ACADEMIC DIRECTOR'S MESSAGE

The institute and the department have witnessed solid performance from the students as well as faculty. This issue of the newsletter represents all that success. We shall continuously strive towards establishing milestones on our journey. With best Wishes.

-Prof. A. Seshu Rao

PRINCIPAL'S MESSAGE

The year has been an exciting one in registering all round progress in all the spheres. I congratulate the successful students in the University examinations and placements. Students and faculty shall aim at surpassing their own achievements. All the Best in your endeavours ...

-Dr. J. Sudhakar

HEAD OF THE DEPARTMENT MESSAGE

Computer Science is an area that is evolving each day with new innovations that have been changing the globe over the decade. Keeping in view the dynamic nature of growth in industry and the increasing demand for latest technologies, the Department is striving towards its goal in providing innovative and quality education with high standards to achieve academic excellence. I wish good luck to the faculty and students.

- Dr. K. Vijaya Kumar

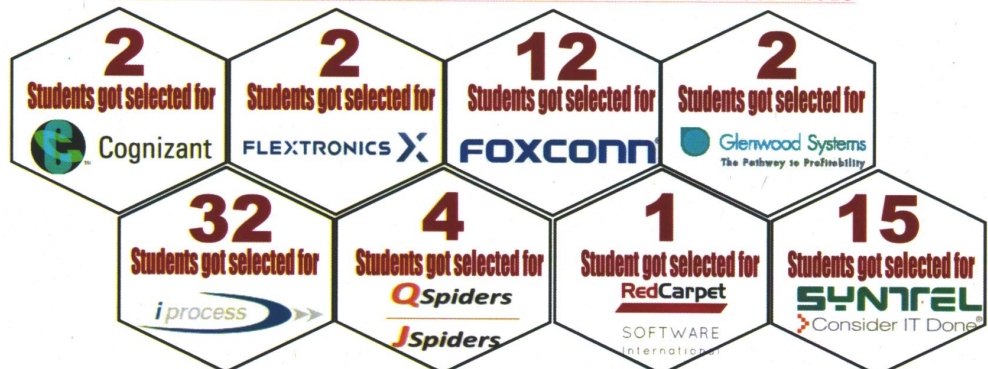

VISION:

To evolve into a center of excellence and to empower women in emerging areas of Computer Science and Engineering

MISSION:

- To train students to analyze, design, develop and test software applications.
- To impart technical expertise in sustaining the needs of the IT industry.
- To foster research activities and entrepreneurial skills in emerging technologies.
- To inculcate lifelong learning skills and social consciousness inline with technological advancement.

Techno Splash**Cognitive skills for Robots:**

Robots are spreading more and more from the manufacturing floors into spaces occupied by humans. There is a need for robots in such environments to be able to adapt to new tasks through capabilities such as increased comprehension of the environments within which they are situated. We predict that recent break throughs in large-scale simulations, deep reinforcement learning, and computer vision, collectively will bring forth a basic level of cognitive abilities to robots that will lead to significant improvements in robotic applications over the next few years.
