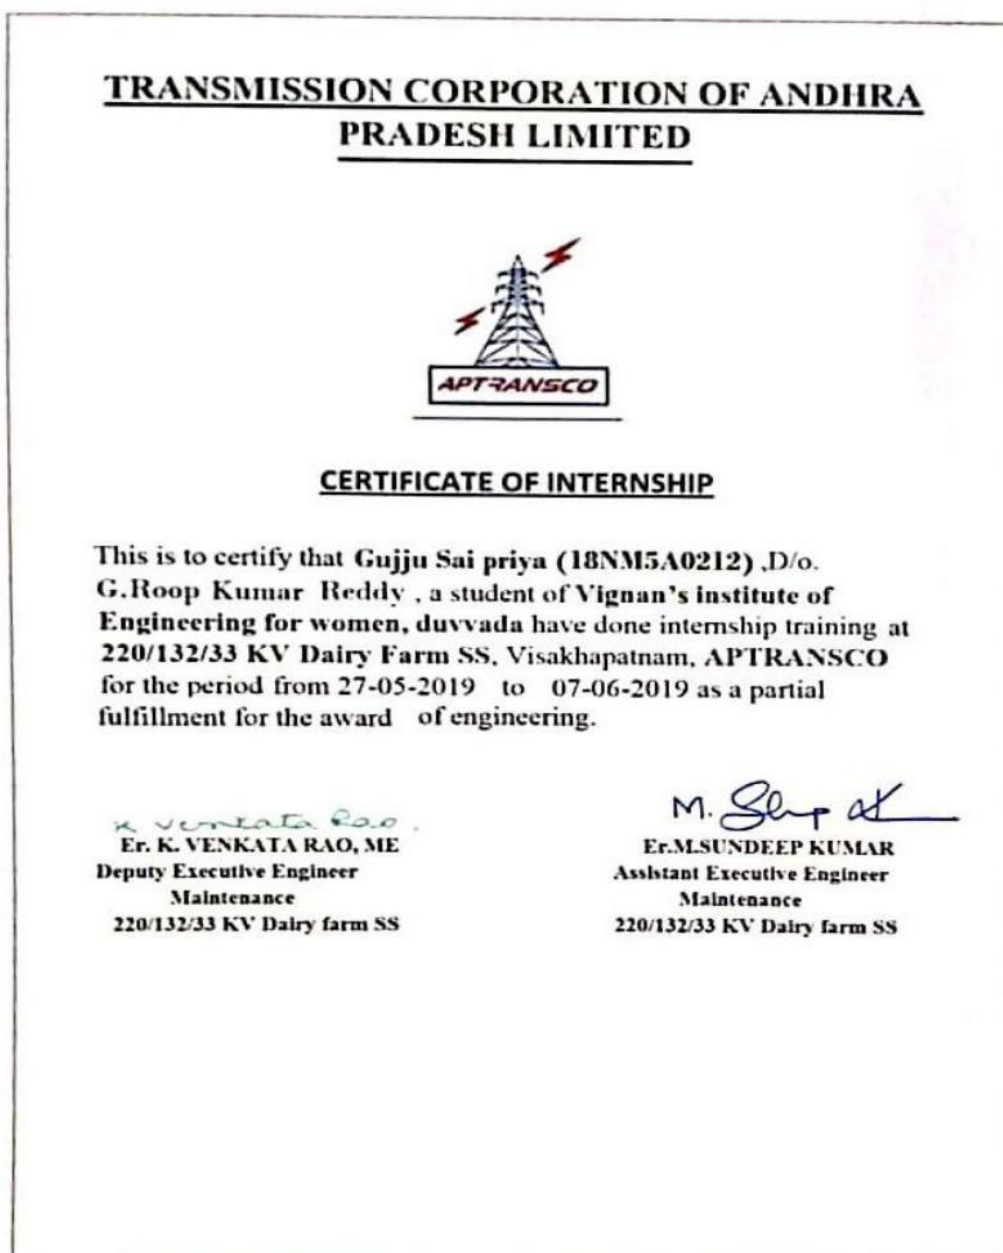

141	Vajrapu Hemambika Sri Harshini,	18NM5A0234	Steel Plant, Visakhapatnam.	Fifteen days (From 04.05.2020 to 18.05.2020)
-----	---------------------------------	------------	-----------------------------	--

Table B: 2.2.5.e:Details of student internship for year 2019-20

Post Training Assessment:

(i) Post Training Certification:

Certification is one of the most important elements of training and essential to increase the uptake and encourage the completion of training. The students are awarded with certificates after the summer training Internship. A sample certificate is shown below

(ii) Post Training Evaluation:

- Post Training Evaluation is a very important part of the learning and development process and checks whether the training has had the desired effect.
- Training evaluation ensures that whether students are able to implement their learning in their respective courses.
- The tests and assessments are designed and conducted to all the students who underwent training, and results presented back to the learners to understand their level of training.
- The exam is online in which 10 MCQs are given on the trained topic.
- The students have to give the exam before 1 week after the training.
- The students who have scored at least 50% of marks in the exam only can claim that they have completed their training.

F. Impact Analysis of Industrial Training (4)

For the last three years, more than 200 students received training from various industries in and around Visakhapatnam during semester break. The major industries in which students have undergone training are STEEL PLANT, NTPC, PGCIL, AP TRANSCO and etc.

- Awareness on recent tools used in industry help them to learn and grab opportunities in various MNC companies.
- Product based projects are implemented by the students.
- Team work, communication skills, soft skills are improved.
- Industry expert interaction helps them to understand the need of applying contextual knowledge to assess societal, health and safety issues.
- The visit to industry helps the student to improve the practical knowledge of the processes and systems.
- Students are motivated towards research-based knowledge by improving their degree through higher studies.

Academic Year	No. of students participated in Industrial training/ tours	No. of students implemented product-based projects	No. of students placed	No. of students successfully graduated	No. of students implemented research-based projects
2019-20	105	20	91	-	60
2018-19	85	16	67	80	50
2017-18	62	12	48	59	48

D. Student Feedback on Initiative (4)

The feedback from the students who have visited the industries for internship/ training is collected and reviewed for further improvement in conducting such activities. The feedback collected helps the department to take necessary measures to improve and increase such activities that benefits the successive student batches. The following are some of the comments received by the students after their successful completion of training / industrial visit:

- Demonstrate the three-phase distribution transformers used in APEPDCL.
- Describe the HVAC and DC transmission used in PGCIL.
- Discuss the testing of transformers and classification of transmission lines used in electrical transmission ant APTRANSCO.
- Working of thermal power plant and generator operation at matchkund thermal power plant
- Describe operation of rolling mills at RINL, steelplant

Sl.No.	Company Name	Total Students Attended	Feedback Comment (Good/bad/Satisfied)	Remarks
1.	BHEL, Visakhapatnam	27	Satisfied	
2.	RINL, Steel Plant, Visakhapatnam	67	Good	
3.	AP TRANSCO 132/33 kV, Gajuwaka, Visakhapatnam	41	Good	

Table B: 2.2.5.f: Feedback on Internship Program Training 2019-2020

Sl.No.	Company Name	Total Students Attended	Feedback Comment (Good/bad/Satisfied)	Remarks
1.	APEPDCL, Visakhapatnam	30	Satisfied	
2.	AP TRANSCO, Visakhapatnam	6	Good	
3.	Hindustan Shipyard, Visakhapatnam	15	Good	
4.	NTPC, Visakhapatnam	26	Satisfied	
5.	Steel Plant, Visakhapatnam	23	Good	
6.	TL&SS, Gajuwaka Substation	5	Good	
7.	Power Grid Corporation of India	5	Good	
8.	BHEL, Visakhapatnam	1	Satisfied	
9.	132 KV Substation at Gajuwaka,	2	Good	

Table B: 2.2.5.g: Feedback on Internship Program Training 2018-2019

Sl.No.	Company Name	Total Students Attended	Feedback Comment (Good/bad/Satisfied)	Remarks
--------	--------------	-------------------------	---------------------------------------	---------

1.	Steel Plant, Visakhapatnam	22	Satisfied	
2.	NTPC, Visakhapatnam	16	Good	
3.	Hydro Power Plant, Lower Sileru (60MW)	1	Good	
4.	NCS Power Plant(20MW), Latchayyapeta, Vizianagaram	2	Good	
5.	APEPDCL, Opp.: Green Park Hotel, Visakhapatnam	12	Satisfied	
6.	AP TRANSCO, Pendurthi division, Visakhapatnam.	6	Good	

Table B: 2.2.5.h: Feedback on Internship Program Training 2017-2018

S.No.	Company Name	Visited Students	Feedback Comment (Good/bad/Satisfied)	Remarks
1.	Satish Dhawan Space Centre, ISRO, Sriharikota, Andhra Pradesh.	22	Satisfied	
2.	PGCIL, Visakhapatnam, Andhra Pradesh	16	Good	
3.	Machukund Power Plant, Odisha	120	Good	
4.	132/33 kV sub-station, Gajuwaka, Visakhapatnam.	100	Good	

Table B: 2.2.5.i: Feedback on Industrial Visits 2019-20

In 2018-19, the number of students completed industrial training in steel plant are twenty three. The feedback is collected from all the students and consolidated. The consolidated report is given below.

S.No	Parameter	Feedback grades				
		5	4	3	2	1
1	Usefulness of the content learnt at training place	13	8	2		
2	Hands on experience at training place	10	10	3		
3	Was the training above or below your current skill level	15	8			
4	Overall, how would you rate the internship/ training program	20	3			
5	Did the training program achieve your program objective	Y: 23		No:

Internship / Summer Training Feedback Form**VIGNAN'S INSTITUTE OF ENGINEERING FOR WOMEN**

(Kapujaggarajupeta, Duvvada, Visakhapatnam-530 049)

FEEDBACK FORM
INTERNSHIP/ SUMMER TRAINING PROGRAM

Name of the Student: G. ANKITHA Roll Number: 15NH11A0220 Year: 2018
 Attended Location: NTPC, VSZAG. Attended Date: 4-05-2019.

Industry/ Organization name:	<u>NTPC, VSZAG.</u>
Name of the project in-charge/ guide/trainer	<u>B. Venkateswara Rao.</u>
Topic/ session/ project name:	<u>Performance and analysis of alternators.</u>

Feedback:

S.No.		Excellent	Good	Fair	Poor
1	Training is relevant to my needs	✓			
2	The material provided is helpful	✓			
3	Length of the training is sufficient		✓		
4	Training meet my expectations		✓		
5	The illustrations, videos and interactions are used at the right level		✓		
6	The training has improved my knowledge on the subject	✓			
7	Did your trainer answer the questions posted	✓			
8	Is the level of instruction appropriate		✓		
9	Questions are encouraged		✓		
10	The trainer is effective		✓		
How would you rate the overall skills of the trainer (out of 10):		<u>10.</u>			

About Course curriculum training:

Please specify any course/subject/tools/ concepts which are observed to be improved or needed to add or give additional training in our curriculum to make students industry-ready

electrical machines has to be explained with
models.

Note: please put a tick mark in the appropriate column.

Criterion 3	Course Outcomes (CO) and Program Outcomes (PO)	120
3.1	Establish the Correlation between the Courses and the Program Outcomes (POs) and Program Specific Outcomes (PSOs)	20
3.2	Attainment of Course Outcomes	50
3.3	Attainment of Program Outcomes and Program Specific Outcomes	50

3.1 Establish the correlation between the courses and the Program Outcomes (POs) and Program Specific Outcomes (PSOs) (20)

(Program Outcomes as mentioned in Appendix I of SAR and program specific outcomes are defined by the program)

PSO 1: Analyze and solve critical problems associated with Power systems/Control Systems using modern software tools.

PSO 2: Apply the knowledge of power electronics to control and design high- Performance electrical drives for a career in interdisciplinary field.

3.1.1. Course Outcomes (COs) *(SAR should include Course Outcomes of one course from each semester of study, however, should be prepared for all courses and made available as evidence, if asked)* (05)

Course Outcomes are designed by the course coordinator along with faculty handling the course using blooms taxonomy action verbs as per the syllabus prescribed by JNTUK-Kakinada. Course Outcomes starts with an action verb, subject of content and condition of performance. Course Outcomes are the statements that are required for establishing the correlation between the course and the program. With the approval of Program Assessment Quality Improvement Committee (PAQIC) and Head of the Department, the outcomes are finalized. The same procedure is followed if any refinements are required in the outcomes. The following represents the outcomes of individual course considered one course per semester. The outcomes for three academic years i.e., CAY (2020-21), CAYm1 (2019-20) and CAYm2 (2018-19) are tabulated below.

Course Outcomes of admitted batch 2015

Course Name: Basic Electronics and Devices ; Year of Study: 2016-17 ; Year/Sem: II/I	
C203.1	Determine the basic concepts of semiconductor physics for the operation of diodes and transistors.
C203.2	Analyze the operation and characteristics of PN junction diode and special diodes of load flow methods.
C203.3	Describe the operation aspects of rectifiers and regulators.
C203.4	Analyze the characteristics of various transistor configurations - with different biasing, stabilization and compensation techniques in transistor circuits.
C203.5	Illustrate the operation and characteristics of FET, thyristors, Power IGBTs and Power MOSFETs.
C203.6	Deduce the merits and demerits of positive and negative feedback and the role of feedback in oscillators and amplifiers.

Course Name: Control Systems ; Year of Study: 2016-17 ; Year/Sem: II/II	
C214.1	Discuss the mathematical modelling of physical systems, to use block diagram algebra and signal flow graph for the transfer function.
C214.2	Analyse the time response of first and second order systems with proportional plus derivative and proportional plus integral controllers.
C214.3	Determine the stability of closed loop systems using Routh's stability criterion and root locus method.
C214.4	Determine the Frequency Response approaches for the analysis of linear time invariant (LTI) systems using Bode plots, polar plots and Nyquist stability criterion.
C214.5	Examine basic aspects of compensation of linear control systems and different compensators by Bode plots.
C214.6	Analyse state-model systems with the concepts of controllability and observability.

Course Name: Power Electronics ; Year of Study: 2017-18 ; Year/Sem: III/I	
C305.1	Illustrate the characteristics of various power semiconductor devices and operation of diode bridge rectifier.
C305.2	Categorize the operation of AC voltage controller and half-wave phase-controlled rectifiers.
C305.3	Analyse the operation of single phase full-wave converters and harmonics in the input current.
C305.4	Discriminate the operation of three phase full-wave converters and dual converters.
C305.5	Analyse the operation of single phase cyclo-converters and high frequency dc-dc converters.
C305.6	Distinguish the types of inverters and PWM techniques for voltage control and harmonic mitigation.

Course Name: Power System Analysis ; Year of Study: 2017-18 ; Year/Sem: III/II	
C313.1	Sketch of impedance diagram for a power system network.
C313.2	Compute the load flow solution of power system network using different types of load flow methods.
C313.3	Develop Z bus for a partial network and algorithm modification of power system network.
C313.4	Calculate 3-phase short circuit currents, reactance of synchronous machine and MVA.
C313.5	Determine the sequence components of currents for any unbalanced power system network.
C313.6	Analyse the steady state, transient and dynamic stability concepts of power systems.

Course Name: Renewable Energy Sources & System ; Year of Study: 2018-19 ; Year/Sem: IV/I	
C401.1	Summarize solar radiation data, extra-terrestrial radiation and radiation on earth

	surface.
C401.2	Discuss solar thermal collectors, concentrating collectors and solar ponds.
C401.3	Identify the proper solar photo voltaic system suitable for home using photovoltaic sizing.
C401.4	Illustrate maximum power point techniques in wind energy system.
C401.5	Examine the kinetic energy equation of hydro and tidal power plants
C401.6	Illustrate the operation of biomass, fuel cell and geothermal systems.

Course Name: Flexible AC Transmission Systems ; Year of Study: 2018-19 ; Year/Sem: IV/II	
C411.1	Illustrate power flow control in transmission lines by using FACTS controllers.
C411.2	Discuss the operation and control of voltage source converter.
C411.3	Observe compensation methods to improve stability and reduce power oscillations in the transmission lines.
C411.4	Discuss the method of shunt compensation by using static VAR compensators.
C411.5	Classify methods of compensations by using series compensators.
C411.6	Describe operation of modern power electronic controllers (Unified Power Quality Conditioner and Interline Power Flow Controller).

Table 3.1.1.a: Course Outcomes for 2015 admitted Batch (R13 Regulations)

Course Outcomes of admitted batch 2016

Course Name: Electrical Circuit Analysis-II ; Year of Study: 2017-18 ; Year/Sem: II/I	
C201.1	Analyze Three –Phase Circuits under balanced condition.
C201.2	Analyze three-phase circuits under unbalanced conditions.
C201.3	Estimate transient response of networks with different types of excitations.
C201.4	Determine the different types of two port network parameters
C201.5	Examine electrical equivalent network for a given network transfer function.
C201.6	Determine different harmonics from the response of a electrical network.

Course Name: Switching Theory and Logic Design ; Year of Study: 2017-18 ; Year/Sem: II/II	
C211.1	Distinguish various number systems, errors detecting and correcting codes
C211.2	Explain minimization techniques to reduce redundant terms.
C211.3	Construct various combinational logic circuits for the given specific inputs.
C211.4	Explain realization of Boolean functions using Programming logic devices
C211.5	Explain the design of sequential logic circuits using flip-flops

C211.6	Estimate the design of sequential circuits using state diagram
---------------	--

Course Name: Renewable Energy Sources & Systems ; Year of Study: 2018-19 ; Year/Sem: III/I	
C302.1	Summarize solar radiation data, extra terrestrial radiation and radiation on earth surface.
C302.2	Demonstrate solar thermal collectors & solar thermal plants.
C302.3	Identify the proper solar photo voltaic system by using photovoltaic systems.
C302.4	Illustrate maximum power point techniques in wind energy system.
C302.5	Examine the basic principle and kinetic energy equation of hydro, tidal and wave power plants.
C302.6	Illustrate the basic principle and working of biomass, fuel cell and geothermal systems.

Course Name: Power System Analysis ; Year of Study: 2018-19 ; Year/Sem: III/II	
C310.1	Sketch of impedance diagram for a power system network.
C310.2	Compute the load flow solution of power system network using different types of load flow methods.
C310.3	Develop Z bus for a partial network and algorithm modification of power system network.
C310.4	Calculate 3-phase short circuit currents, reactance of synchronous machine and MVA.
C310.5	Determine the sequence components of currents for any unbalanced power system network.
C310.6	Analyze the steady state, transient and dynamic stability concepts of power systems.

Course Name: Switchgear and Protection ; Year of Study: 2019-20 ; Year/Sem: IV/I	
C404.1	Design the principles of arc interruption for application to high voltage circuit breakers of air, oil, vacuum, SF ₆ gas type.
C404.2	Illustrate the working principle and constructional features of different types of electromagnetic protective relays.
C404.3	Distinguish various protective schemes used for Generators and Transformers
C404.4	Compare various protective schemes used for feeders and bus bars.
C404.5	Summarize different static relays and operations of different types of static relays.
C404.6	Differentiate different types of over voltages in a power system and principles of different protective schemes for insulation co-ordination.

Course Name: HVDC Transmission ; Year of Study: 2019-20 ; Year/Sem: IV/II	
C410.1	Compare AC and DC Transmission, explain types of HVDC transmission levels and basic concepts.
C410.2	Choose the appropriate converter for an HVDC system
C410.3	Assess and control the operation of DC link
C410.4	Explain control concept of reactive power control and AC/DC load flow.
C410.5	Explain converter faults protection and estimate the harmonics.
C410.6	Design a low pass and high pass filter.

Table 3.1.1.b: Course Outcomes for 2016 admitted Batch (R16 Regulations)

Course Outcomes of admitted batch 2017

Course Name: Electrical Circuit Analysis-II ; Year of Study: 2018-19 ; Year/Sem: II/I	
C201.1	Analyze Three –Phase Circuits under balanced condition.
C201.2	Analyze three-phase circuits under unbalanced conditions.
C201.3	Estimate transient response of networks with different types of excitations.
C201.4	Determine the different types of two port network parameters
C201.5	Examine electrical equivalent network for a given network transfer function.
C201.6	Determine different harmonics from the response of a electrical network.

Course Name: Switching Theory and Logic Design ; Year of Study: 2018-19 ; Year/Sem: II/II	
C211.1	Distinguish various number systems, errors detecting and correcting codes
C211.2	Explain minimization techniques to reduce redundant terms.
C211.3	Construct various combinational logic circuits for the given specific inputs.
C211.4	Explain realization of Boolean functions using Programming logic devices
C211.5	Explain the design of sequential logic circuits using flip-flops
C211.6	Estimate the design of sequential circuits using state diagram

Course Name: Renewable Energy Sources & Systems ; Year of Study: 2019-20 ; Year/Sem: III/I	
C302.1	Summarize solar radiation data, extra-terrestrial radiation and radiation on earth surface.
C302.2	Demonstrate solar thermal collectors & solar thermal plants.
C302.3	Identify the proper solar photo voltaic system by using photovoltaic systems.
C302.4	Illustrate maximum power point techniques in wind energy system.
C302.5	Examine the basic principle and kinetic energy equation of hydro, tidal and wave power plants.
C302.6	Illustrate the basic principle and working of biomass, fuel cell and geothermal systems.

Course Name: Power System Analysis ; Year of Study: 2019-20 ; Year/Sem: III/II	
C310.1	Sketch of impedance diagram for a power system network.
C310.2	Compute the load flow solution of power system network using different types of load flow methods.
C310.3	Develop Z bus for a partial network and algorithm modification of power system network.
C310.4	Calculate 3-phase short circuit currents, reactance of synchronous machine and MVA.
C310.5	Determine the sequence components of currents for any unbalanced power system network.
C310.6	Analyze the steady state, transient and dynamic stability concepts of power systems.

Course Name: Switchgear and Protection ; Year of Study: 2020-21 ; Year/Sem: IV/I	
C404.1	Design the principles of arc interruption for application to high voltage circuit breakers of air, oil, vacuum, SF ₆ gas type.
C404.2	Illustrate the working principle and constructional features of different types of electromagnetic protective relays.
C404.3	Distinguish various protective schemes used for Generators and Transformers
C404.4	Compare various protective schemes used for feeders and bus bars.
C404.5	Summarize different static relays and operations of different types of static relays.
C404.6	Differentiate different types of over voltages in a power system and principles of different protective schemes for insulation co-ordination.

Course Name: HVDC Transmission ; Year of Study: 2020-21 ; Year/Sem: IV/II	
C410.1	Compare AC and DC Transmission, explain types of HVDC transmission levels and basic concepts.
C410.2	Choose the appropriate converter for an HVDC system
C410.3	Assess and control the operation of DC link
C410.4	Explain control concept of reactive power control and AC/DC load flow.
C410.5	Explain converter faults protection and estimate the harmonics.
C410.6	Design a low pass and high pass filter.

Table 3.1.1.c: Course Outcomes for 2017 admitted Batch (R16 Regulations)

3.1.2. CO-PO matrices of courses selected in 3.1.1 (six matrices to be mentioned; one per semester from 3rd to 8th semester) (05)

The table indicates the CO-PO/PSO mapping from 3rd to 8th semester and correlation levels are defined as 1-Slight (Low), 2-Moderate (Medium), 3-Substantial (High) and if there is no correlation then marked with '-'. The table consists of the correlation of the outcomes defined in Sec. 3.1.1 with respect to the Program Outcomes and the PSOs.

C201	3	3

Course Name: Switching Theory and Logic Design; Year of Study: 2017-18; Year/Sem: II/II		
Course Code	PSO1	PSO2
C211.1	-	-
C211.2	3	3
C211.3	3	3
C211.4	3	-
C211.5	3	-
C211.6	3	3
C211	3	3

Course Name: Renewable Energy Sources & Systems; Year of Study: 2018-19; Year/Sem: III/I		
Course Code	PSO1	PSO2
C302.1	3	-
C302.2	3	-
C302.3	3	-
C302.4	3	-
C302.5	3	-
C302.6	3	-
C302	3	-

Course Name: Power System Analysis ; Year of Study: 2018-19; Year/Sem: III/II		
Course Code	PSO1	PSO2
C310.1	3	-
C310.2	3	-
C310.3	3	-
C310.4	3	-
C310.5	3	-
C310.6	3	-
C310	3	-

Course Name: Switchgear and Protection; Year of Study: 2019-20; Year/Sem: IV/I		
Course Code	PSO1	PSO2
C404.1	3	-
C404.2	3	-
C404.3	3	-
C404.4	3	-
C404.5	3	-
C404.6	3	-
C404	3	-

Course Name: HVDC Transmission; Year of Study: 2019-20; Year/Sem: IV/II		
Course Code	PSO1	PSO2
C410.1	3	2
C410.2	3	3
C410.3	3	3
C410.4	3	2
C410.5	3	-
C410.6	3	-
C410	3	2.5

Table 3.1.2.e CO-PSO mapping for 2016 admitted Batch (R16 Regulations)

CO-PSO mapping of admitted batch: 2017

Course Name: Electrical Circuit Analysis-II ; Year of Study: 2018-19; Year/Sem: II/I		
Course Code	PSO1	PSO2
C201.1	3	3
C201.2	3	3
C201.3	3	3

Table 3.1.2.f CO-PSO mapping for 2017 admitted Batch (R16 Regulations)

3.1.3. Program level course-PO matrix of all courses including first year courses (10)

The following table represents the correlation between individual courses and the Program Outcomes/ Program Specific Outcomes. These values are the average values obtained from the correlation of Course Outcomes with PO/PSO from tables 3.1.2.a to 3.1.2.f.

Admitted Batch: 2015												
Course	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
C101	-	-	-	-	-	2.33	2.33	2.33	2.33	3.00	2.50	3.00

Table 3.1.3.f: CO-PSO Correlation matrix for 2017 Admitted Batch

3.2. Attainment of Course Outcomes (50)

3.2.1. Describe the Assessment Processes used to gather the data upon which the Evaluation of Course Outcome is based (10)

(Examples of data collection processes may include, but are not limited to, specific exam/tutorial questions, assignments, laboratory tests, project evaluation, student portfolios)

(A portfolio is a collection of artifacts that demonstrate skills, personal characteristics and accomplishments created by the student during study period), internally developed assessment exams, project presentations, oral exams, etc.)

The attainment process for the evaluation of Course Outcomes is based on by taking 80% of direct attainment and 20% of indirect attainment. The direct attainment includes evaluation of Course Outcome attainment through internal and external attainment like marks in theory courses, laboratory courses, project course and seminar. The weightage of indirect attainment is 20% taken from Course end survey.

R13 Regulation:

Assessment tools for calculation of Course Outcome Attainment:

The process of assessment through the marks includes:

1. Internal marks (30 marks)
2. External marks (70 marks)
3. Course end survey on the respective Course Outcomes.

❖ Theory Assessment

Internal Marks:

As prescribed by the JNTUK-Kakinada, the internal marks are assessed from MID –I and MID-II examinations. However, for evaluating the student, best of one is considered. Each mid examination consists of 30 marks which are split into:

i) Descriptive exam for 15 marks

The questions for descriptive examination are set by the faculty concerning the course coordinator. It constitutes of three questions with each question carrying equal marks. These questions reflect the Course Outcomes of the course defined by the course coordinator. The answer scripts of the exam are evaluated by the faculty with a scheme of evaluation.

ii) Online exam for 10 marks.

The online exam questions are provided by the University. There will be one online exam for each mid. 20 multiple choice questions covering the three units of syllabus and to complete in 20 minutes of time.

iii) Student's assignment for 5 marks.

Based on the concepts discussed with the students, few questions like application oriented, problematic, analytical etc. are given as assignment to the students. One assignment per each unit and hence six assignments for six units will cover each course outcome.

External Marks:

The external marks are obtained from the end exams conducted by the JNTUK- Kakinada. This carries 70 marks. However, the institution cannot have the access to the answer scripts and will not be aware of the marks with respect to Course Outcomes. Hence, the overall marks are considered to be uniformly distributed among all the outcomes of a respective course.

Assigning of Attainment levels

For the calculation of individual course outcome, attainment levels are assigned based on the continuous monitoring, basic knowledge, and skills, etc.

Attainment levels:

Four values of attainment levels are assigned as:

- *Attainment level 1:* If 60% of the total students had achieved the target marks for a Course Outcome, then the Attainment level is 1.
- *Attainment level 2:* If 70% of the total students had achieved the target marks for a Course Outcome, then the Attainment level is 2.
- *Attainment level 3:* If 80% of the total students had achieved the target marks for a Course Outcome, then the Attainment level is 3.
- However, if at least 60% of the total students didn't achieved the target marks for a Course Outcome and then the Attainment level is 0.

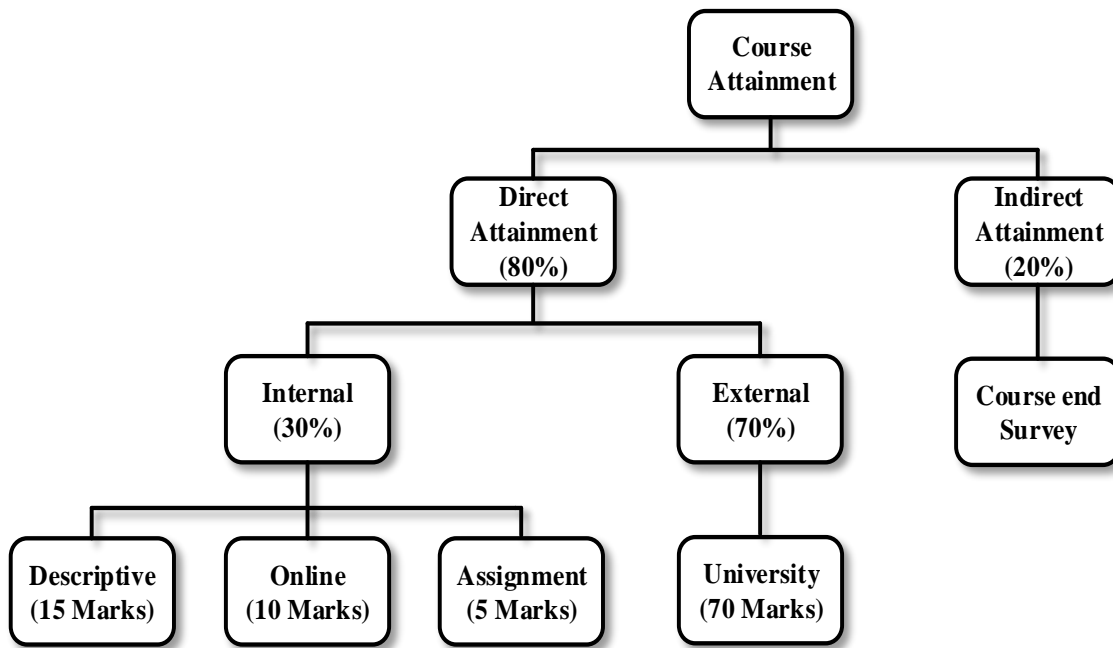

Figure 3.2.1.a: Assessment tools for the calculation of CO attainment for theory course

❖ **Laboratory Assessment:**

The marks allotted for laboratory course are 75 marks, out of which 25 marks are allotted as internal and 50 marks as external. The course attainments of laboratory with respect to the tools are described below:

Internal Assessment:

- i) Day to day evaluation for 10 marks

The students are regularly monitored with respect to the preparation of the experiments. Based on their performance in conduction of experiment, regularity, viva and the results obtained, ten marks are allotted.

- ii) Record for 5 marks

Students will prepare the records after obtaining the valid results for each experiment. On the basis of quality of record preparation and in time submission the marks are allotted

- iii) Internal exam for 10 marks

Internal lab exam is conducted at the end of the course based on the experiments/programs reflecting the course outcomes.

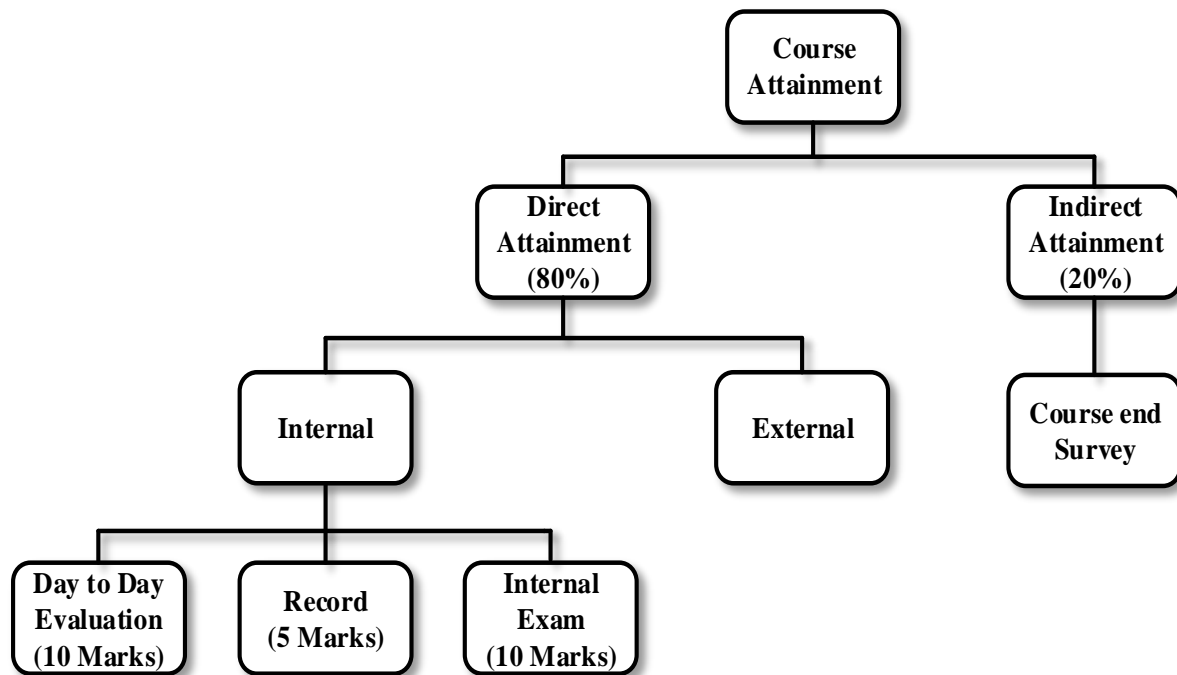

Figure 3.2.1.b: Assessment tools for calculation of CO Attainment for laboratory course

❖ **Project Assessment:**

The marks allotted for project are 200 marks which are split into 60 marks as internal and 140 marks as external. Internal reviews are conducted in three divisions as Project Review Committee (PRC-1), Project Review Committee (PRC-2) Project Review Committee (PRC-3).

PRC1 is based on the following parameters:

- Goals
- Research

PRC2 is based on the following parameters:

- Process and Improvement
- Project Management

PRC3 is based on the following parameters:

- Quality of Project with Satisfied Execution

External project reviews are conducted in the presence of external examiner which is based on complete project review with design, simulation, results etc. These on a whole produce direct attainment. Course end surveys are taken for indirect attainment.

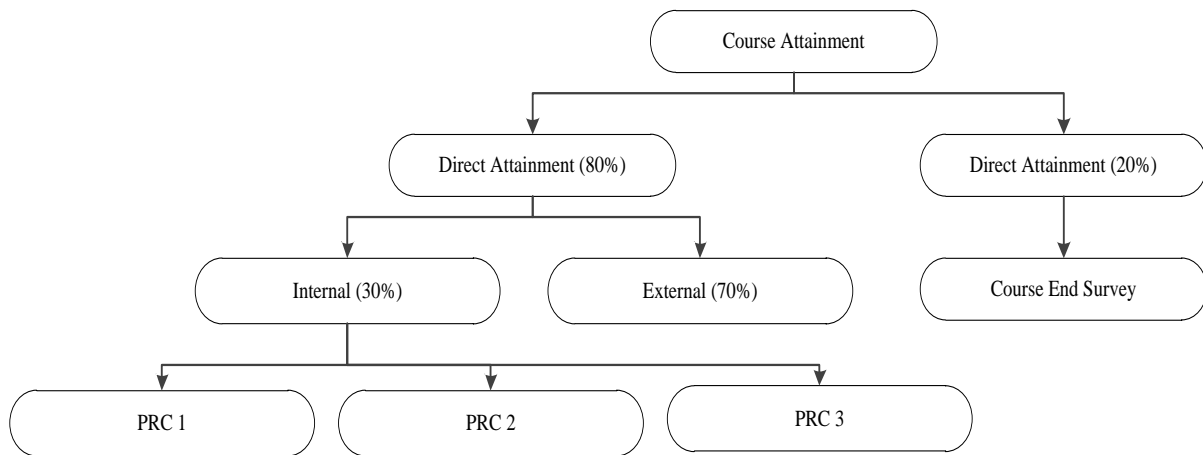

Figure 3.2.1.c: Assessment tools for the calculation of CO attainment for Project course

❖ **Seminar Assessment:**

The Seminar carries 50M. An evaluation panel consists of coordinator and senior faculties. Each student has to give her own presentation before the panel. The student will be evaluated based on the following points:

- Selection of the topic
- Presentation skills
- Viva
- Quality of seminar document

Indirect Assessment:

A survey on the course outcomes is conducted at the end of the semester, before the University examination. Course coordinator will prepare the questionnaire on the outcomes and will submit the same to Program Assessment Quality Improvement Committee (PAQIC). These feedback forms are distributed among the students and are collected by PAQIC. A sample copy of Course End survey form for one course is shown below.

Department of Electrical & Electronics Engineering
COURSE END SURVEY FORM

Name of the Faculty: **K.V. Sri Ram Prasad**

Name of the Course	Electro Magnetic Fields	Course Code	C205
Name of the Student	Nakkela Sharmini	Regd. No.	14NM1A0227

Course Outcomes

On successful completion of the course the students should able to:

CO1	Illustrate the electric field, electric potential, Gauss's law, Laplace and Poisson's equations.	K2
CO2	Determine the capacitance; energy stored in dielectrics, conduction and convection currents.	K3
CO3	Deduce an expression for magnetic field intensity due to current, Ampere's circuit law and Maxwell's equations.	K4
CO4	Predict the magnetic forces and torque produced by currents in the magnetic field.	K3
CO5	Calculate self, mutual inductances and the energy stored in the magnetic field.	K3
CO6	Deduce an expression for induced EMF, displacement current and Poynting vector in time varying fields.	K4

Mark a tick '√' in the appropriate cell.

(Note: High-3; Medium-2; Low-1)

Course Outcome	Questionnaires	Rating		
CO-1	Are you able to illustrate the electric fields and electric potential?	3 <input checked="" type="radio"/>	2 <input type="radio"/>	1 <input type="radio"/>
CO-2	Are you able to determine the capacitance and energy stored in dielectrics?	3 <input checked="" type="radio"/>	2 <input type="radio"/>	1 <input type="radio"/>
CO-3	Are you able to deduce expressions for magnetic field intensity due to current, Ampere's circuit law and Maxwell's equations?	3 <input type="radio"/>	2 <input checked="" type="radio"/>	1 <input type="radio"/>
CO-4	Are you able to predict the magnetic forces and torque produced by currents in the magnetic field?	3 <input checked="" type="radio"/>	2 <input type="radio"/>	1 <input type="radio"/>
CO-5	Are you able to calculate self, mutual inductances and the energy stored in the magnetic field?	3 <input checked="" type="radio"/>	2 <input type="radio"/>	1 <input type="radio"/>
CO-6	Are you able to Deduce an expression for induced EMF, displacement current and Poynting vector in time varying fields?	3 <input checked="" type="radio"/>	2 <input type="radio"/>	1 <input type="radio"/>

Figure 3.2.1.d: Sample of course end survey

Assigning of Attainment levels:

For the assessment of a course, the outcomes of the course are assigned with certain attainment levels based on the continuous monitoring, their basic knowledge, their skills, etc.

Attainment levels:

Four values of attainment levels are assigned as:

- *Attainment level 1:* If 60% of the total students had achieved the target marks for a Course Outcome, then the outcome is assigned with Attainment level 1.
- *Attainment level 2:* If 70% of the total students had achieved the target marks for a Course Outcome, then the outcome is assigned with Attainment level 2.

- *Attainment level 3*: If 80% of the total students had achieved the target marks for a Course Outcome, then the outcome is assigned with Attainment level 3.

If at least 60% of the total students didn't achieved the target marks for a Course Outcome, then the outcome is assigned with Attainment level 0.

Calculation of Course Attainment:

The process of calculating course outcome attainment is described below:

1. Marks obtained by the students in Mid-I and Mid-II are collected.
2. Each Course Outcome is calculated from marks obtained by each student.
3. From the assigned attainment levels, the attainment level of each course outcome is calculated.
4. The average of attainment levels of all the Course Outcomes gives the internal attainment level of the course.
5. Attainment level of the external examination is also calculated.
6. According to the weightage given by the University, 30% of the internal attainment and 70% of the external attainment is considered to calculate the direct attainment of the Course Outcome.
7. Individual faculty will take the course end survey on the Course Outcomes at the end of every semester.
8. Hence, 80% of the attainment obtained through marks and 20% of the attainment obtained through end survey, feedback, is considered to be the total Course Attainment.

Sample attainment calculation for a course is described below:

Course: EMF, Course Code: C205

Internal Attainment:

The following table represents the evaluation of Mid-I. The table consists of total number of students, their marks for individual questions, assignment marks and online marks. Six Course Outcomes were defined for the course, each outcome reflects one unit. Therefore, Mid-I cover first three Course Outcomes and Mid-II covers remaining Outcomes.

According to mid examination syllabus, CO1 covers Question (Q1), Assignment (A1). Similarly, CO2 & CO3 cover Q2, A2 and Q3, A3 respectively. Online is shared equally among the three outcomes which are provided by JNTUK. The marks obtained by the candidate corresponding to each Course Outcome are:

CO1= Marks of Question1+ (Marks of Assignment 1)/3+ (Online quiz marks)/3.

CO2= Marks of Question2+ (Marks of Assignment 2)/3+ (Online quiz marks)/3.

CO3= Marks of Question3+ (Marks of Assignment 3)/3+ (Online quiz marks)/3.

Target fixed for the internal examination: 60%

Total number of students: 62

Total absentees: 1

Total number of students attended the exam: 61

From the calculation, the marks for each CO are 10. Hence, the target marks will be 6M.

Mid-I Evaluation													
S.No.	Reg. No.	Student Name	Descriptive			Assignment			Online	Marks for CO1	Marks for CO2	Marks for CO3	Total
			Q1	Q2	Q3	A1	A2	A3	Quiz

			CO1	CO2	CO3	CO1	CO2	CO3		26	22	37	

Figure 3.2.1.e: Mid-I evaluation format for course attainment

Total number of students attained the target for CO1 =26

%age of students attained CO1 = 26/61*100 = 42.62%

Since 42.62% < 60%, the attainment level of CO1 is 0.

Total number of students attained the target for CO2 = 22

%age of students attained CO2 = 22/61*100=36.06%

Since 36.06% < 60%, the attainment level of CO2 is 0.

Total number of students attained the target for CO3 = 37

%age of students attained CO3 = 37/61*100 = 60.65%

Since 60.65% > 60%, the attainment level of CO3 is 1.

Similarly for Mid-II, the marks obtained by each candidate corresponding to each Course Outcome are

CO4 = Marks of Question1+ (Marks of Assignment 1)/3+ (Online quiz marks)/3.

CO5 = Marks of Question2+ (Marks of Assignment 2)/3+ (Online quiz marks)/3.

CO6 = Marks of Question3+ (Marks of Assignment 3)/3+ (Online quiz marks)/3.

Target fixed for the internal examination: 60%

Total number of students: 62

Total absentees: 0

Total number of students attended the exam: 62

Mid-II Evaluation

Number of students above target			CO4	CO5	CO6	CO4	CO5	CO6		60	54	51	

Figure 3.2.1.f: Mid-II evaluation format for course attainment

From the calculation, the marks for each CO are 10. Hence, the target marks will be 6M.

Total number of students attained the target for CO4 = 60

%age of students attained CO4 = $60/62 \times 100 = 96.97\%$

Since $96.97\% > 80\%$, the attainment level of CO4 is 3.

Total number of students attained the target for CO5 = 54

%age of students attained CO5 = $54/62 \times 100 = 87.09\%$

Since $87.09\% > 80\%$, the attainment level of CO5 is 3.

Total number of students attained the target for CO6 = 51

%age of students attained CO6 = $51/62 \times 100 = 82.25\%$

Since $82.25\% > 80\%$, the attainment level of CO6 is 3.

External Attainment:

Collecting the marks from the University, the external attainment is calculated as follows:

Target fixed for External examination: 40%

Total number of students: 62

Total absentees: 0

Total number of students attended the exam: 62

External comprises of 70M. Hence, the target marks will be 28M.

Total number of students attained the target for external examination = 58

%age of students attained = $58/62 \times 100 = 93.54\%$

Since $93.54\% > 80\%$, the attainment level for External examination is 3.

Figure 3.2.1.g: External examination evaluation format for course attainment

The following figure shows the overall course attainment having tools:

- Internal attainment
- External attainment
- Direct attainment
- Indirect attainment
- Course Attainment

Course Attainment Calculation

Direct Attainment					Indirect Attainment	
	Mid-I	Mid-II	Internal	University	Feedback	2.5
CO1	0		0	3		
CO2	0		0	3		
CO3	1		1	3		
CO4		3	3	3		
CO5		3	3	3		
CO6		3	3	3		
Average			1.67	3.00		
Weightage			30%	70%		
Attainment			0.5	2.1		
Final Direct Attainment			2.6			
Weightage			80%			
Attainment			2.08			
Course Attainment			2.58			

Figure 3.2.1.h: Course attainment template

The average of attainment levels of CO1, CO2, CO3, CO4, CO5, & CO6 gives the Internal Attainment level of the course.

Direct attainment:

Internal attainment = 1.67

Weighted internal attainment = 30% of Internal Attainment = $0.3 \times 1.67 = 0.5$

External Attainment = 3

Weighted External Attainment = 70% of external attainment = $0.7 \times 3 = 2.1$

Direct attainment = Weighted internal attainment + Weighted external attainment
 $= 0.5 + 2.1 = 2.6$

Indirect attainment:

Feedbacks are collected from the students on the Course Outcomes. This indicates the level of knowledge gained by students in a particular course. The average of all these outcomes results in indirect attainment.

Course attainment:

$$\begin{aligned}\text{Course attainment} &= 80\% \text{ of direct attainment} + 20\% \text{ of indirect attainment} \\ &= 80\% \text{ of } 2.6 + 20\% \text{ of } 2.5 = 2.08 + 0.5 \\ &= 2.58.\end{aligned}$$

Similar procedure is followed for all the courses and is displayed in Table 3.2.2.a.

R16 Regulation:**❖ Attainment for theory courses**

The process of assessment through marks includes:

1. Internal marks (30M)
2. External marks (70M)
3. Course end survey on the respective course outcomes

Internal Marks

As prescribed by JNTUK, internal marks are considered from two mid examination marks.

The first mid examination constitutes first three outcomes and the next mid examination constitutes the next three outcomes. The marks of mid examination, 30M are split into:

a. Descriptive exam with 15M

The questions for descriptive examination are set by the faculty with concerning the course coordinator. It constitutes of three questions framed using Revised Bloom's Taxonomy with each question carrying equal marks. These questions reflect the course outcomes of the course defined by the course coordinator. The answer scripts of the exam are evaluated by the faculty under the observation of the course coordinator with a scheme of evaluation provided.

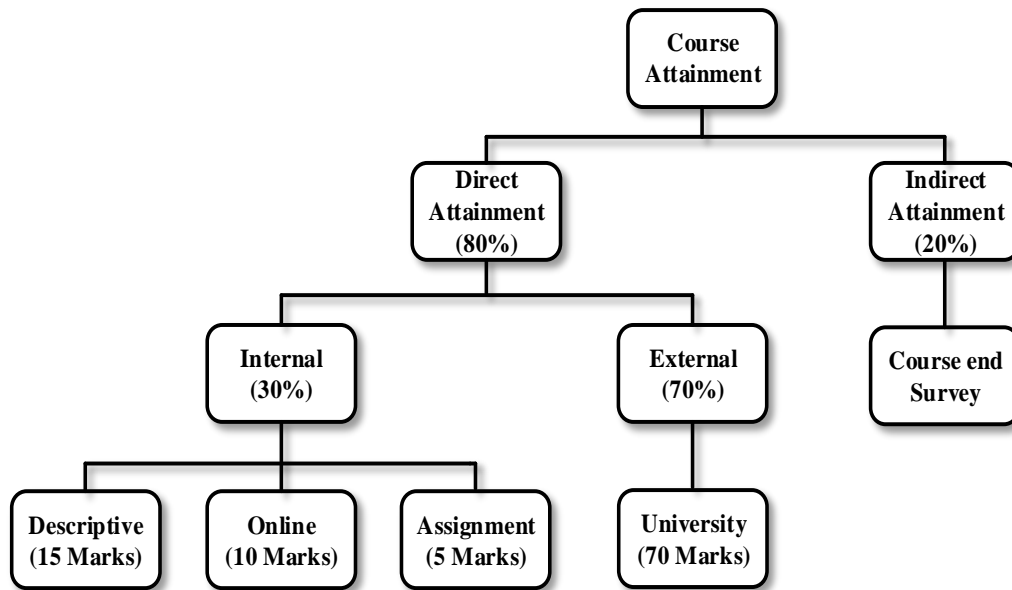

Figure 3.2.1.i: Course Attainment Procedure

b. Online exam with 10M

The online exam questions are provided by the University. 20 Multiple Choice Questions are given based on the syllabus which the students have to attempt in a given interval of time. The marks are displayed after the submission of the examination by the student.

c. Student's assignment with 5M

Based on the concepts discussed in the class, few questions like application oriented, problematic, analytical etc. are given as assignment to the students. Assignments are given for all the units and are averaged for the two mid exams.

The following is the course evaluation process.

External Marks

The external marks are obtained from the end exams conducted by JNTU Kakinada. This consists of 70M. The overall marks are considered to be uniformly distributed among all the outcomes of a respective course. These are evaluated by the external examiner under the observation of Chief evaluator. The results are displayed by the University in the website.

Course end survey

A survey on the course outcomes is conducted at the end of the semester, before the University examination. Course coordinator will prepare the questionnaire on the outcomes and will submit the same to Program Assessment Quality Improvement Committee (PAQIC).

These feedback forms are distributed among the students and are collected by PAQIC. A sample copy of Course End Survey Form for one course is shown below

Department of Electrical and Electronics Engineering
COURSE END SURVEY FORM

Name of the Faculty: G. Ravi Kumar

Name of the Course	Electrical Circuit Analysis-I	Course Code	C114
Name of the Student	M. Deepthi Sree	Regd. No.	16NM1A0258

Course Outcomes
 On successful completion of the course the students should able to:

CO1	Apply the knowledge of basic circuit law and simplify the network using reduction techniques.	K3
CO2	Identify the behavior of RLC networks for sinusoidal excitations.	K2
CO3	Analyze the performance of R-L, R-C and R-L-C circuits with variation of one of the parameters and to understand the concept of resonance.	K4
CO4	Discuss the concept of magnetic coupled circuits.	K3
CO5	Illustrate the applications of network topology to electrical circuits.	K2
CO6	Discuss the network theorems for analysis of electrical networks.	K4

Mark a tick '√' in the appropriate cell.

(Note: High-3; Medium-2; Low-1)

Course Outcome	Questionnaires	Rating		
		3	2	1
CO-1	Are you able to apply the knowledge of basic circuit law and simplify the network?	3 <input checked="" type="checkbox"/>	2 <input type="checkbox"/>	1 <input type="checkbox"/>

Figure 3.2.1.j: Sample of course end survey

Procedure for attainment calculation

The process of calculating course outcome attainment and hence course attainment is described in the following points:

1. Marks obtained by the students in Mid-1 and Mid-2 are collected.
2. As per the university curriculum 80% of maximum marks and 20% of minimum marks obtained are considered for internal mid evaluation.
3. Marks for each COs are calculated.
4. From the assigned attainment levels, the attainment level of each outcome is calculated.
5. The average of attainment levels of all the course outcomes gives the internal attainment level of that course.
6. Attainment level of the external examination is also calculated.
7. According to the weightage given by the University, 30% of the internal attainment and 70% of the external attainment is considered to calculate the direct attainment of that course.
8. Individual faculty with the support of PAQIC will take the course end survey on the course outcomes at the end of every semester to calculate indirect attainment.
9. Hence, 80% of the attainment level obtained through marks and 20% of the attainment level obtained through end survey, feedbacks, is considered to be the total Course Attainment.

Attainment calculation for a course is described below:

A course from second year, C114, *Electrical Circuit Analysis-I*, is considered as example. Course attainment involves direct attainment (DA) and indirect attainment (IA). Direct attainment comprises of mid examinations (descriptive, assignment and online) and External examination.

Internal Assessment:

The following table represents the evaluation of Mid-I. The table consists of total number of students, their marks for individual questions, assignment marks and online marks. Six course outcomes were defined for the course in which each outcome reflects one unit. Therefore, Mid-I exam covers first three outcomes and Mid-II exam the remaining.

Total number of students : 97

Total absentees : 0

Total number of students attended the exam: 97

External comprises of 70M. Hence, the target marks will be 28M.

Total number of students attained the target for external examination= 89

Percentage of students attained = $89/97 * 100 = 91.75\%$

Since $91.75\% > 80\%$, the attainment level for External examination is 3.

S.No.	Reg. No.	Student Name	University Exam Marks
			70M
1	16NM1A0201	ALLU ALEKHYA	51
2	16NM1A0202	ANANTARAPU DULEESHA	27
.	.	.	.
.	.	.	.
96	16NM1A0297	YAVARNA RUPA	40
97	15NM1A0205	BUDDHA CHANDANA	35
		Target	40%
		No. of students Attended	97
		No. of students Attained Target	89
		Percentage of Students Attained Target	91.75
		University Exam Attainment Level	3

Figure 3.2.1.1: Mid-II Evaluation

The final course attainment is calculated as shown. The average of attainment levels of CO1, CO2, CO3, CO4, CO5 & CO6 give the internal attainment level. As prescribed by the University, the weightage for internal and external is 30% and 70% respectively.

Direct Attainment					Indirect Attainment	
	Mid-I	Mid-II	Internal	University	Feedback	2.90
CO1	0		0	3		
CO2	0		0	3		
CO3	0		0	3		
CO4		0	0	3		
CO5		0	0	3		
CO6		1	1	3		
Average			0.17	3.00		
Weightage			30%	70%		
Attainment			0.05	2.1		
Final Direct Attainment			2.15			
Weightage			80%	20%		
Attainment			1.72	0.58		
Course Attainment			2.30			

Figure 3.2.1.m: Course Attainment Calculation for ECA-I Course

Direct attainment:

Internal attainment=0.17

Weighted internal attainment=30% of Internal Attainment=0.30*0.17=0.05

External Attainment=3

Weighted External Attainment=70% of external attainment=0.70*3=2.1

Direct attainment = Weighted internal attainment + Weighted external attainment
 = 0.05+2.1 = 2.15

Indirect attainment: Feedbacks are collected from the students on the Course Outcomes. This indicates the level of knowledge gained by students in a particular course. The average of all these outcomes results in indirect attainment.

Course attainment:

Course attainment = 80% of direct attainment + 20% of indirect attainment
 =80% of 2.15+20% of 2.90
 =1.72+0.58
 =2.30

❖ Attainment for Laboratory Course

The process of assessment through marks includes:

1. Internal marks (25M)
2. External marks (50M)
3. Course end survey on the respective course outcomes

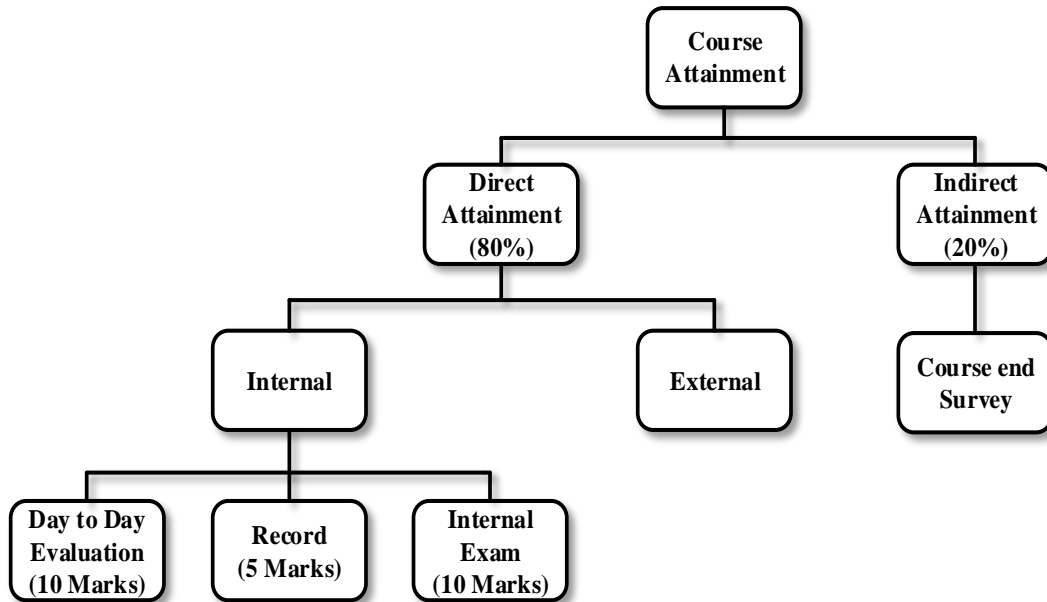

Figure 3.2.1.n: Attainment for Laboratory Course

Internal marks (25M)

The internal marks for labs are divided into three parts, day-day evaluation, record and internal exam.

- a. Day to day evaluation with 10M

The students are regularly monitored with respect to the preparation towards the experiments of the lab. Based on the daily viva, completion of the experiment etc. marks is allotted.

- b. Record with 5M

The completed experiments/programs in the lab are recorded and are filed in records. On the basis of quality of record preparation and in time submission the marks are allotted.

- c. Internal exam with 10M

Internal exam at the end of the course is conducted where the questions are given based on the experiments/programs reflecting the course outcomes.

External marks (50M)

External exam at the end of the course is conducted where the questions are given based on the experiments/programs reflecting the course outcomes. The exam is conducted in the presence of an external examiner appointed by the University.

Course end survey

A survey similar to that of described in theory assessment is conducted on the outcomes of laboratory and indirect assessment is evaluated.

❖ Seminar Attainment

Seminar is allotted with 50M. A panel is arranged with the coordinator and senior faculties. Each student has to give her own presentation in front of the panel. Student will be evaluated based on the following points:

- Selection of the topic
- Presentation skills
- Viva
- Quality of seminar document.

This evaluation is covered based on three outcomes.

CO1: Identify advanced technologies in various technical areas.

CO2: Express the ideas as an individual and enhance the written communication skills with ethical values.

CO3: Predict the impact of the engineering solutions in societal and environmental contexts.

Direct attainment

The marks for seminar are split into 3 parts:

a. Documentation(15M)

The student identifies advanced technologies and has to prepare a documentation imparting their ideas. This increases their writing skills and the way of expressing their ideas.

b. Presentation(20M)

The student has to justify their topic selected for the presentation. They have to relate their presentation towards societal and environmental contexts.

c. Viva(15M)

Based on the topic and the presentation, students have to justify and defend the questionnaires asked. This improves the knowledge of the students on the basics.

Course end survey

Feedback is taken on seminar based on: Enhancement of communication skills, idea of selecting technical topics, technology related to societal needs, etc.

Procedure for calculating attainment

1. Post the values of presentation, documentation and viva for each student.
2. Based on these marks, for each CO is evaluated.
3. Fixing the target, total number of students who achieved the target is counted.
4. Attainment level for each CO is based on the percentage of students achieved the target.

❖ Project attainment

The process of assessment through marks includes:

1. Internal marks (60M)
2. External marks (140M)
3. Course end survey on the respective course outcomes

Outcomes for project are as defined:

CO1: Observe the skills of demonstrating the learning achievements in the field of technology and imbibe the knowledge of effective classroom speaking and presentation.

CO2: Apply knowledge in building their career fields and face any type of interviews, viva-voice, and aptitude tests.

CO3: Elaborate on their communication skills and instructiveness.

CO4: Rephrase the uses and application of Electrical machines, Power systems and power electronics domains

CO5: Classify the knowledge about the various principles of Electrical and Electronics with the barriers which effects in a professional set up.

Internal marks (60M)

The internal marks are split into three reviews: Project Review Committee (PRC1), Project Review Committee (PRC2) & Project Review Committee (PRC3)

PRC1 is based on the following parameters:

- Goals
- Research

PRC2 is based on the following parameters:

- Process and Improvement
- Project Management

PRC3 is based on the following parameters:

- Quality of Project with Satisfied Execution

External marks (140M)

External project reviews are conducted in the presence of external examiner which is based on complete project review with design, simulation, results etc. These on a whole produce direct attainment. Course end surveys are taken for indirect attainment

Course end survey

A survey similar to that of described in theory assessment is conducted on the outcomes of project and indirect assessment is evaluated.

Procedure for calculating attainment

1. Post the marks for all the parameters related to all COs.
2. Marks of the respective COs for each individual student are added.
3. Fixing the target, total number of students achieved the target is counted.
4. Attainment level for each CO is based on the percentage of students achieved the target.

R19 Regulation:

Assigning of Attainment Levels

For the assessment of a course, the outcomes of the course are assigned with certain attainment levels based on the continuous monitoring, their basic knowledge, their skills, etc.

Four values of attainment levels are assigned as:

- *Attainment level 1:* If 60% of the total students had achieved the target marks for a course outcome, then the outcome is assigned with Attainment level 1.
- *Attainment level 2:* If 70% of the total students had achieved the target marks for a course outcome, then the outcome is assigned with Attainment level 2.
- *Attainment level 3:* If 80% of the total students had achieved the target marks for a course outcome, then the outcome is assigned with Attainment level 3.

If at least 60% of the total students didn't achieved the target marks for a course outcome, then the outcome is assigned with Attainment level 0

❖ Attainment for theory courses

The process of assessment through marks includes:

1. Internal marks (25M)
2. External marks (75M)
3. Course end survey on the respective course outcomes

Internal Marks

As prescribed by JNTUK, internal marks are considered from two mid examination marks.

The first mid examination constitutes first three outcomes and the next mid examination constitutes the next three outcomes. The marks of mid examination, 25M are split into:

- a. Descriptive exam with 10M

The questions for descriptive examination are set by the faculty with concerning the course coordinator. It constitutes of three questions framed using Revised Bloom's Taxonomy with each question carrying equal marks. These questions reflect the course outcomes of the course defined by the course coordinator. The answer scripts of the exam are evaluated by the faculty under the observation of the course coordinator with a scheme of evaluation provided.

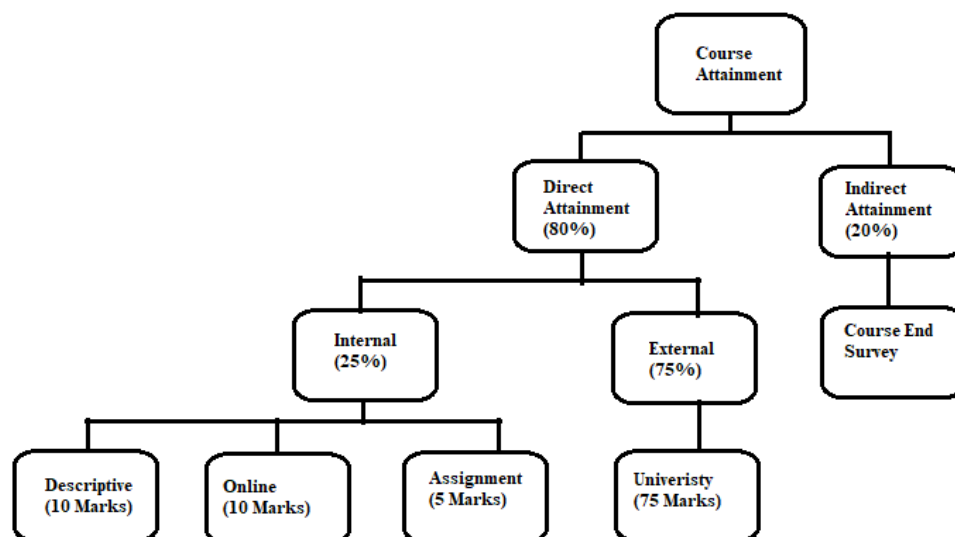

Figure 3.2.1.o: Course Attainment Procedure

- b. Online exam with 10M

The online exam questions are provided by the University. 20 Multiple Choice Questions are given based on the syllabus which the students have to attempt in a given interval of time. The marks are displayed after the submission of the examination by the student.

c. Student's assignment with 5M

Based on the concepts discussed in the class, few questions like application oriented, problematic, analytical etc. are given as assignment to the students. Assignments are given for all the units and are averaged for the two mid exams.

The following is the course evaluation process.

External Marks

The external marks are obtained from the end exams conducted by JNTU Kakinada. This consists of 75M. The overall marks are considered to be uniformly distributed among all the outcomes of a respective course. These are evaluated by the external examiner under the observation of Chief evaluator. The results are displayed by the University in the website.

Course end survey

A survey on the course outcomes is conducted at the end of the semester, before the University examination. Course coordinator will prepare the questionnaire on the outcomes and will submit the same to Program Assessment Quality Improvement Committee (PAQIC). These feedback forms are distributed among the students and are collected by PAQIC. A sample copy of Course End Survey Form for one course is shown below.

Department of Electrical and Electronics Engineering
COURSE END SURVEY FORM

Name of the Faculty: Mr.K.V. Sri Ram Prasad/ Ms. V. Kalyani

Name of the Course	Electro Magnetic Fields	Course Code	C204
Name of the Student	<i>Sh. Divya Sree</i>	Regd. No.	19NM1A0204

Course Outcomes

On successful completion of the course the students should able to:

CO1	Illustrate the Electric Field, Electric potential, Gauss's law Laplace and Poisson's equations.	K2
CO2	Determine the capacitance; energy stored in dielectrics, conduction and convection currents.	K3
CO3	Deduce an expression for magnetic field intensity due to current, Ampere's circuit law, Maxwell's equations, magnetic forces and torque produced by currents in the magnetic field	K4
CO4	Calculate self, mutual inductances and the energy stored in the magnetic field.	K3
CO5	Deduce an expression for induced EMF, displacement current and pointing vector in time varying fields.	K4

Mark a tick '✓' in the appropriate cell.

(Note: High-3; Medium-2; Low-1)

Course Outcome	Questionnaires	Rating		
		30	20	10
CO-1	Are you able to illustrate the Electric Fields and electric potential?		<input checked="" type="checkbox"/>	
CO-2	Are you able to determine the capacitance and energy stored in dielectrics?	<input checked="" type="checkbox"/>		
CO-3	Are you able to deduce expressions for Magnetic Field intensity due to current, Ampere's circuit law, Maxwell's equations, magnetic forces and torque produced by currents in the magnetic field?		<input checked="" type="checkbox"/>	
CO-4	Are you able to calculate self, mutual inductances and the energy stored in the magnetic field?		<input checked="" type="checkbox"/>	
CO-5	Are you able to deduce an expression for induced EMF, displacement current and Poynting vector in time varying fields?		<input checked="" type="checkbox"/>	

Figure 3.2.1.p: Sample of course end survey

Procedure for attainment calculation

The process of calculating course outcome attainment and hence course attainment is described in the following points:

1. Marks obtained by the students in Mid-1 and Mid-2 are collected.
2. As per the university curriculum 80% of maximum marks and 20% of minimum marks obtained are considered for internal mid evaluation.
3. Marks for each COs are calculated.
4. From the assigned attainment levels, the attainment level of each outcome is calculated.
5. The average of attainment levels of all the course outcomes gives the internal attainment level of that course.
6. Attainment level of the external examination is also calculated.
7. According to the weightage given by the University, 25% of the internal attainment and 75% of the external attainment is considered to calculate the direct attainment of that course.
8. Individual faculty with the support of PAQIC will take the course end survey on the course outcomes at the end of every semester to calculate indirect attainment.
9. Hence, 80% of the attainment level obtained through marks and 20% of the attainment level obtained through end survey, feedbacks, is considered to be the total Course Attainment.

Attainment calculation for a course is described below:

A course from second year, C204, *Electro Magnetic Fields*, considered as example. Course attainment involves direct attainment (DA) and indirect attainment (IA). Direct attainment comprises of mid examinations (descriptive, assignment and online) and External examination.

Internal Assessment:

The following table represents the evaluation of Mid-I. The table consists of total number of students, their marks for individual questions, assignment marks and online marks. Six course outcomes were defined for the course in which each outcome reflects one unit. Therefore, Mid-I exam covers first three outcomes and Mid-II exam the remaining.

Target fixed for External examination : 40%

Total number of students : 79

Total absentees : 0

Total number of students attended the exam : 79

External comprises of 75M. Hence, the target marks will be 30M.

Total number of students attained the target for external examination= 78

Percentage of students attained = $78/79 * 100 = 98.73\%$

Since $98.73\% > 80\%$, the attainment level for External examination is 3.

Number of students attained	79
No. of students attained the target	78
Percentage of students attained Target	98.73
University Exam Attainment Level	3

Figure 3.2.1.r: Mid-II Evaluation

The final course attainment is calculated as shown.

The average of attainment levels of CO1, CO2, CO3, CO4 & CO5 give the internal attainment level. As prescribed by the University, the weightage for internal and external is 25% and 75% respectively.

Course Attainment for EMF Course					
Direct Attainment				Indirect Attainment	
	Mid-I	Mid-II	Internal	University	
CO1	3		3	3	Feedback 2.71
CO2	3		3	3	
CO3	0	3	1.5	3	
CO4		3	3	3	
CO5		3	3	3	
Average			2.70	3.00	
Weightage			25%	75%	
Attainment			0.675	2.25	
Final Direct Attainment			2.925		
Weightage			80%		
Attainment			2.34		
Course Attainment			2.88		

Figure 3.2.1.s: Course Attainment Calculation for EMF Course

Direct attainment:

Internal attainment=2.70

Weighted internal attainment=25% of Internal Attainment=0.25*2.70=0.675

External Attainment=3

Weighted External Attainment=75% of external attainment=0.75*3=2.25

Direct attainment = Weighted internal attainment + Weighted external attainment
 = 0.675+2.25 = 2.925

Indirect attainment:

Feedbacks are collected from the students on the Course Outcomes. This indicates the level of knowledge gained by students in a particular course. The average of all these outcomes results in indirect attainment.

Course attainment:

Course attainment = 80% of direct attainment + 20% of indirect attainment
 =80% of 2.925+20% of 2.71
 =2.34+0.54
 =2.88

❖ Attainment for Laboratory Course

The process of assessment through marks includes:

1. Internal marks (20M)

2. External marks (30M)
3. Course end survey on the respective course outcomes

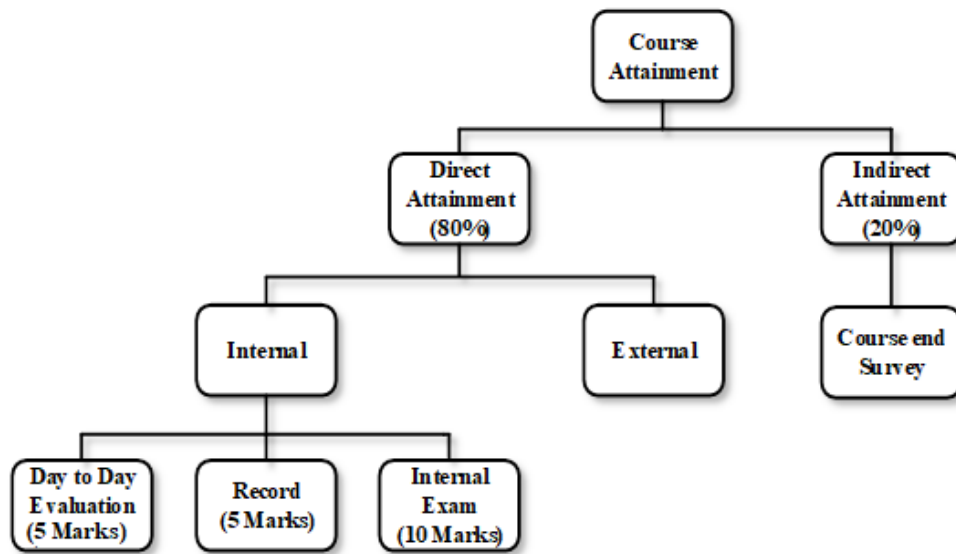

Figure 3.2.1.t: Attainment for Laboratory Course

Internal marks (20M)

The internal marks for labs are divided into three parts, day-day evaluation, record and internal exam.

- a. Day to day evaluation with 5M

The students are regularly monitored with respect to the preparation towards the experiments of the lab. Based on the daily viva, completion of the experiment etc. marks is allotted.

- b. Record with 5M

The completed experiments/programs in the lab are recorded and are filed in records. On the basis of quality of record preparation and in time submission the marks are allotted.

- c. Internal exam with 10M

Internal exam at the end of the course is conducted where the questions are given based on the experiments/programs reflecting the course outcomes.

External marks (30M)

External exam at the end of the course is conducted where the questions are given based on the experiments/programs reflecting the course outcomes. The exam is conducted in the presence of an external examiner appointed by the University.

Course end survey

A survey similar to that of described in theory assessment is conducted on the outcomes of laboratory and indirect assessment is evaluated.

Procedure for calculating attainment

1. Post the values of day to day evaluation, record and internal marks for each student.
2. Based on the weightage of the CO with respect to number of experiments, marks for each CO is calculated.
3. Fixing the target, total number of students achieved the target is counted.
4. Attainment levels for each CO is based on the percentage of students achieved the target.

The marks for CO1 are calculated as follows:

$$\text{Marks for CO1} = (R + I) * \frac{E_1}{E} + \frac{\text{Sum of DD for CO1}}{E}$$

Where R is record marks

I is Marks obtained in Internal Examination

E is the number of Experiments

E1 is the number of experiments related to CO1

E2 is the number of experiments related to CO2

E3 is the number of experiments related to CO3

DD is the day-to-day evaluation.

The same process is applied for the remaining course outcomes.

Attainment calculation for a lab course is described below:

A course from second year, C208, *Electrical Circuits Lab*, is considered as example. Course attainment involves direct attainment (DA) and indirect attainment (IA). Direct attainment comprises of day to day evaluation, record marks, marks obtained in lab internal examinations and marks obtained in Lab External examination.

Internal Attainment:

Number of experiments as per the University requirement, E = 10.

Number of experiments covering CO1, E₁ = 5.

Number of experiments covering CO2, E₂ = 2.

Number of experiments covering CO3, $E_3 = 3$.

For 19NM1A0201, for CO1,

$$\text{Sum of DD for CO1} = 4 + 5 + 4 + 5 + 5 = 23$$

$R = 5, I = 3$.

$$\text{Marks for CO1} = (R + I) * \frac{E_1}{E} + \frac{\text{Sum of DD for CO1}}{E} = (5 + 3) * \frac{5}{10} + \frac{23}{10} = 6.3$$

For 19NM1A0201, for CO2,

$$\text{Sum of DD for CO2} = 4 + 5 = 09$$

$R = 5, I = 3$.

$$\text{Marks for CO2} = (R + I) * \frac{E_1}{E} + \frac{\text{Sum of DD for CO2}}{E} = (5 + 3) * \frac{2}{10} + \frac{09}{10} = 2.5$$

For 19NM1A0201, for CO3,

$$\text{Sum of DD for CO3} = 4 + 5 + 4 = 13$$

$R = 5, I = 3$.

$$\text{Marks for CO3} = (R + I) * \frac{E_1}{E} + \frac{\text{Sum of DD for CO3}}{E} = (5 + 3) * \frac{3}{10} + \frac{13}{10} = 3.7$$

The same process is followed for all the students and all the COs.

Target fixed for internal assessment = 60%

Total number of students = 79

Number of students attained CO1 = 68

Percentage of students attained CO1 = 86.07%

From the attainment levels defined above, as the number of students attained >80%, the attainment level for CO1 is 3.

Similarly for CO2 and CO3, the attainment levels are 3 and 3.

3.2.2. Record the Attainment of Course Outcomes of all Courses with respect to Set Attainment Levels (40)

Each course attainment will be obtained from indirect attainment and direct attainment. Direct attainment is calculated from internal and external examinations. Indirect attainment is obtained from course end survey. Table 3.2.2.a provides the course attainment values for admitted batch 2015, Table 3.2.2.b provides the course attainment values for admitted batch 2016 and Table 3.2.2.c provides the course attainment values for admitted batch 2017. Setting the target levels for individual subjects, based on the procedure described, Course Attainments for outgoing batches of 2018-19, 2019-20 & 2020-21 are displayed below.

Admitted Batch: 2015

Table 3.2.2.c: Course attainment values for admitted batch 2017

3.3. Attainment of Program Outcomes and Program Specific Outcomes (50)

3.3.1. Describe Assessment Tools and Processes Used for Measuring the Attainment of each of the Program Outcomes and Program Specific Outcomes (10)

The attainment procedure of program outcome attainment constitutes direct and indirect assessments. The direct assessment is a process of calculating direct attainment through the marks obtained by the students in all the courses. Indirect assessment is a process of collecting feedbacks from stake holders on the program outcomes.

Attainment tools for calculation of POs and PSOs:

The tools for the calculation of attainments are:

- Course attainments of all the courses for a complete batch
- Correlation matrix, as displayed in Sec. 3.1.3., for all the courses.
- Results of surveys conducted which add indirect attainment in the calculation.

Direct Attainment:

The direct attainment of program outcome is the collection of all the course attainments with the assessment process as described:

1. Course-PO mapping tables, as indicated in Sec.3.1.2, for all the courses are collected from the respective course coordinators.
2. Course attainment values, as described in Sec. 3.2.1, for all the courses are collected from the respective course coordinators.
3. From the above values, Course-PO attainment values are calculated using,

$$\text{Course-PO attainment} = \frac{(\text{Course-PO mapping}) \times \text{Course attainment}}{3}$$

4. The average of all these attainments with respect to individual POs is calculated. This gives the direct PO attainment.

The figure 3.3.1.a shows the Course-PO attainment with respect to C205, EMF. The average of mappings of all the outcomes gives the Course-PO mapping EMF. Using the formula mentioned in the previous procedure, Course-PO attainment values.

Course- PO MAPPING & ATTAINMENT

	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
CO1	3	3	3	3	2	2	3	-	3	-	3	3

Average	3	3	3	3	2	2.5	2.5	-	2.83	-	2.83	2.5
Course - PO Attainment	2.58	2.58	2.58	2.58	1.72	2.15	2.15	-	2.44	-	2.44	2.15

Figure 3.3.1.a: Course-PO attainment template**Indirect Attainment:**

Various surveys are conducted on Program Outcomes. Feedbacks are taken from few stakeholders like students (to a large extent) and employer (to a small extent). Opinions of these stakeholders are collected in a grading scale of 3 (Substantial or High) to 1 (Slight or Low). Average of all the feedbacks given by the stake holders are considered to be indirect attainment values.

PO attainment calculation:

1. For the final PO attainment values, 80% of the direct attainment value and 20% of indirect attainment value are considered.
2. The similar procedure is followed for the calculation of PSO attainment.

**Figure 3.3.1.b: Assessment tools for the calculation of PO attainment****3.3.2. Provide Results of Evaluation of each PO & PSO (40)**

The Program Outcome and Program Specific Outcome attainments are displayed for 2018-19, 2019-20 and 2020-21. The process is as described in Sec. 3.3.1.

For 2018-19 the target value is set to 2.40 for PO1 to PO5 and 2.20 for PO6 to PO12, for 2019-20, the target value is set to 2.45 for PO1 to PO5 and 2.25 for PO6 to PO12 and 2020-21, the target value is set to 2.45 for PO1 to PO5 and 2.25 for PO6 to PO12.

Table 3.3.2.c: PO-Course Attainment for 2017 Admitted Batch

PO Attainment Analysis

PO attainment for the three consecutive assessment years 2018-19, 2019-20, 2020-21 had been increasing for our core courses of the department and lifelong learning. Our department is very keen in implementing new teaching learning process and effective content delivery. This is shown in the improvement of attainment levels. Attainments of PO1 to PO4 were significantly improved due to continuous monitoring of slow learners. Improvement in PO12 resulted as there is a continuous motivation towards the enhancing technologies by organizing various workshops and guest lecturers regarding the emerging trends. PO9 and PO10 were enhanced through various activities conducted by the program so that the students will be successful as a team and as an individual in their career with social responsibility.

Batch	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12
2015-19	2.48	2.47	2.42	2.40	2.04	2.21	2.25	2.28	2.30	2.27	2.30	2.33
2016-20	2.51	2.48	2.48	2.45	2.12	2.28	2.29	2.34	2.32	2.33	2.35	2.34
2017-21	2.55	2.54	2.50	2.51	2.14	2.31	2.32	2.34	2.38	2.38	2.36	2.36

Table 3.3.2.d: PO attainment values for three assessment years

Figure 3.3.2.a: Comparison of PO attainments

Summary:

For 2018-19, the target value is set to 2.40 for PO1 to PO5 and 2.20 for PO6 to PO12, for 2019-20, the target value is set to 2.45 for PO1 to PO5 and 2.25 for PO6 to PO12 and 2020-21, the target value is set to 2.50 for PO1 to PO5 and 2.30 for PO6 to PO12. It was observed that out of 12 POs, one PO was not attained. Department Advisory Committee (DAC) has taken certain actions to improve the PO attainment for the next coming batches.

- For CAYm2, PO5 was not attained.

- ♦ For PO5, DAC proposed to organize guest lecture on soft computing techniques and a short term course on advanced simulation tool for power electronics, electromagnetic and power system to enrich knowledge of students on modern tools.
- For CAYm1, PO5 was not attained.
 - ♦ For PO5, DAC proposed to conduct technical seminar on solar PV technology and renewable power generating stations to improve the knowledge levels and need for sustainable development.

In similar way, PSO attainment for three consecutive assessment years 2018-19, 2019-20, & 2020-21 is given below:

Table 3.3.2.g: PSO-Course Attainment for 2017 Admitted Batch

PSO Attainment Analysis:

For the last three consecutive years, the PSO has been increasing gradually. There were various industry interactions and technical events being conducted every year like technical expo which develop the skill of the students in technical aspects.

Batch	PSO1	PSO2
2015-19	2.56	2.54
2016-20	2.59	2.58
2017-21	2.61	2.60

Table 3.3.2.h: PSO attainment values for three assessment years

Due to the availability of research facilities and specialised experts in the department being effectively utilised, has enhanced the achievement of the specific outcomes.

Success rate without backlogs in any semester/year of study = $25 \times$ Average SI	-	12.00			-
Average SI = Mean of Success Index (SI) for past three batches	0.53			-	-
Success rate without backlogs in any semester/year of study = $25 \times$ Average SI	13.25			-	-

Table B.4.2.1: Success rate without backlogs

4.2.2. Success Rate in Stipulated Period of Study (15)

SI= (Number of students who graduated from the program in the stipulated period of course duration)/(Number of students admitted in the first year of that batch and actual admitted in 2nd year via lateral entry and separate division, if applicable)

Average SI = mean of Success Index (SI) for past three batches Success rate = $15 \times$ Average SI

Item	CA Ym3 (2017-18)	Last Year of Graduate, LYG (2016-17)	Last Year of Graduate minus 1, LYGm1 (2015-16)	Last Year of Graduate minus 2, LYGm2 (2014-15)	Last Year of Graduate minus 3, LYGm3 (2013-14)
Number of students admitted in the corresponding First Year + admitted in 2nd year via lateral entry and separate division, if applicable(X)	126	121	94	64	85
No of student who have graduated in the stipulated period(Y)	105	106	80	59	77
Success Index (SI)=Y/X	0.83	0.88	0.85	0.92	0.91
Average Success Index(First 3)	-	-	0.893		
Success rate =15 X Average SI	-	-	13.4		
Average Success Index(First 3)	-	0.883			-
Success rate =15 X Average SI	-	13.24			-
Average Success Index(First 3)	0.853			-	-
Success rate =15 X Average SI	12.80			-	-

Table B.4.2.2: Success rate with backlogs

4.3. Academic Performance in Third Year (15)

Academic Performance = 1.5 Average API (Academic Performance Index), where*

API = ((Mean of 3rd Year Grade Point Average of all successful Students on a 10 point scale) or (Mean of percentage of marks of all successful students in Third Year/10)) x (number of successful students/number of students appeared in the examination)

Successful students are those who are permitted to proceed to the final year.

Academic Performance	CAYm3 (2017-18)	LYG (2016-17)	LYGm1 (2015-16)	LYGm2 (2014-15)
Mean of CGPA or Mean Percentage of all successful students (X)	7.33	7.53	6.97	7.07
Total no. of successful students (Y)	120	118	86	59
Total no. of students appeared in the examination (Z)	120	119	87	60
API = X* (Y/Z)	7.33	7.47	6.89	6.95
Average API = (AP1 + AP2 + AP3)/3	-	7.10		
Academic Performance = 1.5* Average API	-	10.65		
Average API = (AP1 + AP2 + AP3)/3	7.23			-
Academic Performance = 1.5* Average API	10.84			-

Table B.4.3: Academic performance of Third year

4.4. Academic Performance in Second Year (15)

*Academic Performance Level = 1.5 * Average API (Academic Performance Index)*

API = ((Mean of 2nd Year Grade Point Average of all successful Students on a 10 point scale) or (Mean of the percentage of marks of all successful students in Second Year/10)) x (number of successful students/number of students appeared in the examination)

Successful students are those who are permitted to proceed to the Third year.

Academic Performance	CAYm2 (2018-19)	CAYm3 (2017-18)	LYG (2016-17)	LYGm1 (2015-16)
Mean of CGPA or Mean Percentage of all successful students (X)	6.7	7	7	7.03
Total no. of successful students (Y)	105	124	119	87
Total no. of students appeared in the examination (Z)	105	125	120	91
API = X* (Y/Z)	6.7	6.94	6.94	6.72
Average API = (AP1 + AP2 + AP3)/3	-	6.87		
Academic Performance = 1.5* Average API	-	10.30		
Average API = (AP1 + AP2 + AP3)/3	6.86			-
Academic Performance = 1.5* Average API	10.29			-

Table B.4.4: Academic performance of Second year

4.5. Placement, Higher Studies and Entrepreneurship (40)Assessment Points = $40 \times$ average placement

Item	CAYm3 (2017-18)	LYG (2016-17)	LYGm1 (2015-16)	LYGm2 (2014-15)	LYGm3 (2013-14)
Total No of Final Year Students (N)	121	118	86	59	80
No of students placed in the companies or government sector (X)	77	91	67	47	65
No of students admitted to higher studies with valid qualifying scores (GATE or equivalent State or National Level tests, GRE, GMAT etc.) (Y)	0	5	5	7	3
No of students turned entrepreneur in engineering/technology (Z)	0	0	3	2	2
X + Y + Z	77	96	75	56	70
Placement Index = $(X+Y+Z) / N$	0.64	0.81	0.87	0.95	0.88
Average placement = $(P1 + P2 + P3) / 3$	-	-	0.90		
Assessment Points = $40 \times$ average placement	-	-	36.00		
Average placement = $(P1 + P2 + P3) / 3$	-	0.88			-
Assessment Points = $40 \times$ average placement	-	35.20			-

Table B.4.5: Placement, Higher Studies and Entrepreneurship**4.5.a. Provide the placement data in the below mentioned format with the name of the program and the assessment year**

The department of EEE adopts various innovative teaching learning practices and very keen in training the students in latest technologies as per the industry requirements. We incorporated Campus Recruitment Training (CRT) and Campus Specific Trainings for the students along with regular academic curriculum.

In 2020-21, MNC's like Accenture, Capgemini, IBM, Infosys, Tech Mahindra, Accenture TCS, Wipro and other top MNC's visited the campus and selected 77 students with highest package of **5.0 LPA** and an average of **3.3 LPA**.

4.6 Professional Activities (20)

4.6.1. Professional Societies / Chapters and Organizing Engineering Events

The EEE department had initiated five student chapters, IEEE, IE(I), APSSDC, Internshala Student partner and DAEED, in order to have a mutual exchange of information for technical up-gradation with technical experts to enhance the knowledge of students and staff.

1. Institute of Electrical and Electronics Engineers (IEEE)

IEEE is the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity. IEEE and its members inspire a global community through its highly cited publications, conferences, technology standards, and professional and educational activities. IEEE student chapter was inaugurated in VIEW in the year 2020.

2. Institution of Engineers (India) [IE(I)]

IEI student chapter was inaugurated in VIEW in the year 2015. Electrical and Electronics Engineering department runs a Student Chapter of Institution of Engineers (India). All students admitted in the EEE department are enrolled to IEI student chapter. The student chapter of IEI conducts various activities every year to bring out the innovative skills of the

students and enhance them with the latest updates and technologies in the respective field. Activities like guest lectures, workshops, competitions viz. quiz, essay writing, poster presentation and live model making are held from time to time.

Activities conducted under professional bodies:

Academic Year 2020-21

S. No.	Type of Activity	Action Taken	Date- Month- Year	Number of Students	Outcome	Relevance to POs/PSOs
1	Online training programme	Source Code Management using GIT and GITHUB	10-06-2021 to 12-06-2021	50	To understand the latest technology and ability to develop real time projects	PO1, PO2, PO3, PO5, PO9, PO10 & PO12
2	Online training programme	Python Programming	24-05-2021 to 12-06-2021	50	To understand the modern IT tools to solve complex engineering problems	PO1, PO2, PO3, PO5 & PO12
3	Workshop	Power Electronics Simulation in PSIM	22-04-2021 & 23-04-2021	86	To understand the design and use of the Power Electronics in practical applications.	PO1, PO2, PO3, PO5, & PSO2
4	Guest lecture	Power Electronics and Drives	14-04-2021	79	To understand the Control techniques in Power Electronics and Drives	PO1, PO2, PO3, PO5, PO12, PSO1 & PSO2
5	Seminar	Solar PV Technology	17-02-2021	83	To understand the necessity of grid integrated system and its benefits in today's scenario	PO1, PO2, PO3, PO5, PO6, PO7, PO12, PSO1 & PSO2
6	Seminar	Recent Trends in Converters	06-02-2021	67	To understand the Control techniques in Power Electronics	PO1, PO2, PO3, PO4, PO5, PO12 & PSO2

7	Guest Lecture	Battery Energy Storage System	04-01-2021	99	To understand the Control techniques in Battery Energy Storage System in real-time world	PO1, PO2, PO3, PO4, PO5, PO6, PO7, PO8, PO12, PSO1 & PSO2
8	Seminar	Renewable Power Generating Stations	28-12-2020	126	To understand the necessity of grid integrated system and its benefits in today's scenario	PO1, PO2, PO3, PO5, PO6, PO7, PO12, PSO1 & PSO2
9	Workshop	Tinker CAD	09-12-2020 & 10-12-2020	150	To understand the design and use of the Tinker CAD in practical applications.	PO1, PO5, PO11 & PSO1
10	Guest Lecture	Automation in Power Distribution Systems	26-11-2020	68	To understand the Control techniques of Power Electronics in Power Distribution System.	PO1, PO2, PO5, PO6, PO12, PSO1 & PSO2

Table B.4.6.1.c: Events organized in 2019-20

Academic year: 2019-20

Sl. No	Type of Activity	Topic	Date of Activity	No of Students Participated	Outcome	Relevance to POs/PSOs
1	STTP	A short-term course on advanced simulation tool for Power Electronics, Electromagnetic, and Power Systems	01-06-20 to 05-06-20	90	To Understand the tool usage in multidisciplinary with lifelong learning skills	PO5, PO9, PO12, PSO1 & PSO2
2	Workshop	Biped Robot (Mini Humanoid Robot)	06-03-20 to 07-03-20	127	To understand the design, development of Biped Robot	PO6, PO7, PO9, PO11, PO12 & PSO2

3	Guest Lecture	Soft computing techniques	17-12-19.	80	Explains day to day advancements and technologies in Soft Computing Techniques for power system.	PO5, PO8,PSO1 & PSO2
4	Guest Lecture	High Voltage DC and AC transmission	14-12-19	114	To understand the Control techniques in HVDC and AC Substation in real-time world	PO6,PO11,PSO1 & PSO2
5	Workshop	IoT with cloud robotics	6-12-19 to 7-12-19	80	To Improve their knowledge the importance of robotics with cloud computing for industrial education and explained their importance for designing automated systems.	PO3,PO6,PO9, PO11,PO12 & PSO2
6	Workshop	Smart grid automation	04-12-19 to 05-12-19	85	To understand the design and use of the grid connected power system in practical applications.	PO6,PO7,PO11, PO12,PSO1 & PSO2
7	Seminar	Renewable Energy Sources	28-08-19	100	To understand the necessity of grid integrated system and its benefits in today's scenario	PO6,PO7,PO11, PO12 & PSO1

Table B.4.6.1.d: Events organized in 2019-20

Academic year: 2018-19

Sl.No	Type of Activity	Topic	Date of Activity	No of Students Participated	OUTCOME	Relevance to POs/PSOs
1	Workshop	Stem robots for Industrial education and Industrial robots for manufacturing automation	22-02-19	100	Exposure on the latest trends in the technologies which will help the students to acquire skills required for the industry.	PO6, PO11, PO12 & PSO2
2	Guest Lecture	Introduction to MATLAB and Applications	28-12-18.	80	Using MATLAB, a student can analyse modeling of the system, develop algorithms, and applications	PO5, PO11, PO12 & PSO1
3	Guest Lecture	Introduction to Smart Grid and sustainable Applications	27-12-18	90	Create awareness and importance of a Smart grid and research opportunities and its advantages.	PO6, PO7, PO12 & PSO1
4	Seminar	Electrical Industry safety culture and safety measures	29-11-18	80	Create the awareness of safety measurements of electrical equipment in industry.	PO6, PO7 & PSO2
5	Guest Lecture	Artificial Intelligence techniques for future trends	24-8-18	85	Analyse the role of Artificial Intelligence techniques for future trends and Importance of future trends resources is growing day by day.	PO4, PO6, PO11, PO12 & PSO1

6	Guest Lecture	Renewable and Non-renewable resources and types of energy storage system	23-08-18	90	Understand the importance of Power Electronics. He explained the about latest batteries and their Storage processes.	PO8, PO11, PO12, PSO1 & PSO 2
7	Workshop	SCALE	26-07-2018 to 28-07-2018	80	training on latest technology And Improve industry related software skills	PO4, PO5, PO11, PSO1 & PSO2

Table B.4.6.1.e: Events organized in 2018-19

Academic year: 2017-18

Sl.No	Type of Activity	Topic	Date of Activity	No of Students Participated	OUTCOME	Relevance to POs/PSOs
1	Workshop	Embedded Systems (IoT)	09-03-2018	90	Understand the Microcontroller architectures and concepts of Embedded C language from an industry perspective.	PO5, PO11, PO12 & PSO2
2	Workshop	Speech control and IoT Robot	22-02-18	100	Enhance the knowledge of the speech recognition is to analyse a word or phrase picked up by a microphone and transcribe it in text form onto a computer so that it can be used.	PO11, PO12 & PSO2
3	Workshop	MATLAB/Simulink for Electrical Engineering Applications	22-02-17	180	Using MATLAB, a student can analyze data, develop algorithms, and create models and applications.	PO5, PO11, PO12 ,PSO1 & PSO2
4	Seminar	Unified power quality conditioners	20-12-17	125	Students learn basic concepts of mitigation of voltage and current	PO6, PO12, PSO1 & PSO2

					disturbances that could affect sensitive electrical loads while compensating the load reactive power.	
5	Guest Lecture	Recent trends on Non-conventional energy	12-12-17	190	Understand the need of energy conversion and concepts of direct energy conversion systems & their applications.	PO7, PO11, PSO1 & PSO2
6	Guest Lecture	High voltage power system operation and instrument Calibration and safety measures	29-08-17	90	It gives an insight on the latest trends of high voltage power system operation and instrument calibration that are the challenges in a real-time world in functioning the various industrial needs.	PO6, PO11 & PSO1

Table B.4.6.1.f: Events organized in 2017-18

Seminar/Workshop organized

Seminar on “Solar PV Technology”

Date: 17-02-2021

The presentation was given by **Mr. Sai Charan, Jinko Solar**. He delivered various ideas on the important knowledge and need for Renewable Energy development in grid integrated systems and its benefits in today’s scenario.

Table 6.1 Gate Control signals for the reconfigurable step-down SC power converter

Charge Pump parameters

$$\eta = \frac{P_{out}}{P_{in}} \times 100\% = \frac{P_{out}}{P_{loss} + P_{out}} \times 100\%$$

conversion gain (CG)

$$CG = \frac{V_{out}}{V_{in}}$$

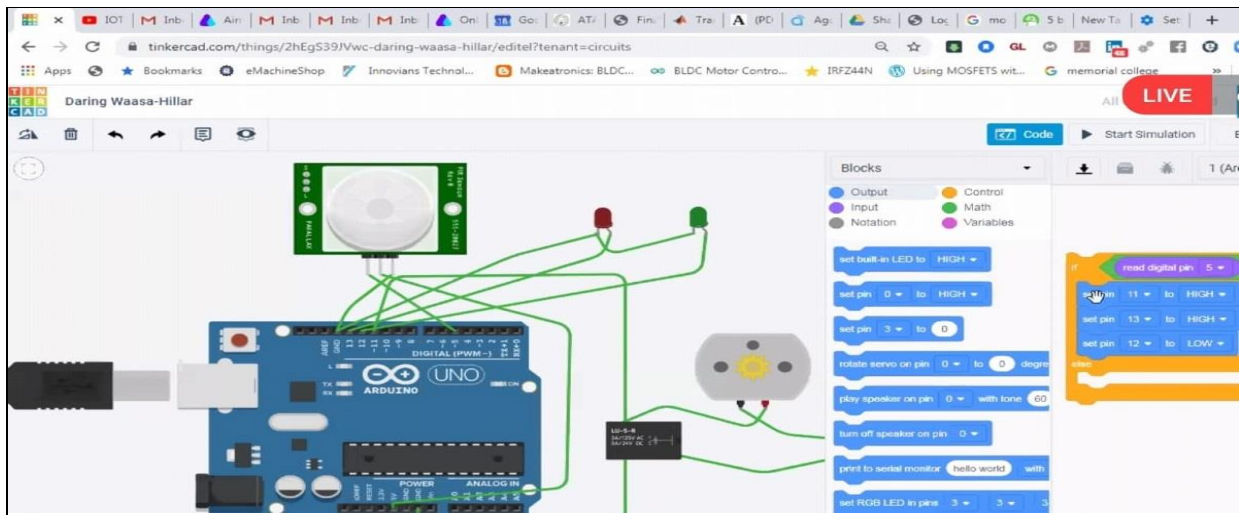

Line Regulation = $\left(\frac{\Delta V_{out}}{\Delta V_{in}} \right) \Big|_{I_{out} = \text{const.}}$ (mV/V)

Load Regulation = $\left(\frac{\Delta V_{out}}{\Delta I_{out}} \right) \Big|_{V_{in} = \text{const.}}$ (mV/A)

Guest Lecture on “Power Electronics and Drives”

Date: 14-04-2021

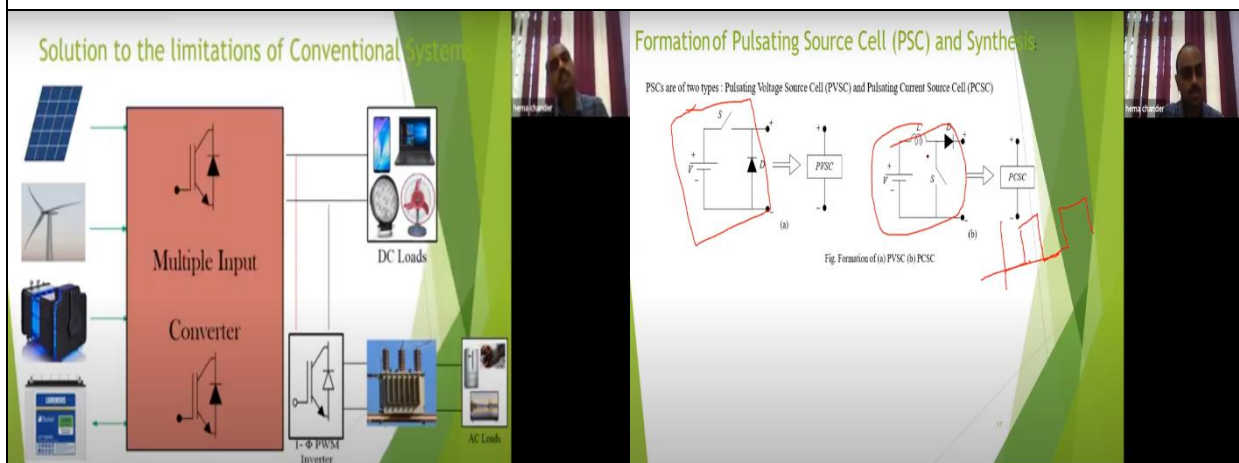

The presentation was given by **Dr. P. Devendra, Associate Professor, GVP College of Engineering for Women**. He delivered various ideas on the importance of the Application of the Control techniques in Power Electronics and Drives to develop real-time projects

Workshop on “Tinker CAD”

Date: 09-12-2020 & 10-12-2020

Presentation was given by **Dr. S. Srinivasa Rao, GITAM deemed to be University**. He delivered various ideas on the importance of design and use of the Tinker CAD in practical applications.

Seminar on “Recent Trends in Converters”

Date: 06-02-2021

The presentation was given by **Dr. N. K. Swami Naidu, IIT BHU Varanasi**. He delivered various ideas on the importance of Motivating students to understand the Control techniques in Power Electronics and learn the latest technologies as per Industrial requirements.

Battery State Estimation

States are the quantities that change quickly (e.g., state-of-charge, diffusion voltage, hysteresis voltage).

Parameters are quantities that change slowly (e.g., cell capacities, resistances, aging effects etc)

Fig:12

Kalman Filter

Kalman filter is an adaptive estimation theory. This filter provides a **recursive solution** through a linear optimal filtering to estimate systems' state variables. The Kalman filter is an **optimal state estimation method** for discrete linear time varying (LTV) systems. Using a set of **recursive equations** and input measurements containing **noise and inaccuracy**, the Kalman filter estimates unknown variables more precisely by finding the **minimum mean squared error estimate** of the present state of the system

State equation $x(k+1) = Gx(k) + Hu(k) + w(k)$

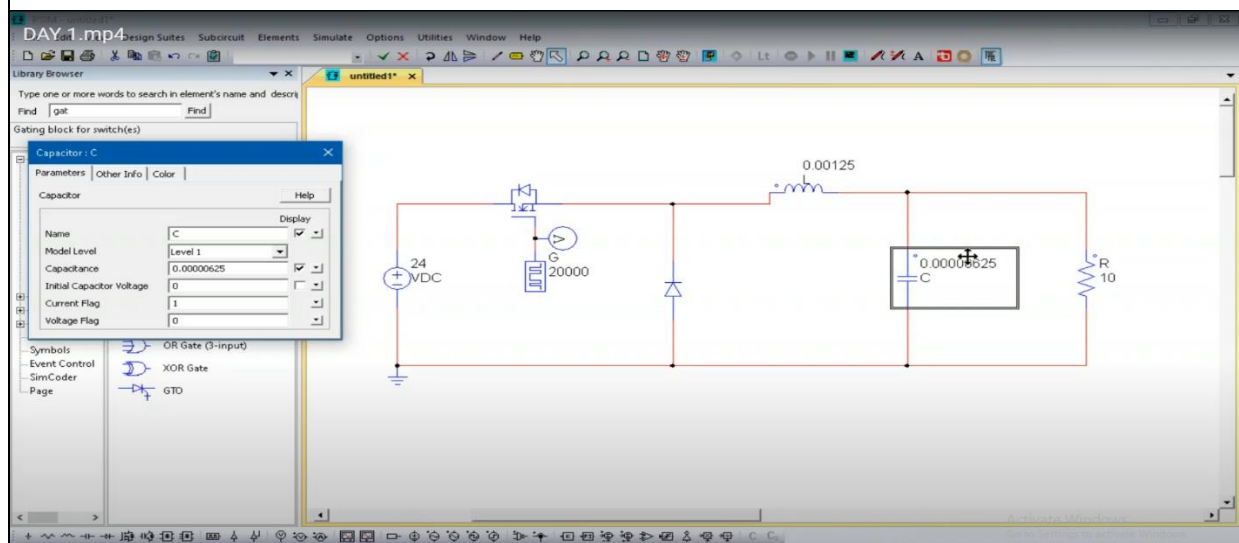

Measurement equation: $y(k) = Cx(k) + v(k)$

Where $w(k)$ is the process noise and $v(k)$ is the measurement noise

Guest Lecture on “Battery Energy Storage System”

Date: 04-01-2021

The presentation was given by **Dr. B.Arundathi, Professor & Principal, VIIT, and Visakhapatnam**. She delivered various importance of the Battery State estimation algorithms in Battery Energy Storage Systems in the real-time world.

Workshop on “Power Electronics Simulation in PSIM”

Date: 22-04-2021&23-04-2021

The presentation was given by **Mr. Nukala Viswanath, PWSIM, Bangalore**. He delivered various ideas on the importance of providing design and solutions for real-time applications using modern tools.

Grid Integrated High Power Wind Turbines

Basic configuration of a grid-connected megawatt wind turbine

Direct Torque Control of Permanent Magnet Synchronous Generator

$$\lambda_{gq} = \int (V_{gq} - i_{gq} R_g) dt$$

$$\lambda_{gd} = \int (V_{gd} - i_{gd} R_g) dt$$

$$T_g = -\frac{3}{2} P (\lambda_{gd} i_{gq} - \lambda_{gq} i_{gd})$$

Fig. 2. Direct torque control of generator side converter.

Seminar on “Renewable Power Generating Stations”

Date: 28-12-2020

The Presentation was given by **Mr. K. Srikanth, AE, Machkund**. He delivered various ideas on the importance of the need for Renewable Energy development.

Historical Development of the Electricity Grid

- PS Structure
 - The first AC Power Grid system was installed in 1886 in Great Barrington, Massachusetts. At that time, the grid was a centralized unidirectional system of electric power, transmission and distribution, and demand-driven control.
 - By the 1960s, the electric grids of developed countries had become very large, mature and highly interconnected, with thousands of 'central' generation power stations delivering power to major load centres via high capacity power lines which were then branched and divided to provide power to smaller industrial and domestic users over the entire supply area.

The targets adopted as a part of the Goal 7 of SDGs 2030 Agenda are as follows:

- I. By 2030, ensure universal access to affordable, reliable and modern energy services.
- II. By 2030, increase substantially the share of renewable energy in the global energy mix.
- III. By 2030, double the global rate of improvement in energy efficiency.
- IV. By 2030, enhance international co-operation to facilitate access to clean energy research and technology, including renewable energy, energy efficiency and advanced and cleaner fossil-fuel technology, and promote investment in energy infrastructure and clean energy technology.
- V. By 2030, expand infrastructure and upgrade technology for supplying modern and sustainable energy services for all in developing countries, in particular least developed countries, small island developing states and land-locked developing countries, in accordance with their respective programmes of support.

Guest Lecture on “Automation in Power Distribution System”

Date: 26-11-2020

The presentation was given by **Mr. S. Srinivas, ADE, Gajuwaka Substation**. He delivered various ideas on the importance of Conducting more value-added courses on Control techniques of Power Electronics in Power Distribution Systems.

Academic Year: 2019-20**Workshop on “Biped Robot (Mini Humanoid Robot)****Date: 06-03-2020 to 07-03-2020**

Presentation was given by **Mr. M.Suyog, Aakaar IIT Bombay** . He delivered various ideas on the importance of robots for industrial education and explained their importance for designing automated systems.

**Guest Lecture “ High Voltage DC and AC Transmission”****Date:14-12-2019**

Presentation was given by **Prof. Sastry V. Vedula garu, GVP College of Engineering (Autonomous), and Shri Venkata Ratnam M, SO/H, BARC Facilities, Visakhapatnam** about the present ‘control techniques in HVDC and AC Substation in real-time world’. They encouraged the participants to develop interest on research by providing awareness of day to day advancements in technologies.

Guest lecture on “Soft Computing Techniques”

Date: 17-12-2019.

A National Level Workshop with **Dr. Salma U** from GITAM University, Visakhapatnam on Soft Computing Techniques was organized. Explains day to day advancements and technologies Soft Computing Techniques on power system.

Workshop on "Smart Grid Automation"

Date: 04-12-2019 to 05-12-2019

Workshop was organized with **Mr. R. Sandeep** as resource person from **IIT, Bombay** and **Dr Visakha, Professor, Andhra university** who enlightened the participants on the use of the grid connected power system in practical applications. He highlighted the opportunities of self-employment in different sectors for women

Workshop on "IOT with Cloud Robotics"

Date: 6-12-2019 to 7-12-2019

Presentation was given by **Mr. M.Suyog, Aakaar IIT Bombay** . He delivered various ideas on the importance of robotics with cloud computing for industrial education and explained their importance for designing automated systems.

Seminar on "Grid Connected Power system and its Applications"

Date: 28-08-2019.

Workshop organized in association with Sri B. Hume Sastry, Chief Engineer (Rtd.), APEPDCL, Visakhapatnam provided information of the necessity of grid integrated system and its benefits in today's scenario.

Academic year: 2018-19

Workshop on “Stem robots for Industrial education and Industrial robots for manufacturing automation”.

Date: 22-02-2019

Presentation was given by **Mr.Sudhir Reddy, Director, Jay Robotix Hyderabad, Sudhir Sanna, Professor and CEO Robotics and Automation, Visakhapatnam** delivered the importance of robots for industrial education. He explained the importance of Industrial robots for manufacturing automation

Guest Lecture on “Guest Lecture on "Introduction to MATLAB and Applications”

Date: 28-12-2018.

Guest Lecture by **Mr. C. Rama krishna, Sri.S.Sanjay, Deputy Executive Engineer, AP TRANSCO** was organized. They explained how MATLAB can be used for math computations, modelling and simulations, and algorithm development in transmission systems.

Guest Lecture on " Introduction to Smart Grid and sustainable Applications "

Date: 27-12-2018

The presentation was given by **Dr. B. Durga Prasaad, GITAM University, Visakhapatnam** delivered the Introduction to Smart Grid. He explained the importance of a Smart grid and shared his research experience on its advantages.

Seminar On "Electrical Industry safety culture and safety measures"

Date: 29-11-2018.

Seminar by **Dr. G. Saraswathi, Professor, JNTUV, Vizianagaram** was organized. She gives Awareness of electrical hazards and self-discipline of employee and explains Identification of electrically safe work procedures, tools, and personal protective equipment

Guest Lecture “Artificial Intelligence techniques for future trends”

Date: 24-8-2018

Presentation given by Mrs.Niharika, Additional General Manager, Hinduja Corporation Pvt Ltd, and given inputs about Power generation systems. She Explains how AI And Machine Learning Trends used in Power Sector.

Guest Lecture “Renewable and Nonrenewable resources and types of energy storage system”.

Date: 23-08-2018

presentation was given by **Dr. Sura Srinivasa Rao**, Gitam University .He delivered the importance of Renewable Energy Sources. He explained the about latest batteries and their Storage processes.

Academic year: 2017-18

Workshop on Embedded Systems (IoT)

Date: 09-03-2018.

Workshop on Embedded Systems (IoT) by **S. Murali Krushna, K.Madhavi and U.Sumanth** from **APSSDC**. This Workshop aims at imparting job-oriented training on Microcontroller architectures and concepts of Embedded C language from an industry perspective. By providing Hands-on workshop to students, they will get idea on hardware components.

Workshop on “Speech control and IOT Robot”

Date: 22-02-2018.

Presentation was given by **Mr.M. Ajay Kumar**, Robosol, IIT Bobay. He delivered speech recognition is to analyse a word or phrase picked up by a microphone and transcribe it in text form onto a computer so that it can be used. The main uses of speech recognition are automatic dictation or vocal applications over the telephone.

Seminar on “Unified power quality conditioners”

Date: 20-12-2017.

Seminar by **Dr. K Ramasudha, Professor, Andhra University** was organized. She explained the mitigation of voltage and current disturbances that could affect sensitive electrical loads while compensating the load reactive power. It aims at the integration of series-active and shunt-active power filters. The main purpose of a UPQC is to compensate for voltage imbalance, reactive power, negative sequence current and harmonics.

Guest Lecture on “Recent trends on Non-conventional energy”.

Date: 12-12-2017

Presentation was given by **Sri.B.Durga Prasad**, Associate Professor explained Modern Trends Renewable Energy Sources and Impact of Renewable Energy Sources in India.

Guest Lecture “High voltage power system operation and instrument Calibration and safety measures” Date: 29-08-2017

Presentation given by **Sri.Manoj Kumar**, Dy.General Manager, RINL-Visakhapatnam Steel Plant and given inputs about High voltage power system operation and instrument calibration that are the challenges in a real-time world in functioning the various industrial needs.

Workshop on “MATLAB, SIMULINK for Electrical Engineering Applications”

Date: 22-07-2017.

Workshop by Dr. R. Ram Prasad had focussed on softwares used in electrical engineering which are used for research and advanced studies. The workshop mainly focuses on the basics of MATLAB and its applications in engineering fields. Using MATLAB, a student can analyze data, develop algorithms, and create models and applications.

4.6.2. Publication of Technical Magazines, Newsletters, etc. (5)

The department is publishing a quarterly newsletter containing intramural events, technical innovations and activities conducted / participated. The below table indicates the members of editorial board of 2019-20 academic year.

1	Chief Editor	Dr. J. Sudhakar, Principal
2	Editor	Dr. K. Durga Syam Prasad, HOD,EEE
3	Members	Dr. Akanksha Mishra, Associate Professor, EEE Mr.A.chandraiah, Assistant Professor,EEE Ms. V.V. Sai Santoshi Assistant Professor, EEE Nakkela Sharmini, IV EEE K. Lakshmi Keerthi, IV EEE Paliseti Sravani, III EEE R. Padmavathi, III EEE

Table B.4.6.2a: Newsletter Editorial Board for the Calendar year 2020

The newsletter's first page consists of department vision and mission with Principal and HOD message. The page consists of different technical event photographs under the department DAEEE Association. The second page is concerned about faculty awards and achievements

in the fields of research and technical courses. The third page pertains to the student's awards and achievements in curricular and co-curricular activities. The fourth page interrelates about department student campus placements of an academic year in various multinational companies (MNCs).

4.6.3. Participation in Inter-institution Events by Students of the Program of Study (10)**Co-curricular Activities:**

The Department encourages the students to actively participate in various Extra & Co-curricular activities like Publications, Paper presentations, Technical quiz, Poster presentations, Live model exhibitions, Sports, etc. These are promoted in view of developing leadership, communication & presentation skills, etc. As a result, many of the students won prizes and rewards in various competitions. Live model exhibitions are a very effective tool for the learning process. It helps the students to showcase their talent and present in public.

Table B.5.d: Faculty Information CA Ym3 (2017-18)

5.1. Student-Faculty Ratio (SFR) (20)

(To be calculated at Department Level)

No. of UG Programs in the Department (n): 01

No. of PG Programs in the Department (m): 01

No. of Students in UG 2nd Year= u1

No. of Students in UG 3rd Year= u2

No. of Students in UG 4th Year= u3

No. of Students in PG 1st Year= p1

No. of Students in PG 2nd Year= p2

No. of Students = Sanctioned Intake + Actual admitted lateral entry students

(The above data to be provided considering all the UG and PG programs of the department)

S=Number of Students in the Department = UG1 + UG2 + ... + UGn + PG1 + ...PGn

F = Total Number of Faculty Members in the Department (excluding first year faculty)

Student Teacher Ratio (STR) = S / F

Year	CAY(2020-21)	CAY m1 (2019-20)	CAYm2 (2018-19)	CAYm3 (2017-18)
u1.1 (2 nd Year)	120+45+8=173	120+33=153	120+34=154	120+24=144
u2.1 (3 rd Year)	120+33=153	120+34=154	120+24=144	120+30=150
u3.1 (4 th Year)	120+34=154	120+24=144	120+30=150	120+13=133
UG1	u1.1+u2.1+u3.1=480	u1.1+u2.1+u3.1=451	u1.1+ u2.1+u3.1 =448	u1.1+u2.1+u3.1=427
p1.1	18	18	18	18
P1.2	18	18	18	18
PG1	p1.1+p1.2=36	p1.1+p1.2=36	p1.1+p1.2=36	p1.1+p1.2=36
Total No. of Students in the Department (S)	S1=516	S2=487	S3=484	S4=463
No. of Faculty in the Department (F)	F1 (26)	F2(27)	F3(26)	F4(31)
Student Faculty Ratio (SFR)	SFR1=S1/F1=19.84	SFR2=S2/F2=18.04	SFR3= S3/F3=18.62	SFR4= S4/F4=14.94
Average SFR (2017-2020)		SFR=(SFR2+SFR3+SFR4)/3		17.20
Average SFR (2018-2021)	SFR=(SFR1+SFR2+SFR3)/3		18.83	

Table B. 5.1: Student Faculty Ratio

Note: Marks to be given proportionally from a maximum of 20 to a minimum of 10 for average SFR between 15:1 to 25:1, and zero for average SFR higher than 25:1. Marks distribution is given as below:

< = 15 - 20 Marks

< = 17 - 18 Marks

< = 19 - 16 Marks

< = 21 - 14 Marks

< = 23 - 12 Marks

< = 25 - 10 Marks

> 25.0 - 0 Marks

- *Minimum 75% should be Regular faculty and the remaining shall be Contractual Faculty as per AICTE norms and standards.*
- *The contractual faculty (doing away with the terminology of visiting/adjunct faculty, whatsoever) who have taught for 2 consecutive semesters in the corresponding academic year on full time basis shall be considered for the purpose of calculation in the Student Faculty Ratio.*

5.1.1. Provide the information about the regular and contractual faculty as per the format mentioned below:

	Total number of regular faculty in the department	Total number of contractual faculty in the department
CAY (2020-21)	26	NIL
CAYm1 (2019-20)	27	NIL
CAYm2 (2018-19)	26	NIL
CAYm3 (2017-18)	31	NIL

Table B.5.1.1: Faculty Information

5.2. Faculty Cadre Proportion (25)

The reference Faculty cadre proportion is 1(F1):2(F2):6(F3)

F1: Number of Professors required = $1/9 \times$ Number of Faculty required to comply with 20:1 Student-Faculty ratio based on no. of students (N) as per 5.1

F2: Number of Associate Professors required = $2/9 \times$ Number of Faculty required to comply with 20:1 Student-Faculty ratio based on no. of students (N) as per 5.1

F3: Number of Assistant Professors required = $6/9 \times$ Number of Faculty required to comply with 20:1 Student-Faculty ratio based on no. of students (N) as per 5.1

Year	Professors		Associate Professors		Assistant Professors	
	Required F1	Available	Required F2	Available	Required F3	Available
CAY (2020-21)	3	1	4	2	17	23
CAYm1 (2019-20)	3	2	5	2	16	23
CAYm2 (2018-19)	3	1	5	2	16	23
Average Numbers	RF1 = 3	AF1 = 1.33	RF2 = 4.66	AF2 = 2	RF3 = 16.33	AF3 =23

Table B.5.2a: Faculty Cadre Proportion

$$\text{Cadre Ratio Marks} = \left[\frac{AF1}{RF1} + \left[\frac{AF2}{RF2} * 0.6 \right] + \left[\frac{AF3}{RF3} * 0.4 \right] \right] * 12.5$$

$$\text{Cadre Ratio Marks} = \left[\left(\frac{1.33}{3} \right) + \left[\left(\frac{2}{4.66} \right) * 0.6 \right] + \left[\left(\frac{23}{16.33} \right) * 0.4 \right] \right] * 12.5 = 15.80$$

Year	Professors		Associate Professors		Assistant Professors	
	Required F1	Available	Required F2	Available	Required F3	Available
CAYm1 (2019-20)	3	2	5	2	16	23
CAYm2 (2018-19)	3	1	5	2	16	23
CAYm3 (2017-18)	3	1	7	2	21	28
Average Numbers	RF1 = 3	AF1 = 1.33	RF2 = 5.66	AF2 = 2	RF3 = 17.66	AF3 =24.66

Table B.5.2b: Faculty Cadre Proportion

$$\text{Cadre Ratio Marks} = \left[\frac{AF1}{RF1} + \left[\frac{AF2}{RF2} * 0.6 \right] + \left[\frac{AF3}{RF3} * 0.4 \right] \right] * 12.5$$

$$\text{Cadre Ratio Marks} = \left[\left(\frac{1.33}{3} \right) + \left[\left(\frac{2}{5.66} \right) * 0.6 \right] + \left[\left(\frac{24.66}{17.66} \right) * 0.4 \right] \right] * 12.5 = 15.17$$

- If $AF1 = AF2 = 0$ then zero marks
- Maximum marks to be limited if it exceeds 25

Example: Intake = 60 (i.e. total no. of students= 180); Required number of Faculty: 9; $RF1= 1$, $RF2=2$ and $RF3=6$

Case 1: $AF1/RF1= 1$; $AF2/RF2 = 1$; $AF3/RF3 = 1$; Cadre proportion marks = $(1+0.6+0.4) \times 12.5 = 25$

Case 2: $AF1/RF1= 1$; $AF2/RF2 = 3/2$; $AF3/RF3 = 5/6$; Cadre proportion marks = $(1+0.9+0.3) \times 12.5 = \text{limited to } 25$

Case 3: $AF1/RF1=0$; $AF2/RF2=1/2$; $AF3/RF3=8/6$; Cadre proportion marks = $(0+0.3+0.53) \times 12.5 = 10.4$

5.3. Faculty Qualification (25)

$FQ = 2.5 \times [(10X + 4Y)/F]$ where X is no. of regular faculty with Ph.D., Y is no. of regular faculty with M.Tech. F is no. of regular faculty required to comply 20:1 Faculty Student ratio (no. of faculty and no. of students required are to be calculated as per 5.1)

Academic Year	X	Y	F	$FQ=2.5 \times [(10X + 4Y)/F]$
CAY (2020-21)	2	24	24	12.08
CAYm1 (2019-20)	4	23	24	13.75
CAYm2 (2018-19)	3	23	24	12.70
Average Assessment				12.84

Table B.5.3a: Faculty Qualification

Academic Year	X	Y	F	$FQ=2.5 \times [(10X + 4Y)/F]$
CAYm1 (2019-20)	4	23	24	13.75
CAYm2 (2018-19)	3	23	24	12.70
CAYm3 (2017-18)	3	28	31	11.45
Average Assessment				12.63

Table B.5.3b: Faculty Qualification**5.4. Faculty Retention (25)**

No. of regular faculty members in CAYm1=27

CAY=27

Item	Marks
$\geq 90\%$ of required Faculty members retained during the period of assessment keeping CAYm2 as a base year)	25
$\geq 75\%$ of required Faculty members retained during the period of assessment keeping CAYm2 as a base year)	20
$\geq 60\%$ of required Faculty members retained during the period of assessment keeping CAYm2 as a base year)	15
$\geq 50\%$ of required Faculty members retained during the period of assessment keeping CAYm2 as a base year)	10
$< 50\%$ of required Faculty members retained during the period of assessment keeping CAYm2 as a base year)	0

Description	2018-19	2019-20	2020-21
No of Faculty Retained	26	24	16
Total No of Faculty	31	31	26
% of Faculty Retained	84	77	61.53
	81%		
Average	74.17%		

Table B.5.4 Faculty Retention

5.5 Innovations by the Faculty in Teaching and Learning (20)

Innovations by the Faculty in teaching and learning shall be summarized as per the following description. Contributions to teaching and learning are activities that contribute to the improvement of student learning. These activities may include innovations not limited to, use of ICT, instruction delivery, instructional methods, assessment, evaluation and inclusive class rooms that lead to effective, efficient and engaging instruction. Any contributions to teaching and learning should satisfy the following criteria:

- *The work must be made available on Institute website*
- *The work must be available for peer review and critique*
- *The work must be reproducible and developed further by other scholars*

The department/institution may set up appropriate processes for making the contributions available to the public, getting them reviewed and for rewarding. These may typically include statement of clear goals, adequate preparation, use of appropriate methods, significance of results, effective presentation and reflective critique

In the present competitive world, the technology is changing very rapidly. The engineering graduates must capable of acquaint with these changes to grab the opportunities globally. This can be achieved through effective content delivery. Students will come from different locations with different aspirations which in turn influence the learning style. Irrespective of learning style of the student, as an educator the content must be delivered effectively through innovative practices in Teaching & Learning to make them globally acceptable in line with our mission and vision.

A. Work is available in the institution website (4)

Department of EEE follows a systematic framework for implementation of innovative teaching learning strategies effectively in regular course work along with traditional classroom teaching. The detailed framework for implementation of teaching learning practices is as shown in figure 5.5.1.

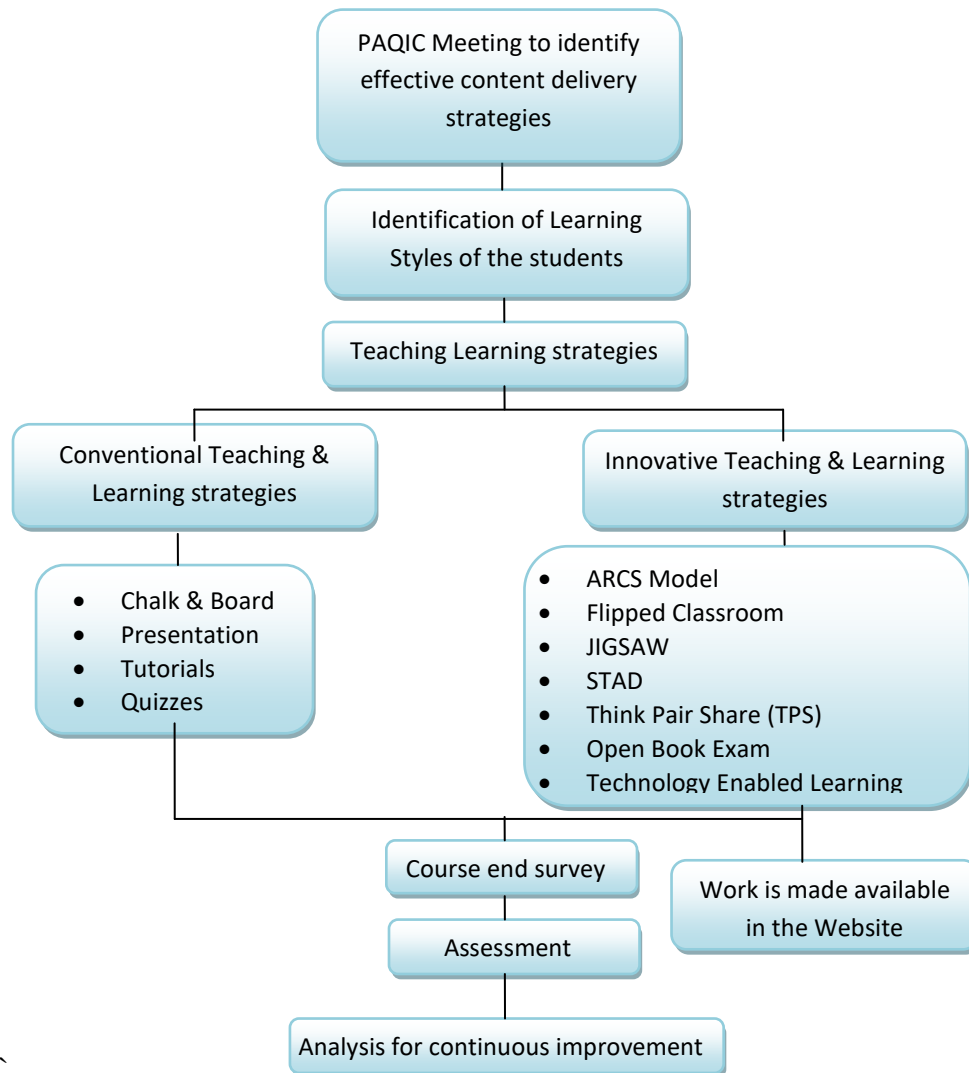

Figure 5.5.1: Framework for the implementation of Innovative Teaching Learning & Conventional Teaching Learning Strategies

For the effective implementation of Innovations in Teaching Learning strategies the following steps are taken:

1. Program Assessment and Quality improvement Committee (PAQIC) conducts meeting with other senior faculty members to identify the innovations in Teaching learning strategies to be implemented
2. The innovative practices employed in teaching learning using ARCS model of Instruction, Flipped classroom, Jigsaw, Student Teams Achievements Division (STAD), Think Pair Share (TPS), Open Book Exam (OBE) and Technology Enabled Learning are evaluated on students with different learning styles.
3. Firstly, a questionnaire is conducted with the students to assess their learning styles using Felder and Silverman model. The following link is used to conduct the survey.
<http://www4.ncsu.edu/unity/lockers/users/f/felder/public/ILSpage.html>
4. According to Felder there are four dimension of learning styles, with each dimension having two opposite categories.
 - Sensing / Intuitive - How information is perceived?
 - Visual / Verbal - How information is presented?
 - Active / Reflective - How information is processed?
 - Sequential / Global - How information is understand?
5. Students can be classified based on their learning styles as Active / Reflective, Sensing / Intuitive, Visual / Verbal and Sequence / Global

Type of Learner	Preferences
Sensing	prefers concrete thinking, practical, concerned with facts and procedures
Intuitive	prefers conceptual thinking, innovative, concerned with theories and meanings
Visual	prefers visual representations, pictures, diagrams, and flowcharts
Verbal	prefers written and spoken explanations
Active	prefers to try things out, working with other in groups
Reflective	prefers thinking things through, working alone or with familiar partner
Sequential	prefers linear thinking, orderly learns in small incremental steps
Global	prefers holistic thinking, system thinkers, learns in large leaps

Table B.5.5.1: Types of learners and their preferences

An example of learning style of a student shown in the figure 5.5.2

Figure 5.5.2: Sample learning style using Felder- Silverman model

6. Course end survey is collected from all the students at the end of each course on their understandings with reference to teaching style adopted.
7. Students' performance is assessed in MID examinations and University end examinations as per the university guidelines.
8. The obtained results are analyzed for the preparation of action plan for the next academic year.
9. The contribution of faculty, towards innovations in teaching learning, is made available in the institute website for peer review and critique.

B. Work is available for peer review and critique (4)

The innovations adopted for teaching and learning in our department are made available for peer review and critique by encouraging our faculty to do Engineering Educator Certification (IIEECP) course which is organized by Indo Universal Collaboration for Engineering Education (IUCEE) in association with International Society for Engineering Pedagogy (IGIP), Austria and Microsoft. The following are the sample of peer review and critique received from the reviewers for the Innovations made by our department faculty towards Teaching and Learning.

S. No	Name of the faculty	Strategies submitted for peer review and critique	Peer review and critique by reviewer	
			Marks (15M)	Comments
1	Mr. Vamsi Kattamuri	Creating dynamic classroom Use Pictures, Schematics, graphs and simple sketches Providing open ended problem	10.5	Next time when you attempt an assignment, you must follow the Rubric. It would be easier for you to write an assignment that way. Pre and post implementation reflection had to be very carefully deciphered from your submission. <i>Sneha Bisht , Aug 9, 2018 at 6:07pm</i>
		Effective Assessment-1	14	The Work is excellent. The writing is near perfect with little to no grammar or spelling errors. It has proper sentence structure, precise explanation and clarity of thought <i>Siddharthsinh Jadeja, Sep 23, 2018 at 11:21pm</i>
		Effective Assessment-2	15	The work shows an excellent understanding of how an assessment item should be designed based on lessons learnt from Assignment 1. Establishes a clear link between the assessment instrument and the rubric <i>Siddharthsinh Jadeja, Oct 8, 2018 at 1pm</i>
		Harnessing the power of technology- Creating course website	15	Hi, Vamsi Well done! You have addressed all part of the problem statement and also outlined them elaborately in the submission page. To me, your reflective report is the showstopper of the submission and added a good level of critical analysis of the experience <i>Rajdeep Deb, Oct 2, 2018 at 10:50pm</i>
		Harnessing the power of technology-Flipped classroom	13	Hi, Vamsi Undoubtedly you have chosen a very important topic from your syllabus for flipped classroom experience. Impressive submission when it comes to planning the flipped classroom experience and your reflective report involve some level of critical analysis. While sharing the video you supposed to give a set of instructions and a introductory audio or a video file. I was not able to access the file with me. In absence of these files, I left with the option of giving you an average mark for this part. You need to work on your discussion questions, these questions need to be both answerable and challenging and also justification is missing. <i>Rajdeep Deb, Oct 1, 2018 at 10:22pm</i>

2	Dr. K. Durga Syam Prasad	Collaborative Learning-1	11M	A good effort. There are some suggestions to improve the plan 1. The objectives of the activity are not clear. They must be made clear. 2. The task to be done during the collaborative session must be elaborated. 3. The evaluation process for group performance may be based on the team task <i>Anitha D , Sep 30, 2018 at 7:22am</i>
		Collaborative Learning-2	14M	A very good implementation <i>Anitha D , Oct 27, 2018 at 11:50am</i>
		Effective Assessment-1	13M	Justifiable explanations of the modifications made to the old exam. presented with the differences clearly marked. <i>sanjeev_kavale@kletech.ac.in , Nov 9, 2018 at 9:53am</i>
		Effective Assessment-2	14M	Clearly demonstrates the steps used in the rubric design. The steps are well-thought out <i>sanjeev_kavale@kletech.ac.in , Nov 11, 2018 at 12:44pm</i>
		Harnessing the power of technology- Creating course website	14M	The step by step procedure is clearly indicated and the process of using the virtual lab in conducting and changing the variables is observed in the responses <i>Khamruddin Syed , Oct 31, 2018 at 8:24am</i>
		Harnessing the power of technology- Flipped classroom	14M	The objective of the activity is clearly defined and the proper justification is provided. <i>Khamruddin Syed , Nov 4, 2018 at 10:04am</i>

Table B.5.5.2: peer review and critique received from the reviewers

Along with it, we encourage our faculty to publish papers in engineering education related peer reviewed journals.

C. Work must be reproducible and developed further by other scholars (2)

The innovation strategies adopted by faculty are made available in department library along with publishing in institute website. The faculty who implemented the strategy will conduct an orientation program to all the colleague faculty members and explains goals, significance and the way of selecting appropriate strategy. With this strategy, most of the faculty will try to reproduce the innovation strategies while delivering courses in the upcoming semesters. Our faculty also encouraged to submit papers on the innovation's strategies adopted.

The scholars or colleague faculty may reproduce the innovation teaching learning strategies by incorporating

- As the quality of methodology greatly influenced by the learning style of the student, the work may be carried out with another method of assessing learning styles of the students like Grasha-Reichmann model.
- Flipped classroom may be conducted with another method of collaborating activity like JIGSAW or STAD as in class activity
- JIGSAW strategy may be reproduced, and effectiveness may be observed by reducing the team size.

D. Statement of clear goals, use of appropriate methods, significance of results, effective presentation and reflective critique (10)

The innovative teaching learning strategies provide opportunities for students to work in teams, learn from peers, and learn from themselves. Also, the students have opportunity to engage in sophisticated and complex levels of cognitive activity—define, analyze, evaluate, reflect, assess, and solve real-world problems. The evaluation suggests that implementation of these methodologies in the engineering design courses improve the higher-level cognitive skills of the students as well as integrated theory, design, and practice.

I. Appropriate Methods

To improve the quality of teaching learning and to make students actively participate in the class environment, some appropriate methods are suggested by PAQIC committee.

The appropriate innovative methods in teaching learning followed are:

1. Attention, Relevance, Confidence, & Satisfaction (ARCS) Model
2. Flipped Classroom
3. Jigsaw (Collaborative Learning)

4. Student Teams Achievements Division (STAD)
5. Think Pair Share (TPS)
6. Open Book Exam (OBE)
7. Technology Enabled Learning (TEL)

1. ARCS Model

In any classroom, some students might learn more than students in the same or another classroom. The main reason for this is different levels of learning for students both within and across classrooms. In general, for effective content delivery, every educator must try to see that the content is reachable to at least 95% of the students in class.

Goals of the strategy:

The ARCS model is an instructional design approach that focuses on the motivational aspects of learning environment. The model was created by John Keller in the 80s. According to John Keller there are four steps in the instructional design process — Attention, Relevance, Confidence, & Satisfaction (ARCS).

- Attention refers to the interest displayed by learners in taking in the concepts/ ideas being taught
- Relevance describes how the knowledge will help the learner's today and, in the future, (getting into a college or finding a job or getting a promotion)
- Learning design enhances the students' confidence with a method for estimating their probability of success.
- Learners must obtain some type of satisfaction or a reward from the learning experience. This can be in the form of a sense of achievement.

Course: Power Electronics (PE)

Topic: AC-DC Converters (CO 2)

Activity: ARCS model

Class: III-I, EEE-B (2017 admitted batch)

Academic Year: 2019-20

Learning objective for the lecture: The student is able to: Understand the working of single-phase AC-DC Converters- with R load, RL load.

Component	Implementation Strategies
<p style="text-align: center;">Attention (What is interesting about this?)</p> <p style="text-align: center;">Topic: AC-DC Converters</p>	<p>To draw the learners Attention:</p> <ol style="list-style-type: none"> 1) The class is started class with brainstorming session by posing questions on AC supply, DC supply, R load, R-L load etc. 2) Since PE is a technology used in industries it is proposed to arrange 'Summer Internship' to industries. 3) Various examples of converter used in houses and institutes is discussed. 4) To understand the real concept of converters a video depicting the working of converters is shown https://www.youtube.com/watch?v=J8A6QUxfk8c. 5) Discussion is held to reinforce the concept of converters.
<p style="text-align: center;">Relevance (Why should I be wasting my time studying this?)</p> <p style="text-align: center;">Topic: AC-DC Converters</p>	<p>Strategies to accomplish the relevance:</p> <ol style="list-style-type: none"> 1) The applications with special reference to comparison of life with and without converters is briefed 2) Case studies: The effect and behavior of different electrical loads on the supply system is briefed. 3) Goal oriented students: For the students who aim at pursuing higher studies and do research in this area, the aim and scope of the topic is discussed. 4) Scope of designing own converters: The various possibilities of designing new and more efficient converters were discussed. 5) Role Model: The scope and range of jobs for students good in the field of power electronics is discussed. For example: one of the ex-students presently working in ISRO Chandigarh is in contact as she wants to clear basics on PE semiconductors and converters in order to be able to design upgraded models.
	<p>To build a sense of confidence in learners:</p> <ol style="list-style-type: none"> 1) Motivation: In the beginning of the semester the students are informed about the evaluation process. The importance of

<p style="text-align: center;">Confidence (This is not difficult-I can do it)</p> <p>Topic: AC-DC Converters</p>	<p>each examination including on-line exam and home assignments is very much motivated. The students will be motivated with quote like 'try and try until you succeed'.</p> <p>2) Self Growth: Each student is asked to prepare their future goals and display in her study room. They are also asked to display great scientists' photos like, Einstein, Faraday in study room. The goals are revised frequently. They are also advised to participate in campus recruitment training courses and technical workshops. Goals are verified by T&P faculty once in a month and were asked to rewrite/modify their own goals.</p> <p>3) Feedback: Mentors are appointed for every 20 students to monitor their performance in every month. Slow learners are identified based on their performance; special care is taken for such students to improve their performance.</p> <p>4) Small Group Activities: The learners are divided in groups of three to six. Each group is assigned a team number and each group member is assigned a unique id. When the trainer poses a question, group members get together, examine the possibilities, and construct an answer. The trainer then picks a number by drawing a card or rolling a die. The number selected designates the spokesperson for each table group. A second number designates the table group that will respond first. By involving in such group activities students are well motivated.</p>
<p style="text-align: center;">Satisfaction (This is great - I have learnt something new and useful)</p> <p>Topic: AC-DC Converters</p>	<p>Learner's Satisfaction:</p> <p>1) Outstanding performance students are appreciated through rewards in public, like their names are displayed in college notice board, special appreciation letter from principal, fee waiving from management.</p> <p>2) Parents whose wards are selected on campus drives are</p>

	<p>felicitated along with their ward on Graduation Day. It gives motivation to juniors and self-satisfaction for selected students.</p> <p>3) Equity: Transparency is maintained in all evaluation systems. Perfect rubrics are defined and displayed for students. Examination system is transparent.</p>
--	--

Significance of results & reflective critique:

The objective of this assignment is to learn how to apply the ARCS model to the content we are teaching. Basically, the concept says, students learn best

- When the teacher can generate a sufficient interest in the topic being studied.
- When the content is relevant.
- They feel they can master it.
- When they have the feeling that their effort has been well rewarded, and they have learnt something new and useful

To begin with one might think, who has the time to do all this for each and every concept we are teaching but this is more a question of mind-set and incorporating these does not take more time or effort than the normal preparation would. Once this methodology is practiced the strategies/examples, lecture style automatically falls in line.

Outcomes:

It is noticed, at the end of this activity, the students are able to

- Students ask relevant questions on the topic for example effect of a motor load on the converter, the variety of various other loads that can be used.
- Show interest in knowing about various applications of the converters.
- Show confidence and interest in implementing the converter model in MATLAB Simulink.

2. Flipped Classroom

Flipped classroom methodology mainly focuses on the inquiry-based learning with the access of vast web information. The flipped strategy is a blended strategy with the goal to enhance student engagement and to attain predefined outcomes.

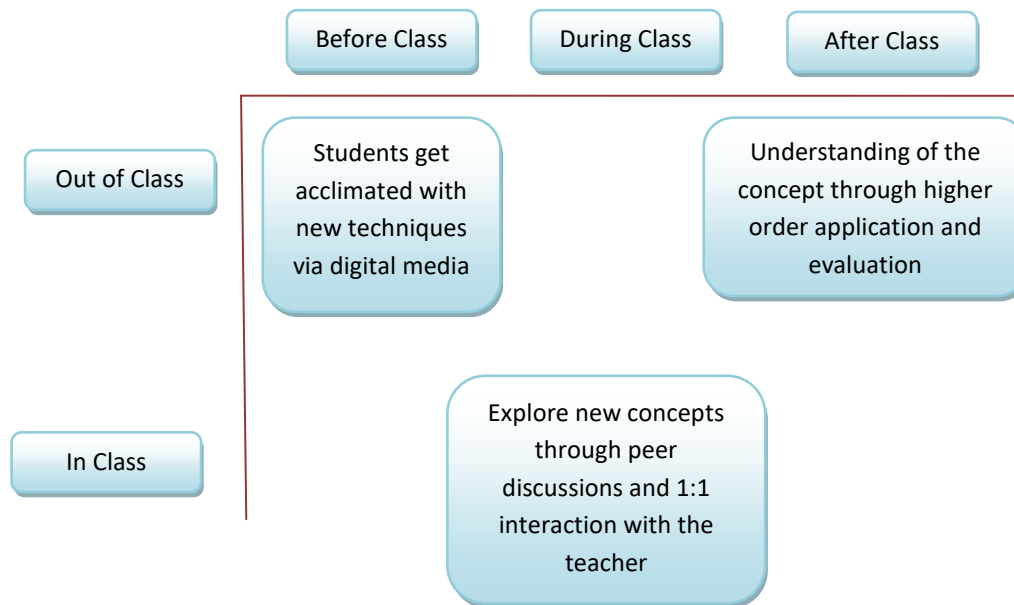

Figure 5.5.3: Implementation of Flipped Classroom Strategy

This strategy includes three activities namely before, during and after class activities. Students get exposure to new technologies over digital media and the instructions given by the teacher over video lectures. During class, students interact with teacher and other students to explore new concepts. Based on the understandings, an assessment test may be conducted for the assessment.

Benefits of the Flipped classroom:

- More participation of students.
- Improved Faculty and Student interaction.
- Appropriate use of resources by the teacher for constructive learning methods.

Goals of the activity:

- Inspire students to learn the concepts thoroughly.
- To motivate students towards self-learning.

- To make use of visual learning.

Implementation: The implementation of a flipped classroom strategy is presented below

Course: Electrical Distribution Systems

Topic: Relationship between the load factor and loss factor (CO-1)

Activity: Flipped classroom

Class: IV-I, EEE-B (2015 admitted batch)

Academic Year: 2018-19

Introduction Video: Load factor and loss factor are the important parameters in the electrical distribution systems. Load factor is an independent variable of the equation corresponding to relationship between load and loss factor. A video is suggested for explaining the concept of load and loss factors and the relationship at different areas of usage.

https://www.youtube.com/watch?v=j7P_ufwUGEQ

Questions Posed: Explain various factors of distribution systems.
Relationship between loss and load factors.

Planning of activity:

- **Pre-Class Content:** Provided web source to watch video, textbooks for reference and some web links in prior to all the learners. All the instructions were clearly described in video uploaded in course website.
- **Pre-Class Activity:** Students were instructed to write the assignments based on their understandings.
- **In Class Activity:** Conducted Think Pair Share dynamic class activity in class to assess the outcomes.
- **Post Class activity:** As a post class activity, conducted a quiz, assessed and evaluated each student at each stage.

Assessment: The following table 5.5.3 shows the format of assessment for flipped classroom activity

S. No	Roll No	Name of the Student	Team No	Pre-Class Activity-Assignment (10M)	In Class Activity-Think Pair Share (10M)	Post Class Activity-Quiz (10M)	Total (30M)

Table B.5.5.3: Assessment Table for Flipped Class Activity

Significance of results & reflective critique

- All the students paid more attention while explaining this activity, accessing the web source and all are actively participated in In-class activity.
- The slow learners are also actively participated on par with bright students.
- Traditional classroom was perfectly converted into student centric classroom.
- With the predefined evaluation process, all students actively participated in each stage of the activity.

Outcomes:

It is noticed, at the end of this activity, the students are able to

- Explain the various factors affecting the performance of the substations.
- Discriminate the load and loss factors at relevant situations.
- Expressed a interest in visiting the nearest substation for a practical experience.

3. JIGSAW (Collaborative Learning):

Collaborative learning is a group activity that involves students working together to obtain solution to a problem. Collaborative learning is effective in teaching programming course. Hence Collaborative learning is introduced to learn a topic in Electrical Distribution Systems. The basic process involves formation two student groups HOME (JIGSAW) groups and EXPERT groups. The group size should be at most five. EXPERT group is formed with the leaders of JIGSAW group.

Implementation:

Course: Electrical Distribution Systems

Topic: Various types of protection devices (CO 4)

Activity: JIGSAW (Collaborative learning)

Class: IV-I, EEE-B (2015 admitted batch)

Academic Year: 2018-19

Concept for activity:

1. Various types of protection devices used in electrical distribution systems
2. Characteristics of the devices
3. Comparison of protective devices.

Goals of this activity:

At the end of this activity, students will be able to:

1. Explain the various protective devices used in electrical distribution systems
2. Describe the operation of the protective devices
3. Choose the correct protective device for a given requirement in the substations.

Concept for activity:

At the start of the activity the concepts of ‘Various protection devices in Electrical Distribution Systems’ are explained to the students:

- Construction.
- Working Principle.
- Operation at normal condition.
- Operation at fault Condition.
- Advantages and Disadvantages of the apparatus.

The Instruction execution is sub divided into 4 segments.

- Operation of Fuse –2 groups.
- Operation of Circuit Breaker–2 groups.
- Operation of Automatic Recloser –2 groups.
- Operation of Automatic Sectionalizer –2 groups.

Strategy to create Teams:

1. The success of collaborative activity is based on how best the individual skill sets are considered and mixed during team formation.
2. Before forming the balanced teams, a questionnaire is posed to the students to assess their learning styles.
 - Sensing-Intuitive - how information is perceived
 - Visual-Verbal - how information is presented
 - Active-Reflective - how information is processed
 - Sequential-Global - how the information is understood

The learning style of each student is classified with the help of the Felder and Silverman model. Students are categorized according to the Index of Learning Styles (ILS) questionnaire. This questionnaire categorizes a student's preferred learning style along a sliding scale of four dimensions

To conduct the survey the following link is used:

<http://www4.ncsu.edu/unity/lockers/users/f/felder/public/ILSpage.html>

Questionnaire Results for 15NM1A0254 SETHI PRAGATI :

> Active: 5 > Sensing: 5 > Visual: 3 > Sequential: 3

Figure 5.5.4 Sample learning style of a student based on Felder Silverman model

Learning Styles	Number of students	Percentage of students (%)
Active	9	22
Reflective	2	5
Sensing	3	7
Intuitive	2	5
Visual	12	29
Verbal	2	5
Sequential	7	17
Global	4	10

Table 5.5.4 Classification of Students in the Class Established on Learning Styles

Time planned:

Time required to execute the event is maximum 150 min (3 sessions) including survey of student learning styles, home and expert groups formation, peer discussion, student evaluation.

Formation of HOME groups (Heterogeneous):

The study was carried out with 41 students on electrical distribution systems course. The teams were formed with 5 members in each team. Hence, a total 8 teams are formed in the class. Care is taken to match the group size to the assigned subtasks. At the end of the collaborative learning, students were graded individually and group wise.

Students are divided into heterogeneous HOME groups and subsequently regrouped into 8 homogeneous groups known as EXPERT groups. The 8 HOME groups are identified with electrical terminologies like Power, Energy, Voltage, Current, Generator. In each team, the group

members are identified as A1, A2, A3, A4, A5, B1, B2, B3, B4, B5, etc. It is preferred to appoint the strong global learners of each group as group leaders like A1, B1, C1, D1. In case of unavailability of global learners, strong active learners are appointed as group leaders like E1, F1, G1, H1. The Table-5.5.5 shows the learning styles, score and their member ID of individual student.

Group No.	JIGSAW Home Group	Student Roll No	Member ID	Student learning ability	Topic Assigned to group
1	Power (A)	15NM1A0238	A1-Leader	Strong Global Learner	Operation of Fuse
		15NM1A0241	A2	Strong Sequential Learner	
		15NM1A0240	A3	Strong Visual Learner	
		15NM1A0256	A4	Strong Active Learner	
		15NM1A0243	A5	Strong Visual Learner	
2	Energy (B)	15NM1A0250	B1-Leader	Strong Global Learner	Operation of Circuit Breaker
		15NM1A0251	B2	Strong Sequential Learner	
		15NM1A0247	B3	Strong Visual Learner	
		16NM5A0224	B4	Strong Active Learner	
		15NM1A0249	B5	Strong Visual Learner	
3	Voltage (C)	15NM1A0263	C1-Leader	Strong Global Learner	Operation of Automatic Recloser
		15NM1A0260	C2	Strong Sequential Learner	
		15NM1A0252	C3	Strong Visual Learner	
		16NM5A0227	C4	Strong Active Learner	
		16NM5A0228	C5	Strong Intuitive Learner	
4	Current (D)	16NM5A0222	D1-Leader	Strong Global Learner	Operation of Automatic Sectionalizer
		16NM5A0217	D2	Strong Sequential Learner	
		15NM1A0254	D3	Strong Visual Learner	
		16NM5A0229	D4	Strong Active Learner	
		15NM1A0255	D5	Strong Intuitive Learner	
5	Generator (E)	15NM1A0236	E1-Leader	Strong Active Learner	Operation of Fuse
		16NM5A0218	E2	Strong Sequential Learner	
		15NM1A0257	E3	Strong Visual Learner	
		16NM5A0230	E4	Strong Active Learner	
		15NM1A0239	E5	Strong Reflective Learner	
6	Motor (F)	15NM1A0237	F1-Leader	Strong Active Learner	Operation of Circuit Breaker
		16NM5A0218	F2	Strong Sequential Learner	
		15NM1A0258	F3	Strong Visual Learner	
		15NM1A0264	F4	Strong Sensing Learner	
		16NM5A0216	F5	Strong Visual learner	
7	Pole (G)	15NM1A0246	G1-Leader	Strong Active Learner	Operation of Automatic Recloser
		16NM5A0220	G2	Strong Sequential Learner	
		15NM1A0261	G3	Strong Visual Learner	
		15NM1A0248	G4	Strong Sensing Learner	
		15NM1A0244	G5	Strong Verbal Learner	
8	Alternator	15NM1A0242	H1-Leader	Strong Active Learner	Operation of

	(H)	15NM1A0262	H2	Strong Verbal Learner	Automatic Sectionalizer
		16NM5A0219	H3	Strong Visual Learner	
		16NM5A0221	H4	Strong Visual Learner	
		15NM1A0259	H5	Strong Reflective Learner	
		16NM5A0226	H6	Strong Sensing Learner	

Table 5.5.5 Formation of JIGSAW Home Groups (Heterogeneous Groups)

Formation of EXPERT Groups (Homogeneous)

Students are separated from their Home Group and reformed into new groups with the other students who are responsible for preparing the same topic. This group is called Expert group. These group members are responsible to make other students understand the topic. These groups by default become homogeneous in their abilities. The group members make plans about how they can teach the subject content to their friends and prepare a report.

Afterwards, they turn back to their respective Home groups and share their acquired knowledge with colleagues with the help of the reports they have prepared. Expert groups are formed by picking one member from each Home group. The size of the Expert group is 4 and hence 10 groups are formed. Expert groups EG1, EG2, EG3, EG4, EG5, EG6, EG7, EG8, EG9 and EG10 are shown in Table -5.5.6

SI. No	Expert Group Name	Expert Group Members	
1	EG1	A1, B1, C1, D1	HOME Group Leaders
2	EG2	A2, B2, C2, D2	HOME groups members
3	EG3	A3, B3, C3, D3	HOME groups members
4	EG4	A4, B4, C4, D4	HOME groups members
5	EG5	A5, B5, C5, D5	HOME groups members
6	EG6	E1, F1, G1, H1	HOME Group Leaders
7	EG7	E2, F2, G2, H2	HOME group members
8	EG8	E3, F3, G3, H3	HOME group members
9	EG9	E4, F4, G4, H4	HOME group members
10	EG10	E5, F5, G5, H5, H6	HOME group members

Table B.5.5.6: List of Expert Groups (Homogeneous) and their Team Members

Process of Evaluation:

Both Formative assessment and Summative assessment activities are used to judge final products for completion, competency and/or demonstrated improvement. To evaluate the student two components are required namely individual and group assessment. Individual quizzes and group quizzes are conducted for all the 10 batches separately. Evaluation by the instructor provides students with feedback on the understanding of content, concepts, and applications. The assessment grades are shown in Table- B.5.5.7.

Team No	JIGSAW Team	Home Group Member ID	Formative Assessment		Summative Assessment		Final Score (50M)	Median Score:45
			Individual Observation (10M)	Group Observation (10M)	Individual Quiz (15M)	Group Quiz (15M)		Performed more than Median Score (Yes/No)
1	Power (A)	A1- Leader	10	10	14	13	47	Yes
		A2	8		14		44	No
		A3	9		13		45	Yes
		A4	8		15		46	Yes
		A5	10		12		45	Yes
2	Energy (B)	B1-Leader	10	8	15	15	48	Yes
		B2	9		12		44	No
		B3	8		13		44	No
		B4	7		14		44	No
		B5	6		13		42	No
3	Voltage (C)	C1-Leader	9	9	15	14	47	Yes
		C2	7		12		42	No
		C3	9		14		46	Yes
		C4	10		13		46	Yes
		C5	8		15		46	Yes
4	Current (D)	D1	10	10	15	13	48	Yes
		D2	9		14		46	Yes
		D3	8		15		46	Yes
		D4	10		14		47	Yes
		D5	10		15		48	Yes
5	Generator (E)	E1-Leader	10	9	15	12	46	Yes
		E2	8		14		43	No
		E3	9		13		43	No
		E4	9		12		42	No
		E5	8		14		43	No
6	Motor	F1-Leader	9	9	15	15	48	Yes

	(F)	F2	8		14		46	Yes
		F3	7		13		44	No
		F4	9		15		48	Yes
		F5	10		12		46	Yes
7	Pole (G)	G1-Leader	10	8	14	14	46	Yes
		G2	9		13		44	No
		G3	7		12		41	No
		G4	8		13		43	No
		G5	9		15		46	Yes
8	Alternator (H)	H1-Leader	10	8	14	13	45	Yes
		H2	8		15		44	No
		H3	9		13		43	No
		H4	7		14		42	No
		H5	6		12		39	No
		H6	6		11		38	No

Table B.5.5.7: Assessment Sheet for JIGSAW Activity

Significance of results & reflective critique:

At the end of activity, Students have given their opinion about this activity. Some batches have involved and enjoyed the activity to a good extent. They reported that the activity was excellent, and they had a satisfied leaning experience. Three poll questions were posed to the students in order to determine their views on collaborative learning environment and Jigsaw technique.

Question 1:

“What can you say about the aspects of JIGSAW practices which have positive effects on you?”

Student responses: Out of 41 students great many reported that

- ‘Jigsaw technique was very 'Instructive’,
- ‘Created interest on the subject’,
- ‘Confidence building’,
- ‘affected the interaction and cooperation in the classroom’,
- ‘it was enjoyable’

Instructive: 25

Created interest on the subject: 35

Confidence building: 38

Enjoyable: 39

Good interaction and Cooperation in class: 30

Figure 5.5.5: Student Response: Total strength = 41

Question 2

What can you say about the sides of the JIGSAW technique with negative effects in your opinion?

Student responses: Few students reported problems with the JIGSAW technique which are:

- “time-consuming”
- “Their friends with low achievement made them tired” and
- “The noise that occurred during the group work was disturbing”.

Besides, 2 - 3 students expressed that it would be more effective if the topic was taught by the teacher instead of using this method. After considering their feedback, it was noticed that they are slow learners in the class.

Question 3

What are the changes you have observed after application of this technique?

Student responses: Most students had good response to the above query which are

- ‘Increased our learning capacity’
- ‘It increased our self-confidence’
- ‘Provided peer interaction and cooperation’
- ‘The class was interesting’
- ‘Enjoyed the self-learning experience’.

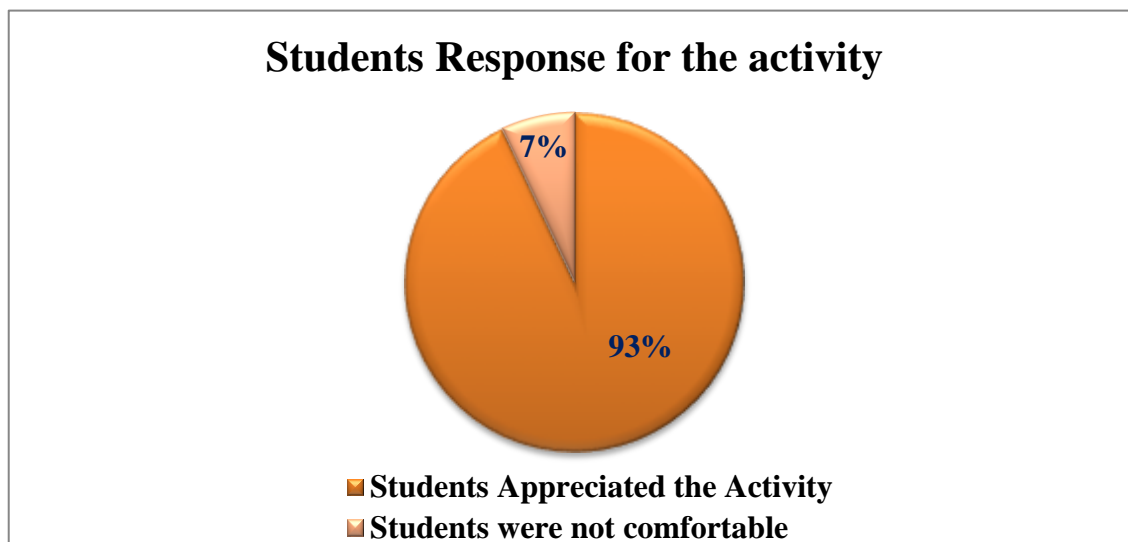

Figure 5.5.6: Students Overall Response for the Activity

Outcomes of the Activity:

It is noticed, at the end of this activity, the students are able to

- Differentiate the operations of various protective devices
- Apply the right devices in a given fault condition
- Communicate with peers and facilitator
- Develop social interaction skills.

4. Student Teams Achievement Division (STAD)

In Student Teams-Achievement Divisions (STAD), students are assigned to four-member learning teams that are mixed in performance level, gender, and ethnicity. The teacher presents a lesson, and then students work within their teams to make sure that all team members have mastered the lesson.

Goals of the strategy:

- Students work together in achieving its objectives by upholding the norms of the group.
- Actively assist and motivate students to succeed shared passion.
- Active role as a peer tutor to further enhance the success of the group.
- Interaction among students with increasing their ability to argue.

Implementation:

Course: Electrical Distribution Systems

Topic: Derivation for voltage drop and power loss in distribution lines (CO 3)

Activity: STAD

Class: IV-I, EEE-B (2015 admitted batch)

Academic Year: 2018-19

The method for implementation of the STAD activity is presented below

- Interaction session to present the content
- Make teams based on one criterion
- Teams work together to solve the given task
- Educator conducts individual quiz and team quiz
- Determine team average and each peer improvement scores

Time schedule:

- Interaction session by educator : 50 min (1 session)
- Making Teams, Sources of information : 50 min (1 session)
- Activity (3 sessions)
 - Collaborative learning- : 50 min (1 session)
(Voltage drop and Power loss calculation)
 - Individual Quiz : 50 min (1 session)
 - Group Quiz : 50 min (1 session)
 - Total sessions : 05

Initially, Instructor provides brief idea about the STAD activity to achieve better results. One session of 50 min was allocated for this interaction session. The outcomes of the activity will be communicated to all the students clearly. Along with the activity, the basics involved in the tasks assigned were also discussed as per the following schedule.

- Importance of Voltage drop : 10 min
- Importance of Power Loss : 10 min
- Voltage drop and power loss effect on the Lines : 10 min
- Awareness about the STAD activity : 10 min
- The objectives of the activity : 10 min

Assessment: The following Table B.5.5.8 shows the format of assessment for flipped classroom activity

S. No	Team ID	Member ID	Roll No	Individual (W1: 1)		Collective (W2:3)		Score	Median Sore (25.5)	Important reason for team result
				Formative-Observation (A: 3 M)	Summative-Individual Quiz (B: 3 M)	Formative – Observati on (C: 3M)	Summati ve – Group Quiz (D: 5M)	W1A+ W1B+ W2C+ W2D (30 M)	Is less than Median Score	

Table B.5.5.8: Assessment Sheet for STAD Activity

Significance of results & reflective critique:

- Students actively participated in the activity
- Communication skills are improved
- Some students' confidence level for sharing the information in the class is improved.

Outcomes:

It is noticed, at the end of this activity, the students are able to

- Solve the problems on voltage drop and power loss correctly.
- Implement correct formulas at required situation in the distribution lines.
- Develop individual and team work to solve given task.
- Apply own ideas and thoughts during team discussion & during deadlock.

5. Think Pair Share Activity (TPS)

Think-Pair-Share (TPS) is a collaborative learning strategy where students work together to solve problems or answer a question about assigned reading. This technique requires students to think individually about the topic or answer a question, and share ideas with colleague students. Discussing responses with peers serves to maximize participation, direct attention, and engage students in reading comprehension. The three phases in TPS are structured as

Think - The instructor poses a question, to which students individually write their answers.

Pair - Students work on a well-defined task with their neighbor(s).

Share - Students engage in a class-wide discussion, sharing their answers and reasoning and debating alternate solutions.

Goals of the Think Pair Share:

- To activate student's prior knowledge.
- To Enhances oral communication skills.
- To make students active learners.

Implementation:

Course: Electrical Distribution Systems

Topic: Comparison of shunt and series capacitors for Power Factor Improvement (CO-5)

Activity: Think Pair Share

Class: IV-I, EEE-B (2015 admitted batch)

Academic Year: 2018-19

Objectives of the Think Pair Share:

- To activate student's prior knowledge
- To enhance the students' knowledge regarding shunt and series capacitors
- To Implement the relevant capacitor for power factor improvement
- To enhance oral communication skills.

Think phase: The instructor poses a question, such as "Write about Shunt and Series capacitors". The students work individually on the task, for about ten minutes.

Pair phase: The instructor gives a task related to the Think phase, such as check your neighbour's solution, or work with your neighbour to write the detailed report on the given topic. The students work with one of their neighbours to complete the task, in five to ten minutes. The instructor walks along the aisles, encouraging discussion and answering queries.

Share phase: The instructor facilitates a class-wise discussion on the topic in the share phase. Students' responses in the Think and Pair phases formed an important part of the discussion in this phase. The students take a survey about their class participation and confidence at the beginning and at the end of the activity. The consolidated survey report is as shown below.

Assessment: The following Table B. 5.5.9 shows the format of assessment for Think Pair Share activity

Student Assessment:

Table B.5.5.9: Survey Report for Think Pair Share Activity

S. No	Description	Pre activity survey						Post activity survey					
		Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree	Strongly Disagree	Disagree	Slightly Disagree	Slightly Agree	Agree	Strongly Agree
1	I enjoy sharing my thoughts and observations during EDS class	4	10	13	10	4	0	1	4	7	10	11	8
2	I feel confident in my abilities in EDS	2	4	17	12	4	2	2	6	8	10	8	7
3	I feel confident to contribute to concept discussion in class	4	6	8	8	11	4	1	4	5	5	14	12
4	I often participate in class discussion in EDS class	1	5	8	12	12	3	0	4	6	10	13	8
5	I am comfortable in contributing to class discussion in EDS class	1	3	12	10	11	4	0	3	8	13	11	6

Based on the survey report obtained for pre activity and post activity, the comparison of each parameter is shown in figures 5.5.7 -

5.5.11

Figure 5.5.7: Survey Parameter 1- Think Pair Share Activity

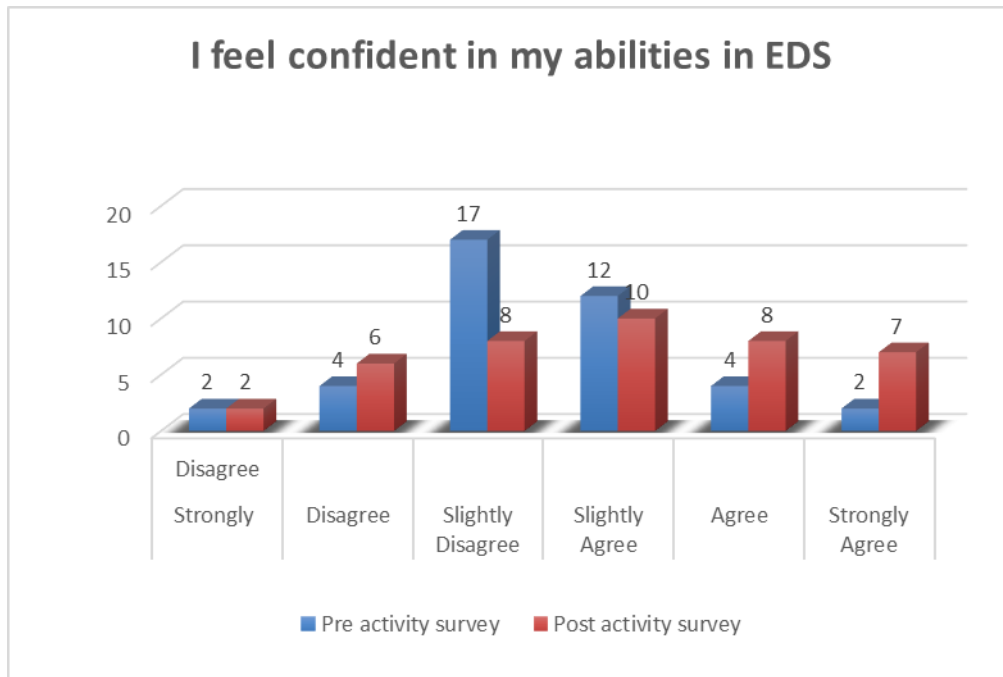

Figure 5.5.8: Survey Parameter 2- Think Pair Share Activity

Figure 5.5.9: Survey Parameter 3- Think Pair Share Activity

Figure 5.5.10: Survey Parameter 4- Think Pair Share Activity

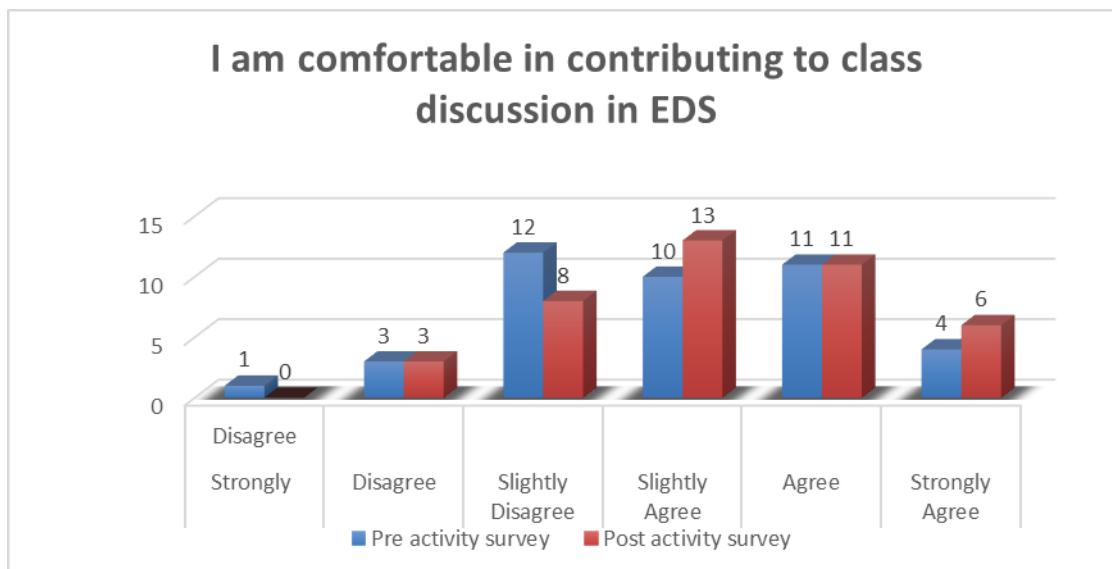

Figure 5.5.11: Survey Parameter 5- Think Pair Share Activity

Significance of Results & Reflective Critique:

- The number of students who enjoyed the class is increased.
- Most of the students agreed that they are confident in contributing for the classroom discussion.
- Students learning ability increased.
- Students shown interest to participate in classroom discussion often.
- Students felt comfortable during classroom activities.

Outcomes:

It is noticed, at the end of this activity, the students are able to

- Apply the aspects of capacitors to power improvement.
- Communicate actively and share knowledge with peers.
- Demonstrate the findings effectively with other peers and criticize the other conclusions.

6. Open Book Examination (OBE)

An "open book examination" is that in which students can refer to class notes and summaries, textbooks, or other approved material while answering questions. Open book examination creates an enriched environment, offering the opportunity to better understanding. The IV B.Tech (2016 admitted batch) students were assessed for Closed Book Sitting and Open Book Sitting for the course **HVDC**. The test population consists of 62 students for IV Year, semester II.

Implementation:**Course:** High Voltage D.C Transmission**Topic:** Design of Filters**Activity:** Open Book Examination**Class:** IV-II, EEE-A (2016 admitted batch)**Academic Year:** 2019-20**Assessment Method:**

The assessment method used for the proposed study consists of on-line descriptive questions, comprising 5 (5*10 marks=50 marks) questions. Test questions are set in concurrence with Blooms Taxonomy levels. The test was administered under similar conditions for Closed Book Examination (CBE) and Open Book Examination (OBE).

The students first completed the assessment in closed book sitting, and then approximately one week later, completed the same assignment in the open book sitting. A time limit of 60 minutes was set for students, with in which they were expected to complete the test. After the first test the students were informed that they would be asked the same set of questions, with full access to the textbook.

Test results of both the examinations were collected and statistical analysis is performed. The analyzed data is given below Table B.5.5.10

Evaluation Parameters	Closed Book	Open Book
Minimum mark	15	22
Maximum Mark	43	47
Mean value	29	34.5
Standard Deviation	5.68	5.82
No. of students completed test	62	62

Table B.5.5.10: Open Book and Closed Book Analyzed Data**Closed Book analysis:**

The minimum and maximum scores for the closed book sitting were 30% and 86% respectively, with a mean of 58%

The minimum and maximum scores for the open book sitting were 44% and 84% respectively, with a mean of 64%

Figure 5.5.13: Comparison of Open Book Sitting Marks of Students for < 60 min and > 60 min.

Significance of results & reflective critique:

- There is a significant improvement in minimum mark and mean value Open book Examination. The increase of 11 % in mean for open book test shows that the average mark of most of the students is increased, which it indicates that there is an improvement in students' performance in OBE sitting when considered average marks.
- However, the data reveals that there is not much improvement in the marks of weaker students in OBE sitting.
- The maximum mark in OBE and CBE sittings is a 4-mark difference (47 and 43 marks respectively)
- It is interesting to note that students spending more than 60 minutes did not show any significant improvement in their marks.

Outcomes:

It is noticed, at the end of this activity, the students are able to

- Develop a filter of required capacity.
- Improved readiness in solving complex problems by open book examination.
- Ready to accept challenges for further complex problems.

7. Technology Enabled Learning (TEL)

21st century revolution in the ICT obliges the teachers and students to keep themselves abreast of the-state-of-the-art of technological development. The deployment of e-learning in teaching-learning process is imperative since the technology is embedded in almost all walks of our life. ICT encapsulates media such as audio, video, pictures, animation, graphics, internet and other software packages.

The use of technology to teach students has gained attention in the recent past. The process of dissemination of information and elicit response from students is a huge task. We adopted the following three technologies used to teach students.

Google Apps:

Sharing lecture notes and PPT through Google drive

- Conducting Online assessments through google forms
- Outcome: It is a collaborative platform for students in which students and instructors share their material online.

Smart Phones:

- Provides easy way to serve the students during the class. It is a good method for instant polling, which can quickly assess student understandings and helps instructors to change teaching modalities.

ICT Technology Classroom:

- ICTs are making dynamic changes in society. They are influencing all aspects of our life. Because ICTs provide both students and teachers with more opportunities in adapting learning and teaching to individual needs, society is forcing institutes aptly respond to this technical innovation.
- Offer the opportunity for more student-centered learning, provide greater opportunity for teacher-to-teacher and student-to-student communication and collaboration.
- Give greater exposure to vocational and workforce skills for students; provide opportunities for multiple technologies delivered by teachers.

Use of Learning Management Tools

The department of EEE uses LMS tools such as Moodles, Virtual Labs etc., to make the students submit their assignments, learn online and implement the experiments to gain knowledge about

the concepts learnt in the class. Recently, Google Classroom, MS Teams, Zoom have been utilized by the faculty to teach the courses.

A massive open online course (MOOC) courses aims at providing high quality study materials to student/faculty community worldwide. The MOOC courses offered by Course-era, edX, NPTEL are of high standards. The students are clustered in a group based on their MOOC course interest and the provider. Students are encouraged to complete a MOOC certification to acquire in depth knowledge. The response of students to MOOC course was minimal.

- **MOODLES:** We organize all the material and syllabi of the course, assignments, readings and online quizzes etc.

Outcome: Material is easily accessible to all the students and it reaches to all the students including absentees.

Dissemination of Content through Course Websites:

The faculty members are self-motivated to create course websites to make available of the course content like syllabus, course delivery plan, lecture notes of all units and previous question papers. This facility helps the students to learn more in less time. As an educator we need to be very particular in inducting content to the learners in short span of time.

The screenshot shows a Blackboard user profile page. On the left is a dark navigation sidebar with icons for Institution Page, Vamsi Kattamuri's profile, Activity Stream, Courses, Organizations, Calendar, Messages, Grades, and Tools. The main content area features a profile header with a circular profile picture of a man in a red shirt, the name 'VAMSI KATTAMURI', and the ID 'vamsikattamuri2706'. Below the header are two columns of settings: 'Basic Information' and 'System Settings'. The 'Basic Information' column includes fields for Full Name (VAMSI KATTAMURI), Email Address (vamsirajv@gmail.com), and Password (with a 'Change password' link). The 'System Settings' column includes Language (System Default (English (United States))), Privacy Settings (Only administrators and other instructors can view my profile information), and Global Notification Settings (with a 'Stream notifications' link).

Figure 5.5.14 Course Website <https://blackboard.coursesites.com/ultra/profile>

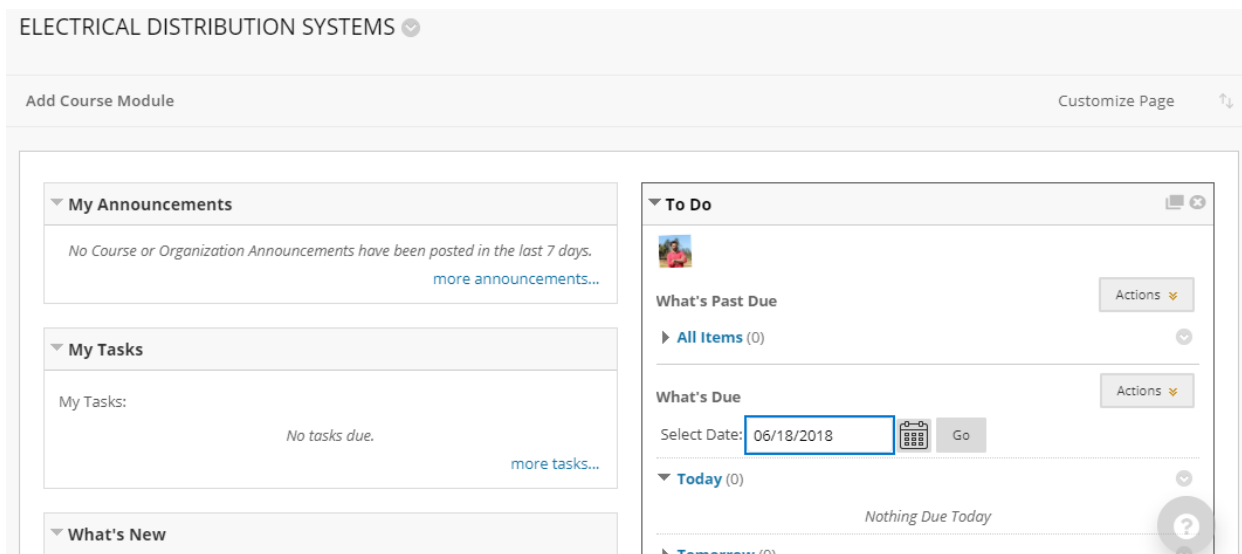

Figure 5.5.15 A Sample of Course Content in the Course Website

The department of EEE also hosts a website <https://sites.google.com/view/vieweee/> in which the data related to all courses of all semesters is maintained. It has syllabus, lecture plans, unit materials, and assignment questions, mid question papers after the exam and university previous question papers. All the students from department of EEE can access it.

Instruction Delivery through Course Websites

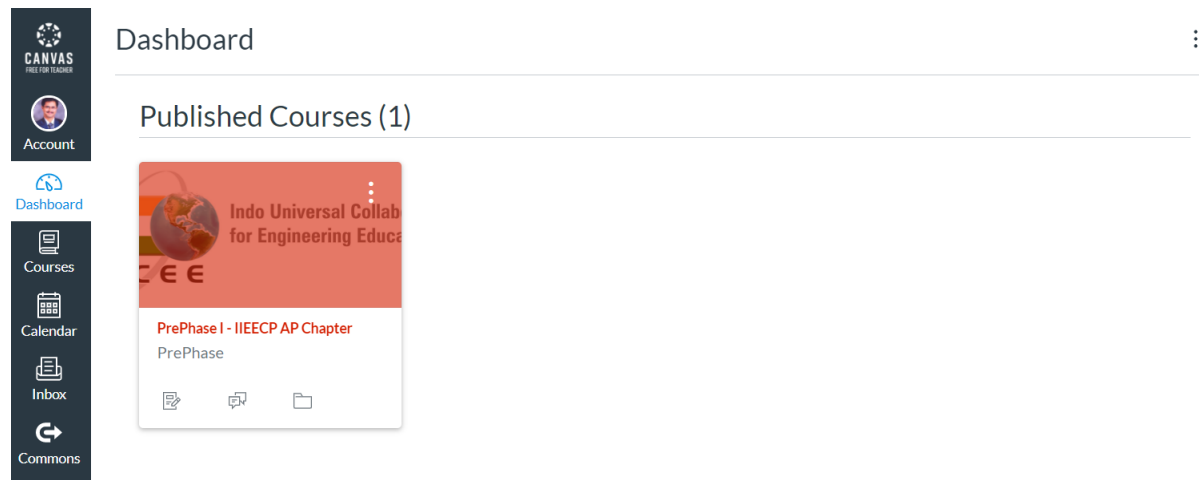

Figure 5.5.16 Content Delivery using Canvas LMS Tool

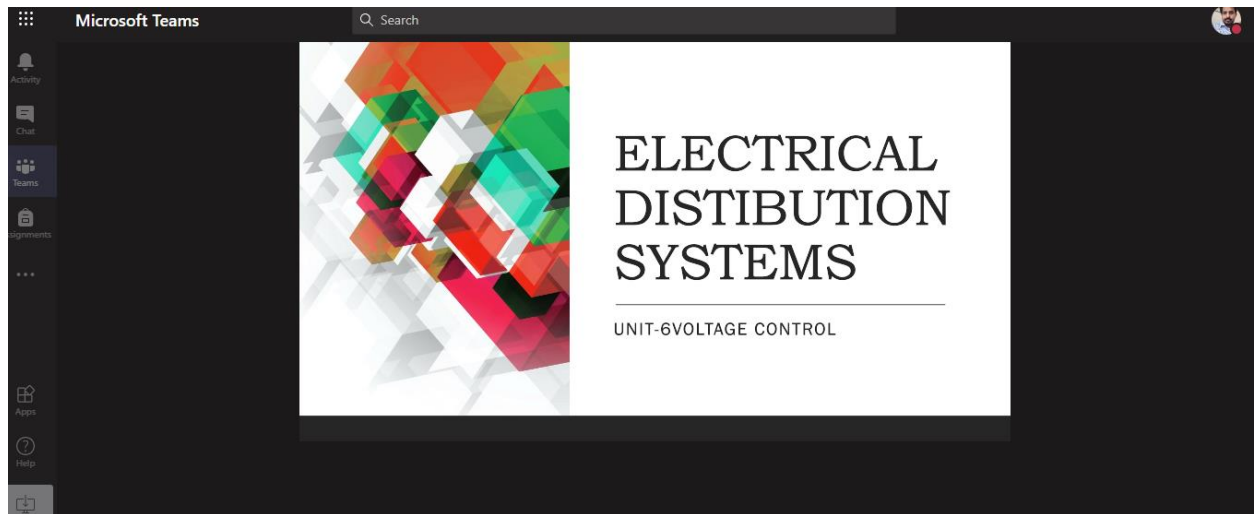

Figure 5.5.17 Content delivery using Microsoft teams

Technology enabled learning was evaluated by asking assignments and quizzes from MOOC materials. Furthermore, extra credits were given to students who completed MOOC courses with good grades. Microsoft teams' service offered by Microsoft is effective in achieving technology enabled learning. Microsoft teams combines the services offered by One Drive for storage, MS word, sheets and slides for writing, Outlook mail for electronic mail and calendar for maintaining schedules. An exclusive folder is created for each class in the corresponding user's One Drive where the student can submit their work for teacher's grading. Sharing of files, conducting assignments quizzes, grading/commenting assignments with respect to prompt sub-mission and content becomes easy with Microsoft Teams. Mobile version of MS Teams helps in quick access. Teachers can monitor student's progress and can assign grades and provide comments for the assignments.

Massive Open Online Courses (MOOCs)

JNTUK implements Massive Open Online Courses (**MOOCs**) with emerging technology to survive the motto of excellence. "If you can't reach to the mentor's level, we'll send the mentor to your level" is the main motto of MOOCs. The students were given choice that either they can take online course, or they can go for a traditional face to face mode in the classroom. Any student can attend the MOOCs classes without disturbing the normal face to face classroom schedules.

Methodology:

- Students Need to login into MOODLES software using their mail IDs during time slot given by JNTUK.
- Students listen to video classes and discuss with the subject experts.

Sl. No.	Academic Year	Name of the Faculty	Year/ Sem	Course	No. of Students Participated	Relevance to POs/PSOs

Figure 5.5.18 MOOCs Class on Energy Audit Conservation and Management during Academic Year 2018-19

As Per G.O.Ms.No:17 Dated: 09.09.2014 of Information Technology, Electronics & Communications (Promotions) Department, Government of AP, the Universities are advised to give credits to the students successfully completing notified online courses (MOOCs). Accordingly, the University is implementing the following Massive Open Online Courses(MOOCs) for the academic year 2017-18 –II Semester

Sl.No	Year & Sem	Name of the subject	Name of the Expert	BRANCH
1.	II Yr II Sem.	Java Programming	TCS Consultants, Hyderabad	Computer Science & Engineering/ Information Technology
2.	II Yr II Sem.	Electrical Machines-II	Pradeep Yamula, IIT Hyderabad	Electrical & Electronics Engineering
3.	II Yr II Sem.	Analog Communications	K V Srinivas, IIT, Varnasi	Electronics & Communication Engineering
4.	II Yr II Sem.	Design of Machine Members-I	Viswanath Ch., IIT Hyderabad	Mechanical Engineering
5.	III Yr II Sem	Microwave Engineering	J. Sri Hari Rao, NITW(Rtd.)	Electronics & Communication Engineering

The Colleges willing and having facilities for the implementation of MOOCs shall communicate their willingness to coordinator.moocs.jntuk@gmail.com on or before 19-11-2017.

Video link will be sent only to the colleges, who have given their willingness to take MOOCs for this semester.

Demo and Testing will be done on 18-11-2017(from 9 am to 5 pm) & 19-11-2017(from 9 am to 1 pm)

"Coming together is a beginning; Keeping together is progress; Working together is success"

Figure 5.5.19 MOOCs Class on Electrical Machines-II Academic Year 2017-18

Outcomes of Technology Enabled Learning (TEL):

- Learning from experts.
- Updating the knowledge of Internet.
- Solving problems by ICT methods.
- Improving lifelong learning skills.
- Experts deliver better understanding of the subject in their domain.

Significance of results & reflective critique:

- Offer the opportunity for more students-centered teaching.
- Provide greater opportunity for teacher-to-teacher and student-to-student communication and collaboration.
- Give greater exposure to vocational and workforce skills for students.
- Provide opportunities for multiple technologies delivered by teachers.
- Create greater enthusiasm for learning amongst students.
- Provide teachers with new sources of information and knowledge.
- Prepare learners for the real world.

II. Instructional methods assessment and their Evaluation

The proposed pilot study, technology enabled learning, Flipped classroom for students with different learning styles. The impact of employing the innovative methods is assessed using student's feedback (course end survey).

The Innovative Teaching Learning strategies implemented for the course "Electrical Distribution Systems" is presented here to study their impact. This course consists of six Course Outcomes (COs) as shown in Table B.5.5.13

Course Name: Electrical Distribution Systems Academic Year: 2018-19 Year/Sem: IV/I	
CO1	Explain the various factors of distribution system.
CO2	Explain the substation and feeders of distribution system
CO3	Calculate the voltage drop and power loss
CO4	Explain the protection and its coordination
CO5	Examine the effect of compensation on power factor improvement
CO6	Correlate the effect of voltage, current distribution systems performance.

Table B.5.5.13 Course Outcomes for Electrical Distribution Systems

For the attainment of each course outcome, one teaching learning strategy is implemented along with the regular aids as shown in below Table 5.5.14

Course outcome	Innovative Teaching strategy
CO1	Flipped Classroom
CO2	Conventional Classroom
CO3	JIGSAW (Collaborative)
CO4	STAD (Collaborative)
CO5	Think Pair Share (TPS)
CO6	Technology Enabled Learning (TEL)

Table B. 5.5.14: Innovative Practices Applied to COs

All the students exercise Felder-Silverman questionnaire to know their learning style. The following table shows distribution of students for each learning style. The course considered for the analysis is taught for IV EEE-I Sem, B- Section of strength 41 students

Learning Styles	Number of students	Percentage of students (%)
Active	9	22
Reflective	2	5

Sensing	3	7
Intuitive	2	5
Visual	12	29
Verbal	2	5
Sequential	7	17
Global	4	10

Table B.5.5.15: Student Distribution as per Learning Styles

Course end survey (student feedback) is collected based on the parameters listed in the Table 5.5.16 in a 3-point scale (Excellent-3M; Good-2M; Average-1M). The identity of the students was not revealed to the teacher, so that students are independent to express their opinions on the teaching learning process

Feedback Questions	Average Mark
Satisfaction of syllabus coverage (3)	2.5
Technical Knowledge of the Teacher (3)	2.5
Audibility and Interaction with students (3)	2.7
Achievement of COs defined (3)	2.7
Understanding of the course (On average) (3)	2.4
Effectiveness of lecture delivery-Flipped classroom/JIGSAW/STAD/ TPS (3)	2.6
Efficiency of assessment methods (3)	2.5
Overall Average Mark	2.5
Percentage	85%

Table B.5.5.16: Consolidated Report of Course End Survey

From the feedback scores obtained course end survey in Table B.5.5.16, it is evident that students expressed high degree of satisfaction for the parameter “Effectiveness of lecture delivery -Flipped classroom/JIGSAW/STAD/TPS” with a score of 2.6. This parameter is directly correlated to the innovations employed in teaching learning paradigm.

The process of Course attainment consists of direct attainment (80%) and indirect attainment (20%). Direct attainment is evaluated from mid examination marks (30 Marks). The mid examination comprises of descriptive exam (15 Marks), objective exam (10 Marks) and assignment (5 marks). First mid examination covers three COs: CO1, CO2 & CO3 and Second

mid examination covers remaining three COs: CO4, CO5 & CO6. Each CO is evaluated for 10 Marks. The analysis of teaching learning methodologies is presented in Table B. 5.5.17.

Course Outcome	Innovative Practice	Learning Style	Number of students	Students with attainment above 50%	Percentage of students with attainment above 50%	Average
CO1	Flipped Classroom	Visual	12	11	91.67	80.87
		Active	9	7	77.78	
		Sequential	7	4	57.14	
		Global	4	4	100.00	
		Others	9	7	77.78	
CO2	Conventional Classroom	Visual	12	10	83.33	72.54
		Active	9	6	66.67	
		Sequential	7	4	57.14	
		Global	4	4	100.00	
		Others	9	5	55.56	
CO3	STAD	Visual	12	11	91.67	75.30
		Active	9	6	66.67	
		Sequential	7	3	42.86	
		Global	4	4	100.00	
		Others	9	7	77.78	
CO4	Jig Saw	Visual	12	11	91.67	77.06
		Active	9	5	55.56	
		Sequential	7	5	71.43	
		Global	4	4	100.00	
		Others	9	6	66.67	
CO5	Think Pair Share	Visual	12	11	91.67	82.14
		Active	9	6	66.67	
		Sequential	7	6	85.71	
		Global	4	4	100.00	
		Others	9	6	66.67	
CO6	Technology Enabled Learning	Visual	12	11	91.67	82.14
		Active	9	6	66.67	
		Sequential	7	6	85.71	
		Global	4	4	100.00	
		Others	9	6	66.67	

Table B.5.5.17: Analysis of Course Attainments for Different Learning Strategies

From the Table B.5.5.17, it is inferred that all students of learning styles Active/Reflective, Sensing/ Intuitive, Visual/Verbal, Sequential/Global have shown better performance in all the innovative teaching strategies. However, Active and global learners performed well even in

Conventional teaching. From above table, it is also clear that students performed high degree of performance in Flipped Classroom, Think Pair Share, Technology enabled learning. Hence, the attainments of CO1, CO5 and CO6 are better than remaining COs.

From this analysis, It is concluded that innovative teaching learning strategies obviously improve the performance of students of all learning styles. The innovations by the faculty in Teaching Learning strategies are made available in institute website for transparency, peer review and critique. This practice will help to other scholars to reproduce and develop further.

5.6. Faculty as participants in Faculty development/training activities/ STTPs (15)

- *A Faculty scores maximum five points for participation*
- *Participation in 2 to 5 days Faculty development program: 3 Points*
- *Participation >5 days Faculty development program: 5 points*

Vignan's management encourages faculty to attend FDPs/training activities/STTP's organized by premier institutes by sponsoring registration fee, TA and DA. Each faculty will prepare one-page report on the attended FDP and share its outcome with all other faculty members. This practice improves design, analytical, critical thinking and research skills among the peers.

5.7. Research and Development (30)

The Institute aims at becoming a center of research and development. In this context, it provides various research facilities to its faculty and creates a healthy research environment in the Institute.

5.7.1. Academic Research (10)

Academic research includes research paper publications, Ph.D. guidance, and faculty receiving Ph.D. during the assessment period.

- *Number of quality publications in refereed/SCI Journals, citations, Books/Book Chapters etc. (6)*
- *Ph.D. guided /Ph.D. awarded during the assessment period while working in the institute (4)*

All relevant details shall be mentioned.

A. Number of quality publications in refereed/SCI Journals, citations, Books/Book Chapters etc. (6)

The Institute believes that a conducive teaching learning environment is possible only when the faculty is upgraded with the developments in the core field. Hence, they are motivated to do research in their area of interest. The faculty is given honorarium for each SCI/Scopus journal or book chapter publication which may amount upto Rs 10000. An honorarium is also provided for authoring books which may amount to Rs 20,000. The institute also provides free access to journals and magazines. It promotes the use of library facilities and e-library for up gradation of faculty knowledge. Academic leaves are provided to the faculty to attend conferences and for their research activities.

The Institute provides a conducive environment for Research and Development activities.

(A) Product Development

The Institute encourages the program faculty members and students to do significant projects and involve in product development activities for industry related applications, environmental sustainability and society. The products developed by the students have been listed in Table 5.7.3.1.

Sl. No.	Name of Faculty	Regd. No.	Title of the Product	Relevance to POs/PSOs

Table B.5.7.3.1: Product development

1. Design and Development of Multi utility portable CNC machine:

This machine is used to design objects. It makes objects of different dimensions. This machine was designed by the final year students under the guidance of Mr. P.V. Sarath. The parts of the machine are used from the IoT Research Lab.

2. Smart Helmet for 2 Wheelers: This helmet was designed by the 2015 admitted batch students and was guided by Dr. K. Durga Syam Prasad. The design of the Helmet is all about a safety of person, a person who is drunk will not be able to start his bike. The Sensors in the helmet tests the breath of the persons and depending of the command the bike starts. This helmet interior circuitry is designed in the IoT Research Lab.

3. 3-Phase Fault Detector: - This real time equipment was designed by the Students of 2015 admitted batch which were guided by Dr. K. Durga Syam Prasad. The circuit design deals with all the different types of fault detection and sending a command to the mobile with a text message consisting type of fault and fault clearance time and all other details. This design was conducted in power electronics and drives research lab.

Some of the products developed by the students have been shown in Figure 5.7.3.1.

B) Research Laboratories

The department has two research laboratories IoT research laboratory and Power Electronics and Drives Laboratory

(i) IoT Research Lab:

- It is a collaborative space where students, faculty can interact to solve technical issues related to deploying smart technologies and embedded systems.
- This smart lab supports projects and research supervised by faculty in smart technology, mobile application, Internet of things (IoT), home automation, wearable computing etc.
- The description of items used in IOT lab and the projects accomplished in the lab are mentioned in Table B.5.7.3.2 and Table B.5.7.3.3 respectively.

Sl. No.	Description of item	Quantity
1	Tinker Cad Virtual simulator software (Open source)	1
2	Proteus Virtual simulator software (Open Source)	1
3	Keil C Software (Open Source)	1
4	Eclipse Iol (Open Source)	1

Table B.5.7.3.3: Projects Accomplished by IoT Research Lab

(ii) Power Electronics and Drives Research Lab:

- This lab facilitates the students and faculty of the department of EEE to carry on research in power electronics and drives. It is well equipped with apparatus like motors, transformers, various types of loads and computers to run simulations.
- The apparatus that are equipped in the research lab are listed in Table B.5.7.3.4. The projects successfully accomplished in the lab are mentioned in Table B.5.7.3.3.

Sl. No.	Description of item	Quantity

C) Instructional Materials

Instructional materials are defined as resources that organize and support instruction, such as textbooks, course file, materials, lab manuals, tasks, and supplementary resources. It refers to the human and non-human materials and facilities that can be used to ease, encourage, improve and promote teaching and learning activities.

Course Files

Course files for all courses are prepared by the faculty comprising of the following fields to enrich the students with technical knowledge.

- Department Mission, Vision
- Program outcomes
- Course syllabus
- Course outcomes
- CO-PO Mapping
- University Academic Calendar
- Department Academic Calendar
- CDP
- Course Timetable
- Lecture Notes
- Question Bank (unit wise)
- Multiple Choice Questions
- Tutorial Topics/Problems
- Topics beyond Syllabus
- PPT's/videos/other materials
- Internal question papers & scheme
- Assignment Questions
- University old question Papers
- Gap Analysis
- Remedial Classes to weak students
- Result Analysis & Course attainments

GATE Materials

To help students who aspire to get good ranking in GATE exams, in-house tutorial is arranged post regular class hours wherein the students are also provided with take home material. These materials are based on the pattern in which GATE exams are conducted and the material is prepared by the faculty members of the department.

Lab Manuals

Lab Manuals are prepared for every regulation and the respective handouts will be given at the beginning of each semester.

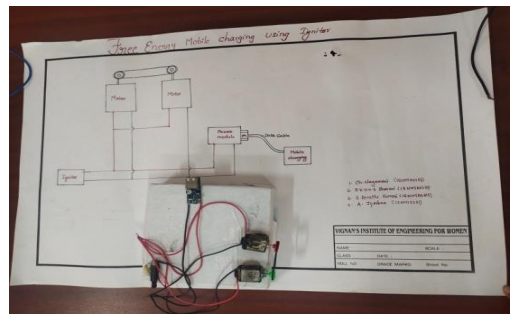

D) Working models created using Power Electronics and Drives Lab

Working Models

A sample of some of the working models developed by students is shown in Figure 5.7.3.3.

3 Phase Fault Detector

Free Energy Mobile Charger Using Ignitor

Automatic Grid Control

TCR/TSR Based Reactive Power Control

Alarm System for Voltage Fluctuation

3-Phase-Sequence Identifier

Prototype of NTPC Power Plant

Figure 5.7.3.3: Products Developed by Students

Charts

Some of the charts designed by students are displayed in Figure 5.7.3.4:

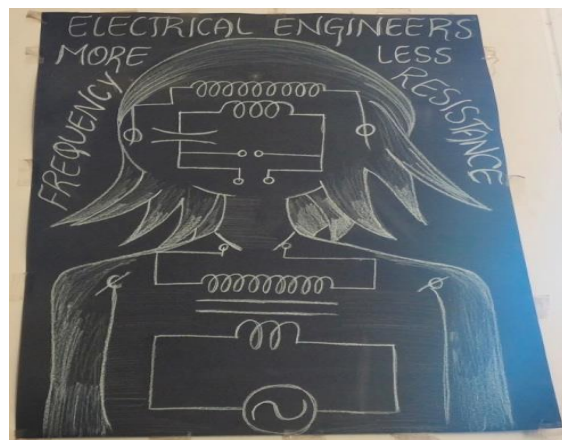

History of Electricity

IoT Based Smart Irrigation System

Automatic Solar Based Irrigation

Face of Electricity

5.7.4 Consultancy (From Industry) (5 Marks)

(Provide a list with Project Title, Funding Agency, Amount and Duration)

Funding amount (Cumulative during CAYm1, CAYm2 and CAYm3):

Amount > 10 Lakh – 5 Marks

Amount >= 8 Lakh and <= 10 Lakh – 4 Marks

Amount >= 6 Lakh and < 8 Lakh – 3 Marks

Amount >= 4 Lakh and < 6 Lakh – 2 Marks

Amount >= 2 Lakh and < 4 Lakh – 1 Mark

Amount < 2 Lakh – 0 Mark

Sl. No.	Project Title	Funding Agency	Amount	Duration
1	IoT based Power Quality Monitoring and Correction for Industrial Panel Boards	Ind Power, Plot No. 61, Block - E, Auto Nagar, Visakhapatnam, Andhra Pradesh 530012	Rs. 8,50,000	2 years 2018-20

Table B.5.7.4.1: Consultancy from Industry

5.8. Faculty Performance Appraisal and Development System (FPADS) (30)

Faculty members of Higher Educational Institutions today have to perform a variety of tasks pertaining to diverse roles. In addition to instruction, Faculty members need to innovate and conduct research for their self-renewal, keep abreast with changes in technology, and develop expertise for effective implementation of curricula. They are also expected to provide services to the industry and community for understanding and contributing to the solution of real-life problems in industry. Another role relates to the shouldering of administrative responsibilities and cooperation with other Faculty, Heads-of-Departments, and the Head of Institute. An effective performance appraisal system for Faculty is vital for optimizing the contribution of individual Faculty to institutional performance.

The assessment is based on:

- *A well-defined system for faculty appraisal for all the assessment years (10)*
- *Its implementation and effectiveness (20)*

A) A well-defined system for faculty appraisal for all the assessment years (10)

The faculty members shall submit the open and transparent performance report in the prescribed format, containing the teacher's academic, research, supplementary activities and achievements

during the academic year. The Head of the Department shall offer his remarks and observation on the form. The Academic Planning and Audit Committee (APAC) shall review the report on Performance Appraisal staff to the Management through the Principal. The assessment shall be used for the following purposes.

1. Award of annual increments.
2. Award of special increments/allowance.
3. Award of career advancement and promotion.
4. Monitoring and recording of the regular growth of each faculty member.

Parameters to assess Performance Appraisal

The performance of staff is assessed through **3 criteria** for the purpose of annual increment with a total score of 10 as shown in Table 5.8.1.

Criteria No.	Element of Criteria	Max. Score	% of Weightage
1	Academic Results & Feedback	4 Marks	40
2	Research & Development	3 Marks	30
3	Supplementary Activities	3 Marks	30
Total		10 Marks	100

Table B.5.8.1: Criteria for Performance Appraisal

Criteria -1 is mainly focused on the **academic performance** of staff which covers the teaching related activities, domain knowledge, semester results and students' feedback in an academic year.

Criteria -2 is mainly considered the faculty output in **Research and Development** activities in an academic year. Based on cadre of faculty, the expected output of R&D shall be categorized. R & D activities includes Research papers published in scholarly journals, book publications, research projects, consultancy projects, organizing and attending conferences/seminars, workshops and FDPs.

Criteria-3 considers **curricular and extracurricular activities**, counseling/mentoring of students, roles and contributions in institutional governance and administration, awards and achievements and professional development activities.

The procedure for annual increments is depicted in Figure 5.8.1.

Grant/Award of Annual Increments:

Increments shall be sanctioned by the Management as recommended by the Principal. The grant of number of increments is based on the score secured by the faculty out of the total score of 10 as shown in Table B.5.8.2.

Secured Score	Grade	No. of Increments
≥ 7.5	A+	3 (Three)
$< 7.5 \text{ \& } \geq 6.5$	A	2 (Two)
$< 6.5 \text{ \& } \geq 5$	B	1 (One)
< 5	C	No Increment

Table B.5.8.2 Criteria for Increments

B) Its implementation and effectiveness (20)

The increments will be given in the month of August. Principal issues a circular to submit self-appraisal form in the prescribed form given Figure 5.8.2. The eligible faculty is supposed to submit self-appraisal form after furnishing all the details with support documents through HOD. The faculty who served the institute for 2 semesters in academic year are eligible for increment. A committee is constituted to scrutiny and prepares eligible list. It is observed that 90% of the faculty received increments through our self-appraisal policy.

a) If a teaching staff falls in 'B' grade in 2 continuous years, the Management/Principal have right to terminate or service one-month notice to staff for termination due to lack of improvement in performance.

b) If a teaching staff falls in 'C' grade, the Management/Principal have right to terminate the faculty immediately or service one-month notice to staff for termination. In special cases, the Principal shall allow an opportunity to improve the performance with in one academic year.

Letter of Annual Increment:

All employees will be informed in writing about their annual increments after the Performance Appraisal

Figure 5.8.2.b: Format of Faculty Appraisal Form

Assessment Year	Total No. of Eligible Faculty (including 1 st Year)	A ⁺ grade	A grade	B grade
CAYm3 (2017-18)	14	2	10	2
CAYm2 (2018-19)	19	2	15	2
CAYm1 (2019-20)	22	4	17	1

Table B.5.8.3 Faculty Appraisal Grades for CAY, CAYm1, CAYm2

The faculty who secured 3 increments will consider under A⁺ grade. Similarly, the faculty who secured 2, 1 and No increments will come under A, B, C grades respectively. Based on the TEACHING STAFF APPRAISAL POLICY the list of the data of increments secured by EEE faculty during last 3 years is shown in Table 5.8.3.

Figure 5.8.3: Faculty Performance Analysis

The number of A⁺ and A grades are gradually increased from CAYm2 (2017-18) to CAY (2019-20). Due to the presence of experienced faculty in EEE department the number faculty with C grade is zero in CAYm2 (2017-18) to CAY (2019-20). There by the performance of Faculty is

increased year by year as seen in Figure 5.8.3. A sample copy of the faculty appraisal form and letter of increments are shown in Figure 5.8.4, 5.8.5 and 5.8.6 respectively. Details of Faculty receiving annual increments in CAYm2 (2017-18) to CAY (2019-20) are mentioned in Table 5.8.4 to Table 5.8.6 respectively.

List of Faculty Received Annual Increments (2017-18):

Sl. No	Name of Faculty Member	Designation	Grade	No. of Increments	Increment (Rs.)
1	Dr. G. V. Nagesh Kumar	Professor	A	2	4,824
2	Dr. Akanksha Mishra	Assoc. Prof	A+	3	6,798
3	Mr. K. Durga Syam Prasad	Asst. Prof	A	2	1,750
4	Mr. R.S.Ravi Shankar	Asst. Prof	A	2	1,750
5	Ms. B. M. Pushpa Latha	Asst. Prof	A+	3	2,625
6	Ms. K. Therissa	Asst. Prof	A	2	1,750
7	Mr. K. Chiranjeevi	Asst. Prof	A	2	1,750

Increment Letter

20th August 2018

Dear Dr.Akanksha Mishra

Taking into consideration of your performance for the Academic Year 2017-18 and appraisal ratings calculated as per the appraisal policy, I am pleased to announce an increment of Rs. 6,798/-.

Your new monthly gross salary shall be Rs. 75,548/- with effect from 1st Aug 2018.

I am confident that you will continue the good work in the same spirit of commitment and sincerity and grow with our Institution. Wish you all the very best for a rewarding career with the Institution.

On the behalf of the Chairman of Vignan Group,

Increment Letter

22nd November 2019.

Dear Ms.V.V.Sai Santhoshi,

Taking into consideration of your performance for the Academic Year 2018-19 and appraisal ratings calculated as per the appraisal policy, I am pleased to announce an increment of Rs. 1,750 /-.

Your new monthly gross salary shall be Rs. 34,423/- with effect from 1st December 2019.

I am confident that you will continue the good work in the same spirit of commitment and sincerity and grow with our Institution. Wish you all the very best for a rewarding career with the Institution.

On the behalf of the Chairman of Vignan Group,

5.9 Visiting/Adjunct/Emeritus Faculty etc. (10)

Adjunct faculty also includes Industry experts. Provide details of participation and contributions in teaching and learning and /or research by visiting/adjunct/Emeritus faculty etc. for all the assessment years:

- *Provision of inviting/having visiting/adjunct/emmeritus faculty (1)*
- *Minimum 50 hours per year interaction with adjunct faculty from industry/retired professors etc.*

(Minimum 50 hours interaction in a year will result in 3 marks for that year; 3 marks x 3 years = 9 marks)

To enhance the skills of the students our college invites visiting faculty from multi-disciplinary domains to create awareness about the recent trends of the market and thereby improving the skills of students in different domains. The details of the visiting faculty for CAY, CAYm1 and CAYm2 are given in Table B.5.9.1 – Table B. 5.9.4.

Sl. No.	Name of the Visiting Faculty	Name of the Subject	No. of hours	Semester
1.	Mr. P.T.N.Satish, DM-Electrical, STM-RINL	Power Electronics control for drives	2*15 = 30 hours	I
2.	Mr. C. Rama Krishna, AGM-Electrical, HNPCL	Switch Gear & Protection	2*16= 32 hours	II
Total Hours of Interaction			62 hours	

Table 5.9.1: Visiting Faculty- Academic Year 2020-21

6.5	Safety measures in laboratories	10M

6.1. Adequate and well equipped laboratories and technical manpower (30)

Vignan's Institute of Engineering for Women never compromises on providing the laboratory facilities. All the laboratories are maintained with the required equipment as per JNTU regulations and also to reach the vision and mission of the Department. The laboratories are adequately furnished to provide conducive learning environment. The laboratories are well equipped with computing resources and equipment to cater to the needs of the program. The equipment of the laboratories are properly maintained, upgraded and utilized. There is adequate number of qualified technical manpower to provide appropriate guidance to the students for using the equipments in laboratories.

6.2. Additional facilities created for improving the quality of learning experience in Laboratories (25)

In order to meet the latest industry requirements, we used to conduct experiments beyond the syllabus in consultation with industry experts and other stake holders. In this connection we are providing additional facilities in laboratories.

Sl. No	Facility Name	Details	Reason(s) for creating facility	Utilization	Areas in which the students are expected to have enhanced learning	Relevance to POs/PSOs
1	IoT lab	Lab contains Arduino, LPC 2148 (ARM 7) Raspberry, MSP 430 EXP G2 boards sensors like IR sensor, PIR sensor, ultrasonic sensor, servo motors, 3D Printer, CNC laser and 36 sensors.	To make the Students aware of the software Industry requirements and help them to get jobs in same. Practical education on IoT, Sensors, Robotics and Quality projects	18 Hours per week <ul style="list-style-type: none"> • IOT Based Smart Irrigation System • IOT Based Solar Electric vehicle • Solar Driven Arduino Based Irrigation System On Sensing Soil Moisture Content • Student project paper publications • Faculty research Development 	Smart hardware design, IoT Projects, Sensors and Robotics	PO1, PO2, PO3, PO4, PO5, PO8, PO9, PO10, PO11, PO12/PSO1

2	Power Converters and Drives Lab	3- Phase Converter Firing Unit 3- Phase Fully Controlled Converter power Circuit 415V/5A DSP Based V/F Control 3-Phase Isolation Transformer 440/5A 3-Phase Isolation Transformer 200/3A	To make the students aware of the trending technologies and help them to get jobs in core sector	18 Hours per week <ul style="list-style-type: none"> • Thyristor Based Speed Control Of DC Motor • Multi converter Unified Power Quality Conditioning System • Design And Control Of Grid Connected PV And Wind Hybrid System Using 3 Level Static VAR compensator (SVC) 	Power Electronics	PO6, PO9, PO11, PO12/ PSO2
3	APSSDC Skill Centre of Excellence Lab(Institute Level)	Training based on industrial skills and development	To make the students aware of the manufacturing and testing industry requirements and help them to get jobs in the same sector.	12 Hours per week <ul style="list-style-type: none"> • Certification program for Python • Certification program for Machine Learning • Certification program for Raptor 	Courseara certification program, Mobile Application Development, AI,ML	PO1, PO3, PO4, PO5, PO9, PO11, PO12/ PSO1,PSO2

4	Availability of computing facilities(Institute Level)	Internet facility is provided to the students, 100 mbps broadband.	To enhance the learning and to provide ample resources for exploring ideas	36 Hours per semester <ul style="list-style-type: none"> • Students are able to download E-content for project reference papers. • Faculties are able to download E-content for research area 	Motivation towards research and being enthusiastic to new innovations	PO4,PO5
5	E- Learning (Institute Level)	Student are given a digital demonstration through animations, virtual labs and video lectures	To enhance the quality of learning process improve the understanding capability of the student	12 Hours per week <ul style="list-style-type: none"> • Student paper publications • Faculty research Development 	Soft skills Listening skills and quick and better grasping of concept	PO1,PO5/PSO2

Table B.6.2.a. Details of additional facilities

B. Facilities utilization and effectiveness (10Marks)

In accordance with the Vision & Mission of the Department and Institute, the Department of Electrical and Electronics Engineering has established department association of electrical and electronics engineering (DAEEE). In DAEEE, students are willingly separated into diversified emerging domains like IoT, Power electronics and drives, WAR robotics, Head of the department will assign a faculty coordinator for each of this domain.

Lab is provided to these students for doing their project and lives models.

List of projects completed by students in DAEEE:

1. IOT Based Smart Irrigation System

This IoT based project is developed by the students on occasion of department technical fest 'Farad Eupraxia-2k15'. The Smart irrigation System has wide scope to automate the complete irrigation system. Here we are building a IoT based Irrigation System using ESP8266 NodeMCU Module and DHT11 Sensor. It will not only automatically irrigate the water based on the moisture level in the soil but also send the Data to ThingSpeak Server to keep track of the land condition. The System will consist a water pump which will be used to sprinkle water on the land depending upon the land environmental condition such as Moisture, Temperature and Humidity.

List of students carried out this project:

Sl. No.	Roll No	Name of the Student
1	15NM1A0256	S. Sushmita
2	16NM5A0222	P. Mounika
3	15NM1A0242	P.V. Sai Chinni
4	15NM1A0237	M.Gowthami

Figure B 6.2.a. IOT Based Smart Irrigation System

2. IOT Based Solar Electric vehicle

This Solar based project is developed by the students on occasion of department technical fest 'Azionare-2k17'. This project is about charging E-vehicle module using the Solar panel, availability of maximum power is viewed by IOT device and the maximum power generated by the solar is being tracked using the MPPT controller. The simulation model is designed using Proteus software. The whole setup is connected to the Arduino UNO R3, the battery level, generated and distributes an amount of the battery is viewed using an LCD. GSM modem is used to get an alert message for any reduction of power occurred in the system. A web page is used to check the availability status of charge, the amount of power transferred to the charging module and the available location for the charging station can be displayed. The main idea of this project is to reduce greenhouse gas emission and fossil fuel.

List of students carried out this project:

Sl. No.	Roll No	Name of the Student
1	17NM5A0218	P. Sravani
2	16NM1A0270	P. Roshni
3	16NM5A0208	B. Sandhya
4	17NM5A0202	B. Laxmi Lahari

Figure B 6.2.b. IOT Based Solar Electric vehicle

3. Three Phase Fault Detector

Students have developed an automatic tripping mechanism for the three phase supply system for the department technical fest 'IGNITE 2k18. Majority of faults can be successfully cleared

by the proper use of tripping and auto reclosing. This de-energizes the line long enough for the fault source to pass and the fault arc to de-energize, then automatically recloses the line to restore service. Thus, auto reclosing can significantly reduce the outage time due to faults and provide a higher level of service continuity to the customer. Furthermore, successful high-speed reclosing auto reclosing, on transmission circuits can be a major factor when attempting to maintain system stability. For those faults that are permanent, auto reclosing will reclose the circuit into a fault that has not been cleared.

List of students carried out this project:

Sl. No.	Roll No	Name of the Student
1	16NM1A0215	Botta Vara lakshmi
2	16NM1A0269	Ponnada Srikavya
3	16NM1A0221	Dudi Suvarna
4	17NM5A0217	Palikala Pushpa Latha
5	16NM1A0232	Gubbala Madhuri

Figure B.6.2.c. Three Phase Fault Detector

4. TCR/TSR Based Reactive Power Control

Students have developed TCR/TSR Based project model presented on department technical fest 'Elecsprrie 2k19'. This project deals with the simulation of fixed capacitor thyristor switched reactor Thyristor controlled reactor (FC-TSR-TCR) system. The FC-TSR-TCR system is simulated using MATAB and the simulation results are presented. The power and control circuits are simulated. The current drawn by the FC-TSR-TCR varies with the variation in the firing angle. Stepped variation of current can be obtained using thyristor switched reactor. The simulation results are compared with the theretical results.

List of students carried out this project:

Sl. No.	Roll No	Name of the Student
1	16NM5A0205	E. Surya Anusha
2	15NM1A0234	M. Bharathi
3	15NM1A0216	G V. Manisha
4	15NM1A0225	K. Jhancy
5	16NM5A0205	E. Surya Anusha

Figure B.6.2.d.TCR /TSR Based Reactive Power Control

5. Automatic Grid Control

This microcontroller based project model is developed by the students on the occasion of DAEEE fest 'Electsprie 2k19'. There are many advantages of automation, first and most common human errors are eliminated, speed of operation becomes very fast and most advantageous is that the cost gets reduced. In automatic power grid and different units are controlled on the basis of time. Serial com in PC via USB port to control different relays will be used. The interfacing is based on UART standard. The UART port is found in microcontrollers but unfortunately it is not there in personal computers. Hence, we have used a USB to UART converter to convert the USB data into UART and this way the interfacing is done between computer and microcontroller. To control the devices, we a relay driver (here ULN2803) is used. For the sake of simplicity, we will control only four relays. It can be extended according to the requirements. Controlling variable is time. In the duration of 24 hours, we will allot different time slots to each unit. On proper time, the relays will be activated automatically and corresponding unit will get activated.

List of students carried out this project:

Sl. No.	Roll No	Name of the Student
1	15NM1A0214	E. Usha
2	15NM1A0233	M. Parvathi
3	15NM1A0210	G. Mounika
4	16NM1A0214	K. Deepika

Figure B.6.2.e. Automatic Grid Control

6. Alarm System for Voltage Fluctuation

This live model project is developed by the students on the occasion of department fest 'IGNITE 2k18'. This straight forward circuit will protect electrical appliances from over voltage as well as under voltage. The circuit also produces an alarm when the power supply comes back. An ideal circuit for home to protect your valuable equipments from voltage fluctuations. The same circuit with some modifications can be used to make a automatic voltage stabilizer. When the mains voltage is in the normal level, the voltage at the negative terminal of zener diode D4 will be less than 5.6 Volts. At this condition transistor T1 will not conduct. The same time voltage at the negative terminal of zener diode D5 will be greater than 5.6 and so the transistor T2 will be conducting. The relay will be activated and the green LED will be glowing. When the mains voltage is higher than the set limit the transistor T1 becomes conducting since the voltage at the negative terminal of D4 is greater than 5.6V. At the same time transistor T2 will be non-conducting which results in the deactivation of relay to cut the mains supply from load. When the mains voltage is less than the set limit transistors T1 & T2 becomes non-conducting making the relay to de-activate and cut the load from mains.

List of students carried out this project:

Sl. No.	Roll No	Name of the Student
1	16NM5A0226	R. Jishitha
2	16NM5A0254	S. Pragathi
3	16NM5A0220	P. Indumathi
4	16NM5A0251	R. Swathi

Figure B.6.2.f. Alarm System for Voltage Fluctuation

7. Three Phase Sequence Identifier

This Zero Crossing Detector (Z.C.D.) based project is developed by the students on occasion of department fest 'ELECSPRIE 2k19'. The identification of phase sequence and detection of phase reversal of a three-phase ac supply ac supply is important routine test during installation and commissioning of three phase ac motor and chillers etc. Various circuits can be used for phase sequence detection. However, the basic logic for finding the sequence remains the same. The sequence of the supply is determined at the time instant when the phase voltage crosses the zero level of voltage. This can be utilised by the aid of a Zero Crossing Detector (Z.C.D.) followed by a Multivibrator (M.V.)

List of students carried out this project:

3	15NM1A0258	S. Swathi
4	15NM1A0249	P. Yamuna

Figure B.6.2.g. Three Phase-Sequence Identifier

8. Biped Robot

The IoT with Robotics cloud based project is developed by the students on occasion of department fest 'ELECSPRIE 2k19'. Simscape Multibody (a Matlab's tool) provides a multibody simulation environment for 3D mechanical systems, in order to model multibody systems using blocks representing bodies, joints, constraints, force elements, and sensors. Here we use a microprocessor and microcontroller. The microprocessor CPU is stand alone and microcontroller CPU, RAM, ROM and timer are on. The size of ROM, RAM and I/O ports can be optimized in microcontroller. In this project we are using NodeMCU, microcontroller, Internal LED, DC motor, Analog pins and Digital pins.

6.3. Laboratories: Maintenance and Overall ambience (10)

(Self-Explanatory)

The department has well equipped and well maintained laboratories to conduct the experimental work in a healthy and safe environment. The institute has a dedicated and qualified committee, comprising of senior faculty and personnel of electrical maintenance.

Maintenance**Electrical Machines Lab:**

- Electrical Machines, meters like voltmeter and ammeter are calibrated for every month by technicians.
- Wirings are checked at regular intervals in order to avoid voltage fluctuations.
- Relays are serviced once in a year and checked regularly.
- Ageing of the machines and transformers are reduced by routine inspection.
- Cleaning of machines is carried out regularly.

Power system Simulation Lab:

- Softwares are updated at customary intervals based on its evolution.
- In order to avoid malware and other factors the computers and kits are serviced for experiments
- LANs, WLANs are checked by networking team to have better performance.
- Faculties and students are maintained separate login registers.
- Air Conditioners are serviced consistently.
- By frequently cleaning the Monitors and Laboratory.

Power Electronics Lab:

- Trainer ICs and kits are serviced in Regular intervals.
- To avoid voltage fluctuations the wirings are checked at regular intervals.
- The innovative works and student projects are set aside in Lab.
- Cleaning of the workbenches and kits are done oftentimes.

Control Systems Lab:

- All Controller kits are serviced regularly by qualified technicians.
- At regular Intervals the instruments are calibrated.

- Inspection of primary measuring elements like Sensors and Detectors are done periodically.
- Cleaning of the Kits and workbenches are done often times.

The Lab Maintenance Committee takes the accountability of lab maintenance and ambience from end to end and positive number of reviews taken from time to time. This committee comprises of HoD as Chair person, senior faculty, lab in charge and senior technical staff. In order to maintain the laboratories professionally, a systematic procedure is followed for all electrical laboratories.

Periodic maintenance:

Standard checks are carried out at specified periods and logs are maintained.

a) Condition based maintenance

Machine / equipment observed for abnormalities during operation and measures are taken as deemed necessary and logs are maintained.

b) Breakdown maintenance

Breakdown maintenance is undertaken as situation demands. The record of breakdown and corrective actions is maintained.

Calibration test

- The Process of calibration for various equipment and other instruments is taken up once in every semester.
- The measured values are compared with the earlier measured data and also with the standard values.
- Any deviations in this regard are noted and necessary steps are initiated to refine the equipment.
- Department seeks the assistance of suppliers from time to time in order to maintain the equipment and to verify their performance (Minor repairs are carried out by the lab technical staff as per the requirement).

Laboratory Maintenance Committee:

Sl. No.	Name of Committee Member	Role of committee member	Name of the audit	Responsibility
1	Dr.K.D.S. Prasad	Chair Person	All electrical laboratory Maintenance	<ul style="list-style-type: none"> ▪ Laboratory Equipment Purchases & Maintenance ▪ Log book maintenance ▪ Software maintenance ▪ Stock book maintenance ▪ Power supply maintenance and ambience ▪ Project lab maintenance.
2	Mrs. K. Therissa	PE Lab Incharge		
3	Dr. Akanksha Mishra	CS Lab Incharge		
4	Mr.A.Chandraiah	EM-I Lab Incharge		
5	Mr.V. Avinash	EM-II Lab Incharge		
6	Mr.K.V. Sri Ram Prasad	EMS Lab Incharge		
7	Mr.K. Srinivas Rao	ES Lab Incharge		
8	Mr.R.N.Satynarayana	Senior Technician		
9	Mr. R. Prasad	Technician		

Table B.6.3.a. Laboratory Maintenance Committee (LMC)**Other aspects:**

Four registers are maintained in the laboratories i.e.

- a) **Log Registers :** In and out times of the students along with panel numbers they are using are noted in this register.
- b) **Complaint Register:** Complaints during usage of the machinery is registered in this Complaint register. These complaints are forwarded to the third party maintenance team, in case of necessity.
- c) **Stock Registers:** The stock-in-hand details/newly purchase equipment specification, quantity and cost are noted here.
- d) **Feedback Register:** Each laboratory contains a Feedback Register, which is available to students to represent any issues in the respective laboratory.

Stock Verification Committee:

For every two years Stock Verification Committee will be constituted by the Head of the

Institution to audit all lab equipment, furniture and infrastructure. This committee will submit Deficiency (if any) report to the Principal.

The below attachments are related to the maintenance of faulty equipment:

SERVICE REPORT

Date: 14.10.17.

Address:
 Vignans institute of engineering for women
 Kapujaggarajupeta, vadlapudi, V.S.E.Z post
 Gajuwaka, Viosakhapatnam – 530049

Product: 3ph slip ring Induction Motor

Nature of Complaint: Bearings Burned and sparks at brush contacts.

Action Taken by Service Engineer/Components Charged:
 3ph slip ring Induction Motor was generating huge noise under no load condition and sparks are released at the brush contacts. Servicing is done for bearings and brushes are replaced.

Service charge amount Received Rs. 4640/-

Certified that repairs have been carried out to our satisfaction. We accept to pay service charges including spares.

Customer Signature For ELECTRONICS SYSTEEMS AND SERVICES

Forwarded to Principal Sir *[Signature]* *K. Prini rra Rao*

Approved *[Signature]* 14/10/17

Overall Ambiance

The overall ambiance in laboratories is to meet the curriculum requirements as well as the POs and PSOs, and technical manpower in the department.

- Laboratories are well equipped with sufficient number of benches and chairs to facilitate the students to carry out the experimental studies with ease.
- The overall ambiance is good enough for the students to excel in their practical applications.
- All laboratories are well furnished with work benches and good ventilating facility.
- Overall ambiance of laboratory is good:
 - ✓ All old records are burnt in the oven which is available in the college.
 - ✓ Every lab is provided with suffice number of dust bins.
 - ✓ Housekeeping team clean the laboratories on regular basis
- The Laboratory setup is well secured to students by taking the rubber mats
- Painting and renovation of the laboratory is done at regular intervals.
- The PCs, hardware kits & components are arranged in such a way that student are comfortable while performing the experiments.
- All laboratories have sufficient natural light, good ventilation with tubes and fan arrangement.
- Sufficient instructional area and teaching place for staff and students.
- Laboratories are equipped with projectors and other teaching aids.
- The equipment with specifications, labeling, and mounting are displayed

Sl. No	Name of the Maintenance Activity	Need for the Activity	Frequency of the Activity
1	Calibration of Instruments	The Laboratory equipment needs to be accurate in order to obtain correct results.	Once in 12 months
2	Stock purchase	New stocks of resistors, probes, bulbs and connecting wires are needed every semester for the students to work upon.	Once in 6 months

Table B.6.3.d.List of Power Electronics and Control systems lab maintenance and regularity of the activity

6.4. Project laboratory (5)*(Mention facilities & Utilization)*

The Department has a separate project laboratory with the latest equipment and systems. It also contains other facilities such as internet, scanner, printer, etc. All the previous project reports are available for ready reference. The Project hours are allocated in the regular time table. The students are also allowed to do their projects beyond the working hours.

The project laboratory is well equipped with the following facilities:

- 30 computer systems
- MATLAB/PSpice software
- All systems are well connected with high speed internet
- Lab is equipped with LCD projector
- Lab is equipped with 10 KVA UPS

In addition the following labs are also provided:

Sl. No	Name of the Laboratory	Name of the Software / Equipment	Purpose	Faculty Incharge	Qualification
1	IoT Laboratory	Lab contains Arduino board, Raspberry Pi, MSP430 boards along with supported software, 3D Printer, CNC laser and 36 sensors	Projects and Research Development	Dr.K. Durga Syam Prasad	Ph.D
2	Power Electronics and Drives Laboratory	3-Phase PWM Pulse Generation using Pic microcontroller	Projects and Research Development	Dr.Y.Bhaskar S S Gupta	Ph.D
3	Electrical Simulation Laboratory	PSpice Software and Matlab Software	Projects and Research Development	Mr.K.Srinivas Rao	M.Tech

Table B.6.4.a. Project Laboratories

Below table shows the facilities of project laboratory utilized by students:

Sl. No	Major Equipment Name	No. of Units	Outcomes
1	LPC 2148 (ARM 7) Development Board	1	<ul style="list-style-type: none"> ▪ Investigate a variety of emerging devices and technologies such as smart sensing, pervasive connectivity, virtual interfaces & ubiquitous computing and their potential applications. ▪ Provide students unique interdisciplinary learning and innovation experiences with IoT technologies ▪ Collaborate on research with industry partners to address significant and complex challenges surrounding IoT technologies and applications
2	ARM CORTEX N3	3	
3	Innovate ARM 926 dev kit	3	
4	IoT Development Board Self Starter learning Arduino Kit	9	
5	MSP 430 EXP G2 Launch	30	
6	MSP EXP430F5529 Experimenter Board	2	
7	RF Booster Pack CC110L	5	
8	STEPS Experimenter Pack for MSP430	10	
9	MSP-EXP430F5529LP	10	
10	BOOST-DAC8568	2	
11	No. of Desktops	15	

Table B.6.4.b. Hardware Components in Project Laboratory

Sl. No	System Configuration	Installed Software	Outcomes
1	30 Desktops, Intel Core I3, 3.6 GHz, 4 GB RAM, 1 TB Hard Disk Drive (HDD), Key Board Mouse with 49.5 cm LED Monitor	1.MATLAB 2.Arduino for IoT Energia for IoT 3.Some Virtual simulator software versions (eg. Tinker cad, Proteus, Vir_labs.etc.)	<ul style="list-style-type: none"> ▪ Able to simulate integrator circuit, differentiator circuit, Boost converter, Buck converter, full convertor and PWM inverter. ▪ Able to simulate transmission line by incorporating line, load and transformer models. ▪ Able to build and Simulate Core Electrical Circuits based on the problem described

Table B.6.4.c. Softwares in Project Laboratory

List of quality projects listed below:

Academic Year	Sl. No	Regd. No	Name of the student	Project Title	Relevance to POs/PSOs
2017-18	1	14NM1A0220	Lekkala Swathi	Obstacle Avoidance Robotic Vehicle Using Ultrasonic Sensor and Arduino For Obstacle Detection	PO1,PO3,PO5,PO6,PO8,PO9, PO11,PO12/ PSO1, PSO2
		15NM5A0210	Hecherella Triveni Priyanka

Table B.6.4.d. List of quality projects

6.5. Safety measures in laboratories (10)

- Workshop on Fire and electrical safety will be conducted at the beginning of the academic year to help students to know more about the usage of Fire Extinguisher.
- Fire Extinguishers are refilled from time to time.
- The locations and operating procedures of all safety equipment including first aid kit(s),

S.No	Name of the Laboratory	Safety measures
1	AC Machines Laboratory	<ul style="list-style-type: none"> • Students are instructed to wear aprons & shoes while conducting the experiments • Electrical equipments are properly grounded • Class C fire extinguishers are provided at various location of the lab. • Rotating parts are covered with guard. • First- aid kit is maintained for emergency needs. • All safety measures are displayed in the laboratory • Rubber mats are provided near experiment table. • Live joints and loose connections are not allowed. • Loose garments are not allowed during experiments. • Electrical equipment must be properly grounded • Suitable rating fuses are used for every machine to protect from over currents
2	DC Machines Laboratory	<ul style="list-style-type: none"> • Students are instructed to wear aprons & shoes while conducting the experiments • Electrical equipments are properly grounded • Class C fire extinguishers are provided at various location of the lab. • Rotating parts are covered with guard. • First- aid kit is maintained for emergency needs. • All safety measures are displayed in the laboratory • Electrical equipment must be properly grounded • Rubber mats are provided near experiment table. • Live joints and loose connections are not allowed. • Loose garments are not allowed during experiments. • Suitable rating fuses are used for every machine to protect from over currents.

3	Electrical Circuits /Electrical Measurements and Instrumentation Laboratory	<ul style="list-style-type: none"> • Equipment, appliance and extension cords are regularly monitored for good condition and not frayed, damaged, or taped. • Students are instructed to wear aprons & shoes while conducting the experiments • Live joints and loose connections are not allowed • Class C fire extinguishers are used. • First- aid kit is maintained for emergency needs. • Electrical equipment must be properly grounded • Master switch is provided for every experiment so that to off it during any fault condition.
4	Control Systems/Power Electronics laboratory	<ul style="list-style-type: none"> • Unobstructed access to all electrical panels • Students are instructed to wear aprons & shoes while conducting the experiments • Avoid contact with energized electrical circuits • Class C fire extinguishers are used. • First- aid kit is maintained for emergency needs. • Electrical equipment must be properly grounded
5	Power Systems laboratory	<ul style="list-style-type: none"> • Students are instructed to wear aprons & shoes while conducting the experiments • Live joints and loose connections are not allowed • Unobstructed access to all electrical panels • Avoid contact with energized electrical circuits • Class C fire extinguishers are used. • First- aid kit is maintained for emergency needs. • Electrical equipment must be properly grounded
6	Electrical Simulation Laboratory	<ul style="list-style-type: none"> • Power strips should not be daisy-chained together • Class C fire extinguishers are used. • First- aid kit is maintained for emergency needs. • Electrical equipment must be properly grounded

Instructions followed in few laboratories is stated as below:

Instruction details in Electrical Machines Laboratories

While working in Electrical Machines laboratory, following general precautions are followed.

Do not touch any terminal or switch without ensuring that it is dead.

1. Keep away from all the moving parts as far as possible.
2. Wearing of shoes with rubber soles is desirable.
3. Do not use loose garments, while working in the laboratory.
4. Girls have to wear aprons compulsorily.
5. Use sufficient long connecting leads, rather than joining two or three small ones, because in case, any joint is open, it could be dangerous.
6. Use a fuse wire of proper rating only.
7. While using electronic equipment, ensure that these are properly earthed. Earth link should not be removed unless it is absolutely necessary.
8. Make sure all the electrical connections are tight, before switching on any circuit.
9. The faulty connections may cause short circuit, resulting in the damage of parts of the equipment.
10. The Circuit should be de-energized, while changing any connection
11. In case of emergency or fire, cut-off the master switches on the main panel board.
12. Do not allow any loose connections.
13. Use suitable type of wire for connecting different parts of the circuit. For example, flexible wire should be used for connecting the voltmeters and pressure coil of wattmeter, because current is negligible. Sufficient cross-section should be used for the current carrying circuits.
14. When a motor is started, never apply full voltage suddenly increase the voltage gradually and using it to the rated value.
15. While loading a particular machine, switch – on the load gradually and similarly switch – off gradually.
16. Switch on the supply, only after getting the circuit checked.
17. Never touch any live terminals, while the experiment is being conducted.

Instruction details in control systems/power electronics laboratories

While working in power electronics laboratory, following general instructions are followed.

1. Keep away from all the moving parts as far as possible.
2. Wearing of shoes with rubber soles is desirable.
3. Girls have to wear aprons compulsory.
4. Use sufficient long connecting leads, rather than joining two or three small ones, because in case, any joint is open, it could be dangerous.
5. Use a fuse of proper rating only.
6. While using equipment, ensure that these are properly earthed.
7. Make sure that the power chord connection is right, before switching ON any circuit.
8. While inserting the USB, DSO should be in ON condition.
9. Switch on the supply, only after getting the circuit checked.
10. Do not touch any terminal or switch without ensuring that it is dead.
11. Do not use loose garments, while working in the laboratory.
12. The faulty connections may cause short circuit, resulting in the damage of parts of the equipment.
13. Avoid loose connections of patch chords and pulse connectors.

Instruction details in Electrical Circuits/ Electrical Measurements and Instrumentation laboratories:

1. Do not touch any terminal or switch without ensuring that it is dead.
2. Keep away from all the moving parts as far as possible.
3. Wearing of shoes with rubber soles is desirable.
4. Do not use loose garments, while working in the laboratory.
5. Girls have to wear aprons compulsory.
6. Use sufficient long connecting leads, rather than joining two or three small ones, because in case, any joint is open, it could be dangerous.
7. Use a fuse of proper rating only.
8. Make sure that the power chord connection is right, before switching ON any circuit.

9. The faulty connections may cause short circuit, resulting in the damage of parts of the equipment.
10. In case of emergency, cut-off the master switches on the main panel board.
11. Do not allow any loose connections of patch chords.
12. Switch on the supply, only after getting the circuit checked.
13. Keep your work area clean and organized; no food or drinks at the work station.
14. Keep all unnecessary objects, i.e. backpacks, papers, tools, away from test platforms.
15. Turn off power to the circuit before making topological changes.
16. Where possible, slowly increase voltage/current levels to verify functionality.
17. Do not wear jewelry, including rings, bracelets, necklaces, etc., when working with electricity; they can cause unintentional shock.
18. If you see a problem, are unsure of what is happening, or do not know what to expect, stop work and resolve the issues.

Instruction details in Electrical Simulation laboratory:

1. Proper dress code has to be maintained while entering in the lab.
2. Id card should be worn by all the students.
3. Students should carry observation notes and completed record in all aspects.
4. Students should come to the lab with well prepared.
5. Correct specifications have to be mentioned with respective to the circuit diagram.
6. Students should be aware of operating system and software.
7. Student should be at their concerned system, unnecessary moment is restricted.
8. After compiling the circuit, students should verify the output by the respective faculty.
9. The simulation results must be shown to the respective faculty for verification.
10. Don't come late to the lab.
11. Don't switch off the power supply without turn off the system.
12. Don't leave the lab without the permission of the respective faculty.

Criterion 7	Continuous Improvement	50 M
7.1	Actions are taken based on the results of the evaluation of each of the POs & PSOs	20M
7.2	Academic Audit and Actions Taken thereof during the Period of Assessment	10M
7.3	Improvement in Placement, Higher Studies and Entrepreneurship	10M
7.4	Improvement in the quality of students admitted to the program	10M

7. Continuous Improvement (50)

7.1. Actions are taken based on the results of the evaluation of each of the POs & PSOs (20)

(Identify the areas of weaknesses in the program based on the analysis of the evaluation of POs & PSOs attainment levels. Measures identified and implemented to improve POs & PSOs attainment levels for the assessment years.)

For continuous improvement in the Program Outcome of B.Tech Electrical and Electronics Engineering and to measure the drawbacks in the program, based on curriculum, the analysis and evaluation of Course Outcomes, Program Outcomes and Program Specific Outcomes analysis is compulsory.

The Teaching-learning process, Assessment and Evaluation processes will be very useful to identify the targets set to POs and PSOs. Based on the observations for specific PO and PSO, Actions and corrective measures are recommended to achieve, improve and maintain the target attainment in the coming assessment years.

The following are the Action plans suggested for those courses in which the targets of POs are not achieved. The improvement in the attainment of POs and PSOs are monitored in the subsequent years for the courses towards the achieved target.

POs	Target Level	Attainment Level	Observations
PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.			
PO1	2.4	2.48	<ul style="list-style-type: none"> • Target is achieved • This can be improved further in courses like C303 [PS-II], C404 [INST], C405 [EDS] can be further improved. • Lack of ability to solve and analyze the fundamental concepts.

<p>Action 1: Tutorial classes have to be conducted for the concepts related to the transmission line parameters in course C303 [PS-II] for understanding the basic concepts.</p> <p>Action 2: More assignment questions and practical explanation of topics like digital voltmeters are to be incorporated for the course C404 [INST].</p> <p>Action 3: A visit to the power grid is to be planned for the exposure of line parameters and distributed systems for a better understanding of the courses C303 (PS-II), C405 [EDS].</p> <p>Action 4: First-year students have to be motivated by explaining the need of mathematics and science fundamentals in any engineering specialization courses.</p>			
<p>PO2: Problem analysis: Identity, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.</p>			
PO2	2.4	2.47	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the course like C206 [EM-I] can be further improved. ● Problem analyzing skills are to be improved further.
<p>Action 1: Guest lectures are to be arranged for demonstration on constructional features of D.C machines for the course C206 [EM-I].</p> <p>Action 2: Students are encouraged to collect research literature related to real time issues like Earthing, Harmonic content and Disturbances in Signals.</p>			
<p>PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.</p>			
PO3	2.4	2.42	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the courses like C213 [EM-II], C304 [EM-III], C305 [PE] can be further improved. ● Design aspects are lagging in the projects ● Projects should include awareness of public health and safety issues.
<p>Action 1: Few topics in C213 [EM-II] like construction features of A.C machines have to be explained with more examples.</p> <p>Action 2: An industry visit has to be made mandatory to show practically the synchronization process for better understanding related to course C304 [EM-III].</p> <p>Action 3: Practice sessions should be arranged for the operation of power electronic devices related to course C305 [PE].</p> <p>Action 4: Workshops should be conducted in addition to “I BOOT UP IoT SERIES” and” PLC automation” to improve the designing skill concerning projects towards health and safety.</p>			

PO4:Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions			
PO4	2.4	2.40	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the courses like C208 [EC LAB], C307 [EM-II LAB], C316 [PE LAB], and C317 [EMS LAB] can be further improved. ● Lack of synthesis ability.
<p>Action1: More experiments beyond the curriculum should be added to increase the applications-oriented approach in case of courses C208 [EC LAB] like Experimental Analysis of Low and High pass filters. Starting methods of synchronous motor in case of courses C307 [EM-II LAB], Speed control of DC Motor using Rectifiers in case of C316 [PE LAB], and Measurement of high resistance using Megger in case of course C317 [EMS LAB].</p> <p>Action 2: Technical fest and Expert talks should be incorporated into the academic calendar to nurture the ability to investigate and implement complex electrical and electronic systems.</p> <p>Action 3: Faculty members should be advised to discuss simple and relevant journal papers in the classroom to improve research-based knowledge.</p>			
PO5:Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations			
PO5	2.4	2.04	<ul style="list-style-type: none"> ● Target is not achieved. ● This is due to low attainment in courses like C401 [RESS], C402 [HVAC&DC], C403 [PSOC], C411 [FACTS].
<p>Action 1: A Seminar on courses like C401[RESS] and C411[FACTS] are to be conducted to increase the awareness on “Power Transmission on Green Energy”.</p> <p>Action 2: A Seminar on Distribution and Transmission System should be conducted related to the Courses C402 [HVAC&DC], C403 [PSOC].</p> <p>Action 3: A workshop is proposed on NI lab to upgrade the latest tools.</p> <p>Action 4: Students are encouraged to do more mini projects by using latest tools like PSCAD, ZMAG, EMTP.</p> <p>Action 5: A Short term course on advanced simulation tool is proposed related to power electronics and power systems.</p> <p>Action 6: A guest lecture is proposed on soft computing techniques.</p>			
PO6:The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice			

PO6	2.2	2.21	<ul style="list-style-type: none"> ● Target is achieved. ● Low attainment is observed for the course C205 [EMF] ● Lack of investigation of problems faced by society.
<p>Action1: Real-world projects have to be carried out by the students like Green energy harvesting, Power generation etc. for environmental up-gradation and to develop the societal need.</p> <p>Action2: NSS Activities and UBA (Unnat Bharat Abhiyan) need to be increased to fill the gap between engineering education and society.</p> <p>Action 3: A workshop on smart grid automation is suggested to get the knowledge in industrial education.</p> <p>Action 4: A guest lecture on HVAC&DC transmission is proposed.</p>			
PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.			
PO7	2.2	2.25	<ul style="list-style-type: none"> ● Target is achieved ● Low attainment is observed for the course C401[RESS]
<p>Action1: Guest lecture on Renewable Energy Sources are to be planned for final year students.</p> <p>Action 2: Student mini projects with relevance to Environmental context have to be conducted.</p> <p>Action 3: A workshop on smart grid automation is suggested to get the knowledge in industrial education.</p>			
PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.			
PO8	2.2	2.28	<ul style="list-style-type: none"> ● Target is achieved ● The attainment levels for the courses like C402 [HVAC&DC], C411 [FACTS] can be further improved. ● Ethical principles along with technical knowledge should be inculcated.
<p>Action 1: Proposed to conduct a seminar on the courses C402 [HVAC&DC] and C411 [FACTS] towards the controlling of power system stability which includes professional ethics by providing reliability to the consumer.</p> <p>Action 2: Visits to the orphanage, adopting poor villages, on the occasion of the women's day and all religious occasions to maintain integrity.</p> <p>Action 3: Proposed to conduct a seminar on role of electrical engineers with professional ethics.</p> <p>Action 4: A guest lecture is proposed on soft computing techniques.</p>			
PO9: Individual and teamwork: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings			
PO9	2.2	2.30	<ul style="list-style-type: none"> ● Target is achieved ● The attainment levels for the courses like C303 [PS-II], C304 [EM-III] can be further improved.
Action 1: Technical activities like VISTA 2K18 was organized to improve team building and leadership qualities.			

<p>Action 2: Proposed to conduct more technical events like Paper Presentation, Poster Presentation and hardware Expo under the professional body chapters like IEE and DAEEE.</p> <p>Action 3: Projects related to real time issues should be analyzed with frequent interactions from industrial experts and to distribute the work within the team towards its execution of academic projects.</p> <p>Action 4: A Short term course on advanced simulation tool is proposed related to power electronics and power systems.</p>			
<p>PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.</p>			
PO10	2.2	2.27	<ul style="list-style-type: none"> ● Target is achieved. ● This can be improved further in course C214 [CS]. ● Need more presentation skills to improve further.
<p>Action 1: Students are motivated to give seminars in topics like Root locus, Stability criterion related to the course C214 [CS].</p> <p>Action 2: Group discussion is proposed to conduct for the final year students on contemporary issues.</p> <p>Action 3: More activities are to be conducted in association with oxford achievers and British Counsel.</p>			
<p>PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's work, as a member and leader in a team, to manage projects and in multidisciplinary environments.</p>			
PO11	2.2	2.30	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the courses like C303 [PS-II], C313 [PSA] can be further improved. ● Need more ability to plan and to execute the project.
<p>Action 1: Expert talk on Entrepreneurship and International Career Guidance should be conducted.</p> <p>Action 2: Proposed to conduct guest lecture on financial and project management in multi-disciplinary environments.</p> <p>Action 3: Students are encouraged to implement mini projects to enhance their engineering and management skills.</p> <p>Action 4: A workshop on IoT with cloud robotics and mini humanoid robot is proposed.</p> <p>Action 5: A guest lecture is proposed on Renewable energy sources and HVAC&DC.</p>			
<p>PO12:Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.</p>			
PO12	2.2	2.33	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the courses like C403 [PSOC], C405 [EDS] can be further improved.

<p>Action 1: Students are encouraged to take up video courses like NPTEL, SWAYAM on recent technologies.</p> <p>Action 2: Students are encouraged to do research and publish their work in reputed journals.</p> <p>Action 3: Students are motivated to do higher studies (M.Tech/MS/MBA). An awareness program on higher studies will be conducted.</p> <p>Action 4: A workshop on IoT with cloud robotics and mini humanoid robot is proposed.</p> <p>Action 5: A seminar is proposed on Renewable energy sources.</p> <p>Action 6: A workshop on smart grid automation is suggested to get the knowledge in industrial education.</p> <p>Action 7: A Short term course on advanced simulation tool is proposed related to power electronics and power systems.</p>			
<p>PSO1: Analyze and solve critical problems associated with power systems/control systems using modern software tools.</p>			
PSO1	2.4	2.56	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the courses like C303 [PS-II], C313 [PSA] can be further improved. ● Need more exposure to problem analysis using hardware and software tools.
<p>Action 1:Proposed to conduct Workshops on latest topics on Power Systems and Control Systems on “PLC Automation”.</p> <p>Action 2: An awareness program is proposed to conduct on Modern tools of power systems like ZMAG, EMTP.</p> <p>Action 3: Students are encouraged to do projects related to State Space Analysis.</p> <p>Action 4: A guest lecture on HVAC&DC transmission is proposed.</p> <p>Action 5: A Short term course on advanced simulation tool is proposed related to power electronics and power systems.</p> <p>Action 6: A workshop on smart grid automation is suggested to get the knowledge in industrial education.</p> <p>Action 7: A guest lecture is proposed on soft computing techniques.</p>			
<p>PSO2: Apply the knowledge of power electronics to control and design high-performance electrical drives for careers in interdisciplinary fields.</p>			
PSO2	2.4	2.54	<ul style="list-style-type: none"> ● Target is achieved ● The attainment levels for the courses like C305 [PE], C314 [PSD] can be further improved. ● Enhanced exposure is needed on concepts and techniques adopted in Power Plants and industries.
<p>Action 1: Students are to be encouraged to do projects in Power Electronics and to publish their work in inter institutional symposium.</p> <p>Action 2: A guest lecture is proposed to conduct on the significance of Power Semiconductor Drives in interdisciplinary fields.</p>			

Action 3: Innovative teaching-learning activities like open-book exam and flipped class room to enhance higher order thinking levels of students in core domain.

Action 4: A guest lecture on HVAC&DC transmission is proposed.

Action 5: A guest lecture is proposed on soft computing techniques.

Action 6: A Short term course on advanced simulation tool is proposed related to power electronics and power systems.

Action 7: A workshop on IoT with cloud robotics and mini humanoid robot is proposed.

Table B .7.1.1: POs attainment levels and actions for improvement during CAYm2 (2018-19)

POs	Target Level	Attainment Level	Observations
PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.			
PO1	2.45	2.51	<ul style="list-style-type: none"> ● Target is achieved ● This can be improved further in courses like C303 [SS], C305[PE],C310[PSA] ,C405b [INST], C401 [UEE] can be further improved.
<p>Action 1: A guest lecture on automation in distributed systems is suggested to improve the various technologies like IoT and PLC etc.</p> <p>Action 2: More assignment questions and practical explanation of topics like wave analyzers are to be incorporated for the course C405b [INST].</p> <p>Action 3: A training program on PYTHON programming and SOURCE CODE is proposed to upgrade the soft computing skills and to develop real time projects.</p> <p>Action 4: A guest lecture on power electronics is suggested to improve the basics for the course C305[PE].</p> <p>Action 5: A seminar on Solar PV Technology is proposed to create the awareness on renewable energy development.</p>			
PO2: Problem analysis: Identity, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.			
PO2	2.45	2.48	<ul style="list-style-type: none"> ● Target is achieved ● The attainment levels for the course like C209 [EMS] ,C212[CS],C303[SS],C305[PE],C401[UEE] & C403[PSOC] can be further improved. ● Problem analyzing skills are to be improved further.

<p>Action 1: A training program on PYTHON programming and SOURCE CODE is proposed to upgrade the soft computing skills and to develop real time projects.</p> <p>Action 2: A seminar on recent trends in converters is proposed to get expertise in industrial technology requirements.</p> <p>Action 3: A guest lecture on battery energy storage system is suggested to inculcate research culture</p>			
<p>PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.</p>			
PO3	2.45	2.48	<ul style="list-style-type: none"> ● Target is achieved ● The attainment levels for the courses like C210 [EM-II], C304 [PDC], C313 [EACM], C404[SGP] &C405a[EMMA] can be further improved.
<p>Action 1: Few topics in C210 [EM-II] like construction features of A.C machines have to be explained with more examples.</p> <p>Action 2: A training program on PYTHON programming and SOURCE CODE is proposed to upgrade the soft computing skills and to develop real time projects.</p> <p>Action 3: A workshop on simulation in PSIM is proposed to inculcate real time applications.</p> <p>Action 4: A guest lecture on battery energy storage systems to inculcate MATLAB practical implications.</p>			
<p>PO4:Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions</p>			
PO4	2.45	2.45	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the courses like C202 [EM-I], C209 [EMS], C211 [STLD], C305 [PE] & C405a [EMMA] can be further improved. ● Lack of synthesis ability.
<p>Action1: A seminar on Recent trends in converters is proposed to get expertise in industrial technology requirements which will be helpful for the courses like C305[PE], C405a [EMMA].</p> <p>Action 2: Technical fest and Expert talks should be incorporated into the academic calendar to nurture the ability to investigate and implement complex electrical and electronic systems.</p> <p>Action 3: A guest lecture on battery energy storage systems to inculcate MATLAB practical implications.</p>			
<p>PO5:Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations</p>			

PO5	2.45	2.12	<ul style="list-style-type: none"> ● Target is not achieved. ● This is due to low attainment in courses like C201[ECA-II],C202[EM-I],C204[EMF], C301 [PS-II], C302 [RESS], C401 [UEE],C404[SGP],C409[DCS] & C410[HVDC].
<p>Action 1: A seminar on Solar PV Technology and Renewable power generating stations are proposed for courses like C301[PS-II], C302[RESS], C401[UEE] and C410[HVDC] has to be conducted to increase the awareness on renewable energy development.</p> <p>Action 2: A Seminar on Recent trends in converters should be conducted related to the Courses C410[HVDC].</p> <p>Action 3: A training program on PYTHON programming and SOURCE CODE is proposed to upgrade on the advanced tools.</p> <p>Action 4: Students are encouraged to do more mini projects by using latest tool like Tinker CAD.</p>			
<p>PO6:The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice</p>			
PO6	2.25	2.28	<ul style="list-style-type: none"> ● Target is achieved. ● Low attainment is observed for the course C210 [EM-II], C211 [STLD],C301[PS-II],C309[PECD], C403[PSOC]. ● Lack of investigation of problems faced by society.
<p>Action 1: Real-world projects have to be carried out by the students like Green energy harvesting, Power generation etc. for environmental up-gradation and to develop the societal need.</p> <p>Action 2: NSS Activities and UBA (Unnat Bharat Abhiyan) need to be increased to fill the gap between engineering education and society.</p> <p>Action 3: A seminar on Solar PV Technology and Renewable power generating stations are proposed to increase the awareness on renewable energy sources which will be helpful for the society.</p> <p>Action 4: A guest lecture on automation in power distribution systems is proposed to know the various latest technologies and also helpful for the courses like C301[PS-II],C309[PECD], C403[PSOC].</p>			
<p>PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.</p>			
PO7	2.25	2.29	<ul style="list-style-type: none"> ● Target is achieved ● Low attainment is observed for the course C211[STLD],C301[PS-II],C305[PE],C309[PECD],C401[UEE],C401[UEE],C405b[INST],C406[SEM] & C411[EDS].

<p>Action1: A seminar on Solar PV Technology and Renewable power generating stations are proposed to increase the awareness on renewable energy sources on the environmental context.</p> <p>Action 2: Student mini projects with relevance to Environmental context have to be conducted.</p> <p>Action 3: A guest lecture on battery energy storage system is suggested for sustainability.</p>			
<p>PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.</p>			
PO8	2.25	2.34	<ul style="list-style-type: none"> ● Target is achieved ● The attainment levels for the courses like C209[EMS], C401[UEE] & C403[PSOC] can be further improved. ● Ethical principles along with technical knowledge should be inculcated.
<p>Action 1: Proposed to conduct a seminar on the courses C401 [UEE] and C403 [PSOC] towards the controlling of power system stability which includes professional ethics by providing reliability to the consumer.</p> <p>Action 2: Visits to the orphanage, adopting poor villages, on the occasion of the women's day and all religious occasions to maintain integrity.</p> <p>Action 3: A guest lecture on battery energy storage system is suggested.</p>			
<p>PO9:Individual and teamwork: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings</p>			
PO9	2.25	2.32	<ul style="list-style-type: none"> ● Target is achieved ● The attainment levels for the courses like C309 [PECD], C310 [PSA] & C401[UEE] can be further improved.
<p>Action 1: Technical activities like VISTA 2K20 was organized to improve team building and leadership qualities.</p> <p>Action 2: Proposed to conduct more technical events like Paper Presentation, Poster Presentation and hardware Expo under the professional body chapters like IEI and DAEEE.</p> <p>Action 3: A training program on PYTHON programming and SOURCE CODE is proposed to upgrade the soft computing skills and to develop real time projects.</p>			
<p>PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.</p>			
PO10	2.25	2.33	<ul style="list-style-type: none"> ● Target is achieved. ● This can be improved further in course C209 [EMS], C310[PSA] & C403[PSOC]. ● Need more presentation skills to improve further.
<p>Action 1: A training program on PYTHON programming and SOURCE CODE is proposed to upgrade the soft computing skills and design documentation which will also relate to the courses like C310[PSA] & C403[PSOC].</p>			

<p>Action 2: Group discussion is proposed to conduct for the third year and final year students on contemporary issues.</p> <p>Action 3: More activities are to be conducted in association with oxford achievers and British Counsel.</p>			
<p>PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's work, as a member and leader in a team, to manage projects and in multidisciplinary environments.</p>			
PO11	2.25	2.35	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the courses like C405b [INST] can be further improved. ● Need more ability to plan and to execute the project.
<p>Action 1: Expert talk on Entrepreneurship and International Career Guidance should be conducted.</p> <p>Action 2: Proposed to conduct guest lecture on financial and project management in multi-disciplinary environments.</p> <p>Action 3: Students are encouraged to do more projects by using latest tool like Tinker CAD in multi disciplinary fields.</p>			
<p>PO12:Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.</p>			
PO12	2.25	2.34	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the courses like C209[EMS] & C401 [UEE] can be further improved.
<p>Action 1: Students are encouraged to take up video courses like NPTEL, SWAYAM and COURSERA on recent technologies.</p> <p>Action 2: Students are encouraged to do research and publish their work in UGC journals.</p> <p>Action 3: Students are motivated to do higher studies (M.Tech/MS/MBA). An awareness program on higher studies should be conducted.</p> <p>Action 4: A training program on PYTHON programming and SOURCE CODE is proposed to upgrade the soft computing skills and to develop real time projects.</p> <p>Action 5: A guest lecture on automation in power distribution systems is proposed to know the various latest technologies.</p> <p>Action 6: A seminar on Solar PV Technology is proposed to create the awareness on renewable energy development.</p>			
<p>PSO1: Analyze and solve critical problems associated with power systems/control systems using modern software tools.</p>			
PSO1	2.45	2.59	<ul style="list-style-type: none"> ● Target is achieved. ● The attainment levels for the courses like C303 [PS-II], C313 [PSA] can be further improved. ● Need more exposure to problem analysis using hardware and software tools.

<p>Action 1: A guest lecture on battery energy storage system is suggested.</p> <p>Action 2: Students are encouraged to do more projects in power systems field by using latest tool like Tinker CAD.</p> <p>Action 3: A guest lecture on power electronics and drives is suggested to improve the basics.</p> <p>Action 4: A guest lecture on automation in power distribution systems is proposed to know the various latest technologies.</p> <p>Action 5: A seminar on Solar PV Technology and Renewable power generating stations are proposed to increase the awareness on renewable energy sources.</p>			
<p>PSO2: Apply the knowledge of power electronics to control and design high-performance electrical drives for careers in interdisciplinary fields.</p>			
PSO2	2.45	2.58	<ul style="list-style-type: none"> ● Target is achieved ● The attainment levels for the courses like C305 [PE], C314 [PSD] can be further improved. ● Enhanced exposure is needed on concepts and techniques adopted in Power Plants and industries.
<p>Action 1: Students are to be encouraged to do projects in Power Electronics and to publish their work in inter institutional symposium.</p> <p>Action 2: A guest lecture on battery energy storage system is suggested.</p> <p>Action 3: A guest lecture on power electronics and drives is suggested to improve the basics.</p> <p>Action 4: A guest lecture on automation in power distribution systems is proposed to know the various latest technologies.</p> <p>Action 5: A seminar on Solar PV Technology and Renewable power generating stations are proposed to increase the awareness on renewable energy sources.</p>			

Table B. 7.1.2 : POs attainment levels and actions for improvement during CAYm1 (2019-20)

7.2. Academic Audit and Actions Taken thereof during the Period of Assessment (10)

(Academic Audit system/process and its implementation about Continuous Improvement)

Academic audits are conducted as per ISO 9001:2008 standard in order to monitor and evaluate the teaching learning process. It consists of Program Assessment and Quality Improvement Committee (PAQIC), Department Advisory Committee (DAC) and Class Review Committee (CRC). Audits are conducted for teaching process, laboratory maintenance and departmental activities.

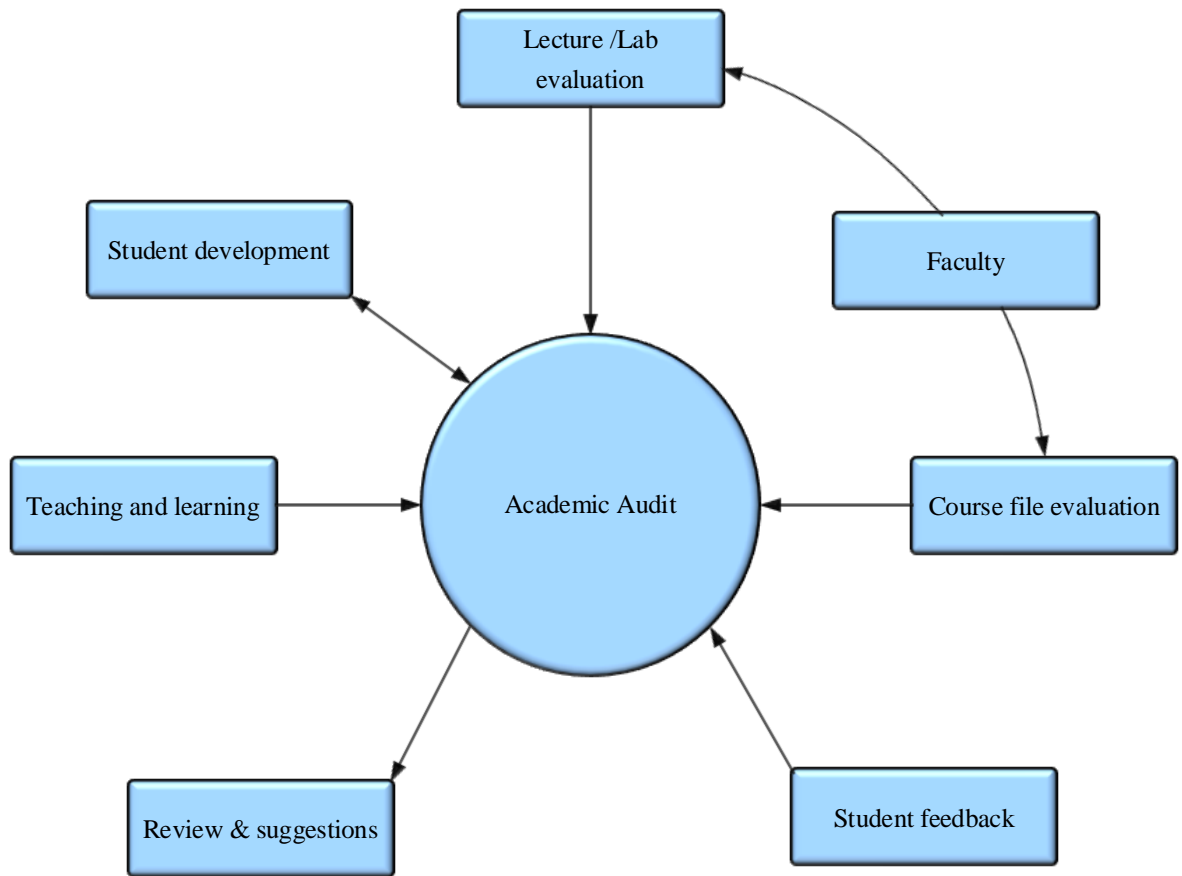

Figure 7.2.1: Flow graph of Academic Audit

The process of Academic Auditing intends to monitor and enhance the quality of technical education through proper guidelines for both teaching faculty and students, so as to ensure qualified engineers/researchers passing out from our Institute.

The Program coordinator is responsible to assess Course Outcomes, Program Outcomes and Program Specific Outcomes to identify gaps in compliance with JNTUK curriculum. If any modifications and suggestions are made by the stakeholders about curriculum it is duly informed to the Program Assessment and Quality Improvement Committee (PAQIC). PAQIC submits the report based on the suggestions to Department Advisory Committee (DAC). DAC will then finalize the curriculum gaps based on the assessment report submitted by the PAQIC along with CRC. The identified curriculum gaps are intimated to affiliated university JNTU Kakinada by PAQIC.

Department Advisory Committee (DAC)	Roles & Responsibilities
<ul style="list-style-type: none"> ● Principal ● Academic Director ● Head of the Department ● Industry person ● Academic person ● Alumni 	<ul style="list-style-type: none"> ● Monitoring the achievements of Program Outcomes (POs), Program Specific Outcomes (PSO), Program Educational Objectives (PEOs). ● Evaluating program effectiveness and proposing necessary changes. ● For quality improvement, monitoring the faculty and students towards attending FDPs, Workshops, Seminars and research activities. ● Suggestions on Teaching pedagogy and OBE awareness. ● Suggestions for Students –Industry interaction
Program Assessment And Quality Improvement Committee (PAQIC)	Roles & Responsibilities
<ul style="list-style-type: none"> ● Head of the Department ● Program Coordinator ● Attendance Coordinator ● Feedback coordinator ● Examination Coordinator ● Faculty activities and R& D Coordinator ● Project Coordinator ● Student Mentoring Coordinator ● System Cell In-charge ● Training and Placement Coordinator ● IQAC Department Coordinator ● Student activities Coordinator 	<ul style="list-style-type: none"> ● Adherence to academic calendar ● Course file verification ● Verification of quality of Assignments, tutorials. ● Assessing Curriculum- Gap identification. ● Identification of the advanced and slow learners and necessary suggestions. Activities towards advanced and slow learners. ● Feedback Analysis. ● Providing measures to participate and organize FDPs, Conferences, Seminars, Workshops, student chapters, inter-institute events etc. ● Review on Quality & Quantity of Research publications. ● Assessing of student's projects (Mini & Major) ● Attendance registers, monthly attendance reports, Communication of attendance. ● Evaluating the results and measures for improvement. ● Review and Guidelines on Campus Recruitment training, On campus and Off campus placements, Measures for improvement of placements ● Verification of Lab manuals, Student lab records, Stock registers, Maintenance registers. ● Laboratory equipment calibration process. ● Available and requirement of lab resources (Equipment, Softwares etc.), their working status and Utilization. ● Monitoring the process and Suggestions/ corrective

	measures for mentoring outcome..
Class Review Committee (CRC)	Roles & Responsibilities
<ul style="list-style-type: none"> ● Head of the Department ● Faculty Coordinator- II year ● Faculty Coordinator- III year ● Faculty Coordinator- IV year ● Student Representative- II year ● Student Representative - III year ● Student Representative - IV year 	<ul style="list-style-type: none"> ● SRC meetings to monitor syllabus status ● Performance analysis of students in internal & external examination ● Interacting with students regarding student mentoring system and regular absentees. ● Encouraging students for Internships in Industries. ● Assessing the requirement of Extra/Tutorial/Remedial Classes ● Encouraging students to publish papers on final year projects, higher studies, competitive exams, GATE, GRE etc. ● Review on Classroom activities for better learning and understanding of contents. ● Interaction with Students about placement and training activities

Table B. 7.2.1:Committees Responsibilities

S.No	Member Name	Designation	Role
1.	Dr.K. Durga Syam Prasad	Assoc. Prof	Head of the Department & Program Coordinator
2.	Dr. R.S. Ravi Shankar	Asst. Prof	IQAC Department Coordinator
3.	Ms. B. M. Pushpa Latha	Asst. Prof	Attendance Coordinator
4.	Mr.V.Avinash	Asst. Prof	Feedback coordinator
5.	Mr.K Chiranjeevi	Asst. Prof	Examination Coordinator
6.	Dr. Akanksha Mishra	Professor	R& D Coordinator
7.	Mr. B. Naidu	Asst. Prof	Faculty activities Coordinator
8.	Mr.K.Srinivasa Rao	Asst. Prof	Project Coordinator
9.	Mr. A. Chandraiah	Asst. Prof	Student Mentoring Coordinator

10.	Mr. K. Vamsi	Asst. Prof	System Cell In-charge
11.	Mr.G.Ravi Kumar	Asst. Prof	Training Coordinator
12.	Mr.P.V.Sarath	Asst. Prof	Placement Coordinator
13.	Ms. Payal Pramanik	Asst. Prof	Student activities Coordinator

Table B. 7.2.2: PAQIC Members

Sl. No.	Member Name	Designation	Role
1.	Dr.J.Sudhakar	Principal	Chair person
2.	Dr.A.SeshaRao	Academic Director	Member
3.	Dr. K.DurgaSyam Prasad	HOD	Member
4.	Dr. Akanksha Mishra	Assoc. Professor	Member
5.	Dr. K. Kushal Kumar	Assoc. Professor	Member
6.	Ms.B. M. PushpaLatha	Asst. Professor	Member
7.	Mr. V. Avinash	Asst. Professor	Evaluator
8.	Mr.C. Rama Krishna	AGM,HNPCL	Member
9.	R. Pavani Kumari	IBM , Hyderabad	Member

Table B. 7.2.3: DAC Members

Sl. No.	Member Name	Designation	Role
1.	Dr. K. Durga Syam Prasad	HOD	Chair person
2.	Mrs.Payal Pramanik	Asst. Professor	II year class coordinator
3.	Mrs.T.Sushma	Asst. Professor	III year class coordinator
4.	Mr.A.Chandriah	Asst. Professor	IV year class coordinator
5.	Ms.G.Meena	II year Class representative	Member
6.	Ms. K.Sri sowmya	III year Class representative	Member
7.	Ms. R.Padmavathy	IV year Class representative	Member

Table B. 7.2.4: CRC Members

Documents to be verified during Academic Audit:

List of documents:

1. Departmental Academic Calendar
2. Class Timetable, Faculty Timetable and Master Timetable
3. Course Files
4. Lab manuals for practical courses
5. Mid-Term paper
6. Final semester project reports
7. Department technical activities
8. Internships/ Industrial visits/ Summer training / Workshops/ Industrial Interaction
9. Details of student's placements, Higher education.
10. Students feedback reports
11. Continuous learning activities of faculty (FDP, Publications etc.)

Suggestions of the committees for the academic audit and actions taken are listed below year wise:

Suggestions of the internal Academic audit in the year 2019-20	The action was taken in the Year 2020-21
1. Training programmes on modern IT tools and coding to be incorporated.	Online training programme on “ PYTHON Programming” and “Source code Management using GIT and GITHUB” were conducted by APSSDC Training team..
2. An extensive Campus Recruitment Training (CRT) program has to be initiated to improve the quality of placements.	Online CRT classes taken for verbal, reasoning and Communication were conducted to improve the effective communication and verbal ability of the student for 3 rd year students.
3. Publication oriented programmes are to be initiated to increase publications.	An online workshop on “Power electronics simulation in PSIM “ is conducted and Faculty are encouraged by sponsoring for publication in reputed journals and to attend more number of workshops.

4. Need to Develop the research activity in the Department	Faculty is guided to apply for Funded Research Project and a consultancy project has been sanctioned.
5. Improve the real-time Project works	A guest lecture on Automation in Power distribution systems is conducted to concentrate more on various technologies like IoT, PLC etc., considering the societal and environmental issues.

Table B. 7.2.5: Suggestions of the Academic audit and Actions taken for Academic Year 2019-20 (CAYm1)

Suggestions of the internal Academic audit in the year 2018-19	The action was taken in the Year 2019-20
1. Innovative teaching methods and uses of ICT facility to be improved.	NPTEL Videos classes are included in regular time table for the advance learner classes & No. of ICT classrooms are increased.
2. An extensive Campus Recruitment Training (CRT) program has to be initiated to improve the quality of placements.	Communication classes are conducted to improve the effective communication and verbal ability of the student from 2 nd year onwards
3. Research incentive schemes are to be initiated to increase research output	Faculty is encouraged by sponsoring for publication in reputed journals and to attend the more number of workshops.
4. Need to Develop the research activity in the Department	Faculty is guided to apply for Funded Research Project and enhance the publications in reputed journals.
5. Improve the real-time Project works	Student project works are focused on considering the societal and environmental issues

Table B. 7.2.6: Suggestions of the Academic audit and Actions taken for Academic Year 2018-19 (CAYm2)

Suggestions of the internal Academic audit in the year 2017-18	The action was taken in the Year 2018-19
1. The infrastructure facilities such as laboratories and classrooms are to be enhanced	Machine lab is bifurcated to DC & AC Machines Labs to Accommodate the Electrical and Labs are upgraded with new equipment and new version software.
2. Develop the research activity in the Department	Technical Events
3. Impart practical knowledge for related courses	Students are motivated to do an internship during summer vacation.
4. Improve the quality of Project works	Training program on Microcontroller is conducted for 2 nd -year students and Project lab is established for final year student project work.

Table B. 7.2.7: Suggestions of the Academic audit and Actions taken for Academic Year 2017-18 (CAYm3)

Suggestions of the internal Academic audit in the year 2016-17	The action was taken in the Year 2017-18
1. Communication skills of the students have to be improved	Conducted departmental events like technical debate, group Discussion and think pair and share among the students to develop creative thinking.
2. Impart practical knowledge for a better understanding of the courses	Industrial visits are organized for all the years.

3. Research related Project works has to be emphasized	Training program on MATLAB was conducted for 3rd year students for enhancing the quality of B. Tech projects.
4. An extensive Campus Recruitment Training (CRT) program has to be initiated to improve the placements.	CRT classes for 3rd students are conducted
5. Teaching methodology has to be changed for slow & advance learners	Section shuffling was introduced to serve the needs of the meritorious as well as slow learning students

Table B. 7.2.8: Suggestions of the Academic audit and Actions taken for Academic Year 2016-17 (CAYm4)

Student Counseling System of EEE Department:

Vignan's Institute of Engineering For Women Strongly believes that Student Mentoring system plays a vital role in empowering the women student's at the individual level. Unless a student is ready to learn, whatever may be the intelligence quotient of the student/efficiency of the teacher; learning cannot take place accurately. In this context, VIEW has an efficient student mentoring system of allotting **20 students to every faculty** to address not only the academic/curricular issues but also other issues like economical issues, emotional problems and psychological issues.

Table B. 7.2.9: Class Coordinators

Class coordinator roles and responsibilities:

- Verification of monthly attendance by collecting attendance registers from all faculty.
- Identifying the attendance of shortfall students.
- Distributing undertaking forms to respective counselors.
- Monitoring classes and observing latecomers.
- Arranging tutorial/Remedial/slow learners' class.
- Giving Permission to students for necessary reasons.

Class counselors:

For every 20 students in class 1 counselor Number of Counselors per class : 3

Frequency of meeting : 15 days

(Instruction: Here the institution may report the details of the students for various purposes and also state the efficacy of such a system.) A faculty member is assigned to a group of 20 members to help them to clarify their doubts and to improve their technical aspects of the courses.

Roles & Responsibilities of a counselor:

- Maintaining personal information of the students.
- Maintaining previous academic Record
- Motivating the student towards their studies.
- Motivating the students to participate in various Co-Curricular and Extra-Curricular activities.
- By listening to the student problem and guide them to overcome the problem.
- Segregating allotted students as merit, average, poor and guide them properly.
- Encouraging peer group in students to enhance their skills (academics & Non-academic activities).
- Maintaining parent-teacher relation and informing progress of their ward.
- Meeting the students periodically to monitor their performance and their activities.

Class Counselors List for 19 admitted batch– I & II Semester	
Counselors Name	Roll Nos of Students allotted to Individual Counselor
Mr.K.V.Sri Ram Prasad	19NM1A0201 - 19NM1A0216

Dr.K.Durga Syam Prasad	19NM1A0217 - 19NM1A0232
Mr.G.Ravi Kumar	19NM1A0233 - 20NM5A0212
Mr.P.V.Sarath	20NM5A0213 - 20NM5A0229
Dr. Y.Bhaskar Gupta	20NM5A0230 - 20NM5A0245
Mr.K.Srinivasa Rao	19NM5A0203 - 19NM5A0217
Mr.R.S.Ravi Shankar	19NM5A0218 - 19NM5A0233
Class Counselors List for 18 admitted batch– I & II Semester	
Counselors Name	Roll Nos of Students allotted to Individual Counselor
Mr.M.Suresh	18NM1A0201 - 18NM1A0215
Ms. V.V.SaiSantoshi	18NM1A0216 - 18NM1A0230
Mr.B.Naidu	18NM1A0231 - 18NM1A0245
Mrs.T.Sushma	18NM1A0246 - 18NM1A0260
Ms.V.Kalyani	18NM1A0261 - 19NM5A0202
Mr.K.Srinivasa Rao	19NM5A0203 - 19NM5A0217
Mr.R.S.Ravi Shankar	19NM5A0218 - 19NM5A0233
Class Counselors List for 17 admitted batch– I & II Semester	
Counselors Name	Roll Nos of Students allotted to Individual Counselor
Mr.K.Vamsi	17NM1A0201 – 17NM1A0218
Mr.A.Chandraiah	17NM1A0219 – 17NM1A0236
Mrs.K.Therissa	17NM1A0237 – 17NM1A0254

Mr.K.Chiranjeevi	17NM1A0255 – 17NM1A0273
Dr.Akankasha Mishra	18NM5A0201 – 18NM5A0217
Ms.Pratyusha Bangale	18NM5A0218 – 18NM5A0234
Class Counselors List for 16 admitted batch– I & II Semester	
Counselors Name	Roll Nos of Students allotted to Individual Counselor
Mr.A.Venkatesh	16NM1A0201 – 16NM1A0217
Ms.P.Tabita	16NM1A0218 – 16NM1A0235
Ms.B.Sirisha	16NM1A1236 – 16NM1A0252
Mrs.Payal Pramanik	16NM1A0253 – 16NM1A0269
Dr.P.Kishore Kumar	16NM1A0270 – 16NM1A0286
Mr.K.Kusal Kumar	16NM1A0287 – 16NM1A0297, 17NM5A0201 – 17NM5A0206
Mr.A.Venkatesh	17NM5A0207 - 17NM5A02224
Class Counselors List for 15 admitted batch– I & II Semester	
Counselors Name	Roll Nos of Students allotted to Individual Counselor
Mr.K.Durga Syam Prasad	15NM1A0209,35,56,54,48,24,33,52,16,57,42,20,18,19,39 16NM5A0215,11,22,28,03,14 (21 Nos)
Mrs.K.Therissa	15NM1A0263,38,34,28,46,15,30,58,49,10,17,37 16NM5A0201,04,12,13,16,18,23,29 (20 Nos)
Mr.A.Chandraiah	15NM1A0203,06,11,23,26,29,31,32,36,40,47,50,60,61,62 16NM5A0202,06,08,10,17,21,30, (22 Nos)
Mr.K.Vamsi	15NM1A0201,02,04,22,25,26,41,43,44,51,55,59,64 16NM5A0205,08,09,12,14,19,20,24,27 (22 Nos)
Class Counselors List for 14 admitted batch – I & II Semester	
Counselors Name	Roll Nos of Students allotted to Individual Counselor
Mr.B.Rajesh	14NM1A0201,02,03,05,06,07,08,09,10,11,12,13,14,15,16,17,18,19,20, 21,22 (20 Nos)

Mrs.V.Kalyani	14NM1A0223,24,25,26,27,28,30,31,32,33,34,35,36,37,38,39,40,41,42,43,44 (21 Nos)
Mr.V.Avinash	14NM5A0206,45,46,47,48,49,50 15NM5A0201,03,04,05,06,07,08,09,10,11,12 (21 Nos)
Mr.K.V.Sri Ram Prasad	16NM1A0220,22,06,60,01,58,57,83,08,75,93,21,05,48,25,04,12,33,78,76,02,17NM5A0218,23,10 (24 Nos)

Mr.A.Chandraiah	13NM1A0264, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 14NM5A0201, 02, 03, 04, 05, 06, 07 (22 Nos)

Table B.7.2.10: Class Counselors

7.3. Improvement in Placement, Higher Studies and Entrepreneurship (10)

Assessment is based on improvement in:

- Placement: number, quality placement, core industry, pay packages etc.
- Higher studies: performance in GATE, GRE, GMAT, CAT etc., and admissions in premier institutions.
- Entrepreneurs.

A. Improvement in Placement numbers, quality, core hiring industry and pay packages (5)

The placement data of the program observes a progressive growth in terms of offered packages. Campus recruitment training helps every student in adapting the latest skills demanded by the industry. Table B. 7.3.1 summarizes the Placements, Higher Studies and Entrepreneurs. It is observed that an average Placements (Placements, Higher Studies and Entrepreneurs) is 85% for the last three academic years.

Item	CAY (2020-21)	CAYm1 (2019-20)	CAYm2 (2018-19)	CAYm3 (2017-18)	CAYm4 (2016-17)
Total No. of final year students (N)	121	118	86	59	80
No. of students placed in Companies or Government Sector (X)	77	91	67	47	65
No. of students admitted to higher studies with valid qualifying scores (GATE or equivalent State or National Level Tests, GRE, GMAT etc) (Y)	0	5	5	7	3
No. of students turned entrepreneur in Engineering / Technology (Z)	0	0	3	2	2
X+Y+Z =	77	96	75	56	70
Placement Index : (X+Y+Z)/N	0.64	0.81	P1=0.87	P2=0.95	P3=0.88
Average placement in percentage = (P1 +P2+P3)/3*100	--	--	90.0		
	-	87.6			-

Table B. 7.3.1: Placement, higher education and entrepreneurs details

MNC companies like Capgemini, Infosys, Accenture and others offered placements with good packages. The following table lists the number of placements and salary offered for the academic year 2020-21.

Sl. No.	Name of the Company	No of Students Placed	Package (in LPA)
1.	BRIGHT CHAMPS	1	5
2.	ACCENTURE	8	4.5
3.	IBM	2	3.8/4.2
4.	COGNIZANT	3	4.1

5.	CAPGEMINI	3	3.8
6.	EDWIZER	22	3.7
7.	TCS	2	3.6
8.	ATOS SYNTEL	1	3.4
9.	INFOSYS	8	3.4
10.	TECH MAHINDRA	2	3.2
11.	NNIIT	2	3
12.	WESTAGLE IT LABS	2	3
13.	PCS TECHNOLOGIES	20	2.2
14.	CCS CORP	1	2.2
Total number of students placed on campus		77	
Total number of Final year students		121	
Percentage of students placed		63.63	

Table B. 7.3.2: Placement data for the year (2020-21)

MNC companies like Capgemini, Infosys, Accenture and others offered placements with good packages. The following table lists the number of placements and salary offered for the academic year 2019-20.

Sl. No.	Name of the Company	No of Students Placed	Package (in LPA)
1.	ACCENTURE	11	4.5
2.	CAPGEMINI	8	3.8/3.6
3.	DXC TECHNOLOGY	7	3.5
4.	INFOSYS	3	3.5
5.	TCS	5	3.5/3.36
6.	SUTHERLAND	16	2.85
7.	SUTHERLAND(NON-VOICE)	28	2.85
8.	SEVENTIS	3	2.2
9.	I PROCESS	7	1.92
10.	ALL SEC TECHNOLOGIES	3	1.5

Total number of students placed on campus	91
Total number of Final year students	118
Percentage of students placed	77.11

Table B. 7.3.3: Placement data for the year (2019-20)

This year notices the remarkable placements with companies like Capgemini, I Process and Thinksynq and other companies. It is noticed an increase in number of placements during this year. The following table lists the number of placements for the 2018-19.

Sl. No.	Name of the Company	No of Students Placed	Package (in LPA)
1.	CAPGEMINI	9	3.8/3.15
2.	HCL	1	2.6
3.	PATHFRONT	11	3.4/3/2
4.	INFOSYS	1	3.5
5.	NET2SOURCE	2	3.0
6.	CONVERGYS	1	2.7
7.	IBeON INFOTECH	3	2.4/1.6
8.	VIZAG STEEL PLANT	1	2.0
9.	BRAINOVISION	3	2.0
10.	THINKSYNQ	22	1.2
11.	I PROCESS	11	1.92/1.56
12.	VSEZ	1	1.5
13.	PATRA PVT LTD	1	1.0
Total number of students placed on campus		67	
Total number of Final year students		86	
Percentage of students placed		80.23	

Table B. 7.3.4: Placement data for the year (2018-19)

Many prestigious companies like Cognizant, INFOSYS, IBM, Capgemini and many MNCs conducted campus drive with good packages during this year. The following table lists the number of placements for the academic year 2017-18.

Sl. No.	Name of the Company	No of students placed	Package (in LPA)
1.	COGNIZANT TECHNOLOGY SOLUTIONS	1	6
2.	TCS	1	3.36
3.	INFOSYS	5	3.25/3
4.	IBM	4	3.25
5.	CAPGEMINI	4	3.15
6.	FACE	4	2.88
7.	VEE TECHNOLOGIES	1	2.6
8.	THINKTEL SOLUTIONS INDIA PVT LTD	9	2.5
9.	VDART SOFTWARE SERVICES	2	2.0
10.	BRAINOVISION	4	2.0
11.	L&T	1	1.9
12.	SUTHERLAND	4	1.85
13.	TECH MAHINDRA	1	1.7
14.	GLOBAL LOGIC COMPANY	1	1.5
15.	CHANDUSOFT TECHNOLOGIES PVT LTD	1	1.5
16.	SYENAINFOSOFT PVT LTD	1	1.5
17.	JOBIAK SOFTWARE PVT LTD	1	1.5
18.	CONCENTRIX	1	1.5
19.	WIPRO	1	1.5
Total number of students placed on campus		47	
Total number of Final year students		59	

Percentage of students placed	79.66
--------------------------------------	--------------

Table B. 7.3.5: Placement data for the year (2017-18)

This year notices the remarkable placements with MNCs like Cognizant, Tech Mahindra, Wipro, HCL and other companies. It is noticed an increase in number of placements during this year. The following table lists the number of placements for the 2016-17.

Sl. No.	Name of the Company	No of Students Placed	Package (in LPA)
1.	COGNIZANT TECHNOLOGY SOLUTIONS	2	3.5
2.	TECH MAHINDRA	18	3.25
3.	CAPGEMINI	1	3.0
4.	GENPACT	1	2.4
5.	SUTHERLAND	16	2.0
6.	WIPRO	2	2.0
7.	GLENWOOD	1	2.0
8.	BRAINOVISION	1	2
9.	HCL	18	2.0
10.	HGS	5	1.73
<hr/>			
Total number of students placed on campus		65	
Total number of Final year students		80	
Percentage of students placed		81.25	

Table B. 7.3.6: Placement data for the year (2016-17)

Academic year	Placement %	Maximum package (in LPA)	Minimum package (in LPA)	Average annum Salary(in LPA)	No of students with more than 3 LPA
CAY	63.33	5	2.2	3.3	56

Table B. 7.3.7: Placement details

Figure 7.3.1: Placement Data Analysis

B. Improvement in Higher Studies admissions for pursuing PhD in premier institutions (3)

The students of EEE department are always prepared for higher studies by conducting GATE classes and motivational guidance towards entrepreneur development through guest lectures. The following Table B. 7.3.8 presents the details regarding higher studies for the CAYm4 (2016-17), CAYm3 (2017-18) and CAYm2 (2018-19) and CAYm1 (2019-20)

Sl. No	Year	Registration number	Name	Higher studies admission details (M.S /M.Tech/ MBA/PhD)
1.	CAYm4 (2016-17)	12NM1A0212	Chekka Pavani	Power Industrial and Drives, M.Tech, VIEW Andhra Pradesh
2.		13NM1A0269	Sirasapalli Jyosna	MHRM, AU Andhra Pradesh
3.		13NM1A0272	S. Padmaja	MBA, NIT Warangal
4.	CAYm3 (2017-18)	14NM1A0216	Kokkirigadda Prakash Mercy	M.Tech, VIIT Andhra Pradesh
5.		14NM1A0215	Bhavya	M.Tech, JNTUK
6.		14NM1A0234	P.Vijaya Lakshmi	M.Tech, VIIT Andhra Pradesh
7.		14NM1A0237	RochanaMadhulekhaPeethala	MS, Bolton University, UK
8.		14NM1A0227	N.Sharmini	M.Tech (JNTU K)
9.		14NM1A0221	M.Lalitha	M.Tech, VIIT
10.		14NM1A0207	C Vimala	M.TECH,A.U
11.	CAYm2 (2018-19)	15NM1A0204	Bera Sowmya	Electrical, M.Tech, GVP, Andhra Pradesh
12.		15NM1A0226	Kandregula Priyaswi	M.Tech, AVEN, Andhra Pradesh
13.		15NM1A0238	Muvvala Punyavathi	M.Tech, AVEN, Andhra Pradesh
14.		15NM1A0263	VarshaTejaswi Kilaparthi	MS, Bolton University, UK
15.		16NM5A0203	Bhallamudi Bharathi	M.Tech, VIET, Andhra Pradesh
16.	CAYm1 (2019-20)	17NM5A0216	O.Mamatha	M.Tech,JNTUK.
17.		17NM5A0214	N.Monica	M.Tech,JNTUK.
18.		16NM1A0292	U.Usha sri	M.Tech,VIEW.
19.		16NM1A0251	K.Sushma	M.Tech,VIEW.
20.		16NM1A0240	K.Priyanka	MBA,AVEN.

Table B. 7.3.8: Higher studies details for the CAYm4 (2016-17), CAYm3 (2017-18), CAYm2 (2018- 19) and CAYm1 (2019-20)

Figure 7.3.2: Higher Studies Analysis

C. Improvement in number of Entrepreneurs (2)

The following Table B. 7.3.8 presents the details regarding entrepreneurships for the CAYm4 (2016-17), CAYm3 (2017-18) and CAYm2 (2018-19).

Sl. No	Year	Registration number	Name	Entrepreneur details
1	CAYm4 (2016-17)	13NM1A0254	P. Sravani	A prototype on Women Safety using Alarm buzzer system using GPS, Visakhapatnam
		13NM1A0264	S. ManiHarika	
2	CAYm3 (2017-18)	14NM1A0222	Majji Swetha	Key Chain Hangers with 3D Printer
3		14NM1A0245	Vennela Swetha	Happy kids play school, Anakapalli.
4	CAYm2 (2018-19)	15NM1A0246	Pilla Hema	Designed Slates with Multi-CNC machine.
5		15NM1A0215	Gandi Ramya	Ramya Enterprises, Visakhapatnam
6		15NM1A0230	Kujur Ankitha	Ankitha fashions, Visakhapatnam.

Table B. 7.3.9: Entrepreneurs details for the CAYm4 (2016-17), CAYm3 (2017-18) , CAYm2 (2018-19)

7.4. Improvement in the quality of students admitted to the program (10)

Assessment is based on improvement in terms of ranks/score in qualifying state level/national level entrances tests, percentage marks in Physics, Chemistry and Mathematics in 12th Standard and percentage marks of the lateral entry students.

The following Table B. 7.4.1 depicts the quality of students admitted into the program. The EAMCET and ECET qualified students joined the program with good academic merit in 12th standard /intermediate marks. The opening & closing ranks along with the average percentage are mentioned in the table.

Item	Particulars	CAY (2020-21)	CAYm1 (2019-20)	CAYm2 (2018-19)	CAYm3 (2017-18)	CAYm4 (2016-17)
Andhra Pradesh Engineering and Medical Common Entrance Test- EAMCET	No of students admitted	87	97	64	51	78
	Opening Score/Rank	33053	23490	2203 6	2644 9	17372
	Closing Score/Rank	118959	134258	12136 5	190532	195174
Andhra Pradesh Engineering Common Entrance Test- ECET	No. of Students admitted	45	24	30	13	5
	Opening Score/Rank	487	132	224	244	125
	Closing Score/Rank	5436	6379	7240	4409	9508
Average CBSE/Any other Board Result of admitted students (Physics, Chemistry & Mathematics)		88.44	87.55	83.43	80.25	81.22
Average percentage marks of the lateral entry students		83	86.26	82.83	82.90	84.38

$API=X*(Y/Z)$	6.13	7.76	7.55

Average API $[AP1+AP2+AP3]/3$: 7.14

8.4. Attainment of Course Outcomes of First Year Courses (10)

8.4.1. Describe the assessment processes used to gather data upon which the evaluation of course outcomes of first year is based (5)

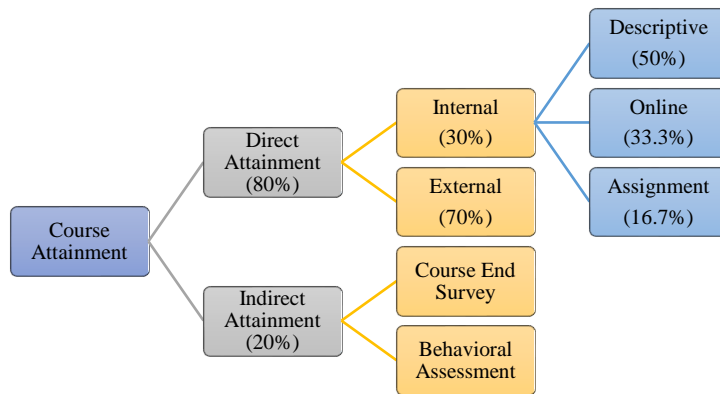

Course Outcomes are narrower statements that describe and define what students are expected to know and be able to do at the end of each course. They are the measurable parameters which evaluate each student's performance for each course. They cater to the knowledge, skills and behavior that students acquire in their journey/graduation through the course. Semester-wise assessment is done through one or more methods, identifying,

collecting and preparing data to assess the performance of the Course Outcomes (COs). The methods are classified into two types: Direct methods and Indirect methods.

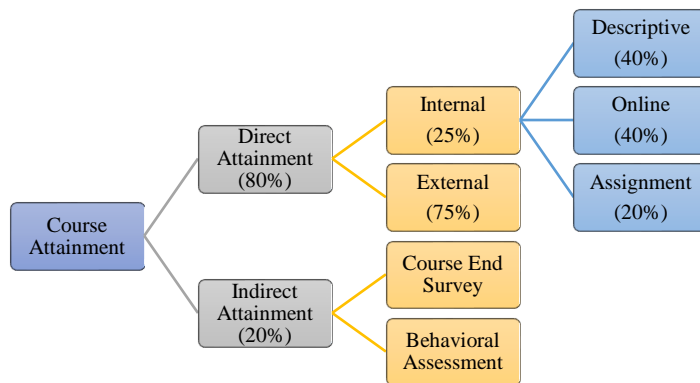

A. List of assessment processes (1)

Direct methods: This method reflect knowledge and skill levels of students through assessment tools such as class tests, mid exams, assignments, semester exams, seminars, laboratory assignments and examinations. These methods offer understanding about what students know and/or can do and provide evidence of levels of students’ learning.

Indirect methods: This method includes course end survey and faculty feedback on student behaviour are utilized to gather further awareness about students’ learning abilities and disabilities. *Figure 8.4.1a* and the *Table 8.4.1a* represent different methods of the assessment process which reflect attainment levels of the course outcomes, weightage factors and frequency of the assessment cycle.

R16

R19

Fig. B 8.4.1a Course attainment process

B. The relevance of assessment tools used (4)**(i) CO Assessment Process for Theory Courses**

The internal assessment of each student for theory courses consists of two descriptive mid examinations, two online quiz examinations and six assignments (for every mid-term three assignments will be considered). The descriptive examinations and assignments are conducted by the respective faculty members whereas online quiz is completely conducted by the University.

Type of Assessment	Course Assessment and Evaluation Method	Assessment Frequency	Description	Weightage for Assessment	Weightage for CO Attainment
Direct Assessment	Internal Mid Examination	Twice in a Semester	<ul style="list-style-type: none"> The internal assessment of the theory course is based on the two mid exams conducted each semester according to the academic calendar set by the University. Each theory course examination should be set for a maximum of 15 marks in descriptive pattern. The respective course teacher prepares question paper as per the course outcomes for the relevant course by following the Blooms taxonomy and forwards the same to the Examination Cell. Student performance is assessed in the mid exams according to the scheme of evaluation and key prepared by the respective course teacher. 	30%	80%
	Online Quiz	Twice in a semester	<ul style="list-style-type: none"> The online quiz for the theory courses is conducted along with the descriptive mid examination each semester by the University. The online quiz examination consists of 20 		

			<p>objective questions for a maximum of 10 marks.</p> <ul style="list-style-type: none"> • Quiz marks are recorded for assessing the attainment of COs 		
	Assignments	Six in a semester (3 per mid-term)	<ul style="list-style-type: none"> • Assignment is a metric used to assess students' analytical and problem-solving abilities. • Assignment questions are prepared for each topic/unit in the course. • Course related tasks are assigned to each student. • Marks are assigned depending on their performance & innovation in solving/deriving the problems. • The assignment works submitted by students are assessed towards CO attainment. 		
	Semester End Examination	Once in a semester	<ul style="list-style-type: none"> • At the end of each semester, external examination is conducted for a maximum of 70 marks by the University. • End examination is set in descriptive pattern generally satisfying the all course outcomes. 		
Indirect Assessment	Course Exit Survey	End of Semester	<ul style="list-style-type: none"> • On completion of each semester, feedback is obtained from the students for the courses they have attended. • Recorded for assessing the attainment of COs 		20%
	Behavioral Assessment	Throughout the Semester	<ul style="list-style-type: none"> • Each student is assessed based on participation and performance in Technical, Social Events & Extra-curricular activities

Assessment tools for the calculation of course outcomes (R19)

Sample Mid Question Paper

VIGNAN'S INSTITUTE OF ENGINEERING FOR WOMEN
(Kapujaggarajupeta, VSEZ(Post), Visakhapatnam-530 049)
Mid Term Examination-I
SET-1

(I- B.Tech, II Sem, Regulations: R19)

 Course Name: **APPLIED PHYSICS**

 Max Time: **1 ½ Hrs.**

 Branches: **EEE**

 Max Marks: **20**

 Faculty: **Mr.S.Ravikumar**

 Date: **02.12.2020**
CO: Course Outcome no. (1-5), LEVEL: Revised Bloom's Taxonomy level no. (1-6)

CO	LEVEL	Q.No	QUESTIONS	
CO1	1a: K3 1b: K2	01	a) Discuss the theory of thin films and derive the condition for constructive and destructive interference in the case of reflected system. b) Describe the Resolving power of an optical instrument.	8M
CO2	2a: K3 2b: K2	02	a) Apply Schrodinger's wave equation to the case of the particle in a box and show that the energies of particle are quantized. b) Describe in detail about Davisson Germer experiment with neat sketch.	8M
CO3	3a: K3 3b: K2	03	a) Determine the electrical conductivity of a metal based on classical free electron theory. b) State and explain Bloch theorem.	4M

* K1 (R): Remembering, K2 (U): Understanding, K3 (P): Applying,

* K4 (A): Analyzing, K5 (E): Evaluating, K6 (C): Creating.

DEPARTMENT OF BASIC SCIENCES & HUMANITIES

ASSIGNMENT QUESTIONS: MID-I

Course Name: Applied Physics				Course Code: R19BS1204		
Year /Sem: I-II/EEE				Regulation: R19		
Admitted Batch: 2019				Academic Year: 2019-20		
Course Coordinator: Dr.Chandra S Beera				Faculty Name: Mr.S.Ravikumar		
Ass. No.	CO Level	Question Level	Q. No.	Questions	Issue Date	Submission Date
Assignment 1	CO1-K2	K2	1.	Derive an expression for interference in thin films due to reflection.		
		K2	2.	Explain why the centre of Newton's Rings are dark in the reflected system.		
Assignment 2	CO2-K2	K2	1.	Discuss the theory of Fraunhofer diffraction due to N-slits.		
		K2	2.	What are the differences between interference and diffraction?		
Assignment 3	CO3-K3	K3	1.	With the help of suitable diagram, explain the principle, construction and working of a He-Ne laser.		
		K3	2.	Explain the principle, construction and working of He-Ne LASER.		

Behavioral Assessment

Students after entering into a professional program have to undergo a lot of qualitative change in terms of their behavior. During their four years stay at the institution this aspect has been taken seriously as a part of students' internal assessment. Strictly adhering to the curriculum prescribed by the University at the first-year level, the department of B S & H simultaneously follows a system of continuous assessment of the student by measuring and estimating their behavioral aspects in order to improve their attitude, values and behavior with respect to Program Outcomes. These aspects consist of

1. Social responsibility (PO 6)
2. Environmental consciousness (PO 7)
3. Ethical values (PO 8)
4. Teamwork (PO 9)
5. Communication Skills (PO 10)
6. Leadership skills (PO11)

Some activities are arranged to measure these aspects in students throughout the first-year course work. They are:

- Interactive sessions by renowned personalities in the fields of social work, literature, movies, arts and industry.
- Social service activities such as conducting health camps, blood camps, eye-checkup camps; visits to near-by villages for service; visits to orphanages and under privileged places to offer the helping hand by kind and cash.
- Clean & Green activities consisting of Swatch Bharat; Plantation programs; promoting eco-friendly measures in religious and social occasions; Beach cleaning activity
- Sending students to industries and making them aware of their role as engineer
- Organizing picnics to promote harmonious social culture and togetherness
- Celebration of important days of national significance by involving the student teams right from the planning stage to execution stage in conducting those events
- Celebrating all the religious and cultural festivals
- Through Language Club essay writing competitions, poster presentations, group discussions and debates to improve their social awareness, expression capacities and confidence levels.

- Constant mentoring and counseling through Class Coordinator and Counselor system in sorting out their emotional and academic issues.
- Encouraging the students to actively participate in games & sports inside and outside the college to boost up their physical fitness and morale.

Rubric for Assessment of Behavioral Aspects

	Low – (1)	Moderate – (2)	High – (3)
Social Responsibility	No active participation	Able to participate but poor performance	Very active participation and performance
Environmental Consciousness	Low awareness levels	Adequate level of awareness	Well informed and putting into practice
Ethical Values	Ethical concerns are missing	Flexible attitude towards ethical values	Full appreciation of ethical values and following them
Teamwork	Uneven role assignment and limited awareness about responsibilities	Fair distribution of workload and respect towards the team	Clearly defined roles & increased level of clarity, cooperation and respect
Communication Skills	Inadequate	adequate	Very effective
Leadership Traits	Passive	sufficient	Proactive and active listener

Table B.8.4.1.b: Rubric for behavioral assessment

Based on the level of *participation and performance* in the above-mentioned year long activities students will be assessed. Lowly scored students will be identified.

Corrective and Transformation Measures:

- Bringing them to the front in the next activity;
- Motivating them;
- Inspiring them;
- Taking personal interest in them and encouraging them to see others and read literature;
- Empathizing with their social & economic concerns and slowly changing their focus towards positivity
- Changing group composition within the section and mixing with other sections and branches

(ii) CO Assessment Process for Laboratory Courses

CO assessment process for Laboratory (R19)

Laboratory Continuous Assessment

Continuous assessment for laboratory courses is done to enable a measurable rate of progress and learning for students throughout the course period. Regular monitoring facilitates scope for improvement and remedial action in assessing the performance of the students.

Assessment for Science Laboratory

Attendance	Experiment Procedure	Result	Handling / Safety	Record Submission
2	2	2	2	2

Assessment for Language laboratory

Attendance	Activity	LSRW Skills	Body Language	Activity Record
2	2	2	2	2

The Relevance of Assessment Tools Used:

- The assessment tools evaluate the student's knowledge and ability to apply their skills through continuous assessment process such as internal examinations, end semester examinations, presentations, assignments, tutorials etc. These tools reflect the levels of student learning. The weightage given for various assessment tools used for the attainment of Course Outcomes is shown in Table 8.4.1a & 8.4.1b
- The CO attainment level is measured based on internal assessment and external examination conducted by the University. It is a form of measure of direct attainment. The University conducts two internal exams for each course in a semester.
- In each exam, the percentage of students achieving a set target is calculated for the covered COs. After two tests, the average of these percentages is calculated to determine the attainment level. The guidelines for deciding the attainment levels are as follows:
 - Attainment Level 1: 60% of students' scores more than the target level.
 - Attainment Level 2: 70% of students' scores more than the target level.
 - Attainment Level 3: 80% of students' scores more than the target level.
- According to the weightage given by the University, 33% of the internal attainment and 67% of the external attainment is considered to be the course attainment through marks.
- Individual faculty will conduct the course end survey on the course outcomes at the end of every semester.
- Hence, 80% of the attainment level obtained through marks and 20% of the attainment level obtained through end survey, feedback, is considered to be the total Course Attainment

8.4.2. Record the attainment of the course outcomes of all first-year courses (5)

The course outcome attainments for 2016-17, 2017-18, 2018-19 and 2019-20 are given below

Table B.8.4.2d Course Outcome attainments for CAYm1 (2019-20)

The graphical representation of CO attainments for each course is presented below for the academic years 2016-17, 2017-18 and 2018-19 admitted batches.

Fig. B 8.4.2a Graphical representation of attainment levels of various courses during the academic year 2016 - 17

Observation:

During 2016-17 academic year the attainment level for the courses Mathematics-I, Applied Physics, Mathematics-III, and Engineering Drawing was comparatively low. This may be due to lack of conceptual knowledge and grounding in Mathematics, Physics and Chemistry.

Fig. B 8.4.2b Graphical representation of attainment levels of various courses during the academic year 2017 – 18

Observation: During 2017-18 academic year all the course attainments are above 2.4 except ECA-I course.

2018- 19 CO Attainments

Fig. B 8.4.2c Graphical representation of attainment levels of various courses during the academic year 2018 - 19

Observation: During 2018-19 academic year all the course attainments are above 2.4 whereas course attainment of Applied Physics is marginally low.

2019-20 Course attainments

Fig. B 8.4.2d Graphical representation of attainment levels of various courses during the academic year 2019 - 20

Observation: During 2019-20 academic year all the course attainments are above 2.45 whereas course attainment of Applied chemistry, PPSC, ED and ECA-1 are low.

POs Attainment Levels and Action for Improvement- CAYm2 (2018-19)

POs	Target Level	Attainment Level	Observations
PO 1: Engineering Knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.			
PO-1	2.40	2.66	<ul style="list-style-type: none"> • Target achieved. • Lack of knowledge in complex concepts of Physics (AP) and Chemistry.
Action :			
<ol style="list-style-type: none"> 1. One-week foundation course on Semiconductors Physics to be conducted. 2. Orientation classes are to be conducted in Nanotechnology. 			
PO 2: Problem Analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.			
PO-2	2.40	2.53	<ul style="list-style-type: none"> •Target achieved. • Attainment can be increased further for the courses like EM (C104), M – II (C111) •Rising conceptual discomfort in seeing the link between basic science concepts and engineering.
Action :			
<ol style="list-style-type: none"> 1. Bridge course and foundation courses to be conducted to plug the gap existing between intermediate Mathematics and engineering Mathematics. 2. Few topics in C104 like friction, moment of Inertia and centre of gravity will be explained with more examples. 3. Tutorial classes with more examples are proposed for C111 to enhance the analyzing ability. 			
PO3: Design Development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.			
PO-3	2.40	2.50	<ul style="list-style-type: none"> •Target is achieved. • Attainment can be increased further for courses AC (C103), CP (C105), EM (C104), M – II (C111), AP (C113)
Action:			
<ol style="list-style-type: none"> 1. Tutorial classes will be conducted on Complex topics like friction in C106 (EM) and non conventional energy sources in C103 (AC). 2. Reasoning based assignments for C105, C104 and C111 are proposed to reinforce the design skills. 3. Demonstrations with Vignettes are proposed for C103 (AC) and C113. 			
PO 4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and			

synthesis of the information to provide valid conclusions.			
PO-4	2.40	2.40	<ul style="list-style-type: none"> • Target is achieved • Attainment can be increased further for courses AC (C103), CP (C105), EM (C104), M – II (C111), C112 (M-111) and AP (C113) • Insufficient data reading abilities
Action : 1. Application oriented problems are to be included in the assignments for C104 (EM), and C111 (M-II), C112 (M-III) to enhance their solving skills. 2. Additional lab sessions are added for C105 (CP) to go through the content beyond the syllabus. 3. Students are encouraged to analyse and interpret the data related to contemporary issues in C103 (AC) and C113 (AP).			
PO 5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.			
PO-5	2.40	2.33	<ul style="list-style-type: none"> • Target is not achieved. • Attainment can be increased further for courses CP (C105), EM (C104), M – II (C111), ECA - I (C114) • Limited awareness about application techniques in dealing with problems of complex engineering data.
Action: 1. Video lessons on modeling concepts of derivatives and integrations for C111. 2. Building awareness about modeling and simulation packages through virtual lab visits for C104 and C114. 3. Additional tutorial classes with senior faculty to be conducted for C105 to know more about advancement in programming tools.			
PO 6: The Engineer and Society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.			
PO-6	2.20	2.27	<ul style="list-style-type: none"> • Target is achieved. • Attainment can be increased further for course ES (C106). • Inadequate understanding of the role of engineer.
Action : 1. Orientation programme by industry experts in the first two weeks of induction. 2. Encourage students to participate in NSS activities to fill the gap between Engineering education and Society.			
PO 7: Environment and Sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.			
PO-7	2.20	2.27	<ul style="list-style-type: none"> • Target is achieved.

			<ul style="list-style-type: none"> • Attainment can be increased further for course AP (C113). • Improvement is desired in environmental consciousness.
Action :			
<ol style="list-style-type: none"> 1. Involving students in yearlong activities such as plantation, eco-friendly practices and champagnes for reducing carbon emissions. 2. Expert lectures are planned to improve Consciousness on Environment and sustainability issue. 3. Tutorial classes should be conducted with more examples for semi conductors in C113. 			
PO 8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.			
PO-8	2.20	2.31	<ul style="list-style-type: none"> • Target is achieved. • Attainment can be increased further for course AP (C113). • Insufficient understanding of role of ethics in engineering
Action :			
<ol style="list-style-type: none"> 1. organize guest lecture on “Professional ethics “ by Motivational speakers. 2. Teachers leading the students by example in matters of sincerity punctuality and commitment to duty. 			
PO 9: Individual and Team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.			
PO-9	2.20	2.44	<ul style="list-style-type: none"> • Target achieved. • Students need to be more team oriented.
Action :			
<ol style="list-style-type: none"> 1. Students are motivated to organize more events through “English Language Club.” 2. Students are encouraged to involve in organizing events and competitions on Independence day, Women’s day and Republic day. 			
PO 10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.			
PO-10	2.20	2.57	<ul style="list-style-type: none"> • Target is achieved. • Improvement is desired in exhibiting effective communication and language skills
Action :			
<ol style="list-style-type: none"> 1. Involving students in language club activities 2. Organizing interactive seminars on Personality development by in-house and Outside experts. 3. Plan to organize British Council and Oxford Achievers Programmes for language enhancement. 			
PO 11: Project management and Finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one’s own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.			
PO-11	2.20	2.35	<ul style="list-style-type: none"> • Target is achieved. • Insufficient leadership characteristics.

Action :			
1. An awareness program is to be conducted on financial and project management .			
2. Involving class representatives and their classmates in monitoring conduct of class			
2. Students are able to motivated to take active role in technical, sports and cultural activities.			
PO 12: Life-long Learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.			
PO-12	2.20	2.61	<ul style="list-style-type: none"> • Target is achieved. • Attainment can be increased further for course AP (C113).
Action :			
1. Enable students to take up online courses like NPTEL, SWAYAM on recent technologies.			
2. Students are encouraged to attend national level competitive exams.			
3. Motivate the students to make use of web sources.			

POs Attainment Levels and Action for Improvement- CAYm1 (2019-20)

POs	Target Level	Attainment Level	Observations
PO1: Engineering Knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.			
PO1	2.45	2.60	<ul style="list-style-type: none"> • Target is achieved. • C 103 (Applied Chemistry), C104 (PPSC), C 105 (ED), C 111 (M III), C114 (ECA I) did not reach the target.
Action :			
1. C 111 (M III): Tutorial sessions on Vector Integration			
2. C 105 (ED): More number of problems on Scales & Geometric constructions			
3. C 103: (Applied Chemistry): Tutorial session on different polymer materials to be used various engineering domains			
4. C 104 (PPSC): Tutorial sessions on scope of variables, practice programs; programs on Type casting and type conversion			
5. C114 (ECA-I): More number of assignments on Source Transformation, Mesh analysis and Nodal analysis.			
PO2: Problem Analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.			
PO2	2.45	2.57	<ul style="list-style-type: none"> • Target is achieved. • C 103 (Applied Chemistry), C104 (PPSC), C 105 (ED), C 111 (M III), C114 (ECA I) did not reach the target.
Action :			
1. C 111 (M III): Tutorial sessions on Solution of Ordinary Differential Equations by using Laplace transforms			
2. C 105 (ED): Tutorial classes on Projection of points, lines and line inclined to both HP and VP.			
3. C 103 (Applied Chemistry) : Tutorial session on novel materials to be used in			

different industrial fields			
<ol style="list-style-type: none"> C 104 (PPSC): Tutorial sessions on usage of nested loops C114 (ECA-I) : More number of assignments on Source Transformation, Mesh analysis and Nodal analysis. 			
PO3: Design Development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.			
PO3	2.45	2.56	<ul style="list-style-type: none"> Target is achieved. C 103 (Applied Chemistry), C104 (PPSC), C 105 (ED), C 111 (M III), C114 (ECA I) did not reach the target.
Action :			
<ol style="list-style-type: none"> C 111 (M III): Tutorial sessions on Half range Fourier Series C 105 (ED): Tutorial classes on projection of plains. C 103 (Applied Chemistry) : Presentation on various conventional energy sources and fuel cells C 104 (PPSC): Tutorial sessions on Structure of C program and designing programs by following the structure C114 (ECA-I) : More number of assignments on Source Transformation, Mesh analysis and Nodal analysis. 			
PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.			
PO4	2.45	2.56	<ul style="list-style-type: none"> Target is achieved. C 103 (Applied Chemistry), C104 (PPSC), C 105 (ED), C 111 (M III), C114 (ECA I) did not reach the target.
Action:			
<ol style="list-style-type: none"> C 111 (M III): Tutorial sessions on Convolution theorem C 105 (ED): More number of problems on projections of solids C 103 (Applied Chemistry) : Assignments on new generation of analytical instruments C 104 (PPSC): Tutorial Practice programs on arrays, pointers and structures C114 (ECA-I) : More number of assignments on Source Transformation, Mesh analysis and Nodal analysis. 			
PO 5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.			
PO-5	2.45	2.63	<ul style="list-style-type: none"> Target is achieved. C 103 (Applied Chemistry), C104 (PPSC), C 105 (ED) did not reach the target.
Action :			
<ol style="list-style-type: none"> C 105 (ED) : More number of problems on Iso metric projections to Ortho graphic projections and Orthographic to Isometric projections. C 103 (Applied Chemistry) : Class room group discussion on available software programmes for chemical analysis 			

3. C 104 (PPSC): Tutorial practice sessions on implementation of user defined functions.			
PO 6: The Engineer and Society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.			
PO-6	2.25	2.45	<ul style="list-style-type: none"> • Target is achieved. • C106 (ECS Lab), C 114 (ECA –I) , C116 (Applied Physics Lab) did not reach the target.
Action :			
<ol style="list-style-type: none"> 1. Lab Sessions on Engineering and Society C 106 (ECS LAB) 2. Presentations on role of Physics in Engineering and Society C 116 (Applied Physics Lab) 3. C114 (ECA-I) : More number of assignments on Real, Reactive and Apparent Power 			
PO 7: Environment and Sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.			
PO-7	2.25	2.54	<ul style="list-style-type: none"> • Target is achieved. • C116 (Applied Physics Lab) did not reach the target.
Action: 1. Virtual labs related to green house effect: C116 (Applied Physics Lab)			
PO 8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.			
PO-8	2.25	2.43	<ul style="list-style-type: none"> • Target is achieved. • C116 (Applied Physics Lab) did not reach the target.
Action : Group presentations on Ethical Problem Solving: C116 (Applied Physics Lab)			
PO 9: Individual and Team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.			
PO-9	2.25	2.44	<ul style="list-style-type: none"> • Target is achieved. • C 106 (ECS Lab), C117 (Communication Skills Lab) not reached the target.
Action :			
1. Lab sessions on Individual and Team work C 106 (ECS lab) & C117 (Communication Skills Lab)			
PO 10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.			
PO-10	2.25	2.68	<ul style="list-style-type: none"> • Target is achieved.
Action : NO ACTION NEEDED			
PO 11: Project management and Finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.			

PO-11	2.25	2.38	<ul style="list-style-type: none"> • Target is achieved. • C 117 (Communication Skills Lab) did not realize the target.
Action : Group Activities on Project Management C 117 (Communication Skills Lab)			
PO 12: Life-long Learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.			
PO-12	2.25	2.65	<ul style="list-style-type: none"> • Target is achieved.
Action : NO ACTION NEEDED			

PSOs Attainment Levels and Actions for Improvement- CAYm2 (2018-2019)

PSOs	Target Level	Attainment Level	Observations
PSO 1: Analyze and solve critical problems associated with power systems/control systems using modern software tools.			
PSO1	2.40	2.34	<ul style="list-style-type: none"> • Target is not achieved. • Attainment can be increased further.
Action: Exposure on modern software tools related to power systems and control systems.			
PSO 2: Apply the knowledge of power electronics to control and design high-performance electrical drives for a career interdisciplinary field.			
PSO 2	2.40	2.40	<ul style="list-style-type: none"> • Target is achieved. • Attainment can be increased further.
Action: Proposed to conduct guest lecture on importance of electrical drives.			

PSOs Attainment Levels and Actions for Improvement-CAYm1 (2019-2020)

PSOs	Target Level	Attainment Level	Observations
PSO 1: Analyze and solve critical problems associated with power systems/control systems using modern software tools.			
PSO1	2.45	2.51	<ul style="list-style-type: none"> • Target achieved.
Action: NO ACTION NEEDED			
PSO 2: Apply the knowledge of power electronics to control and design high-performance electrical drives for a career interdisciplinary field.			
PSO 2	2.45	2.49	<ul style="list-style-type: none"> • Target achieved.
Action: NO ACTION NEEDED			

Criterion 9	Student Support Systems	50
--------------------	--------------------------------	-----------

9.1 Mentoring system to help at individual level (5)

(Type of mentoring: Professional guidance/career advancement/course work specific/laboratory specific/all-round development. Number of faculty mentors: Number of students per mentor: Frequency of meeting:

The institution may report the details of the mentoring system that has been developed for the students for various purposes and also state the efficacy of such system)

9.1.1 Student Mentoring System

Vignan's Institute of Engineering For Women Strongly believes that Student Mentoring system plays a vital role in empowering the women student's at individual level. Unless a student is ready to learn, whatever may be the intelligence quotient of the student/efficiency of the teacher; learning cannot takes place accurately. In this context, VIEW has an efficient student mentoring system of allotting 20 students to every faculty to address not only the academic/curricular issues but also other issues like economic issues, teenage problems, emotional problems and psychological issues. Number of faculty mentors at VIEW is 154 for the programs CSE (33), ECE (37), EEE (29), IT (12), ME (16) and BS&H (27) for the A.Y 2021-22.

9.1.2 Objectives of the Student Mentoring System

The objectives of the Mentoring System at 'VIEW' are:

- A. To monitor and enhance the student's regularity & discipline
- B. To monitor and enhance the student's academic/curricular performance.
- C. To counsel the students and provide confidence to improve their quality of life by addressing their issues such as:
 - Economic Issues
 - Teenage Issues
 - Health Issues
 - Emotional Issues
 - Psychological Issues
- D. To engage the parents in the continual improvement of their ward's performance.
- E. To encourage student's participation in co-curricular & extra-curricular activities with a balanced academic performance.

F. To guide the students towards campus recruitment, higher education, research & entrepreneurship.

9.1.3 Process of mentoring at VIEW

Process of mentoring students at VIEW was developed to **achieve** the **objectives** of the Student Mentoring system in the following attributes:

1. Regularity & Discipline

- Once in a week, every faculty/mentor will informally meet their allotted student's/mentee's for counselling and making a note of their status in the respective Student Mentoring Book.
- During the counselling, if the student was observed to be performing good they will be appreciated. If the student was observed to be non-attentive/non-performer/irregular, the exact reasons/issues will be identified by the mentor and will be given with enough counselling/support in resolving/addressing the concerned issues.

2. Academic/Curricular Performance

- In the first stage at the beginning of every semester, the faculty/mentor will address the allotted students regarding the details of academics in the semester and evaluation procedure in line with the respective PO's, PEO's, Mission, Vision at program and institute level.
- The detailed performance evaluation/results for every assessment will be noted down in the respective student mentoring book.
- If the student/mentee performance is good then she will be recommended for Merit Scholarship else she will be guided and tutored to improve her performance.

3. Other Issues to increase confidence of Student/Mentee to improve their quality of life

- Economic Issues: During the counselling process, if any student/mentee was observed to be suffering financial crisis impacting their performance will be recommended for various opportunities such as MEAN Scholarships.
- Teenage Issues: During the counselling process, if any student/mentee was observed to be having issues like adolescence, including social media, body image, substance use and sleep will be counselled accordingly in resolving issues at mentor level and

even if the issues still persists the student/mentee will be directed to grievance and redressal cell for further counselling through Program Coordinator.

- **Health Issues:** During the counselling process, if any student/mentee was observed to be having any health problem disturbing their performance will be inspected with Health Club with concerned parent consent. Where if the issue deserves a doctor's consultation, the primary consultation will be borne by the institution and further recommendations will be handed over to the parent.
- **Emotional Issues:** During the counselling process, if any student/mentee was observed to be having emotional issues chronic discipline problems, is truant often, temper tantrums, lack of empathy/compassion, bullying others, causing damage to others properties, having conflicts with parents and authority figures will be counselled accordingly. Even if the issue continues to persist, student/mentee will taken for further counselling with Program Coordinator.
- **Psychological Issues:** During the counselling process, if any student/mentee was observed to be suffering from psychological issues like depression, stress, anxiety, eating disorders, self injury, bipolar disorder and psychotic will be counselled for the resolution. Even if the issues continue to persist the student/mentee will be recommended to a psychologist consultation through program coordinator and parents.

4. Engaging Parents for continual improvement: The attendance, performance report and the counselling remarks will be constantly shared with parents daily, monthly and whenever it is necessary. A daily SMS for regularity, monthly attendance report, performance and counselling whenever it is necessary will be shared with the parents.

5. Co-curricular & Extra-curricular Activities: During the counselling process, a student/mentee observed to be keen or excelling in any co-curricular or extra-curricular will be given proper guidance towards a balanced learning to maintain better performance in academics and the concerned activity as well. Such student/mentee will be forwarded to the respective clubs for her participation and further guidance in national & international level.

6. Campus recruitment, higher education, research & entrepreneurship: During the counselling process, the faculty/mentor will understand the goal of the students regarding her career and guide her towards achieving her goals by recommending her active participation towards Trainings, Seminars, Conferences, Workshops, Publications,

Projects, etc., At every stage, the student/mentee will be monitored and report will be maintained cumulatively to motivate them for a better career opportunity.

9.1.4. Efficacy of the Mentoring system

Students will be able to:

- Improve their attendance percentage leading to low detention rates.
- Students who perform badly in initial tests can improve due to the assignments given, question paper solving and effective guidance.
- Register better academic performance.
- Lead a quality learning life with confidence.
- Succeed in Campus Placements and career building.

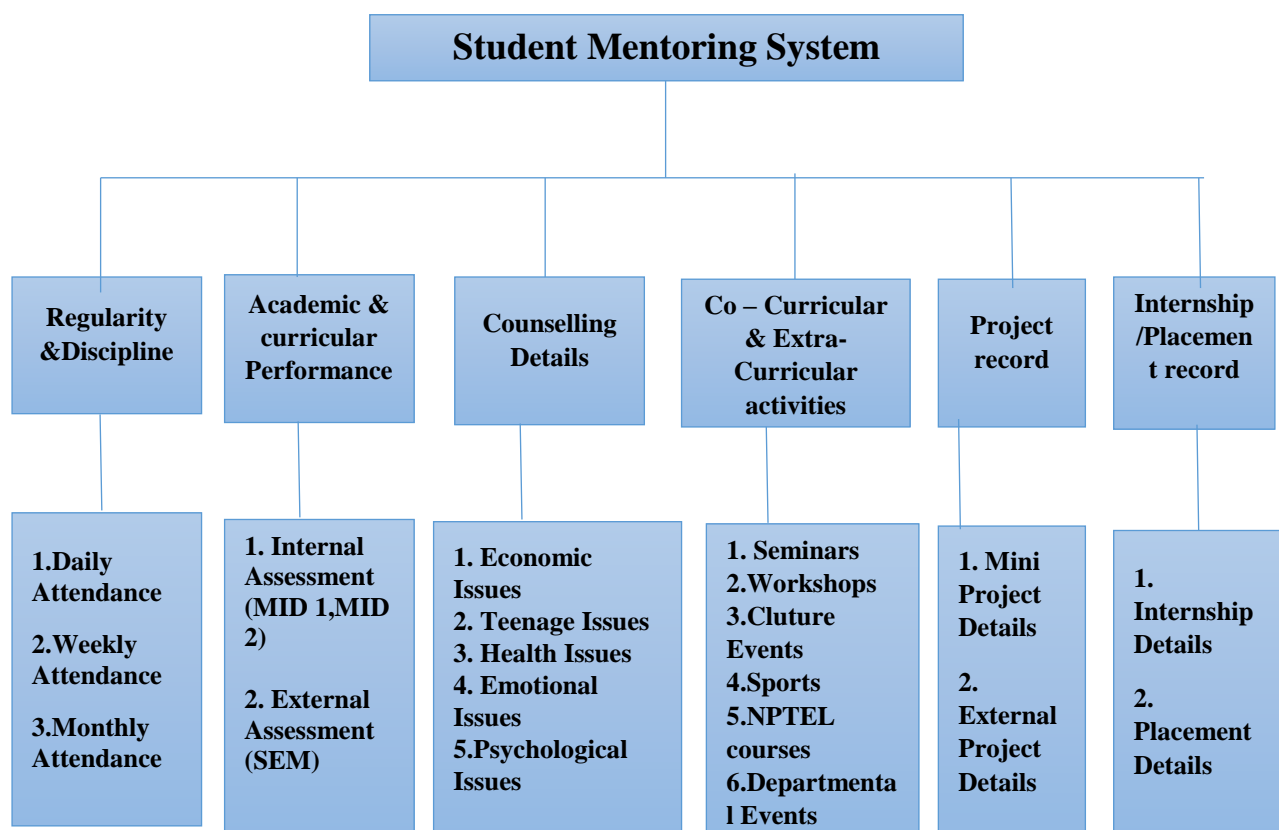

Figure 9.1.1: Illustration of student mentoring system

Impact of counselling:

At the institute students are constantly monitored through regular interaction and mentoring process. In the event of any special issues arising out of economic, academic, health and psychological problems, the mentors will try to rectify the situation by providing relevant support. Few of special issues presented in Table 9.1.1.

Table 9.1.1: Impact through counselling on special issues

S. No	Name of student	Nature of Problem	Status of student (Issue)	Counseling or Support given	Efficacy
1	15NM1A0218 G.NagaPuspa	Academic/ Curricular Performance	Backlogs problem	Remedial and tutorial classes are held to prepare the student for supplementary exams.	Cleared all the active backlogs
2	16NM1A05G7 M.Keerthi	Regularity &Discipline	Irregularity problem	Motivated to attend regularly by explaining the value of education.	Regularity Improved
3	15NM1A1205 A. Lalithasridiya	Psychological Issues	Depression problem	Motivated the student by showing the motivational and spiritual videos. Constantly monitored her progress.	Student participated and interacted actively.
4	17NM1A0562 JobaKumari Preethi	Economic Issues	Financial problem	Motivated the student to study well in order to get Means and Merit scholarship provided by the institute.	Student received mean scholarship provided by the institute.
5	16NM1A0275 R.JHANSI	Teenage Issues	Love failure	Guided the student to choose the right path and made the student realize the importance of parents.	Student chose the correct path and focused on studies.

6	16NM1A1228 K.Bhargavi	Academic/ Curricular Performance	Dropping the college due to unable to understand the concepts	Suggested easy ways to understand the concepts through online videos and also provided study materials to prepare for the exams. Student gradually gathered confidence to continue the studies.	The student continued in the college and cleared all the subjects.
7	16NM1A05G8 P. Tanmay	Health Issues	Irregularity problem due to health issues	Student was provided medical assistance and student recovered slowly from the illness.	Student started attending the classes regularly.
8	17NM1A0593 L.Trisha	Psychological Issues	Behaviour problem	Student was made to understand the importance of behaviour and ethics. Motivational videos were shown.	Student changed her attitude and interacted with classmates nicely.
9	17NM1A0403 A. Kusuma	Psychological Issues	Depression problem	As she is under constant stress and anxiety out of fear of the subjects she has been counselled by HoD. Mentor is asked to be in regular touch with her. Motivate her suitably by asking one of the lady faculty members to clarify her doubts and about exam pattern.	Student slowly gained confidence over period of time and concentrated on studies.
10	17NM1A1219 G. Sagarika	Psychological Issues	Depression problem	Mentor identified the reason behind student's depression and explained to her about the importance of studies and motivated her through inspiring and motivational videos	Student has overcome her depression; changed her attitude and concentrated on the studies and

				to overcome the depression.	secured good marks.
11	17NM1A0284 T. Kasu Vijaya Vidya Sreevalli	Health Issue	Health problem (Migraine)	Identified the problem and institution has provided medical assistance to the student.	Student recovered from her illness and concentrated on her studies and secured good result.
12	18NM1A0415 B.Roshini	Health Issue	Health Problem (Constant Fever)	Institute provided the medical assistance and advised the student to consult specialist doctor.	Student recovered from health problem and concentrated on studies

9.1.5. Impact through counselling on academic performance

The academic/curricular performance of the Student's/Mentee's was good up to their First academic year. Later in the second year their academic performance was fall down due to not able to clarify their doubts in time with inferiority complex. In order to improve their academic performance, proper mentoring and guidance was provided with the help of student mentoring system by respective mentor. So that, it was observed student's/mentee's performance was improved in the further academic years. The impact through counselling on academic performance of recent batches shown in Figure 9.1.2 to 9.1.6.

Impact of mentoring on Academic Performance

Figure 9.1.2: Impact of mentoring on academic performance of 2017-21 batch

Figure 9.1.3: Impact of mentoring on academic performance of 2016-20 batch

Figure 9.1.4: Impact of mentoring on academic performance of 2015-19 batch

Figure 9.1.5: Impact of mentoring on academic performance of 2014-18 batch

Figure 9.1.6: Impact of mentoring on academic performance of 2013-17 batch

The institute initiated merit scholarship to encourage and appreciate the students/mentees academic performance. The merit scholarship is recommended to students/mentees who secured highest aggregates in their academic years at institute rank wise and departmental rank wise. Details of merit scholarships in departmentwise shown in Table 9.1.2.

Table 9.1.2. Number of selected students to Merit Scholarship

S. No	Academic year	Number of Selected students to Merit Scholarship			
		CSE	ECE	EEE	IT
1	2017-18	4	6	5	4
2	2018-19	6	9	5	4
3	2019-20	Due to Covid/Lockdown conditions Merit Scholarship not yet given.			
4	2020-21	Due to Covid/Lockdown conditions Merit Scholarship not yet given.			

AICTE sanctions Pragati & Saksham scholarships to the eligible degree and diploma students. For the A.Y 2019-20, 31 students of the institute got Pragati & Saksham scholarship based on their eligibility and merit. Details of Pragati & Saksham scholarship in department wise shown in Table 9.1.3.

Table 9.1.3. Number of selected students to Pragati & Saksham scholarship scheme

S. No	Academic year	Number of Selected students to Pragati scholarship scheme			
		CSE	ECE	EEE	IT
1	2019-20	21	8	1	1
2	2020-21	Not yet applied for A.Y 2020-21.			

9.1.6. Impact through counselling on Economic Issues

The faculty/mentor not only observes performance of the student/mentee in academic perspective but also observes their financial background and it's impact on their academics. So, the faculty/Mentor suggests such an identified students for various scholarships and the college initiated mean scholarships. Details of means scholarships in department wise shown in Table 9.1.4.

Table 9.1.4. Number of selected students to Means Scholarship

S. No	Academic year	Number of Selected students to Means Scholarship			
		CSE	ECE	EEE	IT
1	2017-18	14	25	17	0
2	2018-19	15	32	20	8
3	2019-20	Due to Covid/Lockdown conditions Means Scholarship not yet given.			
4	2020-21	Due to Covid/Lockdown conditions Means Scholarship not yet given.

9.2. Feedback analysis and reward /corrective measures taken (10)

(Feedback collected for all courses: YES/NO; specify the feedback collection process; Average percentage of students who participate; Specify the feedback analysis process; Basis of reward/ corrective measures, if any; Indices used for measuring quality of teaching & learning and summary of the index values for all courses/teachers; Number of corrective actions taken)

In Vignan's Institute of Engineering for Women, a systematic methodology is used for the feedback on teaching-learning process. The process of feedback collection, analysis and evaluation in our institute is presented in Table 9.2.1.

Table 9.2.1: Feedback collection, analysis and evaluation process

Step-1	Collection of feedback forms for all the subjects from the students based on parameters specified in the questionnaire.
Step-2	Estimation of average for all the parameters and calculation of cumulative otherwise called threshold.
Step-3	After the recommendations of Principal, the threshold value will be finalized. The normal value setup at present is 7
Step-4	If the threshold exceeds 7, it will be considered as good. If it is less, the faculty performance is considered as average or below average.
Step-5	If the faculty receives good performance, he will be rewarded with monetary benefits (additional increment). If he/she receives average or below-average performance, he/she gets counselling and allows them to get correct their performances.

Figure.9.2.1 illustrates the implementation of feedback process for the corrective actions taken against the feedback analysis.

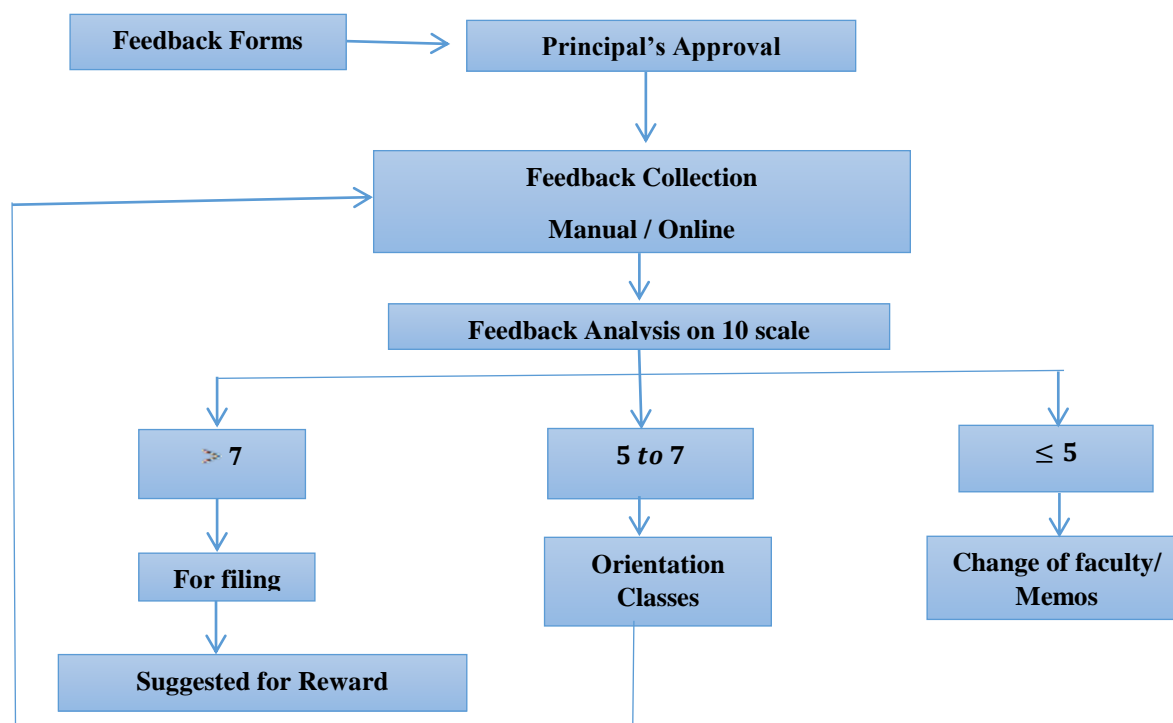

Figure 9.2.1: Illustration of implementation of feedback process

9.2.1. Feedback collection process

Feedback is collected against the format shown in Figure 9.2.2 once in a semester before Mid-I assessment from the students having attendance greater than 75% at the time of collecting feedback.

Percentage of students participating: 90% (Approximately)

Specify the feedback analysis process: The feedback is collected on 10 Parameters on a 10 point scale as shown in Figure 9.2.2.

Figure 9.2.2 Illustration of student feedback form

9.2.1 Methodology followed for the analysis of feedback on teaching-learning process

Acquired feedback will be analyzed based on 4 points using the following methodology: Excellent (A), Very good (B), Fair (C) and Poor (D).

The sample analysis of feedback on teaching- learning process followed in our institute is presented Table 9.2.2.

Table 9.2.2: Sample analysis of feedback on teaching-learning process

S.No	Name of the faculty	Designation	subject	Grades				Total strength	A+B+C+D	Over all index (10)
				A	B	C	D			
1	XXXXX	Asst. Prof	XXX	42	12	0	0	54	54	9.56

10% Overall Index Scale: A = 10, B = 8, C = 4, D = 0

$$\text{Calculation: } \frac{(A \times 10) + ((B \times 8) + (C \times 4))}{\text{Total strength}}$$

9.2.2 Effectiveness of Methodology being followed for analysis of feedback

Effectiveness of the methodology being followed was illustrated based on feedback indicator. Feedback indicator is value of average feedbacks employed by the faculty in a department over a batch of students during their entire academics. This feedback indicator was evaluated for the CAY, CAYm1, CAYm2 and CAYm3 for all the programs and illustrated in the Figure 9.2.3.

From the Figure 9.2.3, there is a gradual improvement in the teaching-learning process among all the programs for the last three academic years consistently with the methodology implemented for the analysis of feedback.

Figure 9.2.3: Effectiveness of feedback system

9.2.3. Corrective actions taken and its efficacy of the Feedback analysis:

In the process of feedback analysis to improve the teacher learning process, a unique process was developed. After the evaluation of feedbacks, faculty who received below 7 will be listed out for further evaluation either through a orientation class or recommended to attend FDPs etc. A record of corrective actions taken was maintained cumulatively for all the three batches. Through principal's office a notification will be issued regarding the orientations to be delivered for the improvement of teaching learning process. A committee will be constituted including Principal along with two program specific internal faculty members. The recommendations of the committee will be constituted and will given to faculty

undergoing orientation will be given a specific time to improve his skills for a better teaching learning process. After the specified time, the faculty will be analysed against the feedback during his delivery in the same class and will be assessed based on the feedback taken again. Further improvements or guidelines will be forwarded to principal office accordingly. List of corrective actions taken were detailed below in Table 9.2.3 for reference.

Table 9.2.3. Record of corrective actions taken based on feedback

Academic Year 2020-21								
S.No	Program	Date	Faculty	Topic	Corrective actions/ Suggestions	Feedback(10)		Comments
						Before	After	
1	ECE	6.4.2021	Mr.K. Rajendra Prasad	Image Enhancement techniques	Maintain right pace with students understanding capabilities and give more examples	6.29 (IV-I) DIP ECE-B	8	Very Good
2	EEE	5.4.2021	Mr.A.Chandraiah	Switched Reluctance Motor	Maintain small breaks during the class and use simple sentences during explanation. Attend FDP conducted by NITTTR	6.88 (IV-I) SEM EEE-B	7.8	Good
3	CSE	7.4.2021	Ms.Afsheen Firdous	Java Scripts	Adopt innovative teaching practices and prepare lecture notes in advance.	5.78 (IV-I) WT CSE-B	7.2	Good

S.No	Program	Date	Faculty	Topic	Corrective Actions	Feedback(10)		Comments
						Before	After	
1	CSE	16.10.2018	Ms.Rita Roy	Two Dimensional Geometric	Prepare well and improve the fundamental concepts. Prepare the lecture notes and get approved by the HoD.	6.9 (II-I) CG CSE-C	7.3	Good
2	CSE	16.10.2018	Mrs.D.Kamal Kumari	Micro Operations	Technical Knowledge is poor. Prepared lecture notes well in advance. Be serious in the class.	6.3 (IV-I) CAO ECE-C	7.5	Good

Academic Year 2017-18								
S.No	Program	Date	Faculty	Topic	Corrective Actions	Feedback(10)		Comments
						Before	After	
1	EEE	11.09.2017	Mr.K.Vamsi	Tie line power control	Recommended for orientation class. Prepare lecture notes and get approval by HoD.	6.65 (IV-I) PSOC EEE	7.6	Good
2	EEE	11.09.2017	Mr.B.Rajesh	Insulators	Review PS-I fundamental concepts. Advised to attend NITTR FDP.	6.6 (III-I) PS-II EEE-B	7.1	Good
3	ECE	08.09.2017	Mr.B.Srinivasa Rao	Laplace transforms	Explain the concepts with real time examples.	6.87 (II-I) SS ECE-A	7.8	Good
4	CSE	06.03.2018	Mrs.D.Kamal Kumari	Describing Syntex, context programmers	Acquaint with the framework of all programming languages. Suggested to attend FDP	6.59 (II-II) PPL CSE-A	7.8	Good

9.3. Feedback on facilities (5)

(Assessment is based on student feedback collection, analysis and corrective action taken)

9.3.1 Feedback collection process

Feedback on facilities is collected every year through IQAC from the following means:

- a. Student Feedback Form
- b. Parent Feedback Form
- c. Suggestion box
- d. JNTUK FFC recommendations on facilities

Institute centrally takes the feedback on facilities once in every year through student feedback form and parents feedback form. A suggestion box is placed in the department to get the opinion on the functioning, maintenance of the facilities. The corrective actions were taken wherever necessary based on the above feedbacks and FFC members recommendations. The details of the approval letters and the summary of meetings/discussions are maintained.

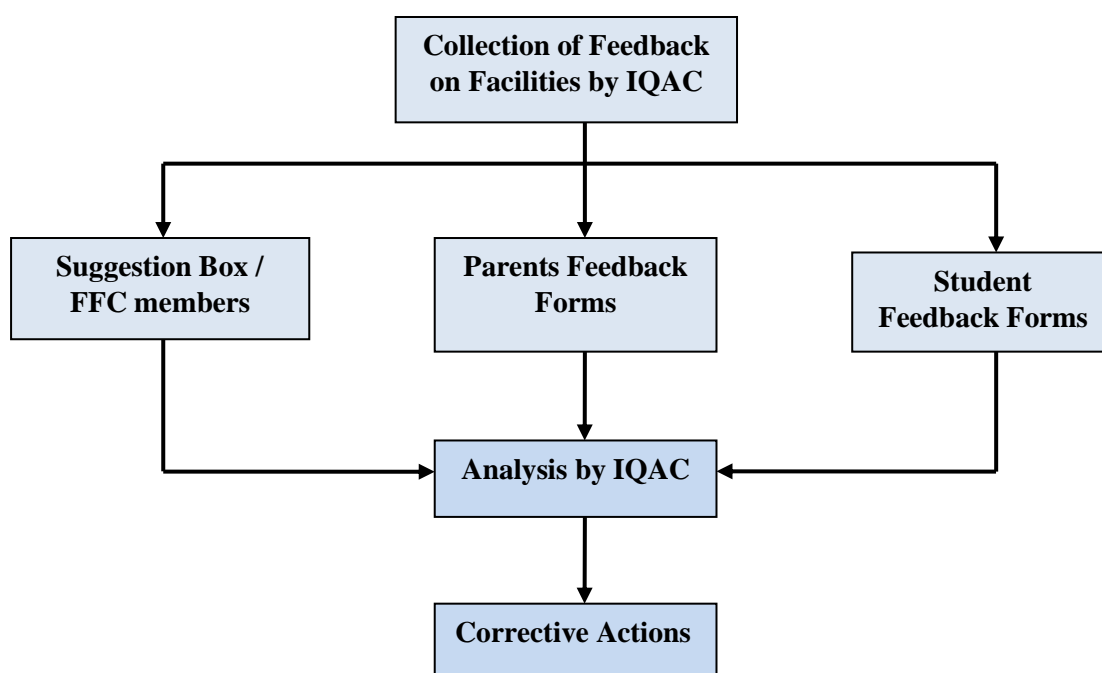

Figure 9.3.1: Illustration of implementation process of feedback on facilities

9.3.2 Analysis of feedback on facilities

Assessment is based on student feedback collection, analysis and corrective action taken. Overall rating on the facilities available in the department/institution in parameter wise given in Table 9.3.1 and 9.3.2. The feedback collected will be cumulatively taken on a scale of 5.

Table 9.3.1. Student feedback rating on parameters

S.No	Parameters	Rating (5 Point scale)			
		2017-18	2018-19	2019-20	2020-21

15	Overall rating of VIEW	4.2	4.3	4.4	4.6
Average		4.19	4.23	4.47	4.55

9.3.3 Corrective Actions Taken

As per the key identifications from the parameters in above tables, a recommendations list will be prepared and will be presented in the governing body meetings. As per the guidelines given from the minutes, corrective actions will be taken and for last four academic years were listed below in Table.9.3.3.

Table 9.3.3: List of corrective actions taken against recommendations

S.No	Recommendations	Corrective Actions Taken			
		2017-18	2018-19	2019-20	2020-21
1	Hostel Facilities	Yes	Upgraded	Upgraded	Upgraded
2	Library Facilities	Yes	Upgraded	Upgraded	Upgraded
3	Medical Facilities	Yes	Upgraded	Upgraded	Upgraded
4	Transport Facilities	Yes	Upgraded	Upgraded	Upgraded
5	Fire & Safety	Floor wise	All exposed areas	Upgraded	Upgraded
6	Canteen Facilities like Xerox, stationary, etc arranged in a spacious canteen	Institute Level	Upgraded	Upgraded	Upgraded
7	LCD projectors and computer systems are fixed in every classroom	Limited to program wise	Limited to section wise	Yes	Yes
8	Focusing lights are arranged at the top of the board to clear visibility to the students.	Limited	Yes	Yes	Removed
9	Quality equipment and computing facilities increased in the department.	Yes	Upgraded	Upgraded	Upgraded
10	Active functioning of the grievance cell to look after the issues of students.	Yes	Yes	Yes	Yes
11	Increased the kits for the indoor and out-door games/sports.	Yes	Upgraded	Upgraded	Upgraded
12	Management providing Means & Merit scholarships to encourage the students	Limited	Yes	Yes	Yes
13	Wifi & Internet Facilities	Yes	Upgraded	Upgraded	Upgraded

Figure 9.3.2: Illustration of facilities

Student and parent feedback forms on facilities are shown in Figure 9.3.3 and 9.3.4.

9.4: Self-Learning (5)

(The institution needs to specify the facilities, materials and scope for self-learning / learning beyond syllabus, Webinars, Podcast, MOOCs, etc. and evaluate their effectiveness)

9.4. A. Scope for Self-Learning

Self-Learning at Vignan's Institute of Engineering for Women was one of the unique ecosystems with diversified learning for women students. The details of the self-learning facilities for the student's of our institution were illustrated in the Figure 9.4.1 for the last four academic years.

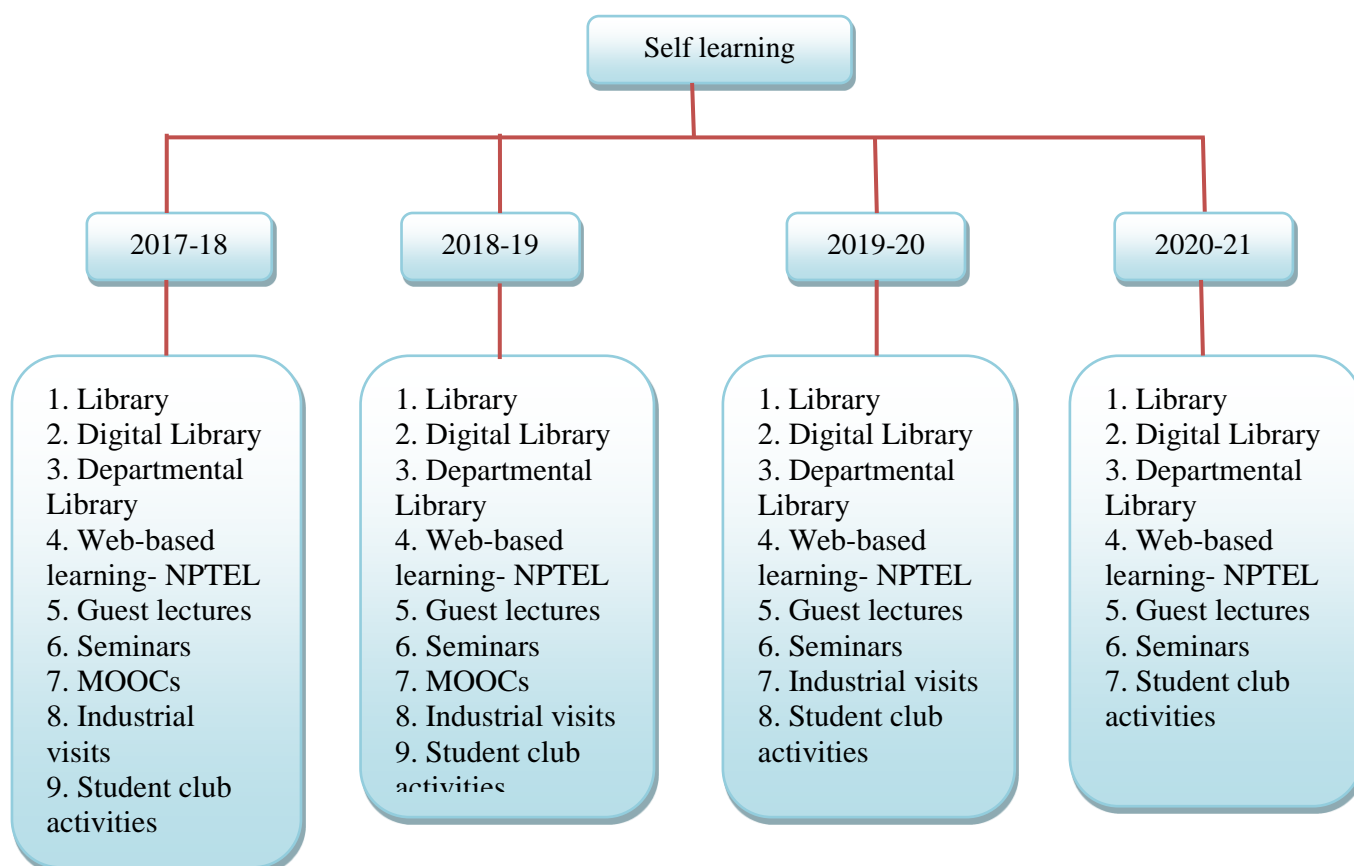

Figure 9.4.1. Illustration of facilities for the scope of self learning

Self-Learning method is an individualized method of learning collecting information, processing it, and retaining it without the need for another individual to teach it.

Table 9.4.1: Details of Self Learning Processes

S. No	Self – Learning process	Description
1	Library	Several books provided in central library in department wise.
2	Digital Library	<ul style="list-style-type: none"> • Availability of NPTEL videos. • Sufficient systems with multimedia facilities. • Institutional membership, Internet facility and Access Provided to NPTEL Video Lecture Content, etc.
3	Departmental Library	Availability of course materials and departmental library books.
4	Web-based learning	Provided video lectures through internet.
5	Professional bodies / other association and club activities	Departments have a Professional association memberships, Departmental associations and student clubs.
6.	Seminars & Workshops	Several departments have organized seminars and workshops
7	Internships	Institute provided an opportunity to do internships for the students.
8	Industrial visits	Several departments have organized Students Industrial visits.
9	Guest lectures	Several departments have organized Guest lectures.
10	MOOCs	Various programs towards MOOCs data have been provided.

9.4. B.1. Detailed list of Self – Learning facilities:

Various self learning facilities available at VIEW were listed below in detail:

a) Central Library

The Vignana Vahini Library has a huge collection of 27,784 books with 5,676 titles on various subjects including technical, humanities, managerial and reference Books covering biographies, dictionaries, yearbooks etc. The library subscribes 55 national and international print journals and 5230 e-journals, and holds over 1251 project reports. The Learning materials, Previous Question Papers, Project Reports of all departments are made available.

- The Library is open for all users from 7.30 am to 5.30 pm. The library hours are extended on the basis of need during examinations.
- Regular class time tables of all branches allot one session contains one hour in a week for library study. Each student have a library card using which that she can lend 3 books for 15 days nearly 30 members utilizes same title of book per year.
- The use of library by students is generally more during examination period.
- During examination period students spends more time in library.

- Digital Library is also available to the students with free internet Access

Table 9.4.2: Detailed list of Vignana Vahini library

S. No	Course	Dept.	No. of Titles	No of Volumes	Effective Utilization			
					2017-18	2018-19	2019-20	2020-21

d) Seminars & workshops

- Every department has organized seminars, workshops, technical events such as Tech Fest to enhance communication skills in students.
- Students give excellent seminars in front of all their classmates about their own interested topics to enhance their presenting and communication skills. These seminar classes help the students for their campus interviews to place them in better position.

e) Internships

- Institute provides an opportunity for the Students of all the departments acquire hands on experience to expose practical learning knowledge from various industries.

Table 9.4.4: Consolidated Sheet of student Internships

S.NO	Branch	Academic Year			
		2017-18	2018-19	2019-20	2020-21

g) Web-Based Learning and Certification Courses

- Students of all departments were given the opportunity to participate in online classes such as MOOCs, NPTEL etc.
- Department level faculties will encourage the students to undergo web based certification courses like NPTEL, UDEMY, COURSERA, CISCO, etc.
- Students those who secured best ranking in various courses; they are awarded with price money as a token of appreciation based on the R&D policy.

Table 9.4.6: Effective Utilization of Web-Based Learning and Certification Courses

9.4. B.2. Material for Learning Beyond syllabus

i. Digital Library

- The institution provides facilities like a digital library, which can access E-journals of J-Gate Science and Technology, N-Digital has E-Journals & E-Books, DELNET has E-Books & E-journals in Engineering & Technology, IEEE provides E-journals and magazines. We can provide 34 newspapers so students can utilize these sources during the leisure hours.
- The Digital Library has 20 computers and several E-Resources of e-journals, e-books; video lectures (like NPTEL) are made available in the Digital Library for effective teaching learning process.

Table 9.4.8: Availability of Digital Library Contents

Availability of Digital Library Contents: Yes Following digital contents are made available		
Content	Accessibility	
NPTEL Video Lecture	Access Provided to NPTEL Video Lecture Content	YES, through local Server
National Digital Library of India (NDL) IIT Kharagpur	Membership to NDL Digital Library of India	YES
Availability over Intranet /Internet	YES	
No. of users per day:	25 - 35 Per Day	

Table 9.4.9: Effective Utilization of Digital Library

Effective Utilization			
2017-18	2018-19	2019-20	2020-21
6869	5774	4134 (COVID IMPACT)	1837 (COVID IMPACT)

ii. Coaching's for competitive exams

- Institution provides coaching for GATE, aptitude, reasoning and workable training were given which makes the students attain effectively for their carrier growth.
- Mock interviews, aptitude test and group discussions are conducted periodically to evaluate performance of the students.
- Worksheets have been design on each topic and circulated to the student's to improve their practice exercise.

iii. Associations

- Institution level fests are organised in the campus where so many events are conducted like paper presentations, poster presentations, rangoli, project expos events are conducted to evaluate their presentation and communication skills.
- In order to provide more exposure to the students towards recent trends emerging technologies and to facilitate better interaction all the departments formed an associations in every year. The main aim of associations is to make sure the students become highly competitive and to acknowledge the inherent talents of the students in both technical and cultural fields.

Table 9.4.10: Type of Events Conducted Under TECHRITZ FEST

TECHRITZ FEST			
Event name	Technical quiz	AI workshop	Model expo
Demonstration			
Outcome	Students who actively participated in this fest have gained Technical skills in product development and won many prizes in different Events.		

iv. Research Publications

Faculty who have published various research publications in respective domains are provided in central library for reference purpose to the students for imparting knowledge to publish papers in their interested domain.

Table 9.4.11: Availability of Faculty Research Publication

S No	Type of Publication	Academic Year			
		2017-18	2018-19	2019-20	2020-21

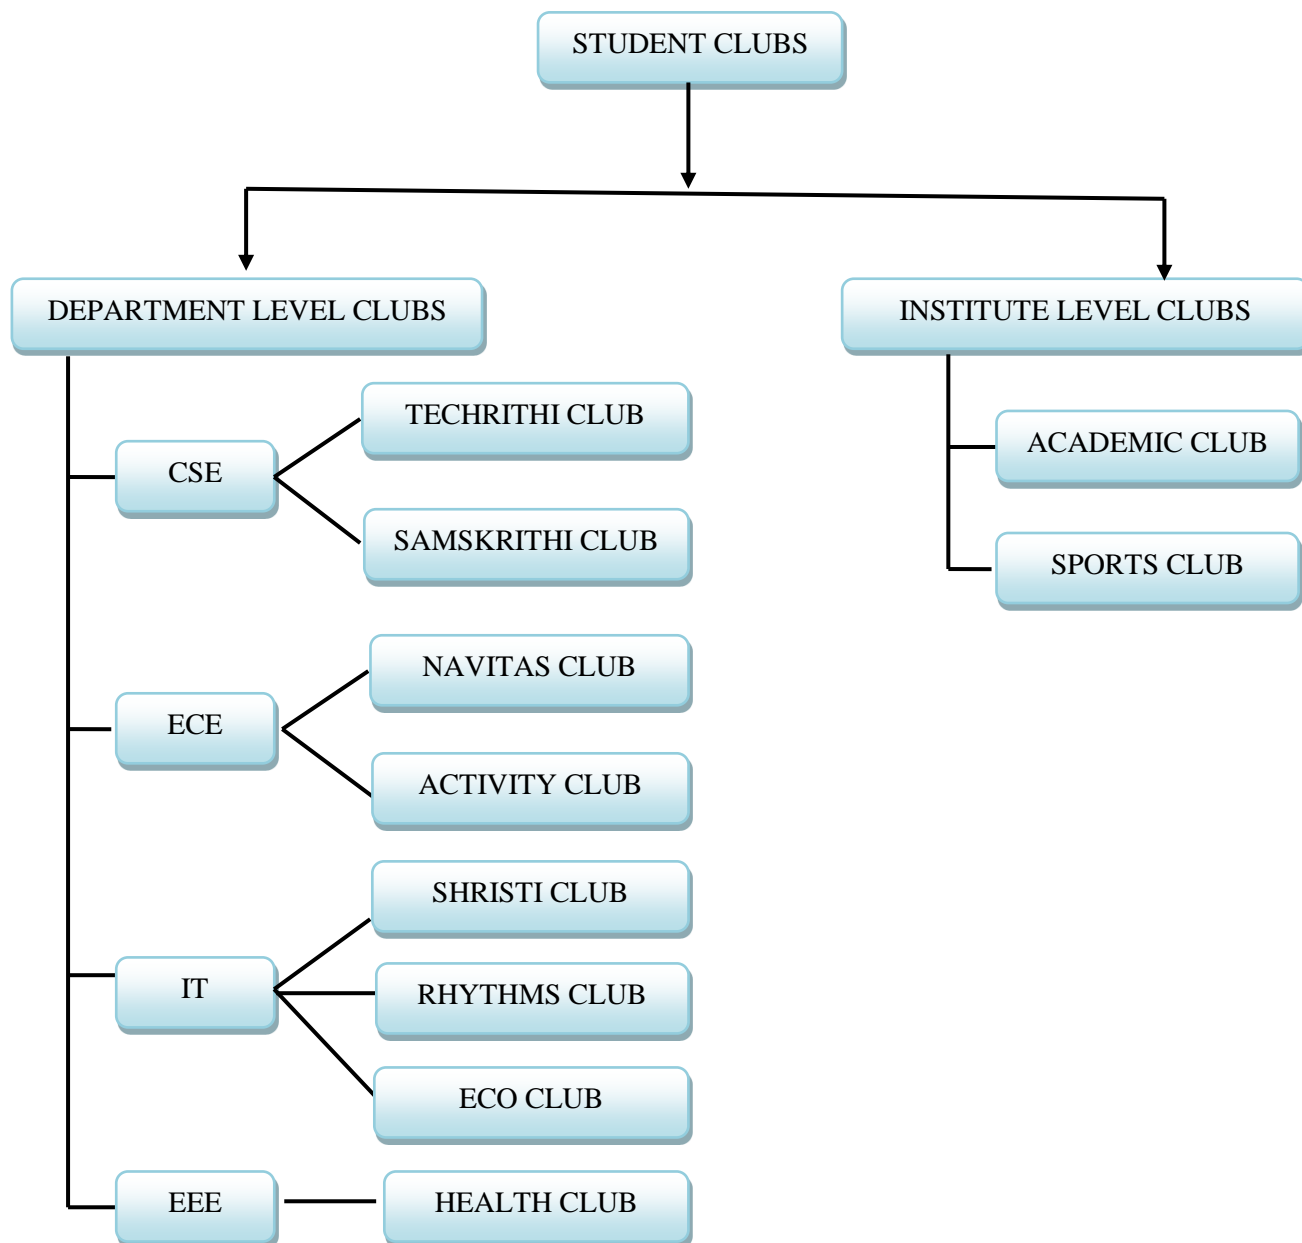

Figure 9.4.7 Illustration of effectiveness of student research publications

v. Student clubs

- Institution establishes so many student clubs in every year under those clubs many activities were performed in order to exhibit their skills like singing, dancing, mehendi etc. Every year blood donation camp was organised under health club.

**Figure 9.4.8 List of Student Clubs Available**

i) Institute Level Clubs

Academic club and Sports clubs were formed under Institute level. Workshops, seminars, and guest lectures are organized under Academic club. Sports events are conducted under sports club. Details of events conducted under the Academic club and Sports club are listed below.

Table 9.4.13: Consolidated Sheet of Events conducted under Academic Club

S.NO	Type of Event	Academic Year			
		2020-21	2019-20	2018-19	2017-18
1	Workshops	10	27	25	21
2	Guest lectures	12	16	17	15

**Figure 9.4.10: Sample of events conducted under Sports Club**

ii) Department Level Clubs

Techrithi Club, Samskrithi Club, Navitas Club ,Activity Club, Shristi Club, Rhythms Club, Eco Club, Health Clubs are formed under the department level wise individually. Under these clubs many events are conducted for the students to exhibit their technical, non-technical skills and extracurricular activities. The events conducted under these clubs are tabulated in Table 9.4.15 to 9.4.23.

Table 9.4.15: Consolidated Sheet of Department level Clubs

S.NO	Club Name	Academic Year			
		2020-21	2019-20	2018-19	2017-18

4	Activity Club	3	5	7	4
5	Shristi Club	1	3	1	-
6	Rhythm Club	1	3	1	1
7	Eco Club	1	3	1	1
8	Health Club	1	1	2	3

Table 9.4.16: Type of Events Conducted Under Techrithi Club

Academic Year	2017-18	2018-19	2019-20	2020-21
Event name	Science Quiz	Story Writing	Google It	Code Hunt
Student Committee	B. Harshavarshini	A.S.S.Subramanyaeswari	V. HarshiniChowdary	K.Poornima
Demonstration				
Outcome	Students actively participated in this club to increase their logically thinking and communications skills.			

Table 9.4.17: Type of Events Conducted Under Samskrithi Club

Academic Year	2017-18	2018-19	2019-20	2020-21
Event name	Nail Art	Flash Mob	Artsy Lens	Blue Day
Student Committee	K. Bhavishya	S. Malhotra	B.Niharika	P.Sarayu

<p>Demonstration</p>				
<p>Outcome</p>	<p>Students actively participated in this club can exhibit their creative thinking skills.</p>			

Table 9.4.18: Type of Events Conducted Under Navitas Club

Academic Year	2017-18	2018-19	2019-20	2020-21
Event name	Circuitrix	Quiz	Project Expo	Group Discussion
Student Committee	M.Selvi	Gayatri	Sushmitha Mondal	B.Jayasree
<p>Demonstration</p>				
<p>Outcome</p>	<p>Students actively participated in this club to increase their technical and communication skills.</p>			

Table 9.4.19: Type of Events Conducted Under Activity Club

Academic Year	2017-18	2018-19	2019-20	2020-21
Event name	Rangoli	Burst The Balloon	Throwball	Rainbow in the clouds
Student Committee	K.Jyostna Padmaja	Bhargavi	B.Leela	D.Sai Tejaswini
Demonstration				
Outcome	Students actively participated in this club can exhibit their extra curricular activities.			

Table 9.4.20: Type of Events Conducted Under Shristi Club

Academic Year	2018-19	2019-20	2020-21
Event name	Padha Yatra	Model Expo	Charito
Student Committee	Nammi Puja	Pilla Venkata Tanusha	Billapati Niharika
Demonstration			
Outcome	Students who participated in this club improved their volunteering skills, energy and money management. They Motivate towards the Social values.		

Table 9.4.21: Type of Events Conducted Under Rhythms Club

Academic Year	2017-18	2018-19	2019-20	2020-21
Event name	Dance Competition	Flash Mob	Queen of IT	Dance
Student Committee	G Keerthi sai reddy	K Shanmuki	P. Sirisha	G.Mounika
Demonstration				
Outcome	To Develop the self-confidence towards cultural and it helps to develop entrepreneurs in dance, fine arts. It also develops the event management.			

Table 9.4.22: Type of Events Conducted Under Eco Club

Academic Year	2017-18	2018-19	2019-20	2020-21
Event name	Anti-cracker rally	Swatchata Seva	Rally On “Save A Drop”	Online Essay Writing Competition on “Swatcchata : Tribute to Mahatma”
Student Committee	Bheemarasetty Bhanu Priyanka	Datti Pravallika	Jampa Sridivya	Pinninti Vandana
Demonstration				
Outcome	Students participated were grown very familiar with the responsibility towards environment and its sustainability which helped them stand unique in personal interviews			

Table 9.4.23: Type of Events Conducted Under Health Club

Academic Year	2017-18	2018-19	2019-20	2020-21
Event name	Blood Donation Campion “World Blood Donars Day”	The International Yoga Day	Awareness Program on Personal Hygene	Health Talk on “Impact of COVID19 on Human Behaviour”
Student Committee	N.Sharmini	K.Varsha Tejaswi	M.Deepthi Sree	D.Padmavathi
Demonstration				
Outcome	Students actively participated in this club have gained a unique skill which impacted many other students to aware of health hazards and safety measures.			

Effectiveness of Self-Learning at VIEW:

Self-Learning at VIEW has a huge response for its efficacy showing tremendous in developing products as illustrated below. These are the few highlights of outcomes of the self-learning at VIEW at national level published in various news papers.

5 city girls make gadget that will keep your stove burning

Kamalakara.Rao
@timesgroup.com

Visakhapatnam: Five girls from the city have invented a device that will alert consumers when their LPG (liquefied petroleum gas) cylinders are close to being empty and even when there are leakages. The girls have come up with a device that will have to be attached to the LPG cylinder.

The five girls are in their third-year of engineering in the electronics and communications stream at Vignar's Institute of Engineering for Women.

The girls who have come up with this transformative innovation are Ch Parimala, B Lalitha, K Niharika, K Lahari and B Geetha Bhavani. They were guided by associate professor Ch Ramesh Babu.

Speaking to TOI, Parimala said that they came up with the idea over routine chats at the college canteen. "Our intention was to create something that will help society," she said.

Discussing the invention, the girls said that when the device is attached to the cylinder, the device will send a message to both the user and the dealer

DEVICE THAT CAN SAVE LIVES

- ▶ The device alerts the user and the dealer if the cylinder is close to being empty a few days in advance
- ▶ The device will also alert the user if there is a gas leak
- ▶ Madhya Pradesh registers the highest number of LPG leakage cases
- ▶ Nearly one-sixth of deaths due to accidental fires are caused due to gas leakage
- ▶ There are **30 crore** LPG connections in India at the moment

(According to inputs given by students)

informing them if and when the cylinder is nearly empty. The information will also be displayed on the LCD. Moreover, the device will also alert when there is a leakage.

"We hope that our project will help reduce fire mishaps due to gas leaks. Moreover, the system provides a fully automated approach for booking cylinders," Parimala informed.

Lalitha, another member of the group said that even though technology and devices exist to detect and alert leakages many people in rural areas

are not aware of them. "We have introduced this prototype to help overcome such problems in rural areas," Lalitha said.

On being contacted, Anurag Shrivastava, general manager (LPG wing) of Hindustan Petroleum Corporation Limited (HPCL) said that the students can directly approach the HPCL's headquarters in Mumbai if they have come up with something novel. HPCL's team will review the project and if they find something novel in it they will do justice to the idea, Shrivastava informed.

A cheap robotic hand of foam to make life simpler

Kamalakara.Rao
@timesgroup.com

HANDS-FREE COMFORT

K Sumanjali, P Bhavya Kumari and B Sravani display the animatronic hand at an expo

Visakhapatnam: Three city students have designed a robotic 'hand' that can solve a lot of problems for the disabled. The device, which the students call an 'Animatronic hand', can also be used effectively by fire personnel or even people from pharma industry. The robotic hand can act as a duplicate hand for the user and imitates all movements of a hand in flesh and blood. The more interesting part is, one needs to 'wear' the hand.

Take the example of a bomb diffusion situation. To make things a lot safer, a cop can stay at a distance and the animatronic hand would do the job for him, imitating the movements of his hand, through a remote control. What's more, this robotic hand is really cost-effective and comes at a price lower than ₹10,000.

The hand has been built using foam sheet and fishing thread. The fishing threads are attached to five servo motors which control the movement of the hand. The three students, K Sumanjali, P Bhavya Kumari and B Sravani, are final year students of Information Technology at the Vignar Institute of Women Empowerment (View), Visakhapatnam.

Speaking to TOI, Bhavya said that they thought of creating the device with an intention to help the poor and the disabled. The market has such animatronic hands, she said, but these devices cost around ₹35,000 to ₹40,000.

"We have changed the conventional designs of a robotic hand to create this. We took the device to some expos where it received good response," Bhavya added.

Sumanjali told TOI that the hand can help people working in the chemical industry avoid skin diseases. "Many who work in pharma and chemical industries often face accidents and may even lose their arms since they work with strong acids. One can also use this hand for bomb diffusion," Sumanjali added.

Material used Foam, fishing string	Cost ₹10,000
---	------------------------

- ▶ **Gloved hand can control the robotic hand from a distance**
- ▶ The robotic hand imitates the movements of the gloved hand
- ▶ Robotic hands in the market cost ₹35,000 to ₹40,000 at least

CAN BE USED BY

- ▶ Disabled persons
- ▶ Security personnel for safer diffusion of bombs
- ▶ Firemen
- ▶ Pharma professional workers

Figure 9.4.11. Highlights of outcomes of the self-learning at VIEW published in various news papers

9.5 CAREER GUIDANCE, TRAINING & PLACEMENTs (10)

9.5.1. Career Guidance Facilities:

Vignan's Institute of Engineering For Women has an effective career guidance system with an effective committee and resources which helps students to decide correct and aspired career path. Career Guidance Cell (CGC) operates with the above stated committee in accordance with students at institute level and individual level.

- **Institute Level:** Programs which helps students to decide and work towards their desire career will be organized.
- **Individual Level:** Any individual students or the students recommended for career counselling will be directed to CGC and an expert counselling will be provided in choosing their desired career path and working towards it. Special cases directed by Principal, TPO and Program Coordinators will be guided accordingly by CGC whenever it is necessary.

Table 9.5.1. Career Guidance Cell Committee

S.No	Name of the Faculty	Position	Role
1	Dr.J.Sudhakar	Principal	Chairman
2	Dr.K.V.Ramana Rao	Training and Placement Officer(TPO)	Member
3	Mr.M.Krishna Kishore	Assistant TPO	Member
4	Dr.Akansha Mishra	Associate Professor	Member
5	Dr.P.Vijaya Bharati	Associate Professor	Member
6	Mr.G.Lakshmana	Assistant Professor	Member
7	Mr.G.Netaji	Assistant Professor	Member

The college regularly conducts Personality Development Programs to improve the communication skills of the students from rural background which reassures students of their skills and abilities to succeed. Guest speakers from various industries are invited to provide a broad exploration of various career options and industry knowledge to the students.

Various Career guidance programmes will be organized by the Career Guidance Cell at institute level which helps students to choose, work and achieve their desired career goals. These programs were categorized and will be commenced with the approval of principal and all the program coordinators. Such events were listed below in table 9.5.2.

Table 9.5.2. Career Guidance Programs conducted

S.No	Date	Name of the Speaker	Students Participated	Topic	Illustration
1	28-01-2019 & 29-01-2019	Mr.Suresh Kumar Tankala	316	Skills First... Jobs Follows	
2	19-03-2019	Lynn Perry	155	Seminar on International career guidance	

3	03-07-2017	Mr.Lakshmi ramVenugopal	150	Motivational Seminar – Acquire Knowledge, Save a life	
4	16-07-2021	Mr.Suresh Kumar Tankala	200	Preparation for Campus Placement	

9.5.2. Counselling For Higher Studies

Career Guidance Cell is also responsible for counselling the students for higher studies in the diversified fields of engineering or others in line with the interest and performance of the students. Various higher education awareness programs were conducted to give the detailed structure and instructions set for the students to enhance their knowledge to clear GATE/GRE, GMAT etc.

Table 9.5.3. List of Programs to counsel the students towards higher studies

S.No	Date	Topic	Resource Person
1	17.07.17	Awareness Program On Higher Education Given By Global Tree	Mr.Beesetty G V S Prakash, Business Development Manager
2	22.12.17	Oppurtunities In Abroad By Higher	Mr. Ch.Venkata Ramaiah,

		Studies	Marketing Manager
3	24.01.18	Preparation For GATE, ESE & PSU By Engineers Hub	Prof.A.W.Iqbal Dean Academics
4	16.06.18	Importance Of GRE,GMAT,TOEFL By Conduira	Mr.P.V.Rama Sasank, Director
5	13.12.18	Create Awareness On Overseas Education System	Mr.M.Babuji, Marketing
6	28.01.19	Opportunities In US by Global Reach	Mr.Sasi Kiran Nammi, Marketing Development Executive
7	27.12.19	Higher Education Awareness Program By PVK Educational Consultants	Ms.P.Pushpalatha, Director
8	04.02.20	An Insight Into The Preparation For Gate By Gate Academy	D.VijaySastry, Consulting Partner
9	03.09.21	Awareness Program On Design Courses Like CAD, CREO Etc	Apoorv Bapat, Founder And CEO, Eleation
10	06.10.21	Insight To The Preparation Of Python Programming, Android Apps And Web Development By Finland Labs	Jeetu Gupta,Finland Labs(Unit of Revert Technology Pvt. Ltd)

Apart of these programs, students those who desires counselling for higher studies will be direct to CGC for further guidance. CGC was chosen to have all the senior level faculty with the department expertise who are well aware of all the possibilities and can counsel the students. Wherever necessary the CGC recommends such students who are keen about their higher studies will be allotted with a mentor specialised in the respective fields.

Table 9.5.4. Effectiveness & Impact Analysis of CGC:

S.No	Name of the Student	Problem	Strategy to rectify problem of the Student	Efficacy/Outcome
1	<p>Pyla Mounika (A.Y. - 2018)</p> 	<p>Since she came from telugu background, she was not confident enough to face the campus drives.</p> <p>Due to lack of communication skills she was rejected in 16 companies.</p>	<p>She was continuously given moral support by the TPO and was given training for a period of one month to improve her communication skills</p>	<p>Got placed in JUSPAY company with a package of 12 lakhs per annum</p>
2	<p>Kotipalli Madhavi (A.Y. - 2019)</p> 	<p>As she was a mother of 2 kids she got break in her academics.</p> <p>Due to the breakage in her academic career she got rejected by 24 companies in final HR round.</p>	<p>With the guidance of TPO she has undergone internship training with a stipend of Rs 5000/- which helped her to get selected in campus recruitment drive.</p>	<p>Got placed in AMAZON Company with a package of 18 lakhs per annum.</p>
3	<p>Baliboyna Niharika (A.Y. - 2020)</p>	<p>She came from a family which is financially weak.</p> <p>At initial stages during campus recruitment she was unable to clear campus drives due to</p>	<p>With continuous support given from CGC & TPO she was able to gain her confidence back and backed her practical skills which helped her to get placed in one of the top MNC's in the country.</p>	<p>Got placed with a package of 19 lakhs per annum in AMAZON.</p>

		lack of confidence.		
4	<p>Dandela Sai Tejaswini (A.Y. - 2021)</p> 	As she is not from CSE background she struggled to learn and understand coding concepts.	She was given continuous support by In-house trainers to learn and improve her Coding Concepts and also encouraged to do courses related to aptitude and coding platforms like COURSERA, UDEM Y etc.	Got placed with a package of 6.5 lakhs per annum in Accenture.
5	<p>Maddi Annapurna (A.Y. - 2021)</p> 	She came from a poor financial background and unable to afford any trainings in addition to In-house Trainings	Under the guidance of In-house trainers she improved her coding skills and with the help of Academic Faculty members she completed real time projects and internships.	Got placed with a package of 6.5 lakhs per annum in Accenture.

**CAREER GUIDANCE CELL
EFFECTIVENESS**

2020-2021

**VIGNAN'S
INSTITUTE OF ENGINEERING FOR WOMEN**

Dandela Sai Tejaswini (18NM5A0412)

PROBLEM :
As she is not from CSE Background she struggled to learn and understand Coding Concepts

RECOMMENDATIONS :
She was given continuous support by in-house trainers to learn and improve her coding concepts and also encouraged to do courses related to aptitude and coding platforms like COURSERA, UDEMY etc.

EFFICACY:
Got placed for

Package
6.5
LPA

**CAREER GUIDANCE CELL
EFFECTIVENESS**

2020-2021

**VIGNAN'S
INSTITUTE OF ENGINEERING FOR WOMEN**

Maddi Annapurna (17NM1A0596)

PROBLEM :
She came from a poor financial background and unable to afford any trainings in addition to in-house trainings

RECOMMENDATIONS :
Under the guidance of in-house trainers she improved her coding skills and with the help of academic faculty members she completed real time projects and internships.

EFFICACY:

9.5.3. Pre-Placement Training

Pre-placement training at VIEW was developed to enhance the student's skills such as communication skills, soft skills, personality development skills and technical skills through outcome based education. Skill sets focused to be developed by Pre-placement training will be cumulated by the below Training & Placement Cell Committee from the employer feedbacks.

Table 9.5.5. Training & Placement Cell Committee

S. NO.	NAME	DESIGNATION	POSITION
1	Dr. J. Sudhakar	Professor	Principal
2	Dr.K.V.Ramana Rao	Associate Professor	Training and Placement Officer
3	Mr.M.Krishna Kishore	Assistant Professor	Assistant Placement Officer
4	Mr.J.Ravi Chandra	Assistant Professor	Technical Trainer
5	Mr. K.Srinivasa Rao	Assistant Professor	T & P coordinator – EEE
6	Mr.D.Kesava	Assistant Professor	T & P coordinator – ME

7	Mr.G.Lakshmana	Assistant Professor	Placements coordinator – ECE
8	Mr.E.Tataji	Assistant Professor	Training coordinator – ECE
9	Mr.R.Ravi	Assistant Professor	T & P coordinator – CSE
10	Mr.S.Sagar	Assistant Professor	T & P coordinator – IT
11	Mrs.M.Satyavathi	Assistant Professor	T & P coordinator – MBA
12	Mr.P.L.J.E.Kiran	Senior Assistant	T & P Assistant
13	Mrs.P.Pratyusha	Junior Assistant	T & P Assistant

The recommendations or the suggestions given by the employers and program coordinator will be taken in to the consideration while designing the Pre-Placement Training Calendar. The Pre-Placement Training from Training and Placement will be circulated among all the program for circulations.

Steps in designing Pre-Placement Training:

1. Acquiring feedback of employers and program coordinators.
2. Cumulative recommendations will be developed for the Principal Approval.
3. Preparation and circulation of Pre-Placement Training Calendar.
4. Instructing the students to finish pre-requisites through web-based learning.
5. Ensuring the conduct of Training programs as per the calendar.
6. Conduct of company specific trainings wherever a specific skill was required from the students through Job descriptions (JD).
7. Ensuring the students to be ready for placements before the campus interviews scheduling.

Implementation of Pre-Placement Training:

Post designing the Pre-Placement Training Calendar, a defined procedure will be implemented for executing the Pre-Placement Training:

1. From II B.Tech onwards two non credit courses were implemented such as:
 - a. Aptitude Training – Reference globe LMS (Life Time Access)
 - b. Technical Training (Core & Programming Skills) – Reference globe & Hackerrank
2. Before IV B.Tech, undertaking forms will be issued to all the students for their consent towards training.

3. Students reporting those who are not willing will be forwarded to CGC through TPO.
4. Students who accepted the undertaking, training will be processed through the following modules;
 - a. Campus Recruitment Training (Eligibility: above 60% aggregate in academics / special cases recommended by program coordinator through principal if any)
 - i. Product Development Training.
 - ii. Application Oriented Training.
 - b. Company Specific Training (as per the eligibility & JD)
 - c. Professional Internships (Through Campus hiring / Internshala)
 - d. Specialised Training (If any concerns from Principal/CGC/Program Coordinator)
5. Both the stated trainings will be carried out by the following organizations as stated where ever they were recommended by Principal and TPO.

Effectiveness & Impact Analysis Pre-Placement Training:

Effectiveness and impact analysis of our pre-placement training was illustrated in below Figure 9.5.1 which shows the continuous improvement in the last three academic years among all the programs. Percentage of students got placed who received pre-placement training was given in detail in the Table 9.5.8.

Table 9.5.8. Effectiveness of the Pre-Placement Training:

S No	Batch	Branch	Total Strength	Students Registered	Students Placed	%

9.5.4. Placement Process & Support

Placement Process & Support at Vignan's Institute of Engineering For Women was led by the Training & Placement Committee as stated in Table 9.5.5. In the beginning of the Placement Academic year, an invitation brochure with the prospects of our institution will be sent to different organizations meeting the standards of our students inviting to test, analyse and recruit our students. Placement support is inclusive of the TPC committee provided with dedicated seminar hall for pre-placement talks, board room for panel discussions, 3 interview panels with a provision for another 4 panels with restructuring for TR & HR interviews. Successive procedure of *Placement Process and Support* is as follows:

1. Inviting selective organizations/companies through institute prospects brochure.
2. Collecting the Job Descriptions of the organizations/companies to ensure the prerequisites of our students trained.
3. If any deficiencies or extra skills required will be asserted and forwarded to Principal through TPO for further approval of conduct.
4. Ensuring the students undergone pre-placement training meet the JD requirements.

5. Upon the campus hiring request received by the company, the same will be concerned the Principal and TP Cell Committee for further approval date of conduct of campus hiring with reference to step 4 & 5.
6. Schedule date/date's will informed to students through TP Cell for preparing themselves in prior for the campus hiring.
7. Ensuring the eligible students have all the documents verified by the respective member of TPC Committee at least 24 hours prior to the hiring process.
8. Conduct of the campus drive with all the amenities at our institution.
9. If the requirement of the company/organization is beyond the number of eligible students at our campus we are inviting in and around campuses students to participate in the campus hiring with social responsibility.
10. Feedback will be taken against the performance of our students for further improvement in the pre-placement training process.
11. Post hiring process, the list of selected students will be sent to Program coordinators through principal for further filing of offer letters/confirmation as proof of placement.

Effectiveness & Impact Analysis of Placement Process & Support:

The effectiveness of the Placement Process & Support system designed and adopted at VIEW was very effective over last three academic years and clearly illustrated in the Table 9.5.9. and is shown in Figure 9.5.2.

Table 9.5.9 Effectiveness of Placement Process & Support:

S No	Batch	Branch	Total Strength	Final Placements	% Placed
1	2014-18	CSE	170	142	83.52
		ECE	172	137	79.65
		EEE	59	47	79.66

		ECE	196	149	76.02
		EEE	121	77	63.63
		IT	54	42	77.77
Overall			2033	1589	78.16

Impact Analysis of Placement Process & Support:

Figure 9.5.2 Impact Analysis of Placement Process & Support

For the batch of 2015-2019 the core streams/programs has slight drop in number of students placed because of the recession in core streams and however for the software streams/programs

CSE & IT over the last three academic years there is a continuous improvement in number of students placed.

9.6. Entrepreneurship Cell (5)

(The institution may describe the facility, its management and its effectiveness in encouraging entrepreneurship and incubation) (Success stories for each of the assessment years are to be mentioned)

The Entrepreneurship Development cell in Vignan's Institute of Engineering for Women was established in the year 2012 under the supervision of the Department of Management Studies. The head of the Entrepreneurship Development cell is Dr. S Ramesh, HOD-MBA and a team of dynamic faculty coordinators from various departments together form a strong team in encouraging entrepreneurship. The goal of EDC is to assist the students, faculty and budding entrepreneurs within the college with start-ups or existing business in regards to the management of finances, marketing, product development and commercialization. The students are provided with the latest inputs about the industry, the dynamic changes happening around to make them understand the employability options and opportunities to help them create better opportunities.

The ED Cell functions on the following goals:

- To create an environment for self-employment, promote innovation and Entrepreneurship development through various programs
- To introduce the concept of Entrepreneurship as a part of the curriculum
- To promote employment opportunities
- Intellectual Property Rights/Management
- Help with Presentation Skills and Business Etiquettes
- Comprehensive Business Training Programs

9.6.1 Entrepreneurship Development Cell Committee

The members of the Entrepreneurship Development Cell Committee include Principal, Academic Director, All Head of the Departments and One faculty from each Department. The details of the committee are listed in Table 9.6.1.

Table 9.6.1: Members of the Entrepreneurship Development Cell Committee

S.No	Name	Designation	Position
1.	Dr.J.Sudhakar	Principal	Chairman
2.	Prof.A.Sesha Rao	Academic Director	Member
3.	Dr.K.Vijaya Kumar	HoD-CSE	Member
4.	Dr.Ch.Ramesh Babu	HoD-ECE	Member
5.	Dr.K.Durga Syam Prasad	HoD-EEE	Member
6.	Dr.B.Prakash	HoD-IT	Member
7.	Dr.V. Ananda Babu	HoD-MECH	Member
8.	Mr.M.Eswar Teja	Asst. Prof-MECH	Member
9.	Ms. V.V. Sai Santhoshi	Asst. Prof- EEE	Member
10.	Mr.L.Jagajeevan Rao	Asst. Prof- CSE	Member
11.	Mrs. B. Manjula	Asst. Prof- ECE	Member
12.	Dr. S. Ramesh	Assoc. Prof-MBA	Co-ordinator

9.6.2 Entrepreneurship Initiatives

The initiatives of the ED cell focuses on the development of primarily the students as well as the faculty therefore the programs are conducted as per the interests of the students either higher studies or placement assistance and training or entrepreneurship. The faculty who are interested in entrepreneurship or specialized in marketing are encouraged to attend various Faculty development programs, workshops and seminars in order to develop their skills and fulfill their interests.

Figure 9.6.1: ED Cell Structure

Connecting to the Industries

- Industry exposure is provided to the students and faculty on a regular basis
- The students are connected to the industries through interactive programs and career guidance.
- The students are encouraged to visit industries and learn about the advanced technology.
- MOUs with industries permit the students to take up industrial training and get hands on experience.

Connecting to the bankers

- The students are connected to the financial organisations through interactive sessions from experts.
- The information on loan approvals with agency systems support is given and the students are motivated.

Guest lectures from financial institutions

- Guest lectures from banking sectors like SBI, even MSME coordinators have been conducted and delivered lectures on funding.

- The guest lectures are conducted on a frequent basis.
- The lectures guide the students and faculty on how to approach various organisations for financial help.
- The experts guide the students in managing the finances while initiating a new start-up idea.

Guest lectures from industry experts

- We regularly and very frequently invite experts from industry to deliver their practical experiences and examples to students
- Each and every department of our college organizes and invite guest lectures from industry on various occasions
- The industrial lectures are a source of information for providing details on the various start up ideas.
- Experts from industries share their experience on the various hurdles that come during a start-up and how to overcome them.

Various Entrepreneurship activities organized in the institute are listed in the Table 9.6.2.

Table 9.6.2: Entrepreneurship Activities during the tenure 2017 to 2021

S.No	Date	Event	Resource Persons	Members Attended
1	02.08.2018 to 06.08.2018	5-Day Entrepreneurship Development Program in collaboration with Vignan University	Dr. D. Bhattacharya, VIT Mr. G. Nageswaran Director MSME Mr. B Kalyan Vardhan, Senior coordinator MSME Mr. K Satish,CEO 9 Solutions	3 rd and Final Year Students of all Branches
2	26.11.2019	Entrepreneur Development Program in coordination with Software Technology Parks of India	Mr. P. Dubey, Joint Director STPI Mrs M. Lakshmi, CEO ,PATRA Mr. R.L. Narayana, President ITAIP Mrs. P Neeraja, HR IEMEG	3 rd and Final Year Students of all Branches
3	10.02.2020 to 22-02-2020	Two Week National Level Faculty Development Program sponsored by DST	Dr. P Satish Dr. P.S. Ravindra Mrs. Padmaja	Faculty of all branches

		and Organised by National Institute for Small and Medium Enterprises	Dr. Ch. Govinda Rao	
4	10.10.2020	One Day EDP Programme on Banks Role in Financing to Budding Entrepreneurs.	Mr. K.S.N.Murthy, General Manager, S.B.I, Zonal Office, Visakhapatnam.	3 rd and Final Year Students of all Branches
5	02.05.2021	Online EDP on Digital Marketing for Entrepreneurs.	Mr. Prasanth SD, Founder & MD, KwikBox.	3 rd and Final Year Students of all Branches
6	31.05.2021	STPI-Students submitted their ideas and proposals to CHUNAUTI event.	Mr. Dubey Joint Director, STPI.	Students of ECE.

9.7. Co-Curricular and Extra-Curricular Activities (10)

As per our vision, institute constantly believes to produce not only the knowledgeable students but professionals of all round personality by providing various co-curricular and extracurricular activities. We believe that it helps not only getting placements but also helps them to grow their leadership qualities.

9.7. A. Availability of sports and cultural facilities (3):

Sports provide an invaluable opportunity for our students to interact, keep fit, pursue excellence and work in teams. Our sports facilities are extensive and well-equipped, catering to a wide range of sports. There are indoor game facilities as well as extensive space for outdoor sports.

Table 9.7.1: List of indoor and outdoor game facilities available in the campus

S. No	Name of the sport facility	Quantity	Place of availability
1.	Throw ball nets	07	PD ROOM
2.	Throw balls	09

Available Cultural Facilities:

A vibrant learning experience is about more than just classroom sessions. Guest lectures, symposia, seminars and conferences expose students to key insights, new ideas and a chance to engage with peers and experts in discussion and debate. Our 300-seater seminar hall (68.6" X 47.7") facilitates this free interplay of ideas. Air conditioned and equipped with modern equipment such as multimedia projectors and high quality sound systems, it has guest lobbies and verandahs, which are ideal venues for conferences and exhibitions. Many dignitaries have graced this imposing edifice.

9.7. B. NCC, NSS and other Clubs (3):

The self- funding of National Service Scheme (NSS) unit of **Vignan’s Institute of Engineering for Women (VIEW)** is very active in organizing awareness rallies and programs to create awareness among the public on environmental relevant issues. NSS unit of VIEW identifies interested students to conduct social awareness programs in surrounding regions. It also encourages students to learn through service.

9.7. B. 2: Students Clubs

For Smooth Conduction of various co-curricular and extra-curricular activities, different students clubs are formed at departmental and institution level as followed:

I. Co-Curricular Activities

Co-curricular activities are attempted alongside with academic studies. Most commonly, outside the normal classrooms co-curricular activities are performed and they augment academic curriculum and lend a hand for learning by doing. These activities help students to enhance their problem-solving, critical thinking, reasoning, creative thinking, communication, and collaborative abilities. Involvement in any co-curricular activities helps students in emotional development, social skill development, and overall personality development.

By providing the co-curricular activities with various clubs, the students immensely gained rapid advancement in their career.

Following are the names of clubs available in co-curricular activities

- A. Academic club
- B. Techkrithi club
- C. Activity club
- D. Navitas club
- E. Shristi club

A. ACADEMIC CLUB:

This club enhances the students' knowledge levels towards latest trending technologies through **workshops, seminars and guestlectures** which excel them in their academic projects and crack Technical Interviews.

Table: 9.7.8: List of events conducted by the Department of Computer Science Engineering (CSE) under academic club

S.No.	Event	Academic Year			
		2020-21	2019-20	2018-19	2017-18

3	Seminars	1	2	2	4

Figure 9.7.5: Illustrations of various workshops, Seminars and Guest Lecture

B.TECHKRITHI CLUB

This club emphasizes student's logical thinking, coding and communication skills beyond textual knowledge and to establish a relationship between theory and applications of the concept.

Table: 9.7.12. :List of events conducted by the Department of Computer Science Engineering (CSE) under Techkrithi Club

Academic Year			
2020-21	2019-20	2018-19	2017-18
2	7	2	1

C. ACTIVITY CLUB

This club improves student's imagination skills, cognitive skills in a collaborative and communicative way to experience as an individual and teamwork.

Table: 9.7.13: List of events conducted by Department of Electronics and Communication Engineering (ECE) under Activity Club

Academic Year			
2020-21	2019-20	2018-19	2017-18
3	5	7	4

D.NAVITAS CLUB

This club focuses student's demonstration skills which helps them to clear technical and personal rounds in the campus interviews.

II. Extra-Curricular Activities:

Students who involve themselves in extra-curricular activities learn how to commit in a specific thing they get involved in. Extracurricular activities are supremely important in a student's life. Students who engage in extracurricular activities meet new individuals and can enlarge their sphere which is also advantageous in finding better career opportunities. Skills like collaboration, time management, activity management, group leading and many more additional abilities can be enhanced. Students who participate in sports and other group activities possess better leadership skills and learn how to grow relations with each other.

By providing the extra-curricular activities with various clubs, the students immensely gained rapid advancement in their career.

Following are the names of clubs available in the extra-curricular activities:

- A. Sports Club
- B. Samskrithi Club
- C. Rhythm Club
- D. Eco Club
- E. Health Club

A. Sports Club:

This club enriches student's sports skills which helps them to stay fit also improves their stamina and excel in various zonal, national sports events.

Table 9.7.16: List of sport events conducted at Institute Level under Sports Club

---------------------	--	--------------

10.1. ORGANIZATION, GOVERNANCE AND TRANSPARENCY (40)

10.1.1. State the Vision and Mission of the Institute (5)

(Vision statement typically indicates aspirations and Mission statement states the broad approach to achieve aspirations)

VISION OF THE INSTITUTE

To be a leading institution of women empowerment producing internationally accepted professionals with psychological strength, emotional balance and ethical values.

MISSION OF THE INSTITUTE

M1: To empower women engineers through innovative teaching learning practices.

M2: To encourage higher education and research with well-equipped laboratories.

M3: To promote entrepreneurship through creativity and innovation.

M4: To promote environmental sustainability and inculcate ethical, emotional and social consciousness.

Appropriateness/Relevance of the Statements:

There has been an emerging need in the local society for providing an exclusive time and space for girls in technical education. Addressing this socio and economic concerns of the society, The Institute is established with total women empowerment as its chief motto. The aim is to provide competent women technical power keeping the demands of the industry along with providing a robust economic boost to the family in the form of a technically educated and trained woman professional. Apart from these aims the college has kept its vision on simultaneously equipping the girl students physically fit, psychologically strong to face the challenges in the society.

The activities are planned in such a way that the girl gets transformed into a competent and complete woman with technical expertise, self-reliance, psychological strength, emotional balance, ethical values and social consciousness. Setting highest ethical standards at all aspects of college activity the girl is imbued with right kind of moral attitude. Overall, the Vision and Mission statements are to transform the girl into a complete woman through the comprehensive cycle of change at the Institute.

10.1.2. Governing Body, Administrative Setup, Functions of Various Bodies, Service Rules, Procedures, Recruitment and Promotional Policies (10)

(List the governing, senate, and all other academic and administrative bodies; their memberships, functions, and responsibilities; frequency of the meetings; and attendance therein, in a tabular form. A few sample minutes of the meetings and action-taken reports should be annexed. The published rules including service rules, policies and procedures; year of publication shall be listed. Also state the extent of awareness among the employees/students)

10.1.2 (A) GOVERNING BODY

The institution has a well defined and structured governance system headed by the governing body which is an apex committee that oversees the overall development and continuous growth of the institution in lines with the established vision. The Governing body is comprised of 15 eminent people from industry and academia to bring in the necessary balance. The term of the members, except the ex-officio member, shall be three years.

Functions of Governing Body:

1. To monitor the academic, student, faculty development and other related activities of the college.
2. To approve the recommendations of the Staff Selection Committee.
3. To consider for implementation the important communications, policy decisions received from the University, Government, AICTE, etc.
4. To consider the recommendations of the Planning and Monitoring board of the college from implementation.
5. To prepare and approve the annual budget of the college.

Frequency of Meeting and Quorum:

The Governing Council shall meet at least twice a year. The quorum for the meeting shall be 2/3 of the total members of the Governing Council.

Composition of the Governing Body:**Table 10.1 Composition of the Governing Body**

11	Dr.J.Sudhakar	Member Secretary
12	Prof.A.Sesha Rao	Member

The following members have requested for leave of absence expressed their inability to attend meeting.

- 1 Dr. CD Malleswar
- 2 Sri. R.Bala Murugan

At the outset Dr.L.Rathaiah, Vice-Chairman welcomed all the members of Governing Council to the Meeting. He expressed confidence in getting the cooperation and support from other members of the Governing Body in effective discharge of his duties. He gave the opening remarks and spoke about important developments that took place in the College, construction of new academic block, New Canteen, placement record, overall results of the college and appreciate the faculty members for their efforts in achieving the excellent results in UG and PG courses.

The Vice-Chairman requested **Principal** to present the agenda notes for discussion. Principal welcomed Sri.B.K.Surya Prakash, who has been recently nominated by the State Government as Govt. nominee to the Governing Body.

The following items are discussed and the corresponding resolutions are adopted:

Item-1 Confirmation of the minutes of the earlier meeting held on 05.03.2016

The minutes of the meeting of the Governing Body held on 05.03.2016 were circulated to all the members for their comments. As there were no comments, it was declared that the minutes were confirmed.

Resolution No. VIEW/GBM/4/2017/1

The Governing Body resolved to approve the minutes of the meeting held on 5th of March, 2016.

Item-2 Report by the Principal on the progress of the College during the Academic Year 2016-17

Principal gave a Power point presentation on various activities of the college since the last Governing Body meeting. Copy of the same was perused by the members and approved.

Resolution No. VIEW/GBM/4/2017/2.1

The Governing Body resolved to express its satisfaction upon the admissions into B.Tech., and M.B.A. for the academic year 2016-17 under the prevailing conditions, and suggested to take necessary steps for improvement of admissions in M.Tech.

Resolution No. VIEW/GBM/4/2017/2.2

The Governing Body reviewed the results of UG and PG programmes and expressed its happiness over the performance.

Resolution No. VIEW/GBM/4/2017/2.3

The Governing Body noted and placed on record its happiness about the University First Place in JNTUK first year results with 71.15 per cent. The Governing Body is pleased to note that 94 per cent of 365 students are achieved first class with distinction.

Resolution No. VIEW/GBM/4/2017/2.4

The Governing Body is pleased to note that 273 out of 315 eligible students are placed as on date in different organizations during the academic year 2016-17. The Governing Body noted with great satisfaction over the performance of two students excelled in Microsoft with annual package of 9.78 Lakhs and one student excelled in Juspay with annual package of 12 Lakhs.

Resolution No. VIEW/GBM/4/2017/2.5

The Governing Body is overwhelmed with happiness for achieving 3 Prathibha Awards from JNTUK which were presented in the academic year 2016-17 for the achievement of the academic year 2015-16

Resolution No. VIEW/GBM/4/2017/2.6

The Governing Body recognized the efforts of the faculty in getting research projects worth Rs.32.58 lakhs from Science and Engineering Research Board (SERB), Department of Science and Technology (DST) and expressed happiness over the progressive mind-set of the faculty.

Resolution No. VIEW/GBM/4/2017/2.7

The Governing Body noted with pleasure that 4 faculty are awarded Ph.D. It is also noted that 7 faculty members submitted their Ph.D. theses and 18 faculty members pursuing Ph.D. The governing Body congratulated their effort and promised continued support to faculty in such efforts.

Resolution No. VIEW/GBM/4/2017/2.8

The Governing Body while expressing its satisfaction about the publications by the faculty suggested the administration to encourage the faculty for more publications in reputed journals and conferences.

Resolution No. VIEW/GBM/4/2017/2.9

- I. The Governing Body complimented the staff for conducting Training Programmes, Workshops etc. for faculty and students.
- II. The Governing Body noted that nearly 30 faculty of the College attended short-term courses, training programmes, workshops, etc. organized by other Institutions which include IIITs/NITs/IITs.

Resolution No. VIEW/GBM/4/2017/2.10

The Governing Body expressed its happiness about revision of pay structure of faculty as per the recommendations of 6th Pay Commission of AICTE.

Resolution No. VIEW/GBM/4/2017/2.11

The governing Body expressed its satisfaction that the students are actively participating in co-curricular, sports, social, ethical, cultural and other activities. Also expressed their happiness for achieving first place in JNTUK Central Zone Kho-Kho completion.

Resolution No. VIEW/GBM/4/2017/2.12

The Governing Body was elated to know that a number of distinguished personalities visited the College and made delightful comments about the College.

Item-3 Ratification of selected faculty and approval for fresh recruitment.

A report on faculty selections made and requirement of faculty for the academic year 2016-17 is circulated to the members of the Governing Body. After perusal of the report by the members, the following resolutions are made:

Resolution No. VIEW/GBM/4/2017/3.1

- i. The Governing Body noted with satisfaction that the services of 84 existing faculty are ratified, 5 faculty are selected for higher position and 12 new faculty are selected through the interviews conducted by JNTU-Kakinada.
- ii. The Governing Body resolved to convey it's thanks to the JNT University-Kakinada for arranging faculty selections/ratification of services of existing faculty

Resolution No. VIEW/GBM/4/2017/3.2

The Governing Body noted that 18 new faculty joined during this period through University selections and College level selections.

Resolution No. VIEW/GBM/4/2017/3.3

The Governing Body authorized the Chairman, Governing Body to recruit the additional faculty required.

Item-4 Income and expenditure status for the financial year 2016-17

The Principal sought permission from the members of the Governing Body to circulate the income and expenditure for the financial year 2016-17 later as the accounts are to be finalized.

Resolution No. VIEW/GBM/4/2017/4.1

The Governing Body resolved to permit the Principal to circulate the income and expenditure under autonomous status for the financial year 2016-17 later as the accounts are to be finalized.

Item-5 Budget Allocation for the financial year 2017-18

The proposed budget for the financial year 2017-18 as prepared by the Finance Committee is circulated to the members.

Resolution No. VIEW/GBM/4/2017/5.1

The Governing Body approved the proposed budget for the Academic year 2017-18 as prepared by the Finance Committee. The allocation of Budget is:

Institutional Level: 124,225,000/-

Department Level: **ECE:** Rs.31,070,000/-; **CSE:** Rs.29,488,000/-; **EEE:** Rs.14,847,000/-; **IT:** Rs.6,356,000/-; **ME:** Rs.68,79,000/-; **BS&H:** Rs.27,686,000/-; **MBA:** Rs.78,99,000/-;

Library: Rs. 9,50,000/-

Resolution No. VIEW/GBM/4/2017/5.2

The Governing Body approved the proposed budget for the Academic year 2017-18 as prepared by the Finance Committee.

Item-6 Proposals for the Approval of Governing Body***Resolution No. VIEW/GBM/4/2017/6.1***

The Governing Body resolved to approved the proposal of NAAC Accreditation application process followed by permanent affiliation and 2(f) and 12(b) and suggested to to take necessary steps to apply for NAAC Accreditation.

Resolution No. VIEW/GBM/4/2017/6.2

The Governing Body resolved to approved the proposal of Recruitment of Staff with Ph.D to maintain at least two doctorates in each Department.

Resolution No. VIEW/GBM/4/2017/6.3

Approval is accorded for Introduction of Merit Scholarship Scheme to meritorious students of outstanding performance.

Resolution No. VIEW/GBM/4/2017/6.4

The Governing Body approved the proposal of Implementation of R&D policy To create a conducive platform for encouraging the faculty to undertake cutting-edge research and to produce quality output.

Resolution No. VIEW/GBM/4/2017/6.5

Approval is accorded for adding the following amendments in Leave Policy from the academic year 2017-18 to all permanent employees.

- a) Medical leaves
- b) Paternity leaves
- c) Special casual leave

Resolution No. VIEW/GBM/4/2017/6.6

The Governing Body approved the proposal of the following infrastructure additions for the academic year 2017-18 and approved the required funds for:

- a) Renovations to Seminar Hall
- b) Completion of Construction of a Canteen building
- c) Construction of Open Auditorium with sponsorship

Resolution No. VIEW/GBM/4/2017/6.7

Approval is accorded to Organise International Conference on “**Mathematical Applications in Computing and Statistics**” by department of Basic Science and Humanities in the academic year 2017-18 and approved the required funds.

Resolution No. VIEW/GBM/4/2017/6.8

Approval is accorded to finance committee, non statutory committees i.e. Planning and Evaluation Committee (PEC), Grievance appeal Committee (GAC), Examination Committee (EC), Admission Committee (AC), Library Committee (LC), Student Welfare Committee (SWC), Extra-curricular Activities Committee (ECAC), Academic Audit Committee (AAC) and other committees i.e. College Management Committee (CMC), Policy Perceptive Committee (PPC), College Development Committee (CDC), PG-Committee (PGC), UG Committee (UGC), Department Development Committee (DDC), Hostel Management Committee (HMC), Anti-Ragging Committee (ARC), Purchase Committee (PC), Research Committee (RC), Training & Placement Committee (T&PC), Faculty Recruitment Committee (FRC) and Women Protection/Empowerment Committee (WPEC).

Minutes of the 20th meeting of Board of Governors

Vignan's Institute of Engineering for Women

Held on **December 22, 2017** at 10.00 a.m. at Board Room, VIEW, Visakhapatnam

Members Present

1	Dr. L. Rathaiah	Vice-Chairman
2	Padma Bhushan Sri.Dr. Y Lakshmi Prasad	Member
3	Sri K Pavan Krishna	Member

The minutes of the meeting of the Governing Body held on 12.11.2019 were circulated to all the members for their comments. As there were no comments, it was declared that the minutes were confirmed.

Item-2 Report by the Principal on the progress of the College during the Academic Year 2019-20

Principal Dr.J.Sudhakar gave a Power point presentation on various activities of the college since the last Governing Body meeting. Copy of the same was perused by the members and approved.

Resolution No. VIEW/GBM/4/2020-21(1)/2.1

The Governing Body resolved to express its satisfaction upon the admissions into B.Tech., and M.B.A. for the academic year 2019-20 under the prevailing conditions, and suggested to take necessary steps for improvement of admissions in M.Tech.

Resolution No. VIEW/GBM/4/2020-21(1)/2.2

The Governing Body reviewed the results of UG and PG programmes and expressed its happiness over the performance.

Resolution No. VIEW/GBM/4/2020-21 (1)/2.3

The Governing Body noted and placed on record its happiness about the final year results with 93.31 percent which is more than the results of 2018-19.

Resolution No. VIEW/GBM/4/2020-21 (1)/2.4

The Governing Body is pleased to note that 390 out of 443 eligible students are placed as on date in different organizations during the academic year 2019-20.

Resolution No. VIEW/GBM/4/2020-21 (1)/2.5

The Governing Body noted with pleasure that 3 faculty are awarded Ph.D. It is also noted that 5 faculty members submitted their Ph.D. theses and 30 faculty members pursuing Ph.D. The governing Body congratulated their effort and promised continued support to faculty in such efforts.

Resolution No. VIEW/GBM/4/2020-21 (1)/2.6

The Governing Body while expressing its satisfaction about the publications by the faculty, sanctioning of AICTE sponsored STTP, Sanctioning of TEXAS Instruments Sponsored lab for Embedded systems is established in the Department of ECE in collaboration with Texas Instruments (TI) Bangalore, Sanctioning of TEXAS Instruments Sponsored lab for Internet of Things Lab & Advanced Microprocessors Lab is established in the Department of IT in collaboration with Texas Instruments (TI) Bangalore, granting of Summer Research Fellowship Program by Indian Academy of Sciences (IASc) and Indian National Science Academy and suggested the management to encourage the faculty for more publications in reputed journals and conferences.

Resolution No. VIEW/GBM/4/2020-21(1)/2.7

The governing Body expressed its satisfaction that the students are actively participating in co-curricular, sports, social, ethical, cultural and other activities especially Industrial Visit to ISRO, participation in virtual paper presentation and poster presentations, UBA activities.

Item-3 Ratification of selected faculty and approval for fresh recruitment.

A report on faculty selections made and requirement of faculty for the academic year 2019-20 is circulated to the members of the Governing Body. After perusal of the report by the members, the following resolutions are made:

Resolution No. VIEW/GBM/4/2020-21 (1)/3.1

- i. The Governing Body noted with satisfaction that the services of 80 (50%) existing faculty are ratified by JNTU-Kakinda.
- ii. The Governing Body resolved to convey it's thanks to the JNT University-Kakinada for arranging faculty selections/ratification of services of existing faculty.

Item-4 Income and expenditure status for the financial year 2019-20

The Principal sought permission from the members of the Governing Body to circulate the income and expenditure for the financial year 2019-20 later as the accounts are to be finalized.

Resolution No. VIEW/GBM/4/2020-21 (1)/4.1

The Governing Body resolved to permit the Principal to circulate the income and expenditure under autonomous status for the financial year 2019-20 later as the accounts are to be finalized.

Item-5 Budget for the financial year 2020-21

The proposed budget for the financial year 2020-21 as prepared by the Finance Committee is circulated to the members.

Resolution No. VIEW/GBM/4/2020-21 (1)/5.1

The Governing Body approved the proposed budget for the Academic year 2020-21 as prepared by the Finance Committee. The allocation of Budget is:

Institutional Level : 132,250,000/-

Department Level: **ECE:**Rs.28,258,000/-; **CSE:** Rs.35,959,000/-; **EEE:** Rs.16,896,000/-

IT: Rs.10,463,000/-; **ME:**Rs.4,718,000/-; **BS&H:** Rs.31,067,000/-; **MBA:** Rs.4,889,000/-:

Library: Rs.500,000/-

Item-6 Proposals for the Approval of Governing Body**Resolution No. VIEW/GBM/4/2020-21 (1)/6.1**

6.2.1 Approval is accorded for applying 2(f) and 12(b) status through an indemnity bond in accordance with the terms and conditions of the grant and not for any other purpose or any other institution.

6.2.2 The institute shall fulfil any other terms and condition lay down in indemnity bond.

Resolution No. VIEW/GBM/4/2020-21 (1)/6.2

Approval is accorded for organizing International Conference by ECE & EEE departments each during the academic year 2020-21.

Resolution No. VIEW/GBM/4/2020-21 (1)/6.3

Approval is accorded for setting up of New Computer Lab for JNTUL Online exams with 80 systems.

Resolution No. VIEW/GBM/4/2020-21 (1)/6.4

Approval is accorded to construct separate hostel block for women's in VIEW campus to overcome the accommodation problems in present Hostel.

Resolution No. VIEW/GBM/4/2020-21 (1)/6.5

Approval is accorded to construct Two & Four wheeler parking shed in VIEW campus as per the request raised by the students and staff.

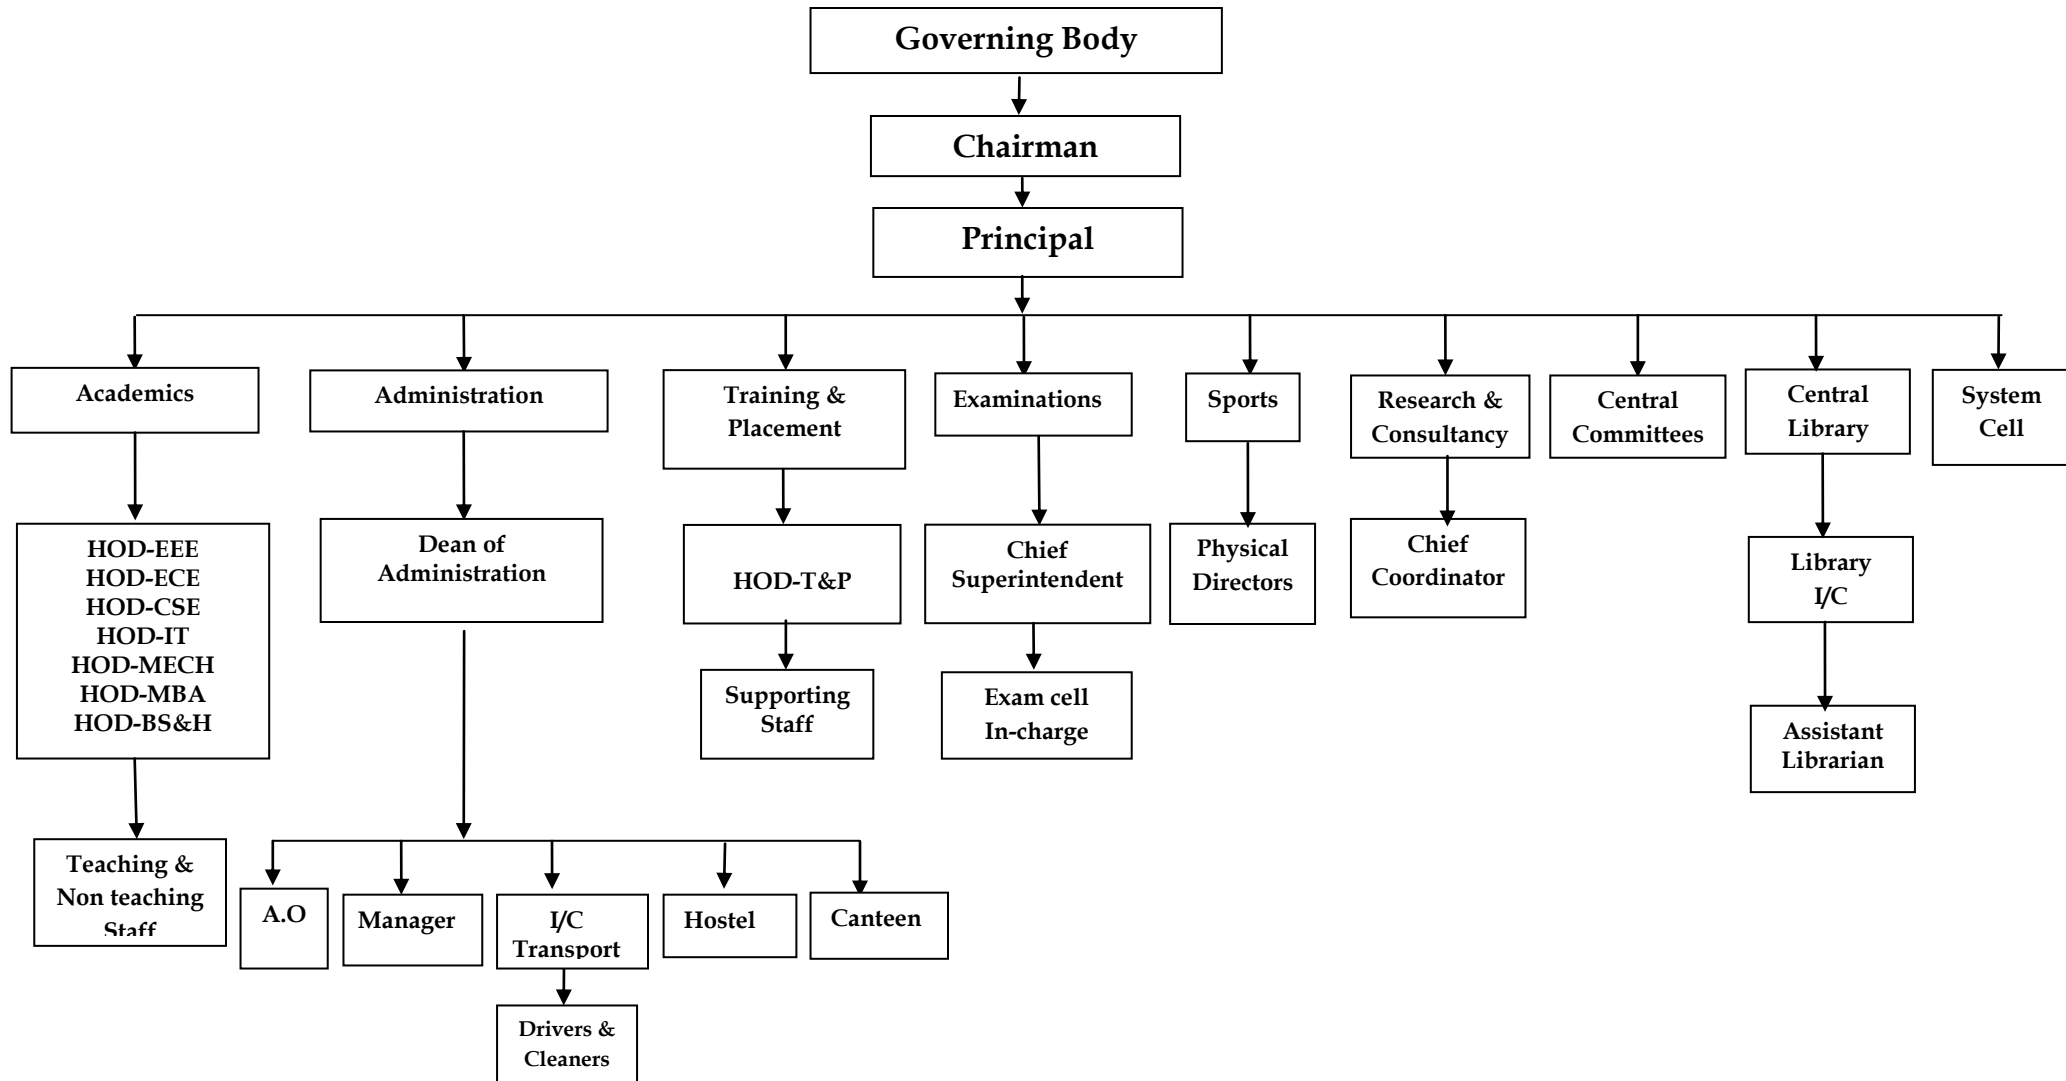

10.1.2(B) ADMINISTRATIVE SETUP

The Institute has a well marked administrative set up conforming to the norms of the AICTE and the UGC.

- ✓ The Principal wields the powers with regard to financial and to all the academic and administrative matters including the conduct of examinations.
- ✓ Each of the departments has a head of the department who, in turn, assigns various tasks to different members of faculty.
- ✓ For undertaking examination oriented tasks, Principal is the Chief superintendant of Examinations.
- ✓ As far as the administrative functions are concerned, the Dean of administration and the manager looks after the activities executed by clerical, programming, data entry and ministerial staff.
- ✓ The departments have their own respective department offices which function under the guidance of respective heads of departments.
- ✓ All the monetary transactions (both the receipts and payments) are processed through a nationalized bank.
- ✓ On the whole, the members of faculty and nonteaching staff of the college believe in the dignity of labour, and all the functions of the college are meticulously planned, properly coordinated and perfectly executed.

The structure of the institutional management is shown below:

VIGNAN'S INSTITUTE OF ENGINEERING FOR WOMEN: ORGANIZATIONAL STRUCTURE

10.1.2 (C) DUTIES AND RESPONSIBILITIES OF ADMINISTRATIVE AUTHORITIES**(i) Principal**

The Principal is the administrative head for all the activities of the Institution. He is responsible for implementation of all the policy decisions of the management with a view to achieve the set targets.

As the head of the Institution, the Principal is a leader who inspires the students and the staff and motivates them for cordial working atmosphere to make the institution excel well. The following are the important functions:

Academic:

1. The Principal shall make arrangements for planning the various courses to be offered and the preparation of course materials
2. The Principal shall supervise the course timetable, staff allocation, staff attendance and syllabus coverage.
3. He/She shall ensure the conduct of internal continuous assessment examinations at appropriate periods.
4. He/She shall monitor the student projects, progress and the University examinations (theory and practical).
5. He/She shall review the reports of the analysis of test marks of the students and arrange for special coaching etc for academically poor students.

General Administration and Finance:

1. The Principal shall convene the Governing council meeting at least once in every semester.
2. The Principal shall make recommendations regarding plans for the development of the institution in the years to come.
3. He shall help the creation of necessary infrastructure for a conducive atmosphere for education in the campus.
4. He shall ensure the appointment of qualified staff (both teaching and non -teaching)
5. All correspondences within the campus and to outside organizations and the University will be done through the Principal with the approval of the Chairman
6. The Principal shall convene the HODs meeting at least once in 15 days and maintain the Minutes book.

7. Principal is assisted by the Finance committee and purchase committee in financial administration.
8. The Principal or the officer delegated with such powers shall counter sign all kinds of scholarship bills in respect of students of the college.

Student Affairs:

1. The Principal shall plan for offering value-added courses, training and placement opportunities and educational tour to the students.
2. He shall provide avenues for co-curricular, extra-curricular activities, professional societies and counseling and guidance programmes to the students.
3. He shall arrange for the periodical monitoring of students attendance and their progress in studies and arrange for parent-teacher meetings as and when necessary.
4. He shall take appropriate action to ensure that the rules and regulations are strictly followed by the students.
5. The Management expects the Principal to be a coordinating point to ensure that all the policies of the management are implemented and promote the college as an excellent educational institution.

Research and Extension Activities:

1. The Principal shall encourage conducting of seminars and symposia and such research – oriented activities in the campus.
2. He shall encourage the staff to become members of professional bodies, carry out consultancy works, mini projects and other extension activities.

(ii) Head of the Department

An efficient Departmental head is a well disciplined and dedicated person with leadership qualities. He motivates the Students and Staff to perform their respective academic / administrative duties and responsibilities. His *duties* are as under:

1. Check the attendance register every week and sign after verification.

10.1.2 (D) ACADEMIC AND ADMINISTRATIVE BODIES:

The following is the list of academic and administrative bodies constituted to work towards to betterment of all stakeholders of the Organization.

(a) Internal Quality Assurance Committee (IQAC)

Internal Quality Assurance Cell (IQAC) has been promoting measures for institutional functioning towards quality enhancement through internalization of quality culture and institutionalization of best practices.

Table 10.2 Composition of IQAC

Sl. No	Designation	Recommendation of IQAC	Name of office bearer
1.	Chairperson	Head of the Institution	Dr.J.Sudhakar –Principal, VIEW
2.	Senior Teacher	One of the senior faculty as the Coordinator of the IQAC	Dr. Akanksha Mishra, Professor, EEE
3.	Admin. Representative	Few Senior Administrative Officers	Dr. P.S.Ravindra, Dean-Admin Mr.P.Chandra Sekhar Babu,
4.	Senior faculty representatives	Three to eight teachers	1. Dr.K.Vijaya Kumar, HOD-CSE 2. Dr.Ch.Ramesh Babu, HOD-ECE 3. Dr.K.Durga S Prasad, HOD-EEE 4. Dr.B.Prakash, HOD-IT 5. Dr.V.Anandababu, HOD-MECH 6. Dr.K.Chaitanya, HOD-BS&H 7. Dr.M.Pardha Saradhi, HOD-MBA
5.	Management representative	One member from the Management	Prof.A.Sesha Rao-Academic Director
6.	Local Society nominee	One/two nominees from local society, Students and Alumni	Mr.U.Chitti Babu, D.G.M (HR), Visakha Dairy
	Alumini nominee		Ms.Sarika Bora, Senior Systems Engineer, Infosys Limited
	Student nominee		Ms.Chandana Sravani, IV ECE
7.	Employer Nominee	One/two nominees from Employers/Industrialist/Stakeholders	Dr.K.V.Ramana Rao, Head-T&P
	Industrialist nominees		Girish Tiwari, Manager, Vizag Steel Plant
	Stakeholder Nominee		Mr.P.V.Satyanarayana Raju, RINL, Visakhapatnam

Committee Frequency of Meetings: As and when necessary

The prime tasks of the IQAC are as follows:

1. Development and application of quality benchmarks/parameters for various academic and administrative activities of the institution
2. Arrangement for feedback response from students, parents and other stakeholders on quality-related institutional processes
3. Documentation of the various programmes/activities leading to quality improvement.
4. Development and maintenance of institutional database through College Management System for the purpose of maintaining /enhancing the institutional quality.
5. Prepare a consolidated report of all the status, in terms of losses, obsolete equipment, items recommended for writing-off, disposal of waste, general fitness of all equipment and so on.
6. Ensure research work papers are adequately documented and audit evidence is sufficient.
7. Conduct periodic training workshops to promote awareness of internal controls and to discuss changes in policies that will impact the system.
8. To give adequate counseling and guidance to students in their personal / academic / professional fronts through the Counseling and Guidance cell.

b. Academic Planning and Advisory Committee

The college academic committee is formed with the Principal and Heads of the department. The function of APAC is to make recommendations to the management of the college and to the governing board with regard to academic and professional matters. APAC has been working for the quality enrichment and attainment of expected academic outcomes. The Academic Planning and Advisory Committee takes-up the following activities.

1. Monitor submission of Lesson Plans, Issue of Attendance Registers, List of students, Class Time-Tables consisting of Tutorial classes, Sports counseling hours, GATE, CRT, PDP Classes, remedial time tables, subject revision time-table counseling.
2. Frame the necessary academic structure so as to achieve the objectives of the college and supervise the day to day administration of the college.
4. Facilitate the events such as faculty and student induction programmes, workshops, seminars and symposium, cultural activities.
5. To review the academic and related activities of the college.
6. To formulate master plan for campus development, facilitating implementation of the provision of the perspective plan.

7. To draw new schemes of development for the college.
8. To plan for resource mobilization through industry interaction, consultancy and extramural funding.
9. To promote research and extension activities in the college campus.
10. To plan for sustaining the quality of education, quality improvement and accreditation of the college.

Committee Frequency of Meetings: Two time a year

	ANNEXURES	

The human recourse policies and administrative practices manual of the organization is published and kept for everyone's reference in College website. This allows for effective dissemination of the information to the concerned stakeholders. Few of the contents of hand book illustrated below.

A. Service Conditions

The employees in the institute are governed by the service rules and regulations stipulated hereunder.

- a) The employees at Vignan's Institute of Engineering for Women have been classified into two categories, namely Teaching and Non- Teaching.
- b) The teaching fraternity has an extraordinary role to play in the academic life of VIEW, merely as teachers, researchers, counselors, and contributors in various academic affairs.
- c) The Non-Teaching fraternity is responsible to support and enable the academics at the institution.
- d) VIEW has various Departments of Engineering, Sciences, and Humanities. Each of these faculties consists of various roles and run under the supervision of Principal.
- e) A person shall be deemed to have been appointed to the service when his appointment is made to a post in accordance with the existing AICTE norms.
- f) Initially the appointment of the selected candidate will be temporary and placed on probation for a period of two years, after which the performance of the appointee will be reviewed to regularize the appointment. The period of probation can be extended by management in case of non- satisfactory performance

- g) If a person, having been appointed temporarily to a post is subsequently appointed regularly: he / she shall commence probation from the date of regular appointment.
- h) Any candidate appointed on temporary / ad- hoc basis, his / her services can be terminated without any notice and without giving any reason.
- i) The service conditions of the incumbent will be governed by the rules and regulations of the college issued from time to time.

(i) Custody of Certificates

The employee requires depositing the original certificates (SSC/ Intermediate / UG/ PG) (convocation) with the establishment section prior to or at the time of reporting duty, besides, the copies of experience certificate, relieving letter, salary certificate, PAN, Voter – ID and 4 passport size photographs require submitting.

(ii) Withdrawal of Original Certificates

- a. Withdrawal of educational certificates (all or part) for any purpose i.e. higher studies or any other purpose, a proof copy has to be enclosed along with the request letter.
- b. An undertaking letter should be submitted stating that she / he will return the certificates within the stipulated time or else salary will be held up for the concerned month till the submission of certificates.
- c. Those who are withdrawing certificates for higher studies should submit a copy of custodian within one week of date of issue of custodian.

(iii) Working Hours

- a. All employees are required to work for a minimum of 7 hours a day from Monday to Saturday.
- b. Working hours notified may be changed as per the requirement of the Institution from time to time and the employees shall comply accordingly.

(iv) Attendance

- a. All employees shall mark their attendance through biometrics and in respective Attendance Registers maintained in the office of the College.
- b. Employees reporting for duty more than 20 minutes late shall obtain permission from the Head of the Department / Principal. Without a formal permission they are deemed to be absent and will apply for leave.

- c. All employees are allowed to avail 2 hour permission in two days during a month. Exceed this liable to be treated as absent for the day.

(v) Meeting with Heads of Departments

Meeting with Heads of Departments is conducted once in a month to brief them about the latest developments in the college and also to get feedback from them regarding fulfillment of various targets set including the academic schedule. Minutes of the meeting shall be recorded and circulated among all the HOD's. Emergency meetings are organized whenever required.

(vi) Faculty Meeting

Total faculty meeting is conducted once in a semester. The agenda of the meeting is circulated among the faculty at least two days in advance to enable the participants to come prepared for a fruit full discussion without loss of time. The minutes of the meeting are recorded and circulated immediately after the meeting. Emergency meeting could be called for whenever required.

(vii) National & Festival Holidays

Institution will notify list of holidays at the beginning of calendar (year) as per the National and Festival Holidays Act.

B. Leave Policy

VIEW provides different kinds of leave to meet with the various eventualities of its employees. Availing of leave should be with proper notice so that the work of the organisation does not suffer. Leave shall not be claimed as a right. Leave sanctioning authorities have to use their discretion in sanctioning the leave so that the effect is minimum on the normal functioning of the college.

General Information:

- a) These rules shall be called the “Vignan’s Institute of Engineering for Women, Leave Rules”.
- c) A leave account shall be maintained for each employee in the appropriate form.
- d) Leave cannot be claimed as a matter of right. **The sanctioning authority has full discretion to refuse or revoke leave of any description when the exigencies of service so demand.**
- f) The sanctioning authority may recall an employee to duty before the expiry of his / her leave.

g) Unauthorized absence from duty may be treated as misbehavior involving disciplinary action.

h) For casual leaves, the HOD shall be the competent authority to grant leave to staff, the Principal shall be the competent authority to grant leave to all Heads. In the case of the Director and the Principal, the Secretary or the Chairman of the Governing Council will be the authority competent to sanction leave.

The following types of leaves are available for staff:

(i) Casual Leave:

- a) Every employee is eligible for 10 days of casual leave in a calendar year.
- b) Casual leave cannot be availed without obtaining prior approval. Sanction of casual leave shall be subject to work adjustment.
- c) The total period of absence on casual leave at a time, with or without combination of public holidays and compensatory casual leave shall not exceed 8 days.
- d) Casual leave can be combined with public holidays and compensatory casual leave, but not with any other kind of leave or vacation.
- e) Casual leave up to Two Days shall be sanctioned by the HOD subject to prior notice i.e. at least before one day.
- f) CL for more than Two Days shall be sanctioned by the HOD subject to prior intimation of at least one Week.
- g) Casual leave for more than Two Days where sufficient notice period of one week is not provided by the employee may only be sanctioned by the Principal under extraordinary situations subject to prior intimation of at least one day.
- h) Un-availed leave shall not be carried over to the next calendar year. It means that the casual leave may not be accumulated.
- i) In case of employees still serving the probation period, Casual Leave shall be sanctioned on pro-rata basis. It means that they shall be eligible for a maximum of one day of casual leave for every $1\frac{1}{3}$ month of completed service subjected to a maximum of 10 days in a calendar year. This condition shall not be applied to permanent employees.
- j) Casual leaves for half day can be granted to an employee for the Forenoon or Afternoon session.

(ii) Earned Leave:

- a) All the permanent employees are eligible for 6 days of earned leave per every calendar year of completed service
- b) EL for a given calendar year shall be credited on the 1st of January of the following year provided that the staff should have completed **Two years** of uninterrupted service at VIEW by that time.
- c) Earned Leaves can be accumulated up to 120 days.
- d) Earned leave cannot be combined with casual leave or compensatory casual leave, but can be combined with pre-vacation and all other kinds of leaves. The maximum availability of earned leave utilization at a continuous stretch is 50% of overall ELs or 15 leaves whichever is less subject to a minimum of 3 ELs sanctioned by the HOD subject to prior intimation of at least one week. There should be a minimum 1-month gap between one slot to another slot for usage of ELs.
- e) However, if such maximum exceeds the available EL count, then the eligibility is the total available EL count.
- f) Accumulated leaves cannot be encashed at the time of working but can be encashed at the time of leaving the Institution.
- g) Principal is the authority to sanction earned leave to all faculty members.

(iii) Maternity Leave:

- a) All the women permanent employees are eligible for 120 days of paid maternity leave provided that they have completed probation service by the date of application.
- b) A woman permanent employee is eligible for maternity leave only twice in her entire service.
- c) Principal shall sanction maternity leave to all the women employees provided that the staff should apply with the prior notice of at least one Month.
- d) The salary for the period of maternity will be paid out in six equal installments after six months uninterrupted service from the date of rejoining. The employee should submit the Birth Certificate of the child at the time of rejoining.
- e) No leave beyond the expiry of maternity leave will be granted. However, in exceptional cases where the female employee is not in a position to join duty immediately on expiry of maternity leave due to weakness or other illness, leave without pay not exceeding 30 days

may be granted on production of medical certificate. Further leave beyond 30 days may be considered at the discretion of the GC/Committee.

(iv) Paternity Leave:

- a) All the men permanent employees are eligible for 7 days of paid paternity leave provided that they have completed probation service by the date of application.
- b) A man permanent employee is eligible for paternity leave only twice in his entire service.
- c) Paternity leave may be utilized only within a month of the date of birth of the child.
- d) Principal shall sanction paternity leave to men employees provided that the staff should apply with the prior notice of at least one Month.
- e) The salary for the period of paternity leave will be paid out after submitting the Birth Certificate of the child.

(v) Marriage Leave:

- a) All the Permanent employees are eligible for 15 days of marriage leave.
- b) Principal shall be the sanctioning authority to all the employees provided that the staff should apply with the prior notice of at least one Month.
- c) The salary for the period of marriage leave will be paid out after submitting the Marriage Certificate.

(vi) Academic Leave:

- a) All teaching staff members are eligible to attend two reputed conferences per year.
- b) Academic leave may be sanctioned for attending conferences, seminars and workshops etc. which help the faculty to achieve professional growth.
- c) Principal shall sanction academic leave to all the faculty members. However, the staff should submit necessary proofs such as the event invitation along with the application.
- d) All permanent staff members, who are at the verge of submitting their Ph.D thesis, may apply for one month of academic leave after pre-talk. However, such candidates should submit a proof of pre-talk proceedings for availing leave and proof of submission of thesis within three months from the date of application of the leave failing which the academic leave will be deducted from all other eligible leaves.
- e) The salary for the period of such doctorate thesis submission based academic leave will be paid out after submitting the proof of thesis submission.

(vii) On Duty:

- a) On duty for spot valuation shall be sanctioned only twice in a semester or a Maximum of 15 days per year whichever is applicable.
- b) On duty for any other Examination related works like observer, Lab external duties should not exceed 5 days in a year. If, exceeds 5 days the approval of HOD/Principal is mandatory.
- c) In addition to the above, “on duty” for any works assigned by HOD/Principal/Management may be approved by Principal. However, the staff should submit necessary proof of evidence along with the invitation/work/assignment.

(viii) Emergency/Medical Leave:

- a) Every permanent employee is eligible for 8 days of Emergency/Medical leave in a calendar year.
- b) Un-availed medical leave shall not be carried over to the next calendar year. It means the Medical leave shall not be accumulated.
- c) Medical leave cannot be claimed as a matter of right and sanction of Medical leave shall be subjected to severity of Health condition. That means prior approval/sanction is required or Evidences can be submitted within one week of reporting to the institute post the illness.
- d) Medical leave up to One Day shall be sanctioned by the HOD/Principal after completion of all casual leaves.
- e) Medical leave for More than One Day shall be sanctioned by the Principal only. However, the staff should intimate in-advance to the HOD & Principal wherever possible and also submit the necessary proof of evidences for medical illness within one week of reporting to the institute post the illness.
- f) Medical leave for a period exceeding 8 days shall be approved at the sole discretion of the principal in consultation with the management.

(ix) Compensatory Casual Leave:

- a) All the employees are eligible for compensatory casual leave if they have approved “OTs”.

b) The staff who has worked at least 6 continuous stretch or cumulative hours assigned/authorized by HOD/Principal/Management in holidays shall be sanctioned “OT”. The approved OT shall be compensated with CCL during the same calendar year.

c) Principal is the sole approving authority for OTs in consultation/approval of the HOD

(x) Extra-ordinary Leave:

a) Extra-ordinary leave may be granted to the employees on the recommendation of the Governing body on private affairs or academic affairs like short / long term assignments in India or abroad/Higher studies/Fellowship etc. They will not be entitled for any pay or allowance during this period.

(xi) Special Casual Leave:

a) All permanent employees are eligible for special casual leave not exceeding 6 days for the purpose of undergoing Family Planning Operation. He/she is required to produce proof of having undergone the operation for regularizing the leave availed.

b) Any humanitarian grounds issues such as miscarriage/loss of immediate family members may be also considered for special casual leave.

c) Principal, in consultation of the management, shall be the sole authority to sanction Special Casual Leave.

(xii) Study Leave

a) An employee may be granted study leave to enable him to undergo part time higher studies or course work or specialized training in a professional or technical subject and close connection with the branches of study relevant to the College and has bearing on the candidates’ area of specialization.

b) Study Leave shall not be granted to one, whose absence will cause cadre-difficulties, besides dislocation in the regular work of the college.

c) In case candidate pursues Ph.D. on part – time basis, study leave will be granted to fulfill the mandatory course work as stipulated by the University. The candidate may be given half pay during the study leave.

d) An employee availing himself of study leave for pursuing higher studies, shall furnish a bond in the prescribed form and on stamped paper to serve the College on return to duty they must serve in the College for a minimum period of one year. Otherwise, they have to pay double of salary received during the study leave.

e) They should make alternative arrangements for their theory and lab classes with prior approval. SL permission will be granted only if they make alternative arrangement for their classes, through a teacher handling subject for the same class.

(xiii) Summer Vacation:

a) Principal will be the competent authority to fix/suffix the summer vacation schedule in accordance with JNTUK schedule wherever applicable.

b) Each department has to maintain a skeletal staff to attend department works like invigilation duties, class work and other works assigned by HOD/Principal during the vacation as determined by the Principal.

c) Schedule of vacation for all the employees in a department is to be approved by the HOD.

d) By the time of declaring vacation, the staff should have at least 1 year of uninterrupted service at VIEW to avail summer vacation.

e) If any faculty attend spot valuation or engaged with any other examination related duties during the vacation, all those days will be included in summer vacation. No extra days will be allowed.

f) Vacation Eligibility criteria for Permanent Teaching staff:

One-week Vacation	The staff members who have ≥ 1 and < 2 years of service at Vignan Group.
Two-week Vacation	The staff members who have ≥ 2 and < 3 years of service at Vignan Group.
Four-week vacation	The staff members who have ≥ 3 years of service at Vignan Group.

(xiv) Other terms & conditions:

a) Permanent Employee: An employee is considered to be permanent on completion of one year of uninterrupted service in the institute.

b) Temporary employees are not eligible to avail any kind of extraordinary leaves except casual leaves, academic leaves and On-duty.

c) The total number of staff availing “CL” of any department at any given point of time should not exceed $1/3^{\text{rd}}$ of the total staff of the same department at such instance.

- d) If any employee would like to leave the organization by giving one-month notice, they will not be allowed to avail any type of leave except available CL as per pro-rata. If they use extra leaves, loss of pay will be implemented. They can compensate the extra leaves by working extra days to avoid loss of pay. One-month notice can be exempted by the Principal if staff resigned at the end of semester/academic year.
- e) Employees are advised to contact HR department to know the leave record and then apply for leave.
- f) Prefixing and Suffixing of Holidays: The leave under these rules (except casual leave) may be either prefixed or suffixed or both by Sundays/holidays but the intervening Sundays /holidays shall be included in such leave.
- g) Over Staying after Leave: An employee who remains absent after the expiry of his/her originally granted or subsequently extended leave is not entitled to salary for the period of absence including sanctioned leave period.

C. Recruitment Policy & Process

(i) Objective

To have in place a competent staff selected on the principles and practices of equal opportunities with due representation to all sections of people represented by the organisation and with no discrimination on the basis of caste, creed, sex, race, or disability. All recruitment will be based on predetermined specific positions and competency.

(ii) General Criteria Governing Recruitment

- a. The minimum age for recruitment is 18 years. VIEW does not permit child labour in any of its establishments nor does it encourage child labour in any of its partner institutions.
- b. Age limit of up to 70 (Seventy) years for teaching staff and 65 (Sixty-Five) years for non-teaching staff is recommended. If service is required beyond the recommended age limit, it may be extended on an annual basis.
- c. VIEW reserves the right to do a background check on any person selected for employment.
- d. Persons selected for appointment should possess sound mental and physical health.
- e. Faculty Members are recruited based on the qualifications prescribed by AICTE Regulations, 2019 and subsequent amendments in these Regulations issued by AICTE from time to time.

- f. Non-teaching faculty/Administrative staff is recruited as per the state government's norms. At present the following criterion is being followed.

(iii) Internal Appointments

In order to avoid stagnation of the competent employees and encourage career growth, Management should develop mechanism for creating avenues for growth/promotion.

When a vacancy arises, internal appointment may be promoted as far as possible. But this is purely at the discretion of the E.D and Principal who may assess the situation objectively on the basis of the merits of the fresh requirements and actual staff position.

(iv) Advertisement

- a. The Dean of Administration will be responsible for initiating action such as advertising for the vacancy.
- b. For regular and contract posts, it is mandatory to advertise the vacancies in the newspaper or VIEW website (www.view.edu.in).
- c. There should be a minimum of 10 days between the date of publication of the advertisement and interview.

(v) Short listing

- a. All applications are scrutinized to ensure that they conform to the minimum requirements of the position.
- b. Persons given as reference in the application may be contacted to further refine the short list.
- c. For a single post, from the suitable applications received, an appropriate number will be called for the interview process.
- d. Intimation for interview is sent thereafter.

(vi) Assessment process

The assessment process for teaching staff recruitment shall have all of the following assessments:

Round-1: Written Test

Round-2 Technical Round (Demo in front of Panel Members)

Round-3: HR Round (With Executive Director)

[It is only for shortlisted candidates from the above rounds].

(vii) Interview Panel

The interview panel must meet in advance in order to prepare and agree questions, tests etc. to be asked to candidates and to ensure that similar questions and the same range of topics will be covered for each candidate for the same position.

For the test and interview – the appropriate panel must be constituted which should have subject specialists. The final interview panel will comprise of the appointing authority and subject specialists.

(viii) Proceedings of Interview

Detailed proceedings of the interview will be recorded by the Chairperson of the Interview Board and will be attested by the Interview Board Members.

(ix) The Offer Letter

Upon satisfactory performance of the candidate, the Offer Letter is sent to the selected candidate. Candidates should confirm their acceptance in writing. A regret letter might be sent to candidates not found suitable during the interview.

(x) Letter of Appointment

The selected candidate must bring the relieving order from the previous organisation before joining duty. An appointment letter duly signed by the Appointing Authority is issued to the candidate at the time of joining.

(xii) Joining Report

On joining, the candidate should give the joining report and signed by the Principal and forwarded to the Main Office.

D. Staff Appraisal Policy**(i) Purpose**

In an effort to recognize and reward the performance of employees, it is the organization's philosophy that the principal component to enhance compensation shall be through annual increment based on performance evaluation by APAC.

(ii) Application of the Policy

- a. The policy applies to all teachers, including the Head of the Departments, employed by the Institution except those who have less than one-year service.
- b. All regular employees are eligible for yearly increment based on the results of their Performance Appraisal conducted annually.

c. All employees will be informed in writing about their annual increments after the Performance Appraisal.

(iii) General Principles Underlying this Policy

The performance of staff assessed through **3 criteria** for the purpose of annual increment.

Criteria No.	Element of Criteria	Max. Score	% of Weightage
I	Academic Results & Feedback	4 Marks	40%
II	Research & Development	3 Marks	30%
III	Supplementary Activities	3 Marks	30%
Total		10 Marks	100%

Criterion -1 is mainly focused on the academic performance of staff which covers the teaching related activities, domain knowledge, semester results and students feed back in an academic year.

Criterion -2 is mainly considered the faculty output in Research and Development activities in an academic year. Based on cadre of faculty, the expected output of R&D shall be categorized. R & D activities includes Research papers published in scholarly journals, Book publications, research projects, consultancy projects, organizing and attending conferences/seminars, workshops and FDPs.

Criterion -3 covers curricular and extracurricular activities, counseling/mentoring of students, roles and contributions in Institutional Governance and administration, awards and achievements and Professional Development Activities.

The detailed evaluation procedure of each criterion is given in Institution manual.

(iv) Grant/Award of Annual Increments:

Increments shall be sanctioned by the Management as recommended by the Principal. The grant of number of increments is based on the score secured by the faculty out of the total score of 10.

Secured Score	Grade	No. of Increments
≥ 7.5	A+	3 (Three)
<7.5 & ≥ 6.5	A	2 (Two)
<6.5 & ≥ 5	B	1 (One)
<5	C	No Increment

(v) Special Allowance

a. Teaching Staff with a cadre of Assistant Professor secured <6.5 & ≥ 5 marks (1 increment) and secured full marks in results as per Criteria-1 (3 out of 3), the faculty will be given a onetime special allowance of Rs.5,000/-

(vi) Termination/Serving Notice to Teaching Staff

a) If a teaching staff falls in 'B' grade in 2 continuous years, the Management/Principal have right to terminate or service one month notice to staff for termination due to lack of improvement in performance.

b) If a teaching staff falls in 'C' grade, the Management/Principal have right to terminate the faculty immediately or service one month notice to staff for termination. In special cases, the Principal shall allow an opportunity to improve the performance with in one academic year.

(vii) Letter of Annual Increment:

All employees will be informed in writing about their annual increments after the Performance Appraisal.

E. Staff Promotion Policy

Any progressive institution should make sufficient provision for the satisfactory promotion of personnel to higher positions. Opportunity for promotion to higher positions within an organisation gives personnel an opportunity to fully utilize their abilities and therefore serves as a basis for motivation.

General Principles underlying this Policy

- ✓ The promotion of an employee is purely based on the merit cum seniority basis and vacancy position in the concerned department.
- ✓ All promotions shall be subject to completion of minimum qualifying period and other requirements such as employee's current academic performance, their research work, number of publications, commitment of the staff to the improvement of the institution etc.
- ✓ Promotion shall not be influenced by the employee's race, religion or gender.
- ✓ The promotion from Assistant professor to Associate Professor and Associate Professor to Professor post are purely vacancy based.
- ✓ Promotion are considered by a Committee consisting of the following:
 - Principal of the college concerned
 - Principal of another college within the group

- HoD of the Department concerned
 - One Senior Professor of the Department and college concerned
 - HoD/Two Senior Faculty of concern Department of another college within the group
- ✓ The Screening Committee will review the performance appraisal, academic performance and other capabilities of each candidate and personally interview the candidates.
 - ✓ The Committee, based on the above factors, shall prepare a list of candidates recommended for promotion in the order of merit and submit for approval. The list will be placed before the Governing Council along with the Service Register of the individuals for approval. The approved candidates shall be promoted from the rank of Assistant Professor to Associate Professor or Associate Professor to Professor.
 - ✓ Those who are promoted shall be placed in the pay scale applicable to that category.
 - ✓ All decisions on promotions shall be taken up in the month of June-July every year. However, the revised pay will be implemented with effect from the date of acquired Doctorate Degree/Submission of Provisional Certificate in case of Associate Professor and date of next increment due in case of Professor.
 - ✓ Filling up of any post's consequent to retirement, resignation, termination, cessation of employment, transfer, demotion, promotion etc. of permanent incumbent shall not be automatic and will be done at the discretion of the Chairman/CEO/Principal.
 - ✓ For Non-Teaching staff, time-bound Grade Promotions as stipulated in the Pay Revision will be granted.

F. Welfare Facilities for Staff

(i) Provident Fund

VIEW is committed to comply with statutory provisions of Employees Provident Fund Deduction will be made from the salary of employees and will be deposited to the designated provident fund accounts along with the contribution of the organisation as per the provisions of the said Act. Employees must comply with the statutory requirements like nomination and can avail of such ensuing benefits as prescribed by law.

(ii) Employees State Insurance (ESI)

For Non-teaching Technical and Admin Staff - Employees State Insurance benefit (ESI) is covered for those employees who are coming under the purview of the ESI Act, 1948. The ESI

benefits are Medical benefit, Sickness benefit, Maternity benefit, Disablement benefit, Dependents benefit, funeral expenses and other benefits.

(iii) Group Medical Insurance

To provide employee welfare through basic assurance of healthcare to employees and help them to meet unforeseen personal expenses arising from medical emergency. All regular and contractual employees of the Institute, including probationers will be covered. Annual entitlement of Group Medical Insurance is Rs.5,00,000/- (Rupees Five Lakh only). This can be used only by the individual or by the family members covered under this policy.

(iv) Subsidized Transport Facility

The institute buses are running on “No profit – No loss” basis.

- All the staff members who are drawing a salary of less than Rs.15,000 will be provided a free transport facility.
- The staff who are drawing a salary of above Rs.15,000 but less than Rs.20,000 will be given 50 per cent concession in transport charges.
- The staff who are drawing a salary of above Rs.20,000 will be given 40 per cent concession in transport charges.
- The applicable bus fees will be deducted from the salary of faculty.

(v) Free boarding and Lodging

Free boarding and lodging for certain faculties, Staff holding students hostel coordinator/student hostel sports coordinator/Assistant Warden Post.

(vi) Free Tea / Coffee is provided to the Teaching, Non-Teaching and Administrative staff during both the sessions.

(vii) Non-Teaching staff, Maintenance Staff and the Drivers are given free gifts, sweets and cloths during Deepavali festival.

(viii) Travelling Allowance:

Travelling allowance is in the nature of reimbursement of reasonable expenses incurred by the employee while travelling and halting at an outstation on official duty. All journeys shall be authorized by the competent authority i.e. Principal and necessary approval shall be obtained prior to proceeding on an official tour.

The Principal may sanction TA advance subject to the maximum of 75% of the expected expenditure. The mode of travel applicable, the daily allowance payable and the rates of local

conveyance and accommodation charges reimbursable to various categories of employees are as follows.

Mode of Travel:

- | | | |
|--------------------------------------|---|-------------------|
| 1. Director/Principal/Vice Principal | - | Airfare/First A/c |
| 2. Professor/HOD | - | Second A/c |
| 3. Associate Professor | - | Third A/c |
| 4. Assistant Professor | - | Sleeper |

Reservation charges, AC/Super fast surcharge, cancellation charges, bedroll charges are reimbursable. Normal service charges for booking of tickets by travel agent are admissible.

The institution may reserve and book to and fro air tickets through local travel agents. For rail and bus tickets, the person intending to travel may take necessary advance for booking such tickets.

(ix) Daily Allowance & Reimbursement of Accommodation

Cadre	Daily Allowance (Per day)	Reimbursement of Accommodation (Per day)
Director/Principal/ Vice Principal	Rs.500	Rs.2000
Professor/HOD/Associate Professor	Rs.300	Rs.1500
Assistant Professor	Rs.200	Rs.800

(x) Local Conveyance:

Local Conveyance is applicable to the faculty who wish to attend WS/Conference/ FDP or any other duty assigned by Principal within the limits of the city. Travelling Allowance, DA and accommodation not applicable.

Director/Principal/ Vice Principal	Professor/HOD/Associate Professor	Assistant Professor
Rs.1000 per day	Rs.500 per day	Rs.300 per day

G. Motivational Initiative Policies

It is a natural thing that nobody acts without a purpose behind. Therefore, a hope for a reward is a powerful incentive to motivate employees. Besides monetary incentive, there are some other stimuli which can drive a person to better. This will include job satisfaction, job security, job promotion, and pride for accomplishment. Therefore, incentives really can sometimes work to

accomplish the goals of a concern. Therefore, management is offering the following categories of incentives to motivate employees:

(i) Faculty Awards

The institute shall offer incentives in the form of Cash awards, Mementos, Certificates to staff. The policy of incentives and the eligibility conditions should be made known to all the concerned and all announcements in this regard will be made public. The following incentives shall be operative.

1. Pratibha Award:

“Academic Excellence Awards is a very commendable initiative”. It is very positive to have this common organization at VIEW at to award all-round efforts in academic excellence. Staff who makes an outstanding contribution to teaching & learning are awarded with “Pratibha (The Best Teacher) Award”. The award winners will be honored with a certificate and a cash award of Rs.5,000/- each.

Parameters considered for assessment:

- ✓ It will be rewarded subject wise i.e. the subject result during the academic year should be more than 5% of the last 3 years average result of the same subject (Or) the subject result must be 100% during the present academic year.
- ✓ Students feedback should be above 90%

2. Sastra Award:

To encourage and appreciate research, Sastra Awards are presented to VIEW faculty who make a mark in research publications and presentations. Faculty research work is honored with cash awards for their outstanding contributions.

3. Vishista Seva Award:

Employee’s retention is one of the strengths of VIEW. All teaching and non teaching staff of VIEW who served the organization for about Ten years and more in Vignan Group are recognized for their service and are presented with Vishista Seva Award with a cash award of Rs.5000/-

4. Vijetha Award:

Faculty at VIEW are recognized and honored for their individual academic and related achievements in their respective domains. Vijetha awards are presented to those faculties who

have achieved awarded and recognitions in State/University/ /National/International Level are presented with Vijetha Award.

(ii) Research Incentives

At Vignan's Institute of Engineering for Women, Research is an integral part of the academic activity carried within various undergraduate and postgraduate programs. These different activities and initiatives over the last one decade are consolidated to prepare this Policy of VIEW on Promotion of Research & Innovation, Consultancy & Extension Services.

1. Incentive for book publications

1. Full text book with single author : INR 20000
2. Full text book with two authors : INR 10000 each author
3. Full text book with multiple authors : INR 5000 each author
4. Chapter Contribution : INR 3000

Note: Published book or chapters or monographs must have 'VIEW' as the affiliation.

2. Incentive for Research Publication

If a research paper is published based on his/her work in hard copy or in electronic form in a refereed journal, he / she will pay an incentive as indicated below.

SCI Journal	10000
Un paid Scopus Journal	7,500

The publications will be considered only if they are indexed in Web of Science or in Scopus. If the paper is contributed by more than one author the incentive will be shared among the faculty

(iii) Incentives for Presentation of Research Papers in Conferences/Seminars in India

- ✓ The International/ National conference must be of repute (viz. IEEE, Springer/Wiley etc.) and the hosting Institutions must be of Institutes of repute-IITs/IISc/NITs/IITs/ Universities/ Deemed Universities etc.
- ✓ The paper/article must be published in any National/International Journal/Conference proceedings.
- ✓ The faculty would be allowed OD + Registration fees on actual basis or Rs. 5,000/- whichever is less.
- ✓ TA/DA will be paid as per the Institute norms.
- ✓ In case of joint authorship only one faculty can avail the facility.

- ✓ Each faculty can present research papers in Conferences of repute twice in an academic year with financial assistance (limited to Rs. 10,000/- only).
- ✓ Maximum number of ODs is limited to one week during lean period. Number of ODs during the academic period is subject to prior approval of Principal.
- ✓ Only Oral presentation of research papers is acceptable.

(iv) Incentives for Presentation of Research Papers in Conferences outside India/Abroad.

- ✓ The faculty has to approach AICTE (which provides 100% funding subject to meeting their norms) for Travel Grant or other Funding Agencies of Govt. of India.
- ✓ It has been observed that some of the proposal may not meet AICTE norms besides paucity of funds with them because of their All India Scope. Therefore, VIEW may also consider funding for International Conferences on case to case basis, subject to 60% to be paid by the candidate and 40 % by VIEW with the candidate having at least 5 years service in VIEW. Also, the candidate should register for Ph.D after coming as soon as possible.
- ✓ The staff who wish to apply for incentives for paper presentation in the International conferences abroad need to get approval from Chairman/CEO at least one Month in advance.

Note:

1. The Incentive under the category of Presentation of Research Papers in Conferences in India/Abroad (6.3 & 6.4) will be paid only after submission of duly filled application and attaching copies of evidence countersigned by the HOD and R&D Coordinator.
2. However the faculty can apply for travel advance to the maximum of 75% of the expected expenditure subject to approval of the Principal.

(v) Incentives for attending Workshops/FDPs

- ✓ The Workshops/Symposium/FDPs hosting Institutions must be Institutes of repute- IITs/IISc/NITs/IITs/IIM/Universities/Deemed Universities etc.
- ✓ The faculty would be allowed OD+ Registration fees on actual basis or Rs. 5,000/- whichever is less, when the Workshops/Symposium/FDPs have minimum of 3 days duration.
- ✓ The faculty would be allowed OD+ Registration fees on actual basis or Rs. 3,000/- whichever is less, when the Workshops/Symposium/FDPs have less than 3 days duration.

- ✓ TA/DA will be paid as per the Institute norms.
- ✓ Each faculty can attend Workshops/ Symposium /FDPs of repute twice in an academic year with financial assistance. However, financial assistance is limited to Rs. 10,000/- only.
- ✓ Maximum number of ODs is limited to one week during lean period. Number of ODs during the academic period is subject to prior approval of Principal.
- ✓ Minimum service clause is not applicable to attend conference/symposium/FDP
- ✓ Faculties going for attending FDPs outside need to disseminate knowledge / information by organizing faculty Development Program (FDP)/ Student Development Program (SDP)/ Student Workshop/ Summer etc for the benefit of Faculty and Students in their respective departments.
- ✓ The OD and Registration claim under Research Incentive Schemes (RIS) of VIEW must be made within a month in the prescribed form.

(vi) Incentive for Generation of Research Grants

- ✓ Faculty members are expected to submit proposals for research grants from funding agencies. It is quite likely, that these projects may involve modernization of laboratories, acquiring of equipment required specific to the research study or conducting of surveys etc.
- ✓ The incentive will be linked to the total amount of research grant sanctioned by the sponsoring agency. The incentive will be 20% of the research grant received from the funding agency.
- ✓ Since the amount being released in phases, the incentive(s) paid is also proportional to the amount received by the Institute.

(vii) Incentive for Consultancy work

To encourage genuine consultancy work from the faculty, VIEW announces a policy whereby the faculty can claim 100% of the amount charged under the consultancy work. This is subject to the following conditions:

- ✓ Faculty should be the sole in-charge of the consultancy work
- ✓ The said consultancy work should be undertaken post the approval of the principal and the agreement should be undertaken between VIEW and the concerned third party

- ✓ The payment for the consultancy work should be credited to VIEW which will further be passed on to the faculty.

(viii) Incentives for Professional Body Membership

- ✓ All faculty members on roll of VIEW having more than Five SCI/ SCOPUS research papers, acquiring membership for National and International professional societies are eligible for reimbursement of 50% of cost of membership registration fee subject to Maximum of Rs.10,000.
- ✓ Maximum of Rupees Ten Thousand (Rs. 10,000) will be paid for International society membership and Rupees Five Thousand (Rs. 5,000) for National society membership and Rupees Two Thousand (Rs. 2,000) for State Level Membership.
- ✓ Incentive claim under Research Incentive Schemes (RIS) of VIEW must be made within a month of registration with the professional bodies.

(ix) Incentives for Research Awards/Any recognition received by the faculty from reputed Professional Bodies and Agencies (For which Vignan has not provided any funding)

Awards Received from Agencies	International Level	National Level	State level	University Level
Incentive (INR)	10000	5000	2000	1000

(x) Incentive for Doctoral Research Guidance

Description	Supervisor	Co-Supervisor
Incentive	10000	5000

H. Staff Exit Policy

The purpose of this policy is to identify academic, organizational or human resource factors that have contributed to an employee's decision to leave the employment. This also helps to enable the management to identify any trends requiring attention or any opportunities for improving the management's ability to respond to employee issues. It enables the Institute to improve and continues to develop recruitment and retention strategies aimed at proper talent nurturing/management.

This policy covers the procedures to be adopted when any employee of the Institute leave employment for whatever reason.

Scope:

This policy applies in the case where in the employees who resign and get relieved after serving or getting the notice period served.

Objectives of the Policy:

The purpose of conduction of the exit interview is to:

- a) Try and retain the employee by addressing his/her grievance and expectations
- b) Try and find out exact reasons for resignation and
- c) To suggest to Management remedial measures to reduce further attrition.

Voluntary Participation and Confidentiality

Employees are responsible for participating in the exit interview process on a voluntary basis. If an employee chooses to participate in an exit interview, he/she will be encouraged to be honest, candid, and contractive in their responses. The information received through Exit Interviews will be confidential. No specific information that could possibly be traced back to an ex-employee will be disseminated or discussed.

Exit by Resignation

- a) If any staff member wants to resign from the job, the concerned staff member shall give a minimum of one month / 30 days advance notice or as per the conditions specified in the appointment order about his / her intention of leaving job, only at the end of the academic year to the Principal in writing.
- b) In case, where the end of notice period falls during the course of a semester, he / she may be relieved only at the end of the semester.
- c) The un-availed leave at the credit of the staff member shall not be adjusted towards the notice period.
- d) In case if, he / she takes leave for a day, then the leave availed will be treated as on loss of pay with the cut in the salary for the day during the notice period.
- e) While getting relieved, files, materials and documents, etc., entrusted to him / her shall be handed over to the person nominated by the HOD under proper acknowledgement.
- f) The staff member can apply for his/her the relieving order from the Institution only after the submission of “No Dues Certificate” in the prescribed form along with a copy of handing over charge record in case if he/she happens to be in-charge of the laboratory.

- g) Any staff member may be relieved immediately if he / she gets a Government Job or the concerned individual's spouse is transferred or he / she is getting married. But this is subject to the discretion of the management after assessing the merit of the request.
- h) The Principal reserves the right to waive – off / reduce the notice period.
- i) The Principal will arrange an Exit interview with the staff after the acceptance of his/her resignation with a view to obtain a candid feedback.

Exit by Termination

- a. The Institution may terminate the services of an employee under special circumstances, such as reduced workload, performance not satisfactory as seen from the feedback and report of HODs, or if found medically unfit, after giving one month notice or pay in lieu thereof.
- b. No such Notice shall be necessary, if the termination is as a result of proven misconduct after an enquiry conducted in accordance with the college Rules.

Procedure and Reporting of Policy:

1. A committee comprising of Academic Director, Principal and Dean of Administration should conduct the exit interview after the confirmed leaving date has been received by HR Department of any particular staff member.
2. The employee will be asked a standard set of question and given a chance to discuss additional information they feel would be beneficial for the Institute working.
3. Academic Director, Principal will fill the exit interview form in prescribed format (Annexure-II).
4. The information will be analyzed regularly by Human Resources Department to identify areas or determine trends that may need to be addressed. Periodically, human resources Department will share their analysis and recommendations with designated members of the Staff/Dean-Admin/Principal/Academic Director.
5. The analysis and review will include
 - Appropriate statistical information regarding the number and distribution of employee departures during the preceding year and her/his reasons for leaving;
 - An analysis and discussion of any trends or common themes which are suggested by the exit interview feedback.

- A summary of any actions or interventions taken during the year on the basis of exit interview information.

Issue of Service Certificate:

Every permanent employee shall be entitled to a Service Certificate at the time of leaving the service of the Institution. Such Certificate shall be valid if it is issued and signed by the Principal.

10.1.3. DECENTRALIZATION IN WORKING AND GRIEVANCE REDRESSAL MECHANISM (10)

(List the names of the faculty members who have been delegated powers for taking administrative decisions. Mention details in respect of decentralization in working. Specify the mechanism and composition of grievance redressal cell including Anti Ragging Committee & Sexual Harassment Committee)

10.1.3 (A) Decentralization in working:

A core team of about 20 members owns and lead the major processes in the institute to see that all these processes are intact. The responsibilities of the decision makers are discussed in Table 10.9. In decentralization every member has freedom for their responsibilities, which helps in speedy completion of assigned tasks.

Table 10.9 List of faculty members who are administrators/decision

Sl. No	Name	Responsibility
1.	Prof.A.Sesha Rao	Academic Director
2.	Dr.J.Sudhakar	Principal
3.	Dr.P.S.Ravindra	Dean of Administration
4.	Dr.B.Prakash	Head of Department-Information Technology
5.	Dr.K.Vijaya Kumar	Head of Department-Computer Science & Engineering
6.	Dr.K.Durga Syam Prasad	Head of Department-Electrical & Electronics Engineering
7.	Dr.Ch.Ramesh babu	Head of Department-Electronics & Communication Engg.
8.	Dr.V.Anandababu	Head of Department-Mechanical Engineering
9.	Dr.K.Chaitanya	Head-Department of BS&H, & Coordinator-R&D
10.	Dr.M.Pardha Saradhi	Head of Department-Master of Business Administration
11.	Mr.A.Ganapathi Rao	In-charge: Examinations

12.	Dr.Y.Bhaskar SS Gupta	Coordinator-IQAC
13.	Dr.K.V,Ramana Rao	In-charge- Training and Placements
14.	Mr. D.Rajendra Dev	In-charge- System Cell
15.	Dr.S.Ramesh	In-charge- Entrepreneurship Development Cell
16.	Dr.G.V.Rama Krishna Rao	In-charge- Discipline Cell & Physical Education
17.	Dr.D.Nirmala Devi	I/c- Women Grievance & Anti-Sexual Harassment Cell
18.	Mrs.S.Kalyani	In-charge- Grievance and Redressal Cell (GRC)
19.	Mr.K.Suryanarayana Rao	In-charge- Anti Ragging Cell
20.	Mr.M.Vijaya Sekhar	Campus Manager

10.1.3 (B) Mechanism of Grievance Redressal Cell

The Institution has set up the following cells to address any grievance received from students and staff and recommends appropriate action to the authorities.

- (i) Grievance and Redressal Cell (GRC)
- (ii) Anti Ragging Cell (ARC)
- (iii) Women Grievance & Anti-Sexual Harassment Cell

(i) Grievances Redressal Cell (GRC)

As per All India Council for Technical Education Establishment of Mechanism for Grievance Redressal Regulations, 2012, F. No. 37-3/Legal/2012, dated 25.05.2012. Vignan's Institute of Engineering for Women is committed to providing a harmonious & fair learning environment. Students and Staff have access to processes that allow for appeals, complaints and grievances that are to be resolved. Student and staff grievance resolution process seeks to facilitate their formal resolution of grievances as close as possible to the source of the aggrieved person's dissatisfaction, though there will be instances when either students may choose to lodge a formal appeal or a grievance needs to go to a higher authority for resolution.

The institute has the following mechanism to analyze the grievances.

1. Suggestion boxes are placed on all corridors in the Institute to lodge the feedback/complaint/suggestion of all stakeholders.
2. The committee should meet once in a month to investigate the complaints raised by students and staff, if any.

3. The duty of Grievance Redressal Cell is to provide a fair representation for all the concerned parties.
3. During the course of the investigation, the investigator will maintain careful notes of interviews with the aggrieved member and relevant witnesses.
4. In addition to the written statements and testimony of the student and the faculty member, the committee may collect and consider any information it deems relevant and hear from anyone it deems to have relevant information. Both the student and faculty member may suggest the names of persons with relevant information, but the committee makes the final decision about whom to interview.
5. The proceedings and the committee's deliberations will be confidential and not to be open to the public.
6. After investigation upon grievances received, the committee members prepare a report and forwarded to Principal for further action.
7. Thereafter, the principal on reviewing and understanding the level of the problem forwards the same to the management committee for necessary action.

Table 10.10 Composition of Grievances Redressal Cell

Sl.No	Name of the Staff	Designation	Role
1.	Dr.J.Sudhakar	Principal	Chairman

Table 10.10 (A) Some of the actions taken by Grievance cell

Complaints	Actions
Students and faculty have complained that most of the buses are overcrowded	Seat allocation was introduced and additional buses were procured
Students and staff have complained against the old infrastructure in the washrooms	All the washrooms have been renovated with new flooring and plumbing.
Students and faculty requested for freezing water machines to have cool water in the campus	Four Freezing water machines have purchased and one in each floor
Students have complained against the medical kit in departments	Arranged separate medical kits in each department for students and staff.
Students have complained against the Shortage of beds in the rest rooms	Additional beds arranged in all rest rooms in the campus
Students have complained to Extend the CCTV Cameras in corridors in all floors	CCTV Cameras installed in all the four floors
Placing Trash Bins in Class room and wash rooms and surroundings of the campus	Trash bins are placed in all class rooms, wash rooms and other appropriate places in campus

(ii) Anti-ragging Cell:

As per All India Council for Technical Education notified Regulation for prevention and prohibition of ragging in AICTE approved Technical Institutions vide No. 37-3/ Legal/ AICTE/ 2009 dated 01.07.2009 Anti Ragging Cell established in the Institution to monitor, direct and oversee the functions and performance of the Anti-Ragging Squads in prevention and curbing of ragging in the institution.

Ragging Prevention at VIEW

- Anti-ragging squad is constituted as per AICTE guidelines.
- Names, telephone nos. of authorities have been put on web site. In case of any emergency student can contact the authority.
- Staff members do the necessary counselling from Time-to-time Sensitize.
- Surprise / Routine visits to hostel, College canteen, common room & other sensitive area by the committee members.

The committee comprises of following members.

Table 10.11 Composition of Anti-ragging Cell

Sl. No	Name	Designation	Position	Phone No.

6.	Dr. G.V.Ramakrishna Rao	Assoc.Prof, MBA	Member	9642144268

Duties & Responsibilities

1. Should meets often to discuss the steps to be taken to prevent ragging in the campus.
2. Mandatorily, anti-ragging undertaking is taken from students and their parents at the time of admission.
3. Awareness programs are conducted to the students in association with AP legal Services Authority, Local Police, Progressive Psychologists Association and various NGOs about ragging act, punishments and consequences.
4. Posters depicting the anti-ragging act and its punishments are displayed on all notice boards, corridors and at the canteen.
5. Contact numbers of the anti-ragging committee members are displayed at various sensitive places across the campus.

(iii) Women Grievance & Anti-Sexual Harassment Committee/Cell (WG & ASHC):

A Women Grievance & Anti-sexual Harassment committee is established in the college to ensure safe and healthy working environment for the female students and staff. The cell plays dual role. The Cell is required to work in the direction of providing help to any female complaining of discrimination, either gender discrimination or otherwise, any kind of abuse, loneliness, peer pressure, groupism, home sickness, insecurity and/or inferiority complex in terms of physical appearance, hostel issues, harassment from room-mates, adjusting and adopting to the new environment etc.

The Cell also deals with issues relating to sexual harassment at the college as per the guidelines of Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013. It is applicable to all students, staff and faculty. The following is also sexual harassment and is covered by the committee:

- Eve-teasing, Unsavory remarks,
- Jokes causing or likely to cause awkwardness or embarrassment,
- Innuendos and taunts, Gender based insults or sexist remarks,
- Unwelcome sexual overtone in any manner such as over telephone (obnoxious telephone calls) and the like,
- Touching or brushing against any part of the body and the like,
- Displaying pornographic or other offensive or derogatory pictures, cartoons, pamphlets or sayings,

- Forcible physical touch or molestation and Physical confinement against one's will and any other act likely to violate one's privacy.

Table 10.13 Composition of Women Grievance and Anti-Sexual Harassment Committee

Sl. No	Name	Designation	Position	Phone No.
1.	Dr.D.Nirmala Devi	Assoc.Prof-BS&H	President	8985367040
2.	Dr.Akanksha Mishra	Assoc.Prof-EEE	Vice-President	9704559874
3.	Mrs.S.Roopa	Asst.Prof-MECH	Secretary	8143533366
4.	Mrs.P.Rajya Lakshmi	Advocate	Adviser	9290442757
5.	Dr.P.Vijaya Bharathi	Assoc.Prof-CSE	Dept.Coordinator	9849819662
6.	Mrs.T.Sandhya Kumari	Assoc.Prof-ECE	Dept.Coordinator	9949873848
7.	Mrs.S.Kezia	Asst.Prof-EEE	Dept.Coordinator	7013111039
8.	Mrs.S.Kalyani	Assoc. Prof-IT	Dept.Coordinator	9491162578
9.	Mrs.G.Anusha	Asst.Prof- MECH	Dept.Coordinator	9491360793
10.	Mrs.M.Satyavathi	Asst.Prof-MBA	Dept.Coordinator	9032991981
11.	Dr.K.P.Suhasini	Assoc.Prof-BS&H	Dept.Coordinator	9885218954

Mechanism for complaints on Sexual Harassment:

A written complaint is required to be taken from the aggrieved person, necessary action to be taken, preferably to settle the matter through counselling and conciliation as soon as possible. In case the matter is not so sorted, inquiry to be conducted and matter to be sorted out within 10 days from the date of complaint. The members to be vigilant all the time and ensure that there is no such incident taking place in campus by creating awareness and having an open dialogue with all the students. Following are the Guidelines to be strictly followed

- The complainant will have to submit a written and signed complaint addressed to the Presiding officer of the Cell
- The students/staff can give a complaint through e-mail to womengrievance.view@gmail.com
- The counselor will call the complainant for a personal meeting, usually within a week from the submission of the written complaint
- The members of the Cell will discuss the complaint

- If the case falls outside the purview of the Cell, the complainant will be informed to Director
- If the case comes under the purview of the Cell, an enquiry committee will be set up
- The Committee will submit a report and recommend the nature of action to be taken at the earliest by Director
- If any legal action is required with the help of advocate member of the cell complaint is forwarded to police.

10.1.4 DELEGATION OF FINANCIAL POWERS (10)

(Institution should explicitly mention financial powers delegated to the Principal, Heads of Departments and relevant in-charges. Demonstrate the utilization of financial powers for each year of the assessment years)

Institution should explicitly mention financial powers delegated to the Principal, Dean-Admin and Heads of Departments. Demonstrate the utilization of financial powers for each year of the assessment years

Finance Committee:

Finance Committee of the institution shall be the key body which will monitor and manage the financial sustainability of the institution. Finance committee is an advisory body to the Governing Body and reports/recommends from time to time regarding the matters related to budget estimates, income from fees etc. The term of the members of the finance committee will be for the two years and shall be re-constituted by the Principal.

Table 10.14 Composition of Finance Committee

Sl. No	Name of Committee Member	Designation	Position
1.	Dr.J.Sudhakar	Principal	Chairman
2.	Prof.A.Sesha Rao	Academic Director	Member
3.	Mr.N.Srikanth	Executive Director	Member
4.	Dr.P.S.Ravindra	Dean-Admin	Member
5.	Mr.Suresh	Head of Accounts-VIEW	Member
6.	Mr.I.Rama Rao	External Auditor	Member
7.	Mr.Suresh	Statutory Auditor, LES	Member

The functions of the finance Committee are as follows:

1. To monitor and manage the budget estimation relating to the Income from fees collected etc.,

2. To manage the annual budgets and utilization reports submitted by the individual departments
3. Audited account for the above and Department level Financial Delegation

Financial powers delegated to the Principal, Dean-Admin, Heads of Departments and relevant in-charges

1. The Principal of the institution have complete financial powers pertaining to the college.
2. The Principal acts as the joint signatory of all the college financial accounts.
3. The Principal is empowered to sanction the requisite amount of money after getting approval from the Finance committee.
4. Dean of Administration can spend up to Rs. 10,000. In addition to it all pre approved recurring expenses can be cleared by DoA.
5. The HODs are delegated to use Rs 5,000 contingency in emergency purchases and repairs for the smooth running of the department.
6. Annual Budget for the institution is prepared by the Finance committee at the beginning of the year, by considering the possible income and expenditure involved. It is approved in the GB meeting.
7. The HOD is the in-charge for the equipments and stores attached to the department concerned. HOD prepares the lists of items of stores to be replenished at periodical intervals and arrange for the purchase of stores.
8. As stated in table 10.9 above, Institution purchase committee carefully scrutinizes and allocates required funds to each department after acquiring proposals from all the departments regarding their requirements for the academic year.
9. The Purchase Committee will go through the quotes and recommendations of the user and advise the concerned HOD. The concerned HOD will forward the recommendations of the Purchase Committee along with remarks to the Principal.
10. The Dean-Admin will scrutinize the comparative statement and give his remarks and send the file back to the concerned department. The HOD shall take copies of the comparative statement and the quotations and send the originals to Purchase Department for further action.
11. The Dean-Admin will place order after taking approval of Principal & Executive Director.
12. Vouchers support all transactions. All bills/invoices/vouchers are scrutinized by account staff and approved by the Dean-Admin and Principal.

13. The bill payments are passed after ensuring proper verification/evaluation of the items. Only duly authorized persons to operate the transactions through the bank.

14. Audited financial statements including Income and Expenditure Account, Balance Sheet etc. are prepared by qualified auditors and submitted to banks and other regulatory agencies.

Utilization of financial powers for each of the assessment years:

The following table demonstrates the Financial Utilizations by Principal, Dean Admin, and HODs for the last 3 assessment year i.e.2018-19, 2019-20 and 2020-21.

Table 10.15 Financial Utilizations by Principal, Dean Admin, and HOD

	HOD	Dean-Admin	Principal
CAY (2020-21)	Utilization: 1. Printers Cartridge Refilling cost 2. Hospitality expenses like tea coffee, Lunch, Snacks for external laboratory examiners and for panel members in Project Viva Voice. 3. Postage and Cell charges for parents and for official Correspondence. 4. Maintenance and Miscellaneous expenses.	Utilization: 1. Institution buildings. 2. Approval for rent, rates and taxes 3. Insurance and others, if any 4. Postage, Telephone charges 5. Electricity charges 6. Printing and Stationary 7. College maintenance 8. Games & expenses 9. Travelling & conveyance 10. 10.1.5. TRANSPARENCY AND AVAILABILITY OF CORRECT/UNAMBIGUOUS INFORMATION IN PUBLIC DOMAIN (5)

(Information on policies, rules, processes and dissemination of this information to stakeholders is to be made available on the web site)

Effective governance, leadership and management are evident from its long history of disturbance-free performance in imparting quality technical education. It is mainly because of the highly responsive compact management which gets constant inputs and feedback from the administrative and academic heads, experts, alumni, faculty, students, and supporting staff.

Information on the policies, rules, processes:

1. The Institution has its own HR policies, Service Rules and Processes that are disseminated to the stake holders through the institutional website <http://view.edu.in/admsrpp.php>
2. The Vision, Mission and objectives of the institution are displayed in the College campus at Notice boards, Department Notice boards, Canteen, Hostel building, library and other prime locations to engross the attention of all students, faculty, staff and visitors. The same is also communicated through college website and Newsletter to all the stakeholders for wide publicity.
3. The web-site (www.view.edu.in) of the institution publishes the information pertaining to the institute and programs for circulation to stakeholders and the general public.
4. Annual audited reports are published and available to the stakeholders and public in the college website.
5. The student admissions are transparently filled through a separate single window system of the Government of Andhra Pradesh. Admission to UG is done through APEAMCET and admission to PG programs is done through APPGCET & APICET.

Dissemination of the information about student, faculty and staff

1. Information such as Internal marks scored by students, Shortage of attendance, if any, examination schedule, availability of scholarships, opportunities for students etc are promptly displayed on Notice Boards.
2. Criteria for student scholarships, faculty awards etc are informed well in advance so that equal opportunity is given to all individuals concerned.
3. At the beginning of every academic year the college brings out a broucher, which contain all the information like departments profile, faculty details, students result, achievements, placement records and other information required by a student to carry out her studies in the college.

4. Notices or Circulars concerned to students are circulated in the class rooms and displayed on the notice boards.
5. Circulars or notifications from the university regarding academic matters are sent to all the Heads of the departments and circulated among the faculty members and students.
6. The institution is transparent in providing timely information to its staff enabling better connectivity and proficiency in day-to-day academic and administrative works.
7. An SMS alert is sent to parents/guardians if their ward fails to attend the classes.
8. Regularly we intimate to parents/ guardian regarding the attendance and academic progress of their wards through registered post with acknowledgement.

10.2. Budget Allocation, Utilization, and Public Accounting at Institute level (30)

(Summary of current financial year's budget and actual expenditure incurred (for the institution exclusively) in the three previous financial years)

Total Income at Institute level: for CFY, CFY_{m1}, CFY_{m2}, CFY_{m3} and CFY_{m4}

CFY: Current Financial Year,

CFY_{m1}: (Current Financial Year minus 1),

CFY_{m2}: (Current Financial Year minus 2)

CFY_{m3}: (Current Financial Year minus 3) and

CFY_{m4}: (Current Financial Year minus 4)

10.2.1. Adequacy of budget allocation (10)

(The institution needs to justify that the budget allocated during assessment years was adequate)

The yearly budget is prepared according to the needs & requirements of the departments taking into consideration of annual intake of students, laboratory & infrastructure developments. Components include Students, faculty & staff requirements and promotions and latest technologies etc. Formal budget estimates will be prepared by each department and will be reviewed in HODs meeting with the Principal. After deliberations, formal budget made altered in departments and forwarded to Principal for preparing the final budget at the college level. The final budget is sent to Management for approval and sanction. The Management is approving almost 100% which was proposed by the institute. The budget allocation and utilization for the last three years is adequate.

Table 1: CFY 2020-2021

Item	Budgeted	Percentage of Allocation
Infrastructure Built-up	7,800,000	5.90
Library	340,000	0.26
Laboratory Equipment	1,935,000	1.46
Research & Development	1,120,000	0.85
Total Non -Recurring	11,195,000	8.47
Teaching & Non-Teaching Salaries	70,000,000	52.93

Analysis on Adequacy:

- The total budget allocation and utilization have followed established norms in terms of contribution to salaries, administrative expenditure and Non Recurring expenditure to the total expenditure.
- Total budget of the institution has increased by 20.64% in the past 5 years which is in lines with the increase in student strength.
- Total salary expenditure is at a healthy range of 47.09% to 64.47% of the total recurring expenditure in the assessment years
- Total administrative and finance cost is within a range of 28.96% to 38.6% which is as per the accepted standards and it also indicates that the institute has been growing.
- Total nonrecurring expenditure is marked as 16.71% of the total expenditure of the institution in the year 2019-20 showcasing the commitment towards growth and preparations for the future.
- The average expenditure per student has been growing consistently at an average of 8.21% from 2016-17 to 2019-20 which indicating a healthy growth and development in all parameters.
- The change in average expenditure per student by 21.62% from 2019-20 to 2020-21 is arose due to the impact of Covid-19.

10.2.2. Utilization of allocated funds (15)

(The institution needs to state how the budget was utilized during assessment years)

Table 1: CFY 2020-2021

Table 6: Statement of Income and Expenditure per student

Financial Year	Total Income	Total Expenditure	Adjustment from Other Units	Income per student	Expenditure per student
2016-17	86,558,949	110,617,386	24,058,437	39,871	50,952
2017-18	93,429,180	127,738,841	34,309,661	39,639	54,196
2018-19	100,050,510	144,356,363	44,305,853	40,754	58,801
2019-20	100,408,508	152,832,520	52,424,012	42,402	64,541
2020-21	96,255,983	132,083,866	35,827,883	38,673	53,067

Utilization:

- Total utilization of allocated funds to majority elements has been at a healthy range of 91% to 106% of the budgeted expenditure in the past 5 years
- Salaries at the institution have increased by 41.59% from 2016-17 to 2018-19 indicating an average growth of 13% per annum indicating a healthy improvement in staff numbers and also healthy increments for the staff members.
- An appropriate utilization of allocated fund to Infrastructure Built-up has been taken place in all the assessment years, which indicates the institute is able to accrue a significant portion of the nonrecurring expenditure from internal accruals indicating a healthy growth.
- Total nonrecurring expenditure has increased from 0.86 crores to 2.47 crores from 2016-17 to 2019-20 due to the focus of the institution on infrastructure improvement and establishing state of the facilities
- The expenditure over income of the institute stand for the cost incurred for infrastructure development which is adjusted from the other units of Lavu Educational society which indicates the commitment of the institution towards its vision to provide competent women technical power keeping the demands of the industry along with providing a robust economic boost to the family in the form of a technically educated and trained woman professional.

10.2.3. Availability of the audited statements on the institute's website (5)

Training and Travel	55,000	12.88
Miscellaneous Expense	10,000	2.34
Total Expenditure	427,000	100.00

Analysis on Adequacy:

- The total budget allocated as per the requirements of the Department to meet the established norms of statutory bodies.
- Total budget of the department has increased during the 4 years from 2016-17 to 2019-20 which is in lines with the increase in student strength. As a result of Covid pandemic the budget of the department in 2020-21 slightly fell down.
- In order to develop effective teaching-learning process among the students and staff, allocated nearly 60% of department budget towards lab equipment and software equipment during the last three years.
- To meet the curriculum requirements, established a new computer laboratory with necessary equipment.

- All the labs are well established and maintain the consistency of labs and renovations of labs allocated major budget for maintenance and spares
- To develop employability as well as entrepreneurship skills including **Product Development Training** and also promote more research activities among the students and staff, faculty members are motivated to participate in workshops and FDPs, so that spent more budget for R&D.

10.3.2 Utilization of Allocated Funds (20)

(Program needs to state how the budget was utilized during the last three assessment years)

R&D	100,000	99,268	99.27
Training and Travel	55,000	53,605	97.46
Miscellaneous Expense	10,000	9,543	95.43
Total Expenditure	427,000	404,249	94.67

Utilization:

- Proposed budget sanctioned by the management, we purchased the lab equipment and software and also given training to the students as well as faculty as per the vision and mission of the Department.
- Total utilization has been at a healthy range of 90.17% to 105.66% of the budgeted expenditure in the past 5 years.
- The department is able to accrue a significant portion of the nonrecurring expenditure from internal accruals indicating a healthy growth.
- Total expenditure of the department drastically increased during the 5 years from 2016-17 to 2020-21 due to the focus of the department on infrastructure improvement and establishing state of the facilities.

10.4. Library and Internet (20)

(Indicate whether zero deficiency report was received by the Institution for all the assessment years. Effective availability/ purchase records and utilization of facilities/equipment etc. to be documented and demonstrated)

The Institute Central Library aims to providing access to its Printed resources as well as Electronic Resources for the use of faculty and Students at the college campus. The Staff and students have unlimited access to a wealth of Information found in resources like books, magazines, Journals, Hand Books, Annual reports and the Internet. In addition, the library offers spacious seating arrangements and a calm ambience for learning.

Zero Deficiency:**Table 10.16** Zero Deficiency report

Academic Year	Zero deficiency report received by the Institute from AICTE	Application No.
2020-21	YES	1-7004821423
2019-20	YES	1-4261476817
2018-19	YES	1-3514059264
2017-18	YES	1-3325461133
2016-17	YES	1-2812749429

Library Data Base**Table 10.17 Details of Library**

Carpet area of library (in m2)	571.91Sq. Mts
Reading space (in m2)	275 sq Mts
Number of seats in reading space	175
Number of users (issue book) per day	210 – Issues & Returns (App)
Number of users (reading space) per day	350 (App)
Timings: During working day	7:30 am to 5:30 pm
Number of library staff	03 +1
Number of library staff with a degree in Library	02
Library Management	01
Computerization for search, indexing	Yes
Issue/return records bar coding used	Yes
Library services on Internet	Yes
DELNET Membership	Yes
Archives	Question Papers, Projects, CDs, News paper Clippings, Syllabus etc

Library Expenditure**Table 10.18 Expenditure Details of Library**

Academic Year	Books	Periodicals & Journals	Total Expenditure
2020-21	3,56,050.00	82,973.00	4,39,023.00
2019-20	1,83,121.00	1,26,846.00	3,09,967.00
2018-19	4,38,922.00	3,50,537.00	7,89,459.00
2017-18	7,93,510.00	1,50,441.00	9,43,951.00
2016-17	8,62,665.00	60,661.00	9,23,326.00

10.4.1. QUALITY OF LEARNING RESOURCES (HARD/SOFT) (10)

The central Library is a proud partner in the Institute's march towards its vision playing a vital role in acquisition, organization and dissemination of knowledge. The main thrust of the library continues to be the improvement of the quality of services and facilities, achieving higher degree of user's satisfaction and modernization of its activities and operations. The Central Library is totally Air Conditioned, presently covers a total user area of 571.91 sq. mtrs, with a seating capacity of 175 and caters to the information needs of the faculty, staff and students. The Central Library has Text book section, Circulation section, Reference books, Periodical Section with rich collection of Journals and books. The separate departmental libraries are establishment in each department for quick access purpose in addition to the central library.

Library Collection:

The Vignana Vahini Library has a huge collection of 27784 books with 5676 titles on various subjects including technical, managerial and humanities and reference books covering biographies, dictionaries, yearbooks etc. The library subscribes 108 National, International print journals and Magazines, 5230 e-journals, and holds over 1018 project reports. The Learning materials, Previous Question Papers, Project Reports of all departments are made available

Library e-Resources:

The Digital Library has 15 computers and several E- Resource of e-journals, e-books, video lectures (like NPTEL), audio lectures of various publisher are made available in the Digital Library for effective teaching learning process.

Library Automation and Security:

The Central Library employs Barcode technology for access control, automatic issue and return of library books. Automation of library services enables library staff to assist the students for more time in their search for quality learning resources.

10.4.1.1 Relevance and availability of learning resources:

The procurement of the books is decided based on the library advisory committee which consists of all the departments. Selected students from III and IV year of Engineering are also members of the library advisory committee. This committee recommends the titles and authors which are relevant for the courses, and of latest publications. The committee also recommends on the procurement of e-books and e-journals. We implement all the recommendations of the advisory committee.

The following table gives the number of titles and volumes available in central library.

No of Titles and Volumes: 30-09-2021		
No. of Titles: 5676		
No. of Volumes: 27784		
Academic Year	No. of Titles added	No. of Volumes added
2020-21	161	580
2019-20	126	555
2018-19	124	1039
2017-18	183	1708
2016-17	181	1702

The below table gives the number of titles and volumes program wise in the central library.

Table 10.19 Program Wise Number of Titles and Volumes

S. No	Subject	No. of Titles	No. of Volumes
1	Computer Science Engineering	927	4324
2	Information Technology	813	3312
3	Electronics and Communications Engineering	921	4314
4	Electrical and Electronics Engineering	826	3819
5	Mechanical Engineering	712	3013
6	Master of Business Administration	731	5027
7	Sciences & Humanities	318	2762
8	General Books	428	1213
	Total	5676	27784
9	E-Books	1784	1784
10	<u>Book Bank Books:</u>		
	i) SC BOOKS	93	165
	ii) ST BOOKS	25	25

Scholarly Journal Subscription:

Academic Year	No. of Total Technical Journals/Magazines subscribed (Hard Copy)	Internationally acclaimed titles in (Softcopy)
2020-21	55	<ul style="list-style-type: none"> • IEEE • IEI • J-Gate • DELNET • N-Digital
2019-20	108	<ul style="list-style-type: none"> • IEEE • IEI • J-Gate • DELNET • N-Digital
2018-19	104	<ul style="list-style-type: none"> • IEEE • IEI • J-Gate • DELNET • N-Digital
2017-18	101	<ul style="list-style-type: none"> • IEEE • IEI • J-Gate • DELNET • N-Digital

Availability of Digital Library Contents:

Following digital contents are made available

Content	Accessibility	
NPTEL Video Lecture	Access Provided to NPTEL Video Lecture Content	YES, through local Server
National Digital Library of India (NDL) IIT Kharagpur	Membership to NDL Digital Library of India	YES
Availability over Intranet /Internet	YES	
No. of users per day:	25 - 35 Per Day	

10.4.1.2 Accessibility to Students:

1. The Library is open for all users from 7.30 am to 5.30 pm. The library hours are extended on the basis of need during examinations.
2. Regular class time tables of all programs allot one period a week for library study.
3. The students utilize the library study period. In addition, many students spend many more hours in the library studying on their own.
4. The use of library by students is generally more during examination period.
5. Digital Library is also available to the students with free internet Access.
6. The library provides IP enabled access to a large number of full texts online journal databases from the various publishers.
7. In the library the staff helps the students to register National Digital Library for self learning. The staff also helps the students to register with NDL.

10.4.1.3 Support to students for self learning activities

1. A digital library is setup to facilitate online access of the information.
2. The search and download functions are free of cost for all the users.
3. Students can access digital resources through the systems and download the required books / publications.
4. NPTEL (National Project on Technology Enhanced Learning): Access to online learning material prepared by IIT and other esteemed institutions are hosted on institution server.
5. Institute is registered as member of National Digital Library (NDL) & DELNET
6. Each student is given 3 library cards using which he/she can lend 3 books for 15 days.
7. The borrowed books can be renewed before the due date

10.4.2. INTERNET (10)

The entire campus is Wi-Fi enabled to all the students and faculty members. A state-of-the-art campus network with a 100 Mbps Leased line Internet connection offer unlimited access of Internet for the students and staff round the clock, for their educational and research needs.

Table 10.20 Details of Internet

S. No	Particulars	
1	Name of Internet Provider	Idea Cellular Limited and Bharti Airtel Limited
2	Available Bandwidth	100 Mbps
3	WiFi Availability	40 Mbps (Reliance Jio) Wi-Fi connectivity is available in and around the campus
4	Internet access in labs, classrooms, library and office of all departments	Yes. Internet is accessible in all computer labs, classrooms, Library and department offices
5	Security Arrangements	Quick heal Antivirus with firewall protection

VIGNAN'S INSTITUTE OF ENGINEERING FOR WOMEN

(Approved by AICTE & Affiliated to JNT University, Kakinada) Estd. 2008
