STUDENTS ARTICLES:-ARTI 18NM1A04

My journey with Vignan has started in the year 2018, it was a happy time from dawn to dusk, I feel blessed to be a viewer of the alumina meet. It was really an enthusiastic day to hear from my seniors, their experiences, struggles and how they strived to achieve their goals.

They have also described about their career at the start and how they are able to get adopted to it, what are the essential qualities a graduate must possess to work in a company, how can we become a good entrepreneur; the cliché of it and how to excel in them all these were well explained.

They guidelines of

success can indeed transform a layman into a SCHOLAR.
