Program Report on "Swatch Survekshan" conducted on 12th March, 2021 at Achutapuram.

Around the world, one million plastic bottles are purchased every minute, while up to five trillion plastic bags are used worldwide every year. Plastic is the most destructive weapon than a nuclear bomb or an atom bomb, its impact shall remain for centuries on the future generation. On behalf of NSS, Vignan's Institute of Engineering for Women conducted an awareness camp to avoid single use plastic at Achutapuram village.

Program Report on Awareness Program conducted on “Future Learn”, an introduction of computer courses – on the occasion of World Computer Literacy Day at Vignan Vidyalam Duvvada, Narava.

World Computer Literacy Day is celebrated annually on 2nd December for encouraging awareness and action for the people to know about technology. On this occasion of the day, a small program is conducted at Vignan Vidyalam Duvvada. Students had explained the importance of technology and being proficient with computer usage can make all the difference in an individual's personal and professional life. Computer literacy skills range from having basic knowledge of using a computer to performing intermediate tasks such as operating software and computer programs. We should celebrate World Computer Literacy Day because it is meant to create awareness about the following:

- The digital divide hampers the spread of digital skills uniformly across the globe.
- Advocating for global computer literacy, including comprehending how computers work, how to program them, and how to use them.
- A call-to-action for governments and organizations to reach out to those without computer access.

Children's Day is celebrated across India to raise awareness about the rights, education, and welfare of children. It is celebrated on 14 November every. Children's Day began on the second Sunday of June in 1857 by Reverend Dr. Charles Leonard, pastor of the Universalist Church of the Redeemer in Chelsea, Massachusetts: Leonard held a special service dedicated to, and for the children. Leonard named the day Rose Day, though it was later named Flower Sunday, and then named Children's Day. Too much stress is after all a cause of multiple health complications of the body and brain. International Stress Awareness Day can also help people learn how certain levels of stress can be turned into an opportunity. Differentiating between good and bad stress can help people understand how they can motivate themselves and better their lives.
