### Program Report on Awareness rally on "Be aware of all drive ways" conducted on 3<sup>rd</sup> Jan, 2020

Respecting others driving rights, understanding the responsibilities of being a driver, traffic signs, and rules are something that all drivers must be aware of. In this era where almost everyone owns a car, the importance of driving skills has been increasing. Learning safe driving skills, especially defensive driving is a huge advantage and everyone must do it. As a token of responsibility towards the citizens the Vignans Institute of Engineering for Women has conducted an Awareness Rally on "Be aware of all drive ways" at Kakani nagar, Visakhapatnam on 3<sup>rd</sup> Jan, 2020.

### Program Report on "Adopt a Tree", a plantation program conducted on 13th Nov, 2019 at Visakhapatnam

Adopt a tree campaign by 'WWF INDIA' is aimed to encourage individuals and organizations to adopt and plant trees to show care for nature. In this activity people "adopt" a tree, deepening their awareness of individual trees over time and encouraging a greater understanding and appreciation of their local environment. Also gardening helps keep elderly general health in a better state by strengthening bones, muscles and joints, it also helps the elderly with balance resulting in less falls, keeps blood pressure at bay, reduces the risk of heart disease and stroke, and of course helps keep their minds in a positive state. So on the occasion of Children's day, the NSS team of Vignans Institute of Engineering for Women organized a plantation program with the title "Adopt a Tree" at Spoorthi Orphanage, Gajuwaka, Visakhapatnam on 13<sup>th</sup> Nov, 2019.

Negotiating is an art and skill imperative in our personal life. It can especially be useful in our business or career too. We need to interact and get along with other parties to forward our demands and win in a given situation.

**Program Report on "Picture charts donation to students" program conducted on 22<sup>nd</sup> Oct 2019 at Anganwadi School, Kapujaggarajupeta.**

Using bright, eye-catching colors and real-world examples, classroom charts make a big impact in younger students' understanding of basic concepts. Hence, whether they're learning colors, shapes, numbers, vowels, birds, vehicles, animals, vegetables, houses or anything in between, these charts perfectly reinforce lessons learned in class. We conducted a donation camp at Anganwadi School, Kapujaggarajupeta on 22<sup>nd</sup> Oct 2019. The charts are distributed to the Anganwadi School.

Plastic pollution is a problem that the whole world is facing together. Plastic waste does not degrade at a sustainable rate. We are finding microplastic pieces in our waterways, the food we eat, and the water we drink. Collectively, we need to take action and say no to plastic.

In this regard, an awareness rally is organized by the NSS unit of Vignan's Institute of Engineering for Women, Visakhapatnam on 30<sup>th</sup> September, 2019. Totally 65 students have participated in the rally. NSS volunteers and students have prepared placards on the importance of biodegradable bags and exhibited in the rally among the Amrutapuram village, Visakhapatnam by rising slogans. Finally, they distributed cloth bags to the villagers and requested them to use the distributed cloth bags instead of non-biodegradable plastic bags.

Prof. A. Sessa Rao, Academic director, Dr. J. Sudhakar, Principal and various departmental HODs had commenced the program and Dr. K P Suhasini, NSS PO and few faculty members have organized the rally.

**Program Report on "Awareness program on malnutrition" at Vignan Vidyalayam,  
Duvvada on 19th September,2019.**

To reduce malnutrition, Vignan's Institute of Engineering for Women organized a program in Vignan Vidyalayam, Duvvada. Malnutrition is a term used to describe when a person becomes undernourished by not eating enough of the right foods. Being malnutrition can lead to illness because the body isn't getting the right nutrition to work properly. This is thought to be due to reduced nutrition and dietary diversity, as well the dying knowledge of ethnic local foods and their significance. The program proposed that these issues can be addressed through awareness and training. And that educating women would help to alleviate the nutrition and dietary deficiencies, raise the families' health status and to bring in positive behavioural change in the community. The program is focused on education of the importance on health of the micronutrients.

### Program Report on Awareness Program on "Environmental Factors for Malaria on 12<sup>th</sup> Jun 2019 at STBL residential colony.

Strategies that alter the environment are among the oldest interventions for malaria control, but currently are not the most prominent despite historical evidence of their effectiveness. The importance of environmental factors, the role they play considering the current goals of malaria eradication, the different strategies that can be adopted, and the current challenges for their implementation are discussed, Vignan's Institute of Engineering for Women organized a **Environmental Factors for Malaria** program at Desire Society on 12<sup>th</sup> Jun, 2019. In this program, students have created awareness on malaria prevention factors and at the end of the program sprinkled the bleaching powder near the drainages to kill the larva of mosquitoes.
